TO PHYSICIANS:
PROF. R. LUDL

OF CHICAGO,

Will Deliver his Fifth Private Course of Twelve Lectures

ON THE

Medical & Surgical Diseases of Women,

Commencing on Tuesday, April 2nd, and continuing for one Month.

FEE, \$20.00.

This course will afford the most practical instruction in the Differential Diagnosis and the Medical and Surgical Treatment of the Abdominal and Pelvic Diseases of Women. It will be fully illustrated by models, drawings, wet and dry preparations, and clinical cases, and will afford an excellent opportunity for practitioners to post themselves in the details of this specialty. Correspondence relative to clinical cases, suitable for study in this course, is respectfully solicited.

This course will be Free to the students of the Spring Term for 1878, in the Hahnemann Medical College and Hospital.

Address, No. 526 Wabash ave., Chicago.

Evanston, Ills., Jan. 10th, 1878.

Dear Sir:

The last virus we had from you was the best we ever had. * * *

Please send to our address, by return mail, one dollar's-worth, and oblige

Yours Respectfully,

MANN & MARCY.

Ningpo, China, Nov. 21st, 1877.

J. PETTET, Esq., M. D.,
Cleveland, O.

My Dear Doctor: It is more than a year ago, since I wrote to you, and nearly a year, since I received your kind answer with the vaccine. * * * * *

The points which you sent me gave every satisfaction. With the crust I did not succeed, but this may find an explanation, for I did not open the crust till three weeks after arrival and we had a few warm days in the mean time, which probably injured the vaccine.

The Chinese have been taught something about vaccination, and they making use of it to a small extent, they are slow to move, and still pre the old way of inoculation. which done by introducing into the nostril small quantity of small-pox virus,

means of a little cotton. They take the risk of life rather than have the trouble of re-vaccination; and it will take a good many years before their prejudices can be overcome: * * * * *

An interesting case came under my notice. One of our schoolboys I vaccinated just before his holidays and his friends, not knowing anything about it, had him inoculated the very next day. Both vaccination and inoculation took effect. The vaccine vesicle appeared first, but, a little later, the whole body was covered with small-pox of the confluent type. The child got so low, that we feared he would not recover; he is, however still alive and doing well.

QUERY—Does the protective power of vaccination become manifest only after it has completed its work in the system; or is there an exception to Hahnemann's dictum that two similar diseases cannot co-exist?

I shall be very much obliged, if you will send me by earliest opportunity, three dollar's-worth (I enclose \$3.00) of ivory vaccine points, so that they may reach here before the warm weather. * *

Dear Sir,

S. P. BARCHET, M. D.

NATION—Vaccination, during n, is a local disease and can ted to protect, until it has be the system constitutionally.

LEONARD'S PHYSICIANS' STATEMENT BOOKS,

Two Books of 205 Statements each, post-paid, \$2.25.

Each Bill has your name and address printed upon it, besides 5 lines for "Dr." and "Cr." entries, with their appropriately printed headings; also, "Balance Due," "No." etc. A "stub" is attached to each, so, when torn out, a complete record of the statement belonging to it is securely filed away. They are the most economical Bill heads issued. Size of each, $3\frac{1}{2}$ by $6\frac{1}{2}+2$ (the "stub") inches. Samples on receipt of stamp.

 Address ALL orders (none filled without remittance) for books, to

CLEVELAND, OHIO.

LEONARD'S REFERENCE AND DOSE BOOK.

Third Edition (Thirteenth Thousand,) revised and enlarged. Cloth, 75 cts.

Contains the doses of more remedies than any other dose-book or Materia Medica published, and is used in every Medical College in the United States, and by physicians and druggists in every State and Territory, the Canadas, New Brunswick, Nova Scotia, Prince Edward's Island, Newfoundland, British Columbia, England, Hawaiian Islands and Australia.

Besides being a complete dose list, has a complete list of INCOMPATIBLES and of POISONS and their ANTIDOTES, and Tests for same. Rules for resuscitation of the drowned, treatment of poisoned wounds, &c. A complete table of Tests FOR URINARY DEPOSITS. Series of OBSTETRIC TABLES, and rules for management in difficult cases and accidents. PRONUNCIATION of Medico-Biographical Names. Table of FEES for city and country practice. Series of Visceral Measurements as guides for auscultation and percussion, &c.

LEONARD'S DOSE AND DAY-BOOK.

Leather, with Pencil Loop, \$1.25.

Printed matter is the same as in REFERENCE AND DOSE BOOK. To this has been added a Daily Record for charges, or patients to be visited, so arranged as to be posted to *any* Ledger at the end of each month. It has a capacity for 6,000 entrances of Debits, and like number of Credits (or for 12 patients daily per week;) a complete Obstetric Record for 64 cases; 16 pages for Miscellaneous Accounts and 16 pages for Memoranda. Is $3\frac{1}{2}$ by 5 inches in size and weighs 5 ounces. Is good for *one year* from the first of *any* month. Short accounts need no Ledger posting.

LEONARD'S MULTUM IN PARVO LEDGER.

