DIVISION OF hey 1, 194 AY 4 1944 COMMUNICATIONS FOR THE PERSONAL AND COMMUNICATIONS AT MONTAVIDEO, GUATEMALA CITY AND SANTIAGO. Habana The following alrgrams have been sent by the Department to the AMERICAN AFGASSAGORS in certain South American countries and are

repeated by you for your information:

March 31, 1944, 1:05 p.m. "Information has been received that there are in enemy-occupied Europe a number of persons holding passports issued in the names of various Latin American countries including the country to which you are accredited. Our information is that in a large tember of sames such persons are interned under conditions which are immeasurably better than the treatment they would receive if they did (of have such passports. It is reported that without such passports, such persons would be transported to Foland and death.

The plight of these refugees was the subject of a memorandum presected to the Department by the Polish Ambassador in Mashington on Depember 24, 1945, in support of the request of his government that this dependent interceds on humanitarian grounds to save the persons concirned from deportation to Poland by interceding to prevent the withdeportation to Poland by interceding to prevent the withdeportation to Research which they may have been improperly desued.

The following are excerpts from a report of Dr. Kullmann, Vice

Director

DECLASSIFIED State Dept. Letter, 1-11-73 By R. H. Parks Date <u>SEP 2</u>0 1972

CIRCULA, May 1, 7:35 p.m.

Director of the Intergovernmental Committee, who has recently made an exhaustive investigation of the matter in Owitzerland: QUOTE It is estimated that 4,000 (passports) have been issued from Switzerland and it is known that others have been issued from other neutral countries including Sweden. Some informants estimated the total number to be as high as nine to ten thousand but some thought that it did not exceed 5,000. In Switzerland it (the securing of the passports) was organized by private individuals and reached such proportions that the Swiss Federal Government had to intervene. Legal action was taken against esveral of the organizers and at the same time enquiry was made regarding the authority of some of the representatives of the South American states to carry on these transactions.

m[)a

There seems little doubt that the German authorities are aware of what has been going on but for reasons of their own they have hitherto not adopted a general policy of withdrawing the passports. While in * Lany cases the possession of these documents has afforded the owners protection against persecution and even special treatment in some of the camps, in other cases they have afforded no protection at all and particularly so where the persons concerned were not intermed. Originally the German authorities seem to have cherished the hope that the persons with these South American passports might constitute a basis for the exchange of German nationals in South American countries and it is

not

-3- CIRCULAR, May 1, 7:35 p.m.

not improbable that they still have vague hopes of this. Other reasons have been suggested for their lack of consistency. Hecently however they have been making enquiries through some of the protecting powers of the South American Governments concerned regarding the genuineness of the documents and they have been submitting lists of persons concerned with a view to verification UN4UOTE

Sir Herbert Emerson, Director of the Intergovernmental Committee, on the basis of the forsgoing recommends that the Latin American Governments in whose names such passports have been issued, be approached on two points. JUCTE (first) that the Governments should refrain from withdrawing the passports which have been issued and (second) that if and when the protecting power on the request of the German authorities submits lists of persons with such passports they should instruct the protecting power that the passports have been confirmed UNQUOTE

Although the Department does not condone the unauthorized issue of passports, it does not follow that the Department should withhold its intercession in a situation in which the lives of so many persons are at stake. The Department and the War Refugee Board agree with Emerson that where thousands of human lives lie in the balance because of war conditions and enemy persecutions, appropriate steps should be taken to avoid the nonrecognition by the Germans of such passports.

The Department understands that these passports, appearing on their

their face to have been issued by competent officials, are valid until they are cancelled. While Department agrees that the Government to which you are accredited is entirely within its right in cancelling such passports, it urges that the right of cancellation be not exercised until the holders shall have reached a place of safety, so that the act of cancellation shall not be, in essence, condemnation of the holder to a terrible death. All that is here asked is that the Government to which you are accredited deal with the question at a time when it shall occasion the least possible measure of human suffering.

SPECIAL INSTRUCTIONS TO THE ANDAUSADOR.

You are instructed to memorize the contents of this airgram, burn the document and discuss the matter orally with the government to which you are accredited. Such report as you submit to the Department on this subject should be by secret courier."

april 11, 1944, 11:00 c.m. "Minister Harricon at Bern has informed up that the Spise Foreign Interests Division has advised him informally that the Spanish government had been requested by the Germane to inquire into the bone fides of certain Latin American passports, held by internees in enemy-controlled territory and that the Latin American governments have denied responsibility as well as any claims of the persons holding such passports. I

In view of the perilous situation in which these internees find, themselves, the conclusion has been reached that perhaps the only way of safeguarding the lives of these unfortunate victime of Nazi persecution is forthwith to initiate through proper channels negotiations for an exchange of nationals for which these people will be sligible. Finally, we communicate to you, for communication to the government to which you are accredited, the substance of a cable which the Department has sent to our Minister at Bern as follows: JUOTE Although the motives of the Germans in according better treatment to Jews of Polish origin holding passports and other documents issued in the nemes of Latin American countries are not too clear, it would appear that they include (1) some hope that they might be considered exchange material against Germans in the western Hemisphere and (2) some fear that their ill-treatment might afford the Latin American countries a pretext for further limiting the freedom and economic activities of Germans resident in such countries.

The measure reported in your 1959 of March 30 may be an indication that

that Gommany is beginning to doubt whether such Jeve are considered exchange material and whether their treatment would affect the treatment of Germans in Latin.America. This Government regards it as essential that these doubts be promptly and effectively disapelled.

Accordingly, please request the good offices of the Swiss Government in informing the Germans that this Government is undertaking discuscions with Latin American countries for a further exchange of Germans in the uestern Hemisphere for persons in German-controlled territory and that in this connection, the United States considers that all persons in Vittel and elsewhere sholding passports and other doouments issued in the names of Latin American countries will be pligible for such exchange.

Simultaneously, please request the appropriate Swiss authorities to advise the Germane that in the meantime this Government expects that these persons will be accorded the same rights; privileges end immunities that the German government expects will be accorded to Germans in the Western Hemisphere. You may add that a considerable' number of German civilians interned by various Latin American countries have been placed by such countries in the custody of the United States and are presently in such custody within continental United States. persons holding passports insued in its name or claiming its citizenship on the basis of consular documents be eafeguarded and that they be given all rights, privileges and immunities accorded to civilian internees of enemy nationality to whom the Geneva Convention regarding the treatment of prisoners of war is currently applied by analogy.

