QSL DU8ARK ---> QSL Manager I2YDX (Giuseppe de Gasperin, Via Trento, 21020 Brebbia - VA, Italy) reports he has DU8ARK's logs until 18 October 1997. Cards will be sent out in March, please do not send duplicates.

QSL KP3Z ---> The *new* QSL manager for KP3Z is NP3HM (direct).

QSL YJ8AA ---> QSL manager Alan Roocroft, VK4AAR reports that he cannot get in touch with Frank Palmer, YJ8AA and have him check his logs. During their last QSO, on 12 January, Frank just said there is big trouble in Vanuatu at the moment and he had to lower his antennas as a precaution and then went QRT immediately. "I have a number of QSLs to reply to for Frank", Alan says, "but I need him to check his log and give me the reports. Anyone who is still waiting for a reply at this time... please be patient and I will get them turned around as soon as possible".

QSL VIA AA6BB ---> The South Sandwich Island Dxpediton Group has taken over the following QSL chores from the late Jerry Branson, AA6BB/7. Requests for QSL cards should be sent to AC7DX: Ron Lago, P.O. Box 25426, Eugene, OR 97402, USA. Ron has got the logs and QSLs from Jerry's QTH and reports there is no backlog. If you do not receive your reply within the next two weeks, please resubmit to Ron's address. Questions may be sent to Ron at ronlago@efn.org

*** Most Wanted in Italy ***
=====

We apologize for the delay in publishing this annual survey - the last announced submissions arrived just a couple of days ago. This listing has been compiled thanks to 288 Italian DXers who have submitted their Most Wanted lists. RTTY desiderata have been merged into one single listing together with CW and SSB, and that is the reason why some RTTY Most Wanted Countries/Entities (such as A3, 5W, EP, JD1 Minami Torishima, PY0 Trindade, V6, ZK1 North and South Cooks, etc) are not mentioned. The "needed by" percentage ranges from the obvious 100% of North Korea to the 18.1% of East Kiribati. Heard Island, which ranked third in last years' survey, has disappeared from the listing after VK0IR's tremendous effort. Hopefully in 1999 four of the current Most Wanted will move near the bottom (at least): Kingman Reef, Howland and Palmyra (which are needed respectively by the 78.1%, 51.4% and 29.9% of the participants in the survey) are going to be activated by the SSIDXG & MKDXF joint DXpedition between February and March, while the USKA major DXpedition to St. Brandon (needed by the 59.7%) is scheduled to take place in May (see 425DXN 351 for the details). Good luck to you all!

QSL TT8SA ---> The QSL manager for this station is IV3VBM, whose *new* address is: Mario Simonutti, Via Oltrerugo 127, 33091 Castelnuovo - PN, Italy.

QSL VK9LX ---> Nick, VK2ICV reports that the first lot of about 700 cards is in the mail. So far he has received more than 2000 direct requests for his and K8RF's activity from Lord Howe as VK9LX (23 November - 1 December 1997), and it would probably take another 3-4 weeks to answer them all. QSL via VK2ICV (Nick Hacko, P.O.Box 730, Parramatta NSW 2124, Australia).

QSL VIA AC7DX ---> Ron Lago, AC7DX reports he will *no longer* handle the QSL chores of 9K2QQ and UA3CT. QSL for both direct to CBA.

QSL VIA TI2YO ---> Minor, TI2YO can confirm contacts made with TE2M, YNOTI, HT7YO and TI9YO. His new address is Minor, P.O. Box 41-1300, Hatillo, San Jose, Costa Rica.

SPRATLY ISLANDS ---> Ray, G3NOM reports that the the Malaysian Amateur Radio Transmitters Society (MARTS) has formally applied to the authorities to allocate a separate prefix to the this group, i.e. 9M7 (for HF and VHF licence) and 9W7 (for VHF only licence). It could take a considerable time before we know whether the proposal is accepted by the authorities. In the meantime, 9M0C [425DXN 351] may be your last chance to work one of the romantic, legendary 9M0 Spratly prefixes!

VK4RC ---> The Redcliffe and Districts Radio Club services the needs of amateur radio and shorth wave listening enthusiasts in the city of Redcliffe, Queensland and surrounding area. Membership is open to amateurs and SWLs from around the world. The club station VK4RC can be contacted every Sunday at 08.30 UTC on 14.205 MHz +/- QRM during the Australian summer (December, January and February) and on 3.612 MHz +/-QRM every Sunday at 09.30 UTC all year through. The Radio Club sponsors the "Redcliffe City Award" and the "Rally Australia Award". Further information is available at <http://www.st.net.au/~vk4vw./rdrc/> or from Kevin, VK4AKI (c/o Redcliffe and Districts Radio Club Inc., P.O. Box 20, Woody Point, QLD 4019, Australia).