Leather and Cloth, Post-paid, \$2.50.

This is designed *especially* for the Dose and Day-Book, and greatly facilitates "posting." It does away with all the paging and much of the figuring required in the regular Ledger system. On a single line of a leaf the entire debit and credit account of a patient, in monthly statements, is seen for the *entire year*. It is divided into *five portions*, and will accommodate 400 patients yearly for five years. By the use of these Books nine-tenths of the labor of book-keeping is done away with. Though the Ledger can be used *only* with the Dose and Day Book, yet the latter can be used with *any* Ledger. Size, $6\frac{1}{2}$ by 10 inches.

THE CODES OF MEDICAL ETHICS.

PAPER, 25 CTS.

CONTENTS.—The Codes of the American Medical Association, the American Institute of Homœopathy, and the National Eclectic Medical Society.

Sample pages of Ledger and Day Book on receipt of stamp. Either of the above books will be sent post-paid on receipt of price. Address ALL orders to

HAVING HAD SEVERAL
YEARS OF PRACTICAL EXPERIENCE
IN THE PROPAGATION OF

NON-HUMANIZED COW-POX,

I am now devoting my whole attention to this business, and having erected new and commodious stables and secured the services of efficient assistants, am better than ever prepared to furnish the Profession with any quantity of *fresh* Animal Vaccine, from my own stables, and graded according to its prospective reliability and duration of activity.

This lymph is secured from a *succession* of selected animals, it being impossible to use the same subject the second time. Arrangements have been made for a full supply.

All Material is Warranted

in a manner similar to that of other propagators, as follows:—If any package of grade X prove inert it will be replaced by a fresh supply, if reported with the return of the numbered wrapper, within 15 days of the day of sale. A still longer warranty is given on higher grades.

There formerly was considerable difficulty experienced by physicians in transmitting the disease to children who had never been vaccinated, but this has now been so far overcome as to make this material fully as satisfactory as humanized vaccine, while it, at the same time, affords much more secure protection against small-pox, avoids the *possibility* of inoculating loathsome diseases, and is available in sufficient quantities in times of an epidemic.

The success of this vaccine in every state of the Union can be shown by numerous letters similar in purport to the following

TESTIMONIALS.

"During the epidemic of the past year our Board has used vaccine from various sources, and has found Dr. PETTET's *unequaled* by any."
Cleveland, Nov. 2, 1874.

H. W. KITCHEN, M. D.
Health Officer, City of Cleveland.

"J. PETTET, M. D.,—Dear Sir:—I have used a large quantity of Humanized and Bovine virus, and find that your XX points have given me greater satisfaction than any I have ever used."

E. H. KELLY, M. D..
Health Officer, City of Cleveland.

DIRECTIONS. In vaccinating with points, moisten the water; then with a dull lancet scarify the arm like this, enough to reach the superficial venous capillaries; wipe then apply the *flat* surface of the point and rub the into the incisions with a scraping or rasping motion; blood and lymph, plaster it over the scarifications and allow it to dry by the heat of the arm. Court plaster should *not* be used. The clothing must be loose in order to facilitate the venous circulation and the absorption of the vaccine lymph. Undue bleeding should also be avoided. Time, patience, skill, and thoroughness are essential to success in primary vaccinations of infants.

lymph with half a drop of cool in at least two places, deep off what blood may exude and moistened lymph *thoroughly* scrape up all the resulting

In using crust scrape up enough into a thin paste with water and proceed as with points. All forms of animal vaccine should be kept protected from heat, light, air, moisture, electricity, and all influences which favor putrefactive action. Carrying vaccine in inside vest or coat pockets, or allowing it to remain in heated offices should also be carefully avoided.

PRICES.	{	Grade X: 10 large ivory points charged upon both sides of point. . . \$1.00.
		Grade XX: 5 large ivory points heavily charged, extra warranted, . . . \$1.00.
		Grade XXX: 3 large points, extra dipped, selected, and warranted, . . . \$1.00.
		Crust, from typical (single or compound) vesicles, $\frac{3}{4}$ grain., \$1.00.

No orders filled unless accompanied by remittance. P. O. Orders or Drafts are safest, speediest, and most convenient, registered letters being delayed one or more-days in transit.

OFFICE OF
PETTET'S ANIMAL VACCINE
CLEVELAND, O.

Dear Doctor:

Should you at any time need any vaccine; please remember my unwavering efforts to supply a reliable article - To succeed, patronage enough to warrant a continuance of frequent animal vaccinations is essential.

The mail facilities of Cleveland are unsurpassed and should there be no agent near you orders sent direct will be filled promptly enough for ordinary emergencies.

Orders are also solicited for any other articles needed in your practice.

Hoping to merit your patronage I remain

A REGISTER AND DIRECTORY
OF THE
HOMŒOPATHIC PHYSICIANS
OF
NORTH AMERICA.

A revised edition of this directory will soon be issued and it is hoped many of the errors will be corrected. Duplicate copies will be furnished at \$5.00 each.