In view of the imminent danger in which the persons concerned find themselves, you are requested to act with the greatest possible dispatch.

Finally, we communicate to you, for communication to the government to which you are accredited, the substance of a cable which the department has sent to our Cinister at bern as follows: MOTA Although the motives of the Germans in according better treatment to Jews of Folish origin holding passports and other documents issued in the names of Latin American countries are not too clear, it would appear that they include (1) some hope that they might be considered exchange material against Germans in the Western Hemisphere and (2) some fear that their ill-treatment might afford the Latin American countries a pretext for further limiting the freedom and economic activities of Germans resident in such countries.

The measure reported in your 1958 of March 20 may be an indication that Germany is beginning to doubt whether such Jews are con-

considered exchange material and whether their treatment would affect the treatment of Sermans in Latin America. This Government regards it as essential that there doubts be promptly and effectively disspelled.

Accordingly, please request the good offices of the Swiss Government in informing the Germans that this Government is undertaking discussions with Latin American countries for a further exchange of Garmans in the "estern Hemisphere for persons in German-controlled territory and that in this connection, the United States considers ti at all persons in Vittel and elsewhere holding paseports and other decouments insued in the names of Latin American countries will be eligible for such exchanges

Simultaneously, please request the appropriate 3-4ss authorities to advise the Germans that in the meantime this Government expects that these percens will be accorded the same rights, privileges and immunities that the German government expects will be accorded to Germans in the Testern Hemisphere. You may add that a considerable number of German civilians interned by various Latin American countries have been placed by such countries in the succody of the United States and are presently in such custody within continental United States.

For your information, the substance of this message is being communicated to our Missions in the Latin American countries concerned.

CIRCULAR AIRGRAM

FOR THE PERSONAL AND CONTINUES. ATTENTION OF THE AMBASSADORS At Tegucigalpa, San Jose, Quito, Managua, Port-au-Prince, Caracas, San Salvador and Lina.

ALRGRAM SENT

* Refer our previous communications regarding War Refugee Board. Europe a number of persons holding passports issued in the names of various latin American countries including the country to which you are accredited. Our information is that in a large number of cases such persons are intermed unler conditions which are immeasurably better than the treatment they would receive if they did not have such persons would be transported that without such passports, such persons would be transported to Foland and death

The plight of these refugees was the subject of a memorandum presented to the Department by the Polish Ambassedor in Washington on December 24, 1943, in support of the request of his government that this Government intercede on humanitarian grounds to save the persons concerned from depertation to Polerd by interceding to prevent the withdrawal of these passports in cases in which they may have been improperly issued.

The following are excerpts from a report of Dr. Kullmann, Vice Director of the Intergovernmental Committee, who has recently made an exhaustive investigation of the matter in Switzerland: QUOTE It is estimated that 4,000 (passports) have been issued from Switzerland and it is known that others have been issued from other neutral countries including Sweden. Some informants estimated the total number to be as high as nine to ten thousand but some thought that it did not exceed 5,000. In Switzerland it (the securing of the passports) was organized by private individuals and racehed such proportions that the Swiss Federal Govarnment had to intervene Legal action was taken against several of the organizers and at the same time enquiry was made regarding the authority of some of the transactions.

There seems little doubt that the German authorities are aware of what has been going on but for reasons of their own they have hitherto not adopted a general policy of withdrawing the responds. While in many cases the possession of these documents has afforded the owners protection against persecution and even special transmont in some of the camps, inother cases they have afforded no protection at all and particularly so where the persons concerned were not interned. Originally the German authorities seem to have cherished the hope that the persons with these South American persons might constitute a basis for the exchange of German nationals in South American countries and it is not improvable that they still have the hope bet as the diverse persons on breas suggested for these

lack of consistency. Recently however they have been waking enquiries through some of the protenting powers of the South American Governments concerned regarding the genuineness of the documents and they have been submitting lists of persons concerned with a view to verification UNQUOTE.

Sir Herbert Emerson, Director of the Intergovernmental Committee, on the basds of the foregoing recommends that the Latin American Governments in shose names such passports have been iscued, be approached on two points, QUOTE (first) that the Governments should refrain from withdrawing the passports which have been issued and (second) that if and when the protecting power on the request of the German authorities submits lists of persons with such passports they should instruct the protocting power that the passports have been confirmed UNQUOTE.

Although the Department does not condone the unauthorized Although the pepartment does not concome the unauthorized issue of paseports, it does not follow that the Department should withhold its interession in a situation in which the lives of so rany persons are at stake. The Department and the War Refuges Board agree with Emerson that where thousands of human lives lis in the balance because of war conditions and energy personations, appropriate steps should be taken to avoid the nonrecognition by the Germans of such passports.

The Department understands that these passports, appearing on their face to have been issued by competent officials, are valid until they are cancelled. While Department agrees that the Government to which you are accredited is entirely within its rights in cancellign such passports, it urges that the right of cancellation be not exterdised until the holders shall have reached a place of safety, so that the act of cancellation shall not be, in essence, condemnation of the holder to a terrible death. All that is here asked is that the Government to which you are accredited deal with the question at a time when it shall occasion the lasst possible of measure of human suffering. The Department understands that these passports, appearing measure of human suffering.

SPECIAL INSTRUCTIONS TO THE AMEASSADOR.

You are instructed to memorize the contents of this atrgram, burn the document and discuss the matter orally with the governmen to which you are accredited. Such report as you submit to the Department on this subject should be by sacret sourier.

The present Dominican representative in Switzerland or if he is not competent, a Dominican representative having a Latin-/merican name who might be especially named for the purpose would be authorized to receive from any interested person in behalf of any individual in enemycontrolled areas in Europe an application for the issuance of a Dominican passport.

Upon receipt of such an application the designated representative would address a letter to the person in behalf of whom the application was made stating the following: (1) in application for a Dominican passport had been made in the name of the individual addressed, (2) a decision upon the application cannot be made until the applicant appears in person before a Dominican Consular Officer, (3) until such time as the applicant makes personal appearance before a Dominican Consular Officer for the purpose of completing his application he is considered by the Dominican Government to be entitled to the rights and protection normally accorded Dominican mationals residing abroad.

Letters of the foregoing character would be delivered to the addressees through secret channels if they are to perform the protective functions for which they are designed. The Germans might be expected to intercept any such letter sent through postal or diplomatic channels and would be able to eliminate the beneficiaries of the letters before delivery was effected.