VK9YQS ---> The station who recently signed VK9YQS (Macquarie) on 40 metres CW is believed to be a pirate. Jim, VK1FF states that "VK three-letter callsign suffixes YAA-YZZ are allocated to Australian LIMITED Licensees who are permitted to transmit only on designated frequencies above 50 MHz, except for 29.0-29.7 MHz on FM telephony". The genuine Doug, VK0YQS is actually on Macquarie [425DXN 349], but he is only operating on 6 metres at this stage.

+ SILENT KEY + It was with great sadness that we have learnt of the passing, on 19 January, of Eric Edberg, W6DU (a past President and Secretary of both California DX Foundation and NCDXF) and, on 24 January, of Valery "Larry" Saldin, RA4HA, for many years a familiar voice on 14.175 MHz.

***** GOOD TO KNOW ... *****

8Q7AA ---> N7TX has begun an analysis of the logs of the recent Central
Arizona DX Association DXpedition to the Maldives. A "first pass" through the
.bin files from the four operating positions has given the following band
breakdowns (CW/SSB/RTTY/Total): 664/40/0/704 on 160 metres, 537/1704/0/2241
on 80 metres; 2149/1661/0/3810 on 40 metres; 1178/0/0/1178 on 30 metres;
1519/2625/200/4344 on 20 metres; 1734/909/0/2643 on 17 metres;
434/1654/0/2088 on 15 metres; 348/423/0/771 on 12 metres; 65/59/0/124 on 10
metres. Totals are 8628 QSOs on CW, 9075 on SSB and 200 on RTTY. QSL via N7TX
(Steve Thompson, 119 E. Jasmine St., Mesa, AZ 85201-1811, USA). Further
details, and some pictures, will soon be available on the CADXA web site
(<http://cadxa.org/8q7aa>). <TNX K7WX>

9M0C LOG CHECKING ---> The team plans to upload logs to the Web on a daily
basis. To check the logs, you need to go to the DXpedition home page at
<http://members.aol.com/spratly98> and select one of the two "am I in the log"
servers. Once at the server screen, simply type in your callsign and a list
of QSOs will appear.

9M0C PILOT STATIONS ---> Three pilot stations have been appointed. Their role
will be to channel communications to and from the team on the island.
Typically, they will receive comments (about band openings, the suitability
of the announced frequencies, etc) from the amateur community at large, and
will summarise the key messages to forward to the island. The team on the
island will also be able to pass information out to the pilots and the Chief
Pilot (G3ZAY) will keep the DXpedition Web site
(<http://members.aol.com/spratly98>) updated. The pilot stations are Martin,
G3ZAY (spratly@dial.pipex.com), Don, N1DG (nldg@aurumtel.com) and Yoichi,
J1LNWZ (jplnwz@cqpub.co.jp).

KC4US* ---> Bob, K4MZU reports that military calls like KC4USV, KC4USX and
KC4USL, which were active during the last several years, will be coming to an
end. A Flag Ceremony to commemorate the end of Commander US Naval Support
Force Antarctica as Commander of Operation Deep Freeze will be held at
McMurdo Station on 11 February. Probably a KC4AA* series call will be issued
or amateurs will use /KC4 calls for the time being.

QSL IH9/OL5Y ---> The *new* QSL manager is OK1VK. QSL either direct (Bohuslav
Petr, Novodvorska 416, 142 00 Praha 4, Czech Republic) or through the bureau.

 ***** GOOD TO KNOW ... *****

+ SILENT KEY +

It is with the greatest sadness that we report the passing of Iris Colvin, W6QL on 18 February at 83 years of age. First licensed in 1945 as W6DOD, Iris travelled the world between the 1960s and the early 1990s. Along with her late husband, Lloyd Colvin, W6KG (SK in 1993), she operated from more than 100 rare DXCC countries. She was a member of DXCC Honor Roll, president of the Yasme Foundation and a past president of the Northern California DX Club. Iris was inducted into the CQ DX Hall of Fame in November 1976. <TNX W6OAT and ARRL DX Bulletin>

1997 IOTA CONTEST ---> The 1997 IOTA Contest results are available at <http://www.iol.ie/~okanep/iota97.html>, where they have been uploaded with the permission of the RSGB HF Contests Committee. <TNX EI5DI>

DXING FROM 7Z500 ---> "A lot of how I operate 7Z500 has to do with my personal philosophy of how the DX game should be played", Mike Manafo, K3UOC/7Z500 says: "I hunt callsigns, not countries. This is at the heart of my DX philosophy of being on the cusp between the rare and the common. My real thrill comes from working someone on a new band that I've already worked on some other band(s). A lot of people have already caught on to this and they actually look for me to give me a new band-callsign". Mike sends out an award to those who have worked 7Z500 on all 9 HF bands: "it is one way of recognizing those that work hard (sometimes very hard) to play the DX game". Further information is available on Mike's home page at <http://members.aol.com/k3uoc/index.htm>