When ascertained, the year in which and the college at which each physician graduated will be given, and the date at which the practice of allopathy or homeopathy was begun, if different from that of graduation, will be inserted preceded by the letters *a* and *h* respectively. Thus "A. M., Harvard Univ., 1845; *a* 1847; Ala. Med. Col., 1850; *h* 1860;" indicates that the doctor received the degree of "Master of Arts" from Harvard Univ. A. D., 1845; began to practise medicine by *contraria contrariis curantur* in 1847; in 1850 received the degree "Doctor of Medicine" from Ala. Med. College; and in A. D. 1860 began to use *similia similibus curantur* in disease. *Those who have not received due credit will please forward the necessary information at once.*

A mark of interrogation (?) preceding a name implies doubt of the correctness of the address. An asterisk [*] implies that a letter with stamp for reply was neither answered nor returned. The abbreviations used will readily be understood, as:—Col., for College; Univ., University; H. Hom. or Homœo., Homœopathic; H. or Hosp., Hospital; Med., Medical; &c.

 Our Pharmacies are devoted *exclusively* to the sale of Homœopathic Medicines and Books, and each one carries a complete stock of everything pertaining to the practice of Medicine.

Surgical and Orthopedical Instruments are furnished to order at Manufacturer's prices. From our Laboratory and Manufactory, under the personal supervision of DR. F. E. BŒRICKE, all Pharmaceutical Preparations are distributed to our several branches and thus a uniform good quality of all preparations is maintained at either of our several establishments.

Our new and very complete Catalogue for 1877, covering 88 large octavo pages, will be sent, free, to every physician, on application.

TRY PETTET'S XX COW-POX,
\$1.00 per package.

The Celluloid Truss. The advantages of this truss are worthy the attention of the MEDICAL Profession for the following reasons: They are made of a fine steel spring covered with celluloid and warranted not to RUST, nor to BREAK, nor to WEAR OUT and are always clean and comfortable and in fitting them to the body, no heating is required, so fine is the temperature of the steel. They can be used in bathing and are free from unpleasant odors. Before buying *any truss* send for circular to A. J. DITMAN, ASTOR HOUSE PHARMACY, cor. B'dway & Barclay St., N. Y., who is also the Manufacturer of DITMAN'S celebrated and genuine SEA SALT often excellent in anæmia and other complaints. The trade and physicians liberally dealt with in the purchase of any articles they may require. Special attention is called to DITMAN'S COD LIVER and its combinations, Malt Extracts, etc., Strictest accuracy, etc., in the Prescription line and moderate charges. *All the latest remedies, etc.*

Improved Artificial Limbs.
Centennial Medal and Diploma awarded for their Superiority.

Legs—With or without Universal Ankle Motion.

Arms—With Full Finger Wrist and Elbow Movement. A fit guaranteed. All Limbs are warranted for five years. Prices vary from \$75 to \$125.

BOERICKE & TAFEL'S HOMŒOPATHIC PUBLICATIONS FOR 1877.

ALLEN'S ENCYCLOPEDIA OF PURE MATERIA MEDICA.

A Record of the Positive Effects of Drugs upon the healthy human organism. Subscriptions for the whole work are received at \$5.00 per volume, bound in cloth, or \$6.00 per volume in sheep or half morocco. Single volumes, \$6.00, for cloth, or \$7.00 for sheep or half morocco.

Of this immense work six volumes have now been issued, and the seventh is in press.

Volume I	contains the record of	106	remedies, ending with	<i>Atropine.</i>
Volume II	“	74	“	<i>Carduus mar.</i>
Volume III	“	73	“	<i>Cubeba off.</i>
Volume IV	“	113	“	<i>Hydrocotyle As.</i>
Volume V	“	83	“	<i>Lycopersicum.</i>
Volume VI	“	72	“	<i>Niccolum.</i>

Three or four volumes more will complete this stupendous work, without which no physician in active practice can get along, since it is the only work to which he can refer for information with the certainty of being able to find all reliable information extant. Subscriptions for the whole work are still received. Address Boericke & Tafel, 145 Grand street, New York.

HERING'S CONDENSED MATERIA MEDICA.

Compiled with the assistance of Drs. A. KORNDORFER and E. A. FARINGTON; pp. 892 royal 8vo. Half morocco, price \$8.00.

Of this sterling work over 1,500 copies have been sold within less than a year from date of publication. It is the text-book on Materia Medica in all the colleges.

HART, C. P.—REPERTORY TO THE NEW REMEDIES.

Based upon and designed to accompany Hale's Special Symptomatology and Therapeutics; pp. 199, 8vo. Cloth, price \$1.50.

To the many thousand physicians possessing HALE ON NEW REMEDIES, this work is indispensable, as it is the key greatly facilitating the use of that work.

THERAPEUTICS IN DIPHTHERITIS.

By G. ŒHME, M. D. A compilation and critical review of the German and American Homœopathic Literature. Second enlarged edition; pp. 84, 8vo. Price, 60 cents.

The fact that a second edition of this valuable monograph was called for within less than a year from the appearance of the first, shows how well this brochure was received and appreciated by the profession.

Rae on the Application of Electricity as a Therapeutic Agent.

pp. 132, 12mo. Cloth, price \$1.00.