In view of the fact that the present Dominican representative in Switzerland has been stripped of all official character except as custodian of archives it might be preferable, provided that secret channels for transmission of confirmatory letters are available, to have all these applications executed before a regularly recognized Dominican representative in Spain or Portugal. The Germans might be better disposed to accept letters from the Dominican Legation at Madrid or Lisbon than from a Dominican representative of questionable authority in Switzerland. The advice of the War Refugee Board on this point seems essential.

It is assumed that a persecuted person arrested in enemy-controlled areas, if able to produce a letter of the type outlined above would be able to obtain a stay of severe measures against his person and might be able to attain a status warranting inclusion in such exchanges as may be made.

FROM Hatthew Marks

In the past twenty-four hours I/ have met three British subjects who were interned at Vittel for more than a year until their liberation by advancing Allied troops. One of them was a Blook Leader in charge of some 500 women internees.

I suggest that this information be passed on to the War Refugee Board which at one time was much interested in certain events which took place at Vittel. If for some reason the Board is still interested in ascertaining the details regarding deportations which took place from Vittel arrangements could probably be made for these former intermees to be questioned. Before any such questioning, however, the Board would probably wish to indicate the type of information they would desire to have.

Dear General O'Dwyer:

It will be of interest to you to learn that according to information received from Switzerland by one of our friends, it seems that Jews with South American passports or persons who are considered as United States citizens, have been transfered from Bergen Belsen to "an American internment camp in Wurzach, Wuertemberg".

I will call you on Monday to discuss this matter further.

Subject: Protective documents for beneficiaries in German-held territory.

Jewich organizations, particularly the World Jewish Congress, have recently requested that steps be taken to provide more Jews in Germanheld territory with protective documents.

For various reasons (because practically all Jews not in hiding are in carps in direct custody of German authorities who would presumably relate to take perioduly a claim of changed eltisenship status at this late date, because we would have to deal now with the German Government rather than with less unwickly satellite officials, and because of the unlikelihood cast neutral governments would agree in the circumstances to, the issuance of alditional protective documents), this suggestion does not appear practicable on a large scale.

On the other hand, U. S. censorship still holds. Haitian passports mane out to cover 217 persons in German-held territory and originally adaressed to Dr. Silberschein, the representative of World Jewish Congress in Geneva. Such passports, if placed at the proper time in the hands of Jews in certain parts of German-held territory might, given the confused conditions which reign or may be expected soon to reign there, contribute to the temporary safety of the passport-holders and to their escape to neutral territory.

Accordingly, if it desired to facilitate the placing of a certain number of a ditional protective documents in the hands of enemy victims, the Bourd might asky to release the above-mentioned Haitian passports to the War hereigee Board. The Board could then

Subject: Protective documents for beneficiaries in German-held territory.

Jewish organizations, particularly the World Jewish Congress, have recently requested that steps be taken to provide more Jews in Germanheld territory with protective documents.

For various reasons (because practically all Jews not in hiding are in camps in direct custody of German authorities who would presumably refuse to take seriously a claim of changed citizenship status at this late date, because we would have to deal now with the German Government rather than with less unwieldy satellite officials, and because of the unlikelihood that neutral governments would agree in the circumstances to the issuance of additional protective documents), this suggestion does not appear practicable on a large scale.

On the other hand, U. #### B. Akein and F. J. McCormack

Subject: Haitian passports for beneficiaries in German-hold territory.

1. It is understood from Consorship intercepts Nos. SJ. FIN, 15356, SJ. FIN. 15096, and SJ. FIN. 14425 that a total of 34 registered exactores containing a total of 103 Haitian passports have been intercepted by U.S. Consorship authorities. The passports have been detained at the San Juan, Puerte Ricks station. At Mr. Lesser's request, Mr. McCormack asked Consorship authorities to have the packages brought to Washington, where they are now. Mr. Horrish, of the Allocator's Office in Consorship, informed Mr. McCormack that the Office of Consorship was awaiting a discussion with WRE with respect to a disposition of these passports.

August 28, 1944

The passports are made out by the Maitian Consul in Asuncion, Paraguay, to various persons born and presumably living in German-controlled territory. Each passport is accompanied by a letter signed by the Maitian Consul which states that the accompanying passport will enable beaver to travel to Maiti in order to complete the requirements for his naturalization. Judging by the masses of the beavers, they are all Jews, and, therefore, exposed to the well-known transment mated out to Jews by Mail Germany. Most of these passports are issued to entire families, and the total number of persons affected thereby amounts to 217.

Ihe packages are addressed to Dr. A. Silberschein, 37 Quai Wilson, Geneva, Switzerland. Dr. Silberschein is known to us as one of the representatives of the World Jewish Congress in Suitserland.

2. As you are avere, the protection provided by Latin American passports to Jews and other oppressed people in Masi controlled territory proved to be one of the main avenues of keeping none of these Masi visitms alive. Even prior to the establishment of the WEB, the Department of State, at the request of the Intergovormental Consister and of the Polish Government, took certain steps to secure the acoperation of Latin American Republics in giving the maxirum possible degree of protection to beavers of their passports in Corman controlled territory. In the work of the WAB, this matter was given a great deal of attention. The WBB succeeded in gotting the comment of several Latin American Republics to notify the Germans that any heavers of such passports. In Superstain of the doubts regarding the validity of such documents, are to be accorded the treatment reserved to intend States declaring all the bearsers of masports eligible for exchange against Germans in the Vestern Hemisphere. The Breatwent auppert of these activities. Some of the Vation here all takes a hard in suppert of these activities. Some of the Vation here all takes a hard in

exchanged. The Swiss Government, at the prompting of the WEB, is in constant touch with Corman authorities regarding the well-being of these people. At present, it is understood that about 4,000 people from various Cerman controlled death, are in the camp of Bergen-Belsen, Germany, awaiting final determination of their availability as exchange material. It can be said without emgeration that a large part of these people have been kept alive solely because of the device of Latin American passports.

Because of the humanitarian implications involved, WRB can be said to have slvays favored the increase of the number of people in German controlled territory who would enjoy the protection of such passports. It is understood, of course, that after the emergency is over there would be no objection whatse ever to the governments involved denying the validity of these documenter this already has been made clear in all of our cables to the American Missions in Latin American countries. We knew informally of the efforts of various relief organizations to persuade consuls and other officials of other Latin American Covernments to issue such passports and never objected to this activity. Moreover, at a certain time when the German deportation program was stepped up, the WRB, in repeated discussions with Assistant Secretary of State A. A. Berle, actively sought to obtain the assistance of the Department of State in inducing the government of one Latin American republic to issue such passports in large numbers. Finally, in connection with the recent persecutions in Hungery, the Svedish Covernment, without making may secret of it, and with the full support of our Covernment, issued several hundred passports or certificates of citizenship to Rungarian Jews, with a view to saving their lives.