 ***** GOOD TO KNOW ... *****

9M0C ---> The 9M0C operation closed down on 24 February after making well over 65,000 QSOs with over 180 DXCC countries. The team was able to run four high-power (400 watt) stations round the clock and two further low-power (100 watt) operating positions enabled them to be on two additional bands at key times. Some further analysis on the logs is needed, but a preliminary band breakdown is as follows (CW/SSB/RTTY): 1150/0/0 (160 metres), 2854/1395/0 (80

metres), 6599/4267/0 (40 metres), 5710/0/0 (30 metres), 4675/7396/1390 (20 metres), 3540/2998/77 (17 metres), 4784/7089/543 (15 metres), 3020/2576/0 (12 metres), 2048/2634/70 (10 metres), 262/127/0 (6 metres). The total is 65,204 QSOs (34,642 CW, 28,482 SSB and 2,080 RTTY), which places 9M0C in fourth position after VK0IR, 4J1FS and ZA1A. QSL via G3SWH either direct (Phil Whitchurch, 21 Dickensons Grove, Conresbury, Bristol, BS19 5HQ, England, UK) or through the bureau (e-mail requests accepted at phil@g3swh.demon.co.uk). <<< H40AA, TEMOTU ISLANDS >>>
<<< A NEW DXCC ENTITY >>>

The new DXCC criteria will become effective on 31 March 1998. The Temotu Islands, located in the South Pacific, collectively form the easternmost province of the Solomon Islands, an independent country since 1978. Because Temotu is separated by more than 350 km from the rest of the Solomon Islands, it should easily qualify as a new DXCC entity. The South China Sea DX Team (SCSDXT) has teamed with the Solomon Islands' IARU member organization, SIRS (Solomon Islands Radio Society), in organizing a full-scale DXpedition to Temotu, as well as preparing the application for new DXCC status.

Team members H44GP, H44GR, JA5DQH, N4GN, N7NG, OH0XX, OH1RY, OH2BC, OH2BE, OH2BH, OH2TA, W6OSP and 9V1YC will begin arriving on 21 March and may be found on the air using their individual H44 call signs (QSL via their respective home calls) while making final preparations for the main event. These early operations, which will include all-band activity in the CQ WW WPX SSB Contest (27-28 March) - will count for DXCC credit as the Solomon Islands, under the current rules.

At 23.59 UTC on 31 March, the team will starting operating as H40AA (please note that the Solomon telecommunications authorities have agreed to assign the previously unused H40 prefix to Temotu for all future amateur operations). At this point QSOs will count for Temotu DXCC credit, presuming the application for new DXCC status is eventually approved.

The H40AA operation will continue for approximately two weeks on the following frequencies: 1.824, 3.504, 7.004, 10.104, 14.024, 18.074, 21.024, 24.894, 28.024 and 50.104 MHz CW; 1.824, 3.775, 7.045, 14.195, 18.135, 21.295, 24.945, 28.495 and 50.104 MHz SSB; 14.083 and 21.083 MHz RTTY. Internet log search capability is likely to be made available a few weeks AFTER the operation. QSL H40AA via OH2BN either direct (Jarmo J. Jaakola, Kiilletie 5C30, Helsinki 00710, Finland) or through the OH bureau. <TNX N4GN>

Contacts made before 1 January 1995 will count for the deleted country. The "current" countries are now 328 and the deleted are 58. The "deleted country" concept will come to an end when the new DXCC 2000 rules are implemented, that is on 31 March 1998. According to the new rules, no new countries will be added to the deleted list in the future. Deleted "entities" simply will be removed.

425 DX NEWS: THE ARCHIVE ---> All the previous issues of 425 DX News are now available in zipped files (each of them contains 50 issues). Download them at <http://www-dx.deis.unibo.it/htdx/425/bulletin.html>

H40AA CO-ORDINATORS ---> In order to help the operators maximize the short openings on the most critical paths from Temotu, particularly Europe, three regional co-ordinators (G3ZAY, K6GNX and K4MQG) have been appointed. They can be reached via e-mail for any questions and/or comments related to H40AA: eupilot@dial.pipex.com (Martin, G3ZAY); k6gnx@telemetry.com (Bill, K6GNX); gdixon@infoave.net (Gary, K4MQG). <TNX N4GN>

H40AA TX FREQUENCIES ---> Look for H40AA on the following frequencies: 1.824.5, 3.504, 7.004, 10.104, 14.024, 18.074, 21.024, 24.894, 28.024 and 50.104 MHz CW; 1.824.5, 3.775, 7.045, 14.195, 18.135, 21.295, 24.945, 28.395 and 50.104 MHz SSB; 14.083 and 21.083 MHz RTTY. <TNX N4GN>

QSL A45XL ---> Bob, G4LVQ reports that Chris, the operator of A45XL, apologises for the delays in sending QSL cards due to unforeseen personal difficulties. Chris has however promised he will send cards out within the next six/eight weeks. If anyone wishes to send a QSL card or perhaps a duplicate, there are two alternatives: the first is to send to G4VUO via the RSGB bureau, the second is direct to A45XL care of G4LVQ (Robert Williams, 25 Upper Carr Lane, Calverley, Nr.Pudsey, West Yorkshire, LS28 5PL, UK) - please note that G4LVQ is *not* the QSL manager for Chris, he will just forward the envelopes to Chris unopened. <TNX G4LVQ>