The author of this little work confines himself to giving *practical advice* and minute directions as to the mechanical operations necessary. In addition to the electric treatment, the Doctor enumerates with each disease the Homœopathic remedies he found most beneficial in the internal treatment, giving in most cases concise indications to guide in their selection.

HALE, E. A.—LECTURES ON DISEASES OF THE HEART.

Second enlarged edition; pp. 248. Cloth, price \$2.00.

DAKE, Wm. C.—PATHOLOGY AND TREATMENT OF DIPHTHERIA.

pp. 55, 8vo. Paper cover, price 50 cents.

Gives a report of one hundred and seventy-six cases treated Homœopathically during a period of eleven months.

GUERNSEY, H. N.—ON OBSTETRICS AND DISEASES OF WOMEN AND YOUNG CHILDREN.

Third edition, revised, enlarged and considerably improved; pp. 1,004, 8vo. Half morocco, price \$9.00.

The third edition of this standard work has just been received from the press. The fact that three editions of a medical work are called for in less than ten years, speaks for itself. It takes the front rank among publications on this subject.

LAURIE & McCLATCHEY—HOMŒOPATHIC DOMESTIC MEDICINE.

Eighth American Edition, with numerous additions, including the New American Remedies, a Repertory and Glossary of Medical Terms; pp. 1,044, 8vo. Half Morocco, price \$5.00.

This is the most complete work published on the subject, and the *only* work from which all objectionable chapters have been strictly excluded, so that every page may be perused by growing up children. A complete set of 103 medicines for above work, in one drachm vials containing over 50 doses each, furnished for \$12.00, or book and case for \$17.00. Liberal discount to physicians.

“THE EMISSION PREVENTER,”

A NEW AND RELIABLE MECHANICAL CONTRIVANCE TO

PREVENT AND CURE

Involuntary Seminal Emissions.

IT IS MADE OF THE BEST MATERIAL AND
 WORN WITHOUT INCONVENIENCE.

Sent only by mail, with instruction, on receipt of money.
 Money order or registered letter.

Price, \$5.00; to Physicians, \$3.00.

Address

F. ROESCH, M. D., Waukegan, Ill.

Dr. Kidder's Electro-Medical Apparatus,

Highest premium, American Institute, 1872-3-4-5-6-7, and the Centennial.

CAUTION! There appear to be machines in the market called Dr. Kidder's, which are not his. To know the genuine from the spurious send for illustrated catalogue as per address below.

This is a Gold Medal and the only one ever given in the United States for Electro-Medical Apparatus.

Address, for Catalogue, DR. JEROME KIDDER,

Other parties exhibiting at the CENTENNIAL a spurious gold medal by placing a bronze medal with gold to MISLEAD the public.

DIPLOMA awarded by the American Institute in 1876 to Jerome Kidder, M. D., for the best Electro Medical Apparatus (having received the Medal of progress in 1875) for MAINTAINED SUPERIORITY.

DIPLOMA for MAINTAINED Superiority for Electro Medical Apparatus again at the American Institute in 1877 and MEDAL OF SUPERIORITY for best FARADAY APPARATUS as well as for GALVANO-CAUSTIC APPARATUS at the same Fair.

Centennial Report on Awards.

"PRODUCT, Galvanic Apparatus.

EXHIBITOR, JEROME KIDDER, M. D.

The undersigned having examined the product herein described, respectfully recommend the same to the United States Centennial Commission for award, for the following reasons; For the *Scientific Basis* and the excellent workmanship of all the exhibited apparatus; for the introduction of a new method to get very rare interruptions from a self-acting interrupter; for the fitness for the purposes of *changing the quality and the quantity* of the galvanic current, and for the very good construction of Galvano-Caustic apparatus.

Approval of the Group of Judges.

W. ROTH, M. D., Surg. Gen., Saxony, German Army.

J. H. THOMPSON, A. M., M. D.

C. B. WHITE, M. D.

A True Copy of the Record.

FRANCIS A. WALKER, Chief of the

Bureau of Awards.

Given by Authority of the United States

Centennial Commission.

J. E. HAWLEY, President.

A. T. GOSHORN, Director-General.

J. L. CAMPBELL, Secretary."

CAUTION! Observe the *reading* on the cuts of medals and diploma. Avoid being misled by parties presenting fictitious claims of highest premium, when they had only received an inferior medal or diploma for appliances misnamed "electrical instruments." Dr. Kidder's new extra appliances are far superior to any imitations of European instruments.

ANIMAL VACCINE VIRUS

FROM THE MOST APPROVED STOCK AND AT REDUCED PRICES.

Being among the earliest purveyors of Bovine Vaccine Virus we feel authorized in saying that our lymph is excelled by no other.

Our facilities for the selection of healthy animals are such that patrons can depend upon the purity and efficacy of the lymph, which is from the celebrated

BEAUGENCY STOCK,

and furnished upon ivory points, or solidified in the form of Cones.