3. Because of the foregoing, the suppression of the packages for Dr. Silberschein by Consorship authorities must be regarded as in conflict with our jewish Congress in Sutzerland are among the more energetic distributors of the World American passports to Jews in German held territory. Mr. McClelland is fully aware submitted, therefore, that steps be taken by the Board to insure the forwarding of the above montioned packages to Dr. Silberschein or to another representative of Massion in Europe with a view to distribution in Europe of Massi oppression.

It would be impractical to request Censorship to release these packages with a view to their being forwarded by ordinary mail as going from one non-belligernot country (Faraguay) to another neutral country (Switzerland), even if this would the documents would fall in the hands of German censorship authorities who might either confiscate them or use them for purposes of their even. Therefore, it would appear proferable to request Censorship to release them decuments to WRB, and for diplenatic pouch. Vaticen diplometic pouch, underground, or whetever channels this government uses for communication with its mission in Switzerland) for transmission

4. It is more than likely that in addition to the three packages, of which WRB gained accidental knowledge, Censorship, in conformity with General Ruling No. 11, has surpressed a great many other documents of this character destined to afford protection to Masi vistims. It is granted that permitting such documents to go on through enemy held territory by ordinary mail would be contrary to the security of this Government. However, such problems of security would not seem to be involved, and General Ruling No. 11 would not seem to be in the way, if Censorship were requested to release all such documents to wRB so that WRB could arrange for their transmission through diplomatic channels. above mentioned in those cases where WRB would find that these documents would serve solely to protect Masi victure, without endangering the security of this country and its allies and without affording any possible aid to the enemy.

Hon. John W. Pehle Executive Director War Refugee Board Treasury Building Washington, D.C.

Honorable Sir:

We are enclosing a copy of the list of Belsen Bergen deportees possessing Ecuadorian passports which expire early in January. This report we received from the War Refugee Board and we are returning it to you with a request that the War Refugee Board take the necessary action.

You understand, and surely appreciate, that the lives of these persons depend entirely on the extension of the passports and as the time is so short we must respectfully urge the immediate intervention of the War Refugee Board with the Government of Ecuador to extend the life of these passports and to assure their validity till the end of the war. In conjunction with this intervention, we are sure the necessary requests will be made to the protecting powers.

May we also respectfully ask you to submit the memorandum which we left with you to our President. We feel that it is vital and will materially aid in securing the lives or the pitiful remnants still left in the European area.

We also wish to express our devoted thanks and appreciation for your warm and cordial letter of December 19th in which you congratulate us on the work we have done for the rescue of the unfortunates in Europe. We only regret that our effort was limited and that tenfold wasn't accomplished. We hope that with the fullest cooperation which the War Refugee Board will continue to give, there will still remain the possibility to assure the

## Memorandum for the Files

After discussing the attached letter with Miss Hodel, I phoned  $\texttt{\acute{e}r}$ . Rosenheim on January 5. I confirmed receipt of the letter, by phone.

I told yr. hosenheim that people with Latin-American passports have been declared eligible for exchange, that some of them had already been included in previous exchanges and that others will follow. This ought to be a measure of security to all rersons with Latin-American documents in Germany custody. We could not, however, ask the Germans to give priority in the exchanges to people from Vittel as against holders of Latin-American documents from other camps.

I explained to Mr. Rosenheim that this information is strictly confidential and may not be made public.

#### Dear Mr. Fehle:

According to recent informations, which we received from Switzerland under date of November 15th, it seems that the two groups of 163, respectively 51 persons, holding South- American documents, deported from Vittel on April 16, respectively May 15th of fast year, are still in internment camps somewhere in Germany. A postal card from one of these internees has reached Switzerland.

Our representative urges that the only way to save these peeple is a very early exchange, as it appears that the Nazis are holding them for exchange purposes.

I therefore again ask you to do your utmost without any loss of time by renewing immediate negotiations for the exchange of these 214 persons. I should be very much obliged to you for an early reply whether such negotiations have been initiated.

Thanking you in anticipation, we remain,

## Re: Conversation with Mr. Clattenberg

On Saturday, December 9th, I visited Mr. Clattenberg in the Department of State with the view to establishing friendly contact which might be useful in connection with our Latin American project and similar matters.

#### In the course of the conversation, the following points were made:

(1) He considers that our efforts to safeguard the position of dubious Latin Americans are not only not harmful, but positively helpful in connection with the State Department's efforts to protect undoubted American citizens. He believes that if we give in an inch to the Germans, they tend to put more and more people into the category of doubtful nationals and to deny them protection. To illustrate this point, he mentioned that among those deported from France to an unknown destination was an undoubted American citizen and a member of the Woolworth family. He understands that Germans are closely studying our 1940 Nationality Act with a view to withdrawing protection from any American citizens who, through some technical provision in the Act, may have lost their nationality through the passage of time.

(2) We discussed the stiffening attitude of the Swiss officials in connection with proof of Latin American nationality required by them prior to the transmission of documents and other forms of representation of interestSvis-a-vis Axis authorities. He agreed that the Swiss attitude may lead to serious trouble and may affect the safety of those people in Belsen-Bergen and elsewhere who. until now, escaped deportation and death because of the constant show of interest on our part. I told him of the forthcoming stiff cable which we are sending to McClelland in order to point out to the Swiss this fear of ours, and he suggested that this cable ought perhaps to be further expanded in order to explain to the Swiss the full gravity of the program. We agreed wind that he will give me a ring when he gets the cable, and that we will consider how it could be further strengthened. In this connection, he asked me whether, to our knowledge, refugee matters are discussed with the Swiss Foreign Office by McOlelland personally or by other members of the Legation. I said that I didn't know the answer to the question, but that it seemed from the cables that McClelland is mainly dealing with private agencies, whereas discussions with Foreign Office officials seem to be conducted mainly by the Minister or other members of the Legation. Clattenberg expressed thereupon his doubt whether either McClelland or the other members of the Legation, isolated from the United States and very much overworked as they are, have themselves a sufficient grasp of the problem, and asked whether it would not be advisable for the War Refugee Board to send Mann on a short mission to Bern in order to acquaint the Legation and McClelland with the situation, as well as in order to have a talk with appropriate officials at the Swiss Foreign Office. I asked whether he thinks that Mann, not being attached to the Legation in Bern, would be able to discuss the matter with Swiss officials. He answered that he had no doubt that Mann would be received at the Swiss Foreign Office for an informal discussion.