QSL GI/EI7NET (EU-122) ---> QSL Manager Declan, EI6FR reports that all direct QSLs received for the WestNet DX Group 1997 operation as GI/EI7NET from Rathlin Island (EU-122) have been answered. The cards for every other station appearing in the log have been sent to the bureau. <TNX EI6FR>

QSL L4D (SA-065) ---> Phil, G3SWH reports he still has the logs and cards for the November 1993 SSB only operation on 14 and 21 MHz by L4D from Blanca Island (SA-065), November 1993. This is one of the operations where the original operators failed to sendout QSL cards and the IOTA Committee obtained copies of the logs, funded the cost of the QSL cards and appointed Phil as QSL manager. QSL via G3SWH either direct (Phil Whitchurch, 21 Dickensons Grove, Congresbury, Bristol, BS49 5HQ, United Kingdom) or through the bureau. <TNX G3SWH>

QSL T99DX ---> Marcus, DL3NCI has finally received the cards for his activity as T99DX from Bosnia (1997 CQ WW CW Contest). QSL via DL3NCI either direct (Marcus Grampp, Kirchenweg 4, 90419 Nuernberg, Germany) or through the bureau. <TNX DL3NCI>

DXCC NEW ENTITIES? ---> On 1 April 1998 a petition has been filed by Paul Granger, F6EXV on behalf of the Clipperton DX Club for the addition of two new entities to the DXCC list, namely the Marquesas Islands and the Austral Islands. "Under the new definitions of what constitutes a 'political entity', namely IARU membership", F6EXV states, "French Polynesia is clearly a 'point 1 country'. Furthermore, any island of the Marquesas group is situated more than 350 km away from any other island of the parent country. Any island of the Australs is situated more than 350 km away from any other island of the parent country, and more than 800 km away from any island of the Marquesas". - H40 - The H40AA DXpedition (Temotu, OC-100) reached the 35,000 QSO mark at 00.00 UTC on 6 April five days of operating. The first five days were spent on selected bands only to provide a maximum number of DXers with an early opportunity to work this new entity. Since 6 April the operation has been extended to cover a variety of bands and modes (RTTY started on 8 April around 03:30 UTC). The fourth complete station was expected to operate as of 5 April, with the arrival of Olli, OH0XX. This will allow them to have four full stations active 24 hours a day for the rest of the DXpedition (through 13 April). OH2BE, OH2BH, OH2TA and JA5DQH have now left the island to be replaced by 9V1YC, N4GN and W6OSP. The core group of OH1RY, OH0XX and N7NG remain on the island for the full duration of H40AA. ***** GOOD TO KNOW ... *****

ARRL DXCC MANAGER ---> Bill Moore, NC1L will replace Bill Kennamer, K5FUV (who has been appointed Membership Services Manager) [425DXN 359] as DXCC Manager, effective 20 April

CAMPBELL 1999 ---> The Kermadec DX Association DXpedition to Campbell Island in January 1999 [425DXN 359] represents possibly the last chance for many years for a QSO with this DXCC entity and IOTA island (OC-037). The New Zealand Department of Conservation is restricting access to the island greatly and its only with representation at the highest level of New Zealand government and continued hard work by team leader Ken Holdum (ZL2HU) that permission to visit the island has been secured. The international team of operators include Ken Holdum (ZL2HU), Declan Craig (EI6FR), Andrew Williamson (G1ONWG) Jun Tanaka (JH4RHF), Al Hernandez (K3VN), Michael Mraz (N6MZ), Brian Biggings (VE3XA), Lee Jennings (ZL2AL), Chris Hannagan (ZL2DX), Ron Wills (ZL2TT), Jason Christensen (ZL2URN, New Zealand Department of Conservation staff member). They will be active as ZL9CI all bands and modes between 9 and

25 January 1999. The DX community will be able to rely on five pilot stations and a Campbell Island reflector which will be online about 60 days before the operation starts. The total budget for the ZL9CI DXpedition will be in the region of \$85,000 of which the members of the team have contributed \$33,000. So far donations of about \$11,000 have been received from DXers and clubs, but almost \$38,000 are still needed to meet the expected costs of mounting this DXpedition. Contributions can be sent to either The Kermadec DX Association, PO Box 56099, Tawa, Wellington, New Zealand or The Kermadec DX Association (Europe), 167 St. James's Road, Greenhills, Dublin 12, Ireland. All donations will be accepted and in the event of the DXpedition not proceeding be returned. <TNX EI6FR>

FT5*/FR5HR ---> Gil, F5NOD reports that Rene, FR5HR does not have a license to operate from any of the French sub-antarctic islands (FT5X, FT5W, FT5Z). The French licensing authorities, F5NOD states, do not issue FT5*/home call licenses. With reference to FR5HR's announced activity from Amsterdam [425DXN 362], Gil says that the French authorities have confirmed that the last two calls they have issued are FT5ZG and FT5ZH (the latter will be used by F5PFP and F5SIH between 27 November and 23 December, 425DXN 359). <TNX F5NOD>