Our points are all carefully and heavily charged and are the most convenient and reliable form of Vaccine Virus. Our

PATENT SOLID LYMPH CONES

are especially adapted for use in epidemics of Variola, and are sold to city physicians, institutions, and posts, where it is desirable to keep on hand a supply of vaccine material at all times. They have acquired a reputation for DURABILITY which cannot be equalled by any other form of virus.

We make a specialty of selling at wholesale, where large quantities are needed, and offer very low terms.

In case of the failure of a package a duplicate will be forwarded if notice is sent within three weeks following the receipt of such matter.

TERMS:

<i>One Solid Lymph Cone with vaccinating outfit consisting of ten uncharged ivory points and a small file</i>	\$3.00
<i>Ten ivory points heavily charged</i>	1.00
<i>Single points</i>	.20

DELACRE'S HOMŒOPATHIC CHOCOLATE,

Prepared from the PUREST MATERIALS, and warranted strictly free from all aromatics, and superior to all similar preparations before the public.

DELACRE'S SOLUBLE COCOA,

Of undoubted purity; easily digested; agreeable to the taste; readily prepared; very economical.

DELACRE'S EXTRACT OF MEAT CHOCOLATE,

Combining in one preparation, and under a most agreeable form, a large proportion of tonic and nutritive principles.

It is a PURE CHOCOLATE, containing the purest EXTRACT OF BEEF, and is a most useful tonic and nutritive agent for invalids and convalescents, and for persons of feeble or delicate constitutions.

It contains 3 per cent. of La Plata Extract of Meat, and every square represents the nutritive constituents of $1\frac{1}{4}$ oz. of fresh beef.

It is used as ordinary chocolate, and is sold in packages of sixteen squares, with full directions.

BOUDAULT'S PEPSINE.

Since the introduction of Pepsine by Boudault in 1854, BOUDAULT'S PEPSINE HAS BEEN AND IS STILL CONSIDERED THE MOST RELIABLE, as is attested by the awards it has received at the Exhibitions of 1867, 1868, 1872, 1873, and in 1876 at the Centennial Exposition at Philadelphia.

Careful tests will enable any one to satisfy himself that Boudault's Pepsine has a digestive power at least double that of the best Pepsines in the market, and that it is really the cheapest.

HOMŒOPATHIC HOSPITAL COLLEGE,

CLEVELAND, O.

THE TWENTY-NINTH ANNUAL SESSION
Will commence on Wednesday, September 25th, 1878, and
continue twenty weeks.

This College stands second to none in its facilities for imparting a thorough and finished medical education. Its Clinical advantages are unsurpassed.

MODE OF TEACHING.

The manner in which a subject is presented is of the greatest importance. Not only the student's ear, but his eye, and often his hand, must be engaged. Hence the advantage of combining, in the most comprehensive manner, didactic with clinical and personal instruction.

DIDACTIC COURSE.

This course will be thorough and practical, consisting of lectures on *Descriptive and Surgical Anatomy, Physiology, Medical Chemistry, Microscopy, Histology, Pathology, Theory and Practice of Medicine, Materia Medica, Surgery, Gynæcology, Obstetrics, Ophthalmology, Otology and Medical Jurisprudence*. Four didactic lectures will be delivered each day, illustrated with models, plates, pathological specimens, etc.

CLINICAL COURSE.

From one to two hours each day will be devoted to clinical teaching with the presentation of cases.

The different forms of medical and surgical diseases are brought before the class, examined and diagnosed, the proper treatment applied, operations performed, etc. In this way the student, by actual observation, learns the art of diagnosis, and becomes familiar with the various kinds of disease and their modes of treatment.

Abundant material for Clinical study is furnished by the Homœopathic Hospital, the College Dispensary, the Free Dispensary for Women, and the numerous and well patronized College Clinics.

Six Clinics are held each week as follows:

OPHTHALMIC AND AURAL CLINIC—Tuesdays, from 2 to 3 P. M., by Prof. W. A. Phillips.

GENERAL SURGICAL CLINIC—Wednesdays, from 10 to 12 A. M., by Prof. Schneider.

SPECIAL MEDICAL CLINIC—Thursdays, from 11 to 12 A. M., by Prof. H. H. Baxter.

GYNÆCOLOGICAL AND SURGICAL—Thursdays, from 2 to 3 P. M., by Prof. H. F. Biggar.

GENERAL MEDICAL CLINIC—Fridays, from 11 to 12 A. M., by Prof. J. C. Sanders.

SPECIAL SURGICAL CLINIC—Saturdays, from 11 to 12 A. M., by Prof. G. J. Jones.

SPECIAL COURSES.

In order to engage and instruct each student in personal manipulations, and to furnish those who desire it opportunities for perfecting themselves in the different specialties, private classes will be formed and thorough personal instruction given by the different professors in the following branches; *Chemistry, Laryngoscopy, Microscopy and Histology, Physical Examinations of the Eye, Physical Diagnosis, Obstetrics, and Minor Surgery*.

RICHARDSON'S OBSTETRICS.

OPINIONS OF THE PROFESSION AND PRESS.