He repeated the suggestion several times that it might be useful to send Mann to Switzerland, and I told him that I would transmit his suggestion to the Board.

-2-

I then asked him whether, in view of his impression, advantage should not be taken of the presence of Minister Harrison in Washington AMMA to discuse the matter with him and perhaps, also, with the Swiss Minister to the United States. He said that he will talk this question, over with Warren, but my impression was that, at least as far as Minister Harrison is concerned, Clattenbarg does not expect that a discussion with him would prove very fruitful.

(3) In discussing German objections to accept our representations on behalf of Latin Americans, we agreed that their position is especially illogical since the Germans continue to receive our representations with respect to the eligibility for exchange of such persons, and that establishing their status and according them suitable protection is a necessary preliminary to exchange.

In this connection, I asked him whether any more exchange operations are expected to benefit such people, since this would keep the German interest in the problem alive. He informed me, in strictest confidence, that an exchange operation is being contamplated for next January, in the course of which about 800 civilians are to be exchanged, and that we are notifying the Swiss that about 75 civilians belonging to category F (that is, our clients) be included among them. He further informed me that negotiations are proceeding now with the Germans about the exchange of 300 German civilians from Colombia; since there are almost no genuine Colombians in Axis territory, almost all of the people to be received in exchange for them are expected to belong to category F.

My dear Mr. Pehle,

/ / |_|

Immediately upon receipt of your letter of October 23rd remarking the transfer to Germany of soveral nundred Jews wolding Latin American documents, I despatched to the Vatican a request that the Holy See inquire into the reporter transfer through the Apostolic Munciature in Slovakia.

The Acting Secretary of State of His Holiness has just informed me that, according to information received from the Apostolic Nuncio in Slovakia, the persons in question were actually removed to Germany about the middle of October. The Apostolic Nuncio has made repeated and insistent requests to the Slovak government to be advised as to the place to which these individuals were transferred, but the Slovak authorities declare that they are ignorant of this destination. Memertheless, the Apostolic Nunciature is continuing its lively interest in the matter and will report later should further news be fortheoming.

Sincerely yours,

## OCT 23 1944

My dear Archbishop:

Reference is made to your letter of October 14 (your No. 581/42) and to my retter of September 21, concerning the plight of the Jews in Slovakia.

The following is the substance of a message received by the Board from its representative in Bern under date of October 19:

"A courier who recently arrived in Switzerland from Bratislava reports that 300 to 400 Jews holding Latin American documents have been arrested in that city. He further reports that, although they were first interned at Mariathal near Bratislava, they were summarily transported, possibly to Germany, on or about October 8. The Slovak Government, according to the courier, is aware of their destination. Of this group, 90 hold nationality certificates of El Salvador while Paraguayan passports are held by the others."

You will note that the report above quoted speaks as of a date subsequent to the reports referred to in your latter of October 14.

It would be of invaluable assistance to the Board if it could ascertain where the Germans intend to locate this group. For this reason, the Board would greatly appreciate it if the Holy See were to find it appropriate to attempt to secure through the Nunciature at Bratislawa, or otherwise, such and any other information which may be available regarding the group mentioned or any similar groups. It would greatly facilitate the Board's efforts if the Holy See would make such information, when received, directly available to the American Missions in Bern and Madrid.

Sincerely yours,

Dear Mr. Pehle:

We refer to our telegram of November 30 with regard to South American passports which were issued for assistance to people threatened with deportation.

The Vaad Hahatzalah representatives in Istanbul have given us the enclosed five lists of persons to whom they say San Salvador passports have been issued in Switzerland. They inform me that these arrangements have been made by Maitre Mathieu Müller, rue de Deux Ponts 30, Geneva, representative of the Agudath Israel in Geneva. The Vaad Hahatzalah representatives in Istanbul have no further information regarding any of these persons, such as their present whereabouts, etc.

It might well be that the names included in the enclosed lists have already come into your possession. I am sending them to you in the event that new names appear herein which are not already known to you.

#### My dear Archbishop:

Reference is made to your letter of October 14 (your No. 581/42) and to my letter of September 21, concerning the plight of the Jéws in Slovakia.

The following is the substance of a message recoived by the Board from its representative in Bern under date of October 19:

"A courier who recently arrived in Switzerland from Bratislava reports that 300 to 400 Jems holding Latin American documents have been arrested in that city. He further reports that, although they were first interned at Mariathal near Bratislava, they were summarily transported, possibly to Germany, on or about October 8. The Slovak Government, according to the courier, is aware of their destination. Of this group, 90 hold mationality certificates of El Salvador while Paraguayan passports are held by the others."

You will note that the report above quoted speaks as of a date subsequent to the reports referred to in your letter of October 14.

It would be of invaluable assistance to the Board if it could ascertain where the Germans intend to locate this group. For this reason, the Board sould greatly appreciate it if the Holy See wore to find it appropriate to attempt to secure through the Nunciature at Bratislava, or otherwise, such and any other information which may be available regarding the group mentioned or any similar groups. It would greatly facilitate the Board's efforts if the Holy See would make such information, when received, directly available to the American Missions in Bern and Madrid.

Sincerely yours,

to Mr. Pehle

FROM Mr. McCormack

Supplementing the memorandum of August 22, 1944, at the request of Mr. Lesser, the matter of these passports was again cleared with Censorship with a view to having these passports released by Censorship to the World Jewish Congress in New York. On September 7 when this matter was discussed with Mr. Rueffer, he suggested that it would be presented informally by him to Censorship with a view to obtaining this result. There appears below Mr. Rueffer's report on this matter:

"The whole matter has once again been referred by Censorship to the Department of State. Mr. Shaw of the Department replied to Censorship that State reaffirms their previous recommendations to condemn the communications and passports involved. However, they go on to say that they (the State Department) have no objection to the Office of Censorship accepting the recommendations of the War Refugee Board. Should the Office of Censorship accept the recommendation of the War Refugee Board, however, the State Department will disclaim all responsibility for the action."

Mr. Rueffer's impression is that it might be better, in writing to Censorship, not to refer to the attitude taken by State.

It has been suggested that War Refugee Board formally request that the Office of Censorship make these passports available to the world Jewish Congress with a view to having that organization transmit them to representatives abroad through such facilities as may be available to them for distribution to a corresponding number of beneficiaries.