H40AA ---> The multinational H40AA expedition to Temotu Islands was expected to close down 9 a.m. local time on 13 April (18.00 UTC on 12 April). The 65,000 QSO mark was reached on the morning of 12 April and the number of different stations logged is expected to reach a record high. There were no more than five operators on the island at any given time because of limited facilities. Crew rotation was effected in such a smooth fashion that continuity and overall operating strategy were maintained without interruption. One complete station with a triband beam antenna will be left behind for permanent operations by the Solomon Islands Radio Society (SIRS). QSL cards will be ready within the next two weeks (QSL via OH2BN, but please see QSL H40AA, SPECIAL EDITION below). It is planned that a website log checking facility will be available at the H40AA homepage (<http://www.iglou.com/n4gn/h40aa>) as soon as the multitude of logs are fully integrated. <TNX OH2BN>

QSL 6W1AE ---> F5THR is not the QSL manager for 6W1AE. He operated from there between 1991 and 1993, but 6W1AE is a military club station whose QSL route is either direct to P.O. Box 1303, Dakar, Senegal or through the 6W bureau. <TNX F5OGL/6W1RE>

FATHER MORAN MEMORIAL STATION ---> Satish Kharel (9N1AA) and Charles H. Harpole (K4VUD/9N1UD) have begun to establish a memorial club station in Father Moran's (9N1MM) memory and for the furthering of amateur radio in Nepal. "We will ask for his old call for the station and our plans are to locate it, sooner or later, in a space which will allow easy visitor operations and good training for more native Nepal hams", Harpole says. He now calls on all DXers world wide to send him advice on getting this project developed, prepare to support the establishment of club 9N1MM with funding and gifts of radios and antennas, and advise how to get ham radio manufacturers interested in donations. Please contact Charlie at either harpole@pegasus.cc.ucf.edu or Charles H. Harpole, 3100 N. Hwy. 426, Geneva, FL 32732-9761, USA. <TNX K4VUD>

QSL H40AA, SPECIAL EDITION ---> Dr. Ashley Wilson belongs to the New Zealand Volunteer Service Abroad and leaves at Lata, the main village in the Temotu province from where the H40AA operation took place. From his Temotu Development Authority office Dr. Wilson works hard to help the locals to ultimately achieve a high literacy rate, healthy surroundings and good prospects of creating and supporting their own success on their lonely island. Dr. Wilson has many prospects and there are thousands of opportunities for achieving progress, but the resources are rather limited. The H40AA team has decided to support Dr. Wilson's efforts through a limited number of *** SPECIAL EVENT FIRST TEMOTU EXPEDITION H40AA QSL CARDS *** to be issued to those who contribute USD 25 or more (these funds will be used solely for specifically selected projects). The Special Edition QSL Cards will be signed by Dr Ashley Wilson, stamped by the Temotu Development Authority and mailed from the Lata Post Office using selected, relevant

Solomon Islands postage stamps which depict the overall island group and the person who once discovered the islands (Don Alvaro de Mendana y Neyra, a Peruvian Spanish explorer who sighted these islands on 7 February 1568). Please send your contribution & QSO data direct to W6OSP: Temotu Development Fund, Bruce Buttler, 4220 Chardonnay Ct, Napa, CA 94558, USA (you may also notify W6OSP of your contribution through email: w6osp@aol.com). The deadline for these Special Edition QSL Cards is 10 May 1998. <TNX OH2BN>

QSL WAKE 1998 ---> Those who have sent their N200/KH9, K8XP/KH9, N6MZ/KH9 and N2WB/KH9 cards to the operators need not resend, as they will forward the QSLs to the correct manager as soon as the cards are printed - but please note the correct route for these four calls is via WA4YBV (Robert Pond, 9 River Cove, Portsmouth, VA 23703, USA). <TNX N200>

QSL ZK1DI ---> QSL manager Hans, DK1RV reports that Guenther, DF4DI has logged almost 20,000 QSOs (11131 CW, 8481 SSB and 253 FM) on 9 bands during his activity (16 November 1997-31 March 1998) as ZK1DI from Rarotonga (OC-013), South Cook Islands. All direct cards received so far with SAE and sufficient return postage (please note that 3 DM, ie. 2 US\$, are needed to airmail a letter outside Europe) are in the mail. QSL via DK1RV either direct (Hans-Georg Goebel, Postfach 1114, D-57235 Netphen, Germany) or through the bureau. <TNX DK1RV>

QSL MANAGER NEEDED ---> Igor Pyastolov, UA0ZBK (zone 19) is looking for a QSL manager. He is a good QSLer, but mail often gets lost. Please contact Igor at igorp@tva.khv.ru (<http://www.tva.khv.ru/ua0zbx>).