"The author is a successful teacher of the Branches on which he writes, and every page of his new work shows that he is no fossil of an obsolete period, full of the crudities of the old regime, but that he stands square abreast with the Scholarship and enlightenment of the age, an exponent and expounder of the latest and best in all the improvements of the obstetric art. He realizes what all thoughtful observers of the temper of the times must know and see, that large and costly books do not sell, and are not read, and so fail to reach the object of their publication, being soon shelved and forgotten. He has therefore had the courage and ability to present to the profession a new departure by condensing and crystalizing into less than five-hundred pages, everything that is of practical or positive value, or worth remembering or knowing in all the troop of authorities that have gone before. Here lies one of the chief merits of this work, its brevity, and yet the student will find nothing neglected, overlooked, omitted or forgotten. The language is flowing, free and lucid, and calculated to impress the memory, and when the thought is properly handled it is dismissed, the salient points are caught and pictured boldly and all superfluities are rejected so that the reading is instructive but never wearisome or unsatisfactory. The entire work shows a manifest knowledge of the subject in hand, and a familiarity with all the works and methods and instruments heretofore brought forward or offered to the medical profession. Another marked feature of "Richardson's Obstetrics" is the variety, style and number of its plates and illustrations. A large number of them are new and beautiful, and have never appeared before on this side of the Atlantic. Some never before in any medical work. There are two chapters, the seventh and eight, which are worth ten times the cost of the work one on abortion the other on sterility. The chapter on Hygiene during pregnancy (the ninth) is the best in the English language."—PROF. PHILO G. VALENTINE

"This is a book of 450 pages, in cloth, presenting the practice of the obstetric art in a concise manner, the student or practitioner readily comprehending each point at a glance. The book is a good one, advising simple, scientific, safe and common-sense measures, and should be in the hands of all who practice obstetrics."—PROF. G. C. PITZER.

"Dr. Richardson is an experienced teacher in his profession. The cuts, the freshness and the source from whence it arises, presuppose authenticity. It certainly will have a large sale and we recommend it to all reformers in search for literature on this subject."—PROF. G. H. FIELD.

"The style is excellent, the print good and the cuts *very* good. It will prove one of the most popular of all our works. It is better than Guernsey's and worth more"—PROF. E. M. HALE.

"To the busy practitioner who has not time to peruse the more elaborate works, this condensed work is a necessity." * * *

"This is a book of four hundred and fifty pages with one hundred and nine illustrations, including eleven plates. The author is professor of Obstetrics in the Homeopathic Medical College of Missouri, and is thoroughly familiar with the subject in hand and amply capable of teaching the same. The object of the author in bringing forth this new volume of obstetrics is stated in his preface, 'to have all the information possessed on the subject condensed into as few words as possible,' and 'to include only that which will be found of utility in actual practice.' This is certainly a laudable undertaking.

The therapeutics of the various diseases were prepared by Professor Uhlemeyer, and seems to have been well done, and is valuable. The illustrations are judiciously selected."—*American Homœopathist*.

Prof. Richardson's work is, indeed, a practical work, and one that every Homeopath should have in his library. It is finely illustrated, and especially for the student will be found valuable in elucidating many a point in the mechanism of labor, which in most text books is very vaguely and unsatisfactorily explained.

The chapters on "Puerperal Hemorrhage," are of more than ordinary practical value. Guernsey's treatment in "Puerperal Hemorrhage" is comparatively worthless. He gives the highest potencies and discountenances local applications, or mechanical means. We consider his advice in this sometimes fearful condition as dangerous; therefore we turn to Richardson's work with a feeling of satisfaction, that here we may find weapons which will serve us a good turn.—*California Medical Times*.

"An excellent manual. The author was for some time editor of the Obstetrical Department of this Journal and gave good satisfaction. He has written a good book."—*American Observer*.

"It contains much that is practical, and hints may be found that will well repay the purchase. As a manual of obstetrics, it fills an important niche in our literature, and will be very popular with students."—*U. S. Medical Investigator*.

The author shows an acquaintance with the needs of the Homeopathic profession. The book will be bought for its therapeutics upon this subject, and the practice character and philosophical arrangement of its subject-matter. This work has our hearty approval.—*Ohio Medical and Surgical Reporter*.

MISSOURI

School of Midwifery

—AND—

DISEASES OF WOMEN AND CHILDREN.

THE REGULAR SESSIONS of this Institution commence the first Mondays in March and September, continuing about fourteen weeks.

This College has all the facilities for conferring a complete education in the branches taught, which are: Midwifery, Diseases of Women and Children, Anatomy and Physiology. The intention is not to make regular Practitioners of Medicine, but to educate women in those branches of the profession for which they are peculiarly adapted.

Medical Schools for women have usually been unsuccessful for the simple reason that they have undertaken too much in compelling women to go through the whole curriculum of Surgery, Pharmacy, Materia Medica, Jurisprudence, etc.

The success of the MISSOURI SCHOOL OF MIDWIFERY AND DISEASES OF WOMEN AND CHILDREN has been far greater than its warmest friends have dared to anticipate, and this is to be attributed principally to the fact that it teaches only those branches that by experience have been found to cover the sphere of woman's usefulness in medicine.