The Office of Censorship is pressing Mr. Rueffer for an answer from War Refugee Board with respect to our interest in their disposition of these passports.

## EXECUTIVE OFFICE OF THE PRESIDENT WAR REFUGEE BOARD

INTER-OFFICE COMMUNICATION

DATE August 22, 1944

to Mr. Pehle

FROM B. Akzin and P. J. McCormack

Subject: Haitian passports for beneficiaries in German-held territory.

1. It is understood from Censorship intercepts Nos. SJ. FIN. 15356, SJ. FIN. 15096, and SJ. FIN. 14425 that a total of 34 registered envelopes containing a total of 103 Haitian passports have been intercepted by U.S. Censorship authorities. The passports have been detained at the San Juan, Puerto Rice, station. At Mr. Lesser's request, Mr. McCormack asked Censorship authorities to have the packages brought to Washington, where they are now. Mr. Morrish, of the Allocator's Office in Censorship, informed Mr. McCormack that the Office of Censorship was awaiting a discussion with WRB with respect to a disposition of these passports.

The passports are made out by the Haitian Consul in Asuncion, Paraguay, to various persons born and presumably living in German-controlled territory. Each passport is accompanied by a letter signed by the Haitian Consul which states that the accompanying passport will enable bearer to travel to Haiti in order to complete the requirements for his naturalization. Judging by the names of the bearers, they are all Jews, and, therefore, exposed to the well-known treatment meted out to Jews by Nazi Germany. Most of these passports are issued to entire families, and the total number of persons affected thereby amounts to 217.

The packages are addressed to Dr. A. Silberschein, 37 Quai Wilson, Geneva, Switzerland. Dr. Silberschein is known to us as one of the representatives of the World Jewish Congress in Switzerland.

2. As you are aware, the protection provided by Latin American passports to Jews and other oppressed people in Nazi controlled territory proved to be one of the main avenues of keeping some of these Nazi victims alive. Even prior to the establishment of the WRB, the Department of State, at the request of the Intergovernmental Committee and of the Polish Government, took certain steps to secure the cooperation of Latin American Republics in giving the maximum possible degree of protection to bearers of their passports in German controlled territory. In the work of the WRB, this matter was given a great deal of attention. The WRB succeeded in getting the consent of several Latin American Republics to notify the Germans that any bearers of such passports, irrespective of the doubts regarding the validity of such documents, are to be accorded the treatment reserved to nationals of such Republics. Furthermore, the Department of State agreed to the United States declaring all the bearers of such passports eligible for exchange against Germans in the Western Hemisphere. The British Government, the Swiss Government, and the Vatican have all taken a hand in support of these activities. Some of the bearers of such passports were actually

MALENSER .

exchanged. The Swiss Government, at the prompting of the WEB, is in constant touch with German authorities regarding the well-being of these people. At present, it is understood that about 4,000 people from various German controlled countries, including Poland, who otherwise would have probably been sent to their death, are in the camp of Bergen-Belsen, Germany, awaiting final determination of their availability as exchange material. It can be said without exaggeration that a large part of these people have been kept alive solely because of the device of Latin American passports.

-2-

Because of the humanitarian implications involved, WRB can be said to have always favored the increase of the number of people in German controlled territory who would enjoy the protection of such passports. It is understood, of course, that after the emergency is over there would be no objection whatsoever to the governments involved denying the validity of these documents-this already has been made clear in all of our cables to the American Missions in Latin American countries. We knew informally of the efforts of various relief organizations to persuade consuls and other officials of other Latin American Governments to issue, such passports and never objected to this activity. Moreover, at a certain time when the German deportation program was stepped up, the WRB, in repeated discussions with Assistant Secretary of State A. A. Berle, actively sought to obtain the assistance of the Department of State in inducing the government of one Latin American republic to issue such passports in large numbers. Finally, in connection with the recent persecutions in Hungary, the Swedish Government, without making any secret of it, and with the full support of our Government, issued several hundred passports or certificates of citizenship to Hungarian Jews, with a view to saving their lives.

3. Because of the foregoing, the suppression of the packages for Dr. Silberschein by Censorship authorities must be regarded as in conflict with our general objective. Dr. Silberschein and the other representatives of the World Jewish Congress in Switzerlend are among the more energetic distributors of Latin American passports to Jews in German held territory. Mr. McOlellend is fully aware of their activities in this regard. In the interest of saving human lives, it is submitted, therefore, that steps be taken by the Board to insure the forwarding of his organization in Europe with a view to distributing the documents to victims of Nazi oppression.

It would be impractical to request Censorship to release these packages with a view to their being forwarded by ordinary mail as going from one non-belligerent country (Paraguay) to another neutral country (Switzerland), even if this would not conflict with U.S. censorship regulations. Indeed, on the way to Switzerland, the documents would fall in the hands of German censorship authorities who might either confiscate them or use them for purposes of their own. Therefore, it would appear preferable to request Censorship to release these documents to WRB, and for us to forward them to McClelland through such channels as may be open to us (Swiss diplomatic pouch, Vatican diplomatic pouch, underground, or whatever channels this to Silberschein. 4. It is more than likely that in addition to the three packages, of which WRB gained accidental knowledge, Censorship, in conformity with General Ruling No. 11, has surpressed a great many other documents of this character destined to afford protection to Nazi victims. It is granted that permitting such documents to go on through energy held territory by ordinary mail would be contrary to the security of this Government. However, such problems of security would not seem to be involved, and General Ruling No. 11 would not seem to be in the way, if Censorship were requested to release all such documents to WRB so that WRB could arrange for their transmission through diplomatic channels above mentioned in those cases where WRB would find that these documents would serve solely to protect Nazi victims, without endangering the security of this country and its allies and without affording any possible aid to the energy.

DEPARTMENT OF STATE

WASHINGTON

## My dear Mr. Pehle:

I refer to your letter of August 17, 1944 which concluded our correspondence regarding certain protection to be afforded the alien families in Europe of American citizens and aliens residing in this country. At the close of your letter you invited my attention to reports indicating the desirability of presenting to the Germans as soon as possible lists of individuals bearing Latin-American passports who are eligible to be exchanged for German nationals.

I agree with your suggestion and am glad to inform you that steps looking toward such action were taken some time ago when the Department drafted instructions to the American Legation at Bern asking that the Swiss draw up lists of persons entitled to inclusion in the exchanges, broken down into various principal categories. With respect to the category into which the numerous bearers of Latin-American passports at Bergen-Belsen would normally fall, the telegrams suggest to the Legation that in as much as the identity of these individuals is probably unknown to the governments whose passports they may hold, it might be possible to compile the requested lists through the cooperation of Mr. McLelland and the various philanthropic organizations in Switzerland who are in possession of the required information.