ROWLEY SHOALS 1999 ---> During the IOTA Convention at Las Palmas Malcolm Johnson, VK6LC announced his plans to be active from Rowley Shoals (OC-???) in 1999. Mal plans to be active from Imperieuse Reef (17.35S, 118.55E), whose surface above the high tide mark measures approximately 800 metres in length and 250 metres in width. Mal has been active in IOTA for ten years and this is his most ambitious (and expensive) DXpedition. QSL cards will be donated by the Diamond DX Club.

TA QSL BUREAU ---> As of 1 May 1998 the new address for the Turkish Amateur Radio Society QSL bureau is: TRAC QSL Bureau, P.O. Box 699, 80005 Karakoy, Istanbul, Turkey. <TNX TA1BY>

- YN - AD5A, AB5EB, N5FTR and N5UR started their activity from Isla de Venado, in the Caribbean Sea Coast South group [425DXN 366] around 00.40 UTC on 22 May. They are using the special call H75A. QSL via N5FTR (Buzz Loeschman, 717 Milton, Angleton, TX 77515 USA).

***** GOOD TO KNOW ... *****

3B7RF ---> The DXpedition to Raphael Island in the St. Brandon (Cargados) Archipelago (AF-015) is over after 53,000 QSOs. The SSB stations went QRT on 16 May at 08.00 UTC, while the CW stations were expected to close down 24 hours later. QSL via HB9RF either direct (Postfach 37, CH-6319 Allenwinden, Switzerland) or through the bureau. <TNX W6TER>

BOUVET ---> It has been rumoured that the South Sandwich Island DX Group (SSIDXG) has cancelled plans for a DXpedition to Bouvet. This is not true. The January 1998 operation was postponed on the authority of the Norwegian Polar Institute in April 1997 [425DXN 309], when an ecosystem monitoring programme was being established on the island and landing permissions were

temporarily revoked. Tony DePrato, WA4JQS now confirms that the situation has not changed: their plans have not been cancelled, but postponed till next year. <TNX WA4JQS>

BRAZIL DX NET ---> It is now held on Saturdays and Sundays from 13.00 UTC to 15.00 UTC on 28.433 MHZ and from 19.00 UTC to 21.00 UTC on 14.222 MHZ, and on Monday-Friday from 09.00 UTC to 10.00 UTC on 14.240 MHZ. <TNX PS7AB>

NCDXF ---> At its meeting during the International DX Convention (Visalia, CA, 1-3 May) the Northern California DX Foundation elected Chuck Ternes, N6OJ, to the position of Director. Chuck has previously served as an Advisor to the Board of Directors. Further information on the NCDXF may be found at www.ncdx.org <TNX W6RGG>

QSL ZY6XC ---> Cards for Jim's (PY7XC/6) September 1997 operations from Tinhare Island (SA-080) have been ordered and are expected to be ready very soon. However, Jim (Jemesson Faria, Rua Dhalia 228 Apt 401 B.Viagem, Recife-PE 51020-290, Brazil) is currently experiencing extremely serious personal problems, so please be patient. <TNX CT4NH & PS7AB>

***** GOOD TO KNOW ... *****

+ SILENT KEY + Former US Senator Barry Goldwater died on 29 May at the age of 89. Our readers outside the US surely remember the sharp-tongued, uncompromising defender of conservatism, who lost the presidency in 1964 against Lyndon B. Johnson. However they may ignore that Sen. Goldwater was a noted radio amateur (first licensed in 1921, he would operate as K3UIG from his Senate office and as K7UGA when he was at home in Arizona) who did a lot for amateur radio. His bill to allow reciprocal operating agreements between the US and other countries was signed into law in 1964 and his legacy includes also the establishment of the volunteer examination programme (1982).

CY9RF CANCELLED ---> Dan, K8RF reports that the CY9RF expedition to St. Paul Island (28 May - 2 June) [425DXN 367] was cancelled due to various factors, mainly last minute conflicts with one of the operators' schedule. "We did not have enough manpower to properly mount the operation", Dan says, "so I felt it was best to cancel other than do a poor job". <TNX K8RF>

IOTA AT FRIEDRICHSHAFEN ---> RSGB IOTA Committee Chairman Martin Atherton, G3ZAY and IOTA Manager Roger Balister, G3KMA will attend Ham Radio 1998 at Friedrichshafen (25-26 June). An IOTA Forum will take place on 26 June at 14.00 (local time) in the Konferenz Raum and an IOTA Get-together has been organized on 26 June at 19.00 (local time) at "Beim Bene" (VFB Stadion Gaststaette, Teuringer Str. 2). IOTA Country Assistant for Germany and Checkpoint Hans-Georg Goebel, DK1RV will be at the Yaesu booth in hall 10. <TNX DK1RV>

QSL CQWW WPX CW CONTEST 1998 ---> Pascual Guardiola, EA5EYJ has compiled a list of QSL routes for stations active in this year's event. Give a look to <http://www.arrakis.es/~ea5eyj/wpxcw98.htm> (the latest update will be available around 8 June). <TNX EA5EYJ>