The Board of Trustees take pleasure in announcing that the new college building is completed, and that the faculty is composed of instructors who, by long years of experience, are well qualified for the arduous duties of their respective branches.

PRACTICAL INSTRUCTIONS.

As heretofore practical instructions at the bed-side will be the leading feature in the course of studies.

There is held a daily clinique in the College building under the direction of the faculty.

This School is regularly incorporated and legally empowered to confer the degree of Doctor of Midwifery and Diseases of Women and Children, and grant a Diploma in token thereof, which Diploma entitles the holder to practice in any state or country in the civilized world.

FEES.—The Fee for the entire course, which includes a text book on Midwifery, Graduation and Diploma Fee, is \$75.00.

Those who wish admission to the dissection rooms, will be required to pay an additional Fee of \$10.00.

For any further information that that may be desired, Address:

Dr. W. C. RICHARDSON,

President.

MEDICAL INVESTIGATOR.

A SEMI-MONTHLY JOURNAL OF MEDICAL SCIENCE.

[A consolidation of *The United States Medical and Surgical Journal* (quarterly \$400 Vol. IX., with THE MEDICAL INVESTIGATOR (monthly \$3.00), Vol. XII., commencing January 1, 1875.]

Two Volumes a Year — About 1,200 Pages.

Terms: Only \$3 00 Per Annum, in Advance.

The wonderful reduction in the price of this old and popular journal has proved a welcome surprise to the profession. ONLY \$3.00 FOR TWO LARGE VOLUMES, (1200 pages), is a tempting offer.

This is the largest and cheapest Homœopathic medical journal published. The managing editor, T. C. DUNCAN, M. D., is assisted by leading physicians in all of the departments of the Medical Sciences.

It has *hundreds of contributors*, therefore all phases of medical practice are represented in its pages.

A NEW DEPARTMENT has been added devoted to consultations. Knotty cases are ably answered by skillful prescribers.

Great prominence is given to "Reports from the Field of Practice." These come from all parts of the country, and are novel and interesting. Its Therapeutical Department alone is invaluable.

It eschews long theoretical articles, and aims to be always PRACTICAL, PROGRESSIVE, SCIENTIFIC, and devoted to the interests of the Busy General Practitioner. The unanimous expression of those who have taken it for years is, "*We can not do without it!*"

MEMPHIS, Tenn., Aug. 13, 1877.—"Success to the INVESTIGATOR. I hope the time will soon come when every physician of our School will be a subscriber."

L. D. MORSE.

ADRIAN, Mich., Oct. 5, 1877.—"Your Journal is invaluable, and the reduction in price gives us about double the amount of matter for the price of any ordinary journal. My best wishes for your success."

W. E. JEWETT.

DELAVAN, ILL., Sept. 27, 1877.—"Find \$3.00 for the best medical journal in America. My subscription does not run out for three months yet, but for fear you might not have enough left then to go 'round, I send in my ducats now."

T. M. TRIPLETT.

ELKHORN, Wis., Feb. 24, 1877.—"I could not be without the INVESTIGATOR for double its price. It inspires me with its own vigor and freshness. Every number is replete with just the kind of material most valuable to the student or the practitioner."

THOMAS T. HOWARD.

PATENT APPLIED FOR.

SPECIALTY MADE OF TRITURATIONS.

These Triturations are triturated in a Triturator of my own invention. This Triturator not only saves labor but triturates *better* than by hand. It triturates and *mixes* at the same time, obviating the use of a spatula. No other triturator, and there are many in use has these advantages.

AN ALPHABETICAL LIST
OF THE
HOMŒOPATHIC PHYSICIANS
RESIDING
IN THE STATE OF OHIO.

Names of physicians to whom letters of inquiry, containing stamp for reply, have been sent without result are marked "(?)" unless stated to be correct by some other physician in the same vicinity. In every case, where an answer has been received, the year in which and the name of the college from which the doctor graduated have been given. The date at which each one began the practice of allopathy or homeopathy, if known to be different from that of graduation, will be found in brackets or parentheses, preceded by the letters a and h respectively. Thus, "(a 1837, h 1849), — Med. Col., 1852" signifies "began the practice of medicine as an allopath in 1837, in 1849 espoused homeopathy, and in 1852 graduated at — Medical College". It is probable that nearly all are graduates, and it is hoped they will forward the necessary information AT ONCE in order that proper credit may be given.

A TREATISE ON Typhoid Fever and its Homœopathic Treatment

BY

C. F. PANELLI, M. D., *Naples, Italy.* Translated with Copious Additions,
By G. E. SHIPMAN, M. D., *Chicago.*

It is not necessary for me to say much of PANELLI'S work on Typhoid Fever, as it is now put within the reach of English readers, and they can judge for themselves. Those of us who practiced Homœopathy thirty years ago, would have thought such a work a real prize, and it is to be hoped that it may be found so even now with those who are battling this dangerous disease. The author's therapeutical directions have seemed to me very correct and judicious, and if they are lacking in any respect, the deficiency will be fully made up in the "Symptomatic Indications," which our veteran friend and leader, CONSTANTINE HERING, has permitted the publishers to add to the work.