Sincerely yours,

Dear Mr. Pehle:

We do not know whether the enclosed report addressed by Mr. Charles A.  $\checkmark$  Grant to the representative of the HIAS, Mr. Jacobson, dated August 1st with annexes has already been brought to your knowledge.

In any case, we feel it cur duty to draw the attention of the War Refugee Board to the fact that in this obviously authentic and cauticusly drafted vreport, the Camp Commander of the Vittel-camp is said to have declared"that neither the recognition of the papers nor the certificates for exchange to Palestine would have any validity in the cycs of the German Government unless an exchange either to Falestine or the South American States <u>ACTUALLY</u> took place."

Convinced that the War Refugee Board and the State Department are anxious to do everything possible to save the remnant of the Vittel-deportees, probably in Belsen Bergen or in some other camp, from death, we take the liberty of suggesting immediate steps for actual exchange.

As the report of Mr. ^Grant righly says, such an actual exchange is only possible if on behalf of the State Department and in accordance with the single interested republics the persons to be exchanged are mentioned by name and their exchange against those persons in which the other party is interested is urgently demanded.

We underline the closing passage of Mr. Grant's report: -

The gravity of the situation cannot be exaggerated, neither the urgent need for immediate action.

We hope and trust that a decisive step in this last moment will ultimately crown all the efforts undertaken during the last six months for this part of the unhappy victims of Nazism.

^aoptember 11, 1944

My dear Mr. Fehle:

I refer to your letter of sugust 17, 1944 which concluded our correspondence regarding certain protection to be afforded the alien families in Europe of American citizens and alienr residing in this country. At the close of your letter you invited my attention to reports indication the desirability of presenting to the Germans as soon as possible lists of individuals bearing Latin-American passports who are sligible to be exchanged for German netionals.

I agree with your suggestion and am glad to inform you that steps looking toward such action were taken some time ago when the Department drafted instructions to the American Legation at Bern asking that the Swiss draw up lists of persons entitled to inclusion in the exchanges, broken down into various principal categories. It respect to the category into which the numerous bearers of Latin-American passvorts at Bergen-Belsen would normally fall, the teletrams suggest to the Legation that in as much as the identity of these individuals is probably unknown to the povernments whose passports they may hold, it might be possible to compile the requested lists through the cooperation of Mr. McLelland and the various philanthropic or anizations in Switzerland who are in possession of the required information.

Sincerely yours,

The situation existing on 10/7/44 when I left the Camp of Vittel

The people on the following list arrived in the Camp of Vittel, part in January 1943 and the rest in May 1943. They are all Jews of Polish origin, possessing certificates of citizenship of the various S. American States is ued by consulates of the respective states, mainly from Berne. These certi-ficates were generally to cover an entire family without the detail of names. In December 1943 all Jews in the camp of Vittel had to give up their iden-

tity papers, which were never returned to them. All other British & American internees remained in possession of their documents.

From January 1944 onward certain families received certificates from a Zionist Organization in Geneva saying that they were on a repatriation list for Palestine. But as these had not been ratified by London they were considered worthless by the German Authorities.

In March nearly all these people were moved at 24 hours' notice to an hotel outside the precints of the camp and deprived of all communication with the outside the precince of the camp and deprived of all communication with the camp for a week until a passage had been constructed. The Commandant assured the Camp Committee that this was purely an internal measure, but added that unless their papers were recognised within a short time these people would be considered as "Staatenlos" and sent back to Poland to s hare the fate of the other Jews there. Unofficial messages were sent to Switzerland and also to

Conter Jews there. Unoilletal messages were sent to Switzerland and also to London to acquaint the powers of the situation. Mrs. Tamara Schorr, widow of a well-known Rabbi in Warsaw, was given the Commandant's word as to the safety of the people and she persuaded them to Commandant's word as to the safety of the people and she persuaded them to move without difficulty. When she saw that she had led them into danger, a month later, she took her own life. Four weeks later the gate connecting the hotel to the camp was closed and the people told that they were being sent to Drancy, a Jewish sorting camp near Paris, from which regular deportations of French & other Jews were made to Poland. There were 17 attempts at suicide of which 3 were officially admitted as fatal. Mrs. Thompson, head of the British Nursing Service, informed me that there were 4 others whose named she did not know, whose deaths were hushed up by the Germans. The other cases were taken to hospital and one relative allowed to remain behind. The scenes of panic and des-

nospital and one relative allowed to remain bening. The scenes of panic and des-pair are indescribable, as also the consequent impression on the camp. The first transport for Drancy took place on the 18th April and comprised 173 men, women and children. They left in a train with the windows boarded. It was subsequently learned that they left Drancy for an unknown destination on the 29th April. Recognition had meanwhile arrived from Chili but as yet there.

ã

on the 29th April. Recognition had meanwhile arrived from Chili but as yet there has been no news of the subjects. Four weeks later, on the 16th May) the 2nd transport took place, when all except one or two families and the absolutely untransportable cases in hospital (of which there were ten) were taken. Even people whose both less were paraly-zed owing to attempted poisoning were carried off on stretchers. A fortnight after this 2nd transport, on the 6th June, the Commandant in-formed the Committee that a collective list for repatriation for Palestine had arrived for the whole group and had been accepted by Berlin, which was now only waiting for ratification from London. The No of this certificate is 438. Up to our departure on 10/7 no such confirmation had been received from London. Shortly after came further news that each S. American State had accepted all the papers as bona fide, thus placing their holders on an equal status with any other American Internee.

In spite of this the Commandant said that he had an order from Berlin to deport those yet remaining in camp. He also said that neither the recog-nition of the papers nor the certificate for exchange to Palestine would have any validity in the eyes of the German authorities unless an exchange either to Palestine or to the S.American States actually took place. It is therefore essential and most urgent now to find these people who are probably in some Jewish camp in Upper Silesia (such as Eirkenau, Auschwitz, Sosnowitz, Fatowitz, Frodorf, Insebruck, Treblinki, Belzec, Trawniki, Monowitz or pos-sibly at Bergen Belzen or Bergau where there were others with similar papers) and to arford them the full protection of the Red Cross and the Protecting Powers. Also to demand them by name for an exchange against Germans. This is the only way of saving even this handful of lives. The gravity of the situa-tion cannot be exaggerated, neither the urgent need for immediate action.