QSL IL3/IK3QAR ---> Cards for IL3/IK3QAR operations from the islands of Campana (EU-131, IIA VE-029) and Poveglia (EU-131, IIA VE-030) on 23 May are handled by the operator himself, who has no QSL manager. <TNX IK3QAR>

QSL P3A ---> Direct cards for P3A (Multi-Multi from Cyprus in CQWW WPX CW) should be sent to UA9YAB (Alex Vedernikov, Box 120, BIYSK Altajskij kraj, 659300 Russia). Alex requests 3 IRCs + SAE. <TNX UA9YAB>

QSL VIA IK2MRZ ---> Direct cards for 1992 and 1993 operations by IL4/IK2MRZ from Scanno di Piallazza (IOTA EU-155, IIA FE-001) can be requested to Roberto Pagano, P.O. Box 37, 20092 Cinisello Balsamo - MI, Italy until September. After this date all QSOs for which Roberto, IK2MRZ has not received a QSL request will be automatically confirmed via bureau. Roberto still has logs and QSL cards for the 1991 S79HX operation by IK2BHX (QSL either direct or through the bureau). <TNX IK2MRZ>

QSL 9M0C ---> QSL manager G3SWH reports that he has received 5,735 items of mail, and is dealing with them strictly in their order of arrival. So far, he has opened 4,115 of them and 9,037 QSOs have been confirmed. Please note that many replies to Australia, New Zealand and the Far East have been sent by surface mail due to insufficient return postage (while an IRC covers basic rate postage to all destinations, from the UK this is only for items up to 10g. The double-side card, along with inserts which he is obliged to include on behalf of various sponsors, takes the weight over this, especially where the return envelope is heavy of itself). Please do not send second requests at this stage. <TNX G3XTT>

QSL VK8AN & VK8AN/P (OC-154) ---> Please note [as published in 425DXN 368] that Dan's *new* QSL manager is VK4AAR (Alan Roocroft, c/o Post Office, Dalveen, QLD 4374, Australia). Alan is also the QSL manager for V63PD, V10ANARE, VK8MI, YJ8AA, ZK2JJ and ZK2PJ (he does *not* handle cards for either VK9WM or VK9WY).

His basic intentions, which may change due to work and other factors, are as follows: on 160 metres he will call CQ on 1.828 MHz (rx up 2) 05.05 UTC (ZL8 sunset) and 18.45 UTC (ZL8 sunrise) for 10 minutes when he is able to; on 80-10 metres he will be on or near the usual DX frequencies (on 30 metres he will be calling on 10.120 MHz), around 07.00 UTC-11.00 UTC initially, other times as work allows, particularly at the end of the trip and on any days off that he manages to have. 2 METRE TRANSATLANTIC ATTEMPT ---> Members of the Halifax ARC of Nova Scotia and the West Island ARC of Montreal will attempt to complete a 2-metre QSO across the Atlantic Ocean during the planned 22-28 July DXpedition to Fogo Island (47.9N-54.2W, grid GN29), Newfoundland [425DXN 371]. They will transmit a CW CQ at 15 w.p.m. for the first 30 seconds of each minute, and listen during the remaining 30 seconds. The callsign will be VO1NO. One hundred fifty watts will be fed to a 15-element long-boom yagi using horizontal polarization on 144.280 MHz. The group will be monitoring the European beacons just above 144.400 MHz, and may also transmit on the European calling frequency of 144.300 MHz. Those able to copy the CQ but unable to raise a response should contact the group by telephone at 1-514-953-6808. Reception reports may be forwarded by electronic (bowser.elliott@ns.sympatico.ca) or regular mail (Al Penney, VO1NO, 39 Lakehigh Crescent, Timberlea, Nova Scotia, Canada B3T 1N1). <TNX VE2SEI>

MUSEUM SHIPS WEEKEND ---> This event, which is scheduled on 18-19 July, is sponsored by the USS Salem Radio Club. For further information check <http://www.uss-salem.org> <TNX OPDX Bulletin>

QSL LU8XPB ---> Cards for Dion, LU8XPB (the only station active on SSTV from Tierra del Fuego: look for him during the weekends on 21.340 MHz around 13 UTC and 20 UTC) should be addressed to P.O.Box 81, 9410 Ushuaia, Tierra del Fuego, Argentina. <TNX LU8XPB>

QSL NP3F & NP3G ---> Terry Burkholder, NP3G (ex W5XJ) and Karen Whall, NP3F (ex N4YGP) have moved permanently to Puerto Rico. Cards for them should go either via CBA or to the KP4 bureau, as QSLs sent to N4YGP and NP3G will not be answered. <TNX NP3G>

QSL ZD9IL ---> QSL Manager Edwin Musto, ZS5BBO (P.O. Box 211032, Bluff, 4036 South Africa) reports that Ian, ZD9IL is at this moment on board a ship making his way to Cape Town for a holiday. Once on the mainland he will send his logs covering the contacts made from 5 December 1997 to about 4 July 1998. "When I receive the log sheets I will get to work immediately and send

out all QSL cards for cards received to this date", Musto states. Edwin's appeal for a beam to be donated to ZD9IL [425DXN 373] has been successful and an antenna has been shipped to Cape Town for forwarding to the island. <TNX ZS5BBO>

QSL VIA VK4AAR ---> Please note that cards for VK8AN and VK8AN/6 (OC-154) should be sent to VK4AAR (Alan Roorcroft, c/o Post Office, Dalveen QLD 4374, Australia) and *not* to VK4AAQ [425DXN 374]. We apologize for any inconvenience the typo may have caused our readers.