THE TRANSLATOR.

DUNCAN BROTHERS:

Dr. Shipman deserves great credit for his translation of Panelli's Typhoid Fever. You, as publishers, are to be congratulated on the admirable appearance of the volume. It is a good work all round. We are so accustomed to turn to Old School authorities for anything classical, that it is a positive pleasure to take up your late addition to our literature, which gives the best indications for Homœopathic treatment, and proves to be also a thorough scientific treatise.

Yours respectfully,

J. S. MITCHELL.

President Chicago Homœopathic College, Prof. Practice of Medicine.

"The book is well written, and strong in its advocacy of the Homœopathic practice; and in the treatment of this special disease it is elaborate and exhaustive, and will no doubt be acceptable to those who practice Homœopathy."—*Inter-Ocean.*

One Vol. 8vo, pp. 297. PRICE ONLY \$2.25.

The Treatment of Prolapsus Uteri.

By WILLIAM EGGERT, M. D.

8vo Forty Pages,

Price 25 Cents.

This is a very practical and valuable work. The treatment of Uterine Displacements BY REMEDIES ALONE, is an achievement proposed in this *brochure*.

I have read with pleasure and profit Dr. Eggert's book on Prolapsus Uteri and its Homœopathic Treatment. We, as a school need just such monographs to make us good prescribers and successful physicians.

T. S. HOYNE, M. D.

A careful perusal of Dr. Eggert's work warrants me in endorsing the above. Those who study it and follow its precepts will add greatly to their reputation, to the comfort and welfare of their patients, and to the glory of Homœopathy.

E. A. BALLARD, M. D.

THE HOMŒOPATHIC TREATMENT OF SURGICAL DISEASES,

By J. G. GILCHRIST, M. D.,

Lecturer on Surgery, Homœopathic Medical College, University of Michigan.

This is the only book of the kind in our literature, and should be in every Homœopathic physician's library. The complete work of 420 pages, elegantly bound, \$2.00. A few copies left.

Our Surgical works find a fit supplement in Gilchrist's Homœopathic Treatment of Surgical Diseases.—S. LILIENTHAL, in *Transactions of the American Institute of Homœopathy*.

This book supplies a great deficiency in our literature, and Dr. Gilchrist shows himself to be a thorough Homœopathician as well as a good surgeon.—*New York Journal of Homœopathy*.

If the book is to be sent by mail, sixteen cents should be added for postage.

THE HAHNEMANN MEDICAL COLLEGE. OF PHILADELPHIA.

The preliminary Course of Lectures will begin late in September, and the regular course on the first Monday in October following.

The advantages of this Institution are:

I. Its location in the centre of the great Medical Emporium of the country, a city filled with interesting objects and historical recollections; and from its salubrious climate, a most desirable place for spending the winter months.

II. From the accumulations of over a quarter of a century, its teaching facilities have acquired a most complete character; its chemical and philosophical apparatus is ample, while its anatomical museum is unsurpassed, containing nearly 5,000 specimens.

III. A Medical Library of nearly 2,000 volumes, to which Students have free access.

IV. Unlimited clinical advantages, as offered by the Homœopathic Hospital, adjoining the College, with the various free clinics of the several Hospitals of the city.

In addition to the various improvements which have been introduced from year to year, and which have made the College Building in all its arrangements, one of the most complete in the country, the seats of both Lecture Rooms have been cushioned, marble-top tables and and marble wash-basins placed in the dissecting room, and other improvements added, looking to the comfort and convenience of the class, and increasing the facilities for instruction.

THE WHITE SEWING MACHINE

TO YOU PERSONALLY.

If you read this advertisement, it is self-evident that you want a machine for your own use, or else you intend to engage in the purchase and sale of Sewing Machines for a business; in either case it is essential that you should be convinced that the

WHITE SEWING MACHINE

Is the one to be desired above all others; and with this result in view, we beg to call your attention to a few of the many advantages combined in the WHITE, viz.:

- 1st—It is the lightest running Shuttle Sewing Machine.
- 2nd—It has more capacity and power than any other family Sewing Machine.
- 3rd—It is not complicated with cog gears nor large cams.
- 4th—It is the simplest and best constructed machine.
- 5th—Its working parts are case-hardened iron or steel, and so arranged that any wear can be taken up simply by the turn of a screw.
- 6th—It has a steel feed on both sides of the needle.
- 7th—Its shuttle is comparatively self-threading, made of solid steel, and carries a larger bobbin than almost any other family sewing machine.
- 8th—Its works are all encased and free from dust, and so arranged that neither the garment being sewed, nor the operator, will become oiled.
- 9th—It has a device by which bobbins can be filled without running the ENTIRE machine, thereby relieving it from wear for this purpose, as also relieving the operator of the necessity of removing the work or attachments, as is the case in nearly all other machines.
- 10th—It is elegantly ornamented and finished and its cabinet work is unsurpassed.

The result of this combination is the "WHITE," the easiest-selling, the most durable, the cheapest, best and largest family Sewing Machine in the world.