#### B. Aksin and F. J. HoCormack

Subject: Haitian passports for beneficiaries in Cormon-hold territory.

1. It is unlergtood from Gensorship intercepts Nos. SJ. FIN. 15356, SJ. PIN. 15096, and SJ. FIN. 14425 that a total of 34 registered emelopes containing a total of 103 Haitian passports have been intercepted by U.S. Censorship authorities. The passports have been detained at the San Juan, Puerte Ricch station. At Mr. Lesser's request, Mr. McCormack asked Censorship authorities to have the packages brought to Washington, where they are now. Mr. Horrish, of the Allocator's Office in Censorship, informed Mr. McCormack that the Office of Censorship was awaiting a discussion with WRB with respect to a disposition of these passports.

The passports are made out by the Heitian Consul in Asuncion, Paregusy, to various persons born and presumably living in German-controlled territory. Much passport is accompanied by a lotter signed by the Heitian Consul which states that the accompanying passport will enable bearer to travel to Heiti in order to complete the requirements for his naturalization. Judging by the manes of the bearers, they are all Jews, and, therefore, exposed to the well-known trantment meted out to Jews by Nazi Germany. Host of these passports are issued to entire families, and the total number of persons affected thereby emounts to 317.

the packages are addressed to Dr. A. Silberschein, 37 Qual Wilson, Genova, Switzerland. Dr. Silberschein is known to us as one of the representatives of the World Jewish Congress in Switzerland.

2. As you are avere, the protection provided by Latin American passports to Jews and other oppressed people in Hasi controlled territory proved to be one of the main avenues of keeping none of these Hari wistins alive. Even prior to the establishment of the WEB, the Department of State, at the request of the Intergovernmental Committee and of the Polish Government, took certain steps to secure the cooperation of Latin American Republics in giving the maxisum possible degree of protection to bearers of their passports in German controlled territory. In the work of the WEB, this matter was given a great deal of attention. The WEB succeeded in getting the consent of several Latin American Republics to notify the Germans that any bearers of such passports, irrespective of the doubts regarding the validity of such documents, are to be accorded the treatment reserved to mationals of such Republics. Furthermore, the Department of State agreed to the United States declaring all the bearers of such passports eligible for exchange against Germans in the Vestern Hestephere. The British Government, the Sues Government, and the Vation have all taken a hand in support of these activities. Some of the bearers of such passports were actually exchanged. The Swiss Government, at the prompting of the WHB, is in constant touch with German authorities regarding the well-being of these people. At present, it is understood that about 4,000 people from various German controlled countries, including Poland, who otherwise would have probably been sent to their death, are in the camp of Bergen-Belson, Germany; awaiting final determination of their availability as exchange meterial. It can be said without exagination that a large part of these people have been kept alive solely because of the device of Latin American passports.

Because of the humanitarian implications involved, WHB can be said to have always favored the increase of the number of people in German controlled territory who would enjoy the protection of such passports. It is understood, of course, that after the emergency is over there would be no objection whatsoever to the governments involved denying the validity of these documenter this already has been made clear in all of our cables to the American Missions in Latin American countries. We knew informally of the efforts of various relief organizations to persuade consuls and other officials of other Latin American Governments to issue such passports and never objected to this activity. Moreover, at a certain time when the German deportation program was stepped up, the WRE, in repeated discussions with Assistant Secretary of State A. A. Berle, actively sought to obtain the assistance of the Department of State in inducing the government of one Latin American republic to issue such passports in large numbers. Finally, in connection with the recent persecutions in Hungary, the Swedish Government, without making any secret of it, and with the full support of our Government, issued several hundred passports or certificates of citizenship to Hungarian Jews, with a view to saving their lives.

3. Because of the foregoing, the suppression of the packages for Dr. Silberschein by Censorphip authorities must be regarded as in conflict with our general objective. Dr. Silberschein and the other representatives of the World American passports to Jews in German held territory. Mr. McClelland is fully aware of their activities in this regard. In the interest of saving human lives, it is the above mentioned packages to Dr. Silberschein or to another representative of. Nasi oppression.

It would be impractical to request Censorship to release these packages with a view to their being forwarded by ordinary mail as going from one non-belligernot conflict with U.S. censorship regulations. Indeed, on the way to Switzerland, the documents would fall in the hands of German censorship authorities who might either confiscate them or use them for purposes of their own. Therefore, it would appear preferable to request Censorship to release these documents to WEB, and for diplematic pouch, Vatican diplomatic pouch, underground, or whatever channels this to Silberschein.

-3-

4. It is more than likely that in addition to the three packages, of which WRB gained accidental knowledge, Censorship, in conformity with Gen-eral Ruling No. 11, has surpressed a great many other documents of this charac-ter destined to afford protection to Nasi victims. It is granted that permitthe destines to arised protection to mast victums. At is granted that permit-ting such documents to go on through enemy held territory by ordinary mail would be contrary to the security of this Government. However, such problems of secur-ity would not seem to be involved, and General Ruling No. 11 would not seem to be in the way, if Censorship were requested to release all such documents to WRB so that WRB could arrange for their transmission through diplomatic channels above mentioned in those cases where WER would find that these documents would serve solely to protect Mazi victims, without endangoring the security of this country and its allies and without affording any possible aid to the enemy.

Dear Mr. Berle:

This will acknowledge receipt of your letter of August 5, 1944 (VD 811.111 Refugees/2207) in response to mine of July 7, 1944.

alle 1 ( 1944)

The procedure you cutline is fully acceptable to us and I am hopeful that in operation it will afford a measure of protection against enemy personation to the families of American citizens and aliens resident in this country.

Referring to persons in energy territory holding documents issued in the names of American Republics, I call your attention to No. 5168 from Born, dated August 10th. In this telegram, Minister Marrison states that there are approximately 4,000 such persons interned in Bergen-Belleen whose fate would seem to depend upon the taking place of an actual exchange of at least sense of them. In a message from the Intergovernmental Committee transmitted from London by Minister Bucknell, under date of August 2, 1944 (No. 17252), the Commandant of the interment camp, at Vittel is reported to have said that the recognition of Latin American documents would have no validity in the eyes of German authorities unless an exchange of persons holding such documents actually took place. In the light of the foregoing, I would appreciate your early advice as to whether it would be peschange was desired, the mames of some holders of documents issued in the menes of Latin American Republics. For your information, a number of such mames is sppended to the message from the Intergovernmental Committee above referred to.

Very truly yours,

(Signed) J.W. Pehlo

J. W. Pehle, Executive Director.