LOGS ON LINE: KL7/K6ST ---> Logs for KL7/K6ST (NA-210/Prov) are now available on the Islands On The Web site at <http://islandchaser.com> (thanks Chris,

N1HRW). Bob, K6ST and Tom, W6IXP were active as KL7/K6ST from Sledge Island in the Norton Sound Coast North group for about 24 hours between 24 and 25 July [425DXN 377]. "A 24 hour trip was all we could afford since staying on Sledge Island longer would eliminate any chance to make Diomedea", Barry and Tom report. The aurora had a big impact on their operation, with signals bouncing between S9 and completely inaudible within a few syllables. KL7/K6ST logged 552 QSOs on 20 SSB (300 with North America, 180 with Europe). QSL via N6AWD (Fred K. Stenger, 6000 Hesketh Dr., Bakersfield, CA 93309-1429, USA). <TNX G3ZAY and Islands On The Web>

LOGS ON LINE: TL5A ---> Logs for Alex, TL5A (PA3DZN) [425DXN 373] can be found at <http://www.igr.nl/users/pa3dmh/> (QSL via PA3DMH).

QSL 7Q7DX ---> Cards for Elmer Ribeyro, 7Q7DX are now handled by EA4CEN (direct only). <TNX 7Q7DX>

QSL AC6WE ---> Active contester Andy Melanyin, UA3DPX frequently uses AC6WE for his overseas operations. Most frequent operations have been 5B4/AC6WE and IG9/AC6WE. QSL to Box 9, 141400 Himki 7, Russia (Andy is unable to retrieve cards sent to the AC6WE address in Oregon or the W6 bureau). <TNX K7FL>

QSL BI3H ---> The BI3H IOTA Contest operation from AS-134 [425DXN 363] was cancelled due to bad weather. QSL manager W3HC reports that the cards for the April 1998 operation have been ordered and will be ready within 7-8 weeks.

QSL CY9AA ---> Effective immediately, K7BV (Dennis Motschenbacher, 4357 Appollonio Way, Carson City, NV 89704, USA) has assumed responsibility for the CY9AA (28 June-3 July 1997 DXpedition to St. Paul Island) QSL chores. If you have already sent your cards to either Mike, VE9AA or the VE9 QSL Bureau, do not send dupes to K7BV. Please note that it will take several weeks to clear the entire backlog of cards received. <TNX K7BV>

QSL AJ2U/VP9 ---> Bob, WB2YQH reports he is no longer the QSL manager for AJ2U/VP9 for 1998 because he does not have any logs and QSL cards. QSL requests should be sent to AJ2U now. <TNX OPDX Bulletin>

QSL VE3ZZ/VE2 ---> QSLs for contact made with Gregg, VE3ZZ/VE from NA-128 during the IOTA Contest should go to VE3ZZ either direct (Gregg A. Calkin, P.O. Box 1345, Ottawa, Ontario K1P 5R4, Canada) or through the bureau. The QSL route given in the special bulletin issued on 24 July (VE*2*ZZ) was a typo - we apologize for any inconvenience this may have caused our readers.

QSL VIA W6MD ---> Steve Busono, W6MD is the *new* QSL manager (direct only) for YB1XUR and YC9WZJ, but *not* for YB2PBX. He is also the QSL manager for YB2BRW, T93Y, T93Y/5B4 and T94EU (direct and bureau: please note that bureau cards are sent out once a year). <TNX W6MD and The GOLIST>

If you want to subscribe, send a message to listserv@jerseycape.net and place subscribe dx-news in the body of your message. If you have any questions or problems send a message to Steve Adell, KF2TI@planet.net

QSL H40AA & H44DX ---> Tim Totten, N4GN reports that all the first-pass replies are expected to be in the mail by 7 September. The balance of the requests (those with QSOs not initially found in the database) will be researched further and released during the remainder of September. This second-pass research will include a review of the original paper logs or computer files and, for those pileups that were recorded, the video tape archive. DXers are asked not to send second requests before the completion of this second-pass research. Bureau cards will be processed after the direct replies.

QSL HS0/G4JMB ---> "I have decided that as I spend more time in Bangkok, then that should be the QSL information for all my calls", Philip Weaver, HS0/G4JMB (also 9M6CT, VR2CT and G4JMB) reports. His UK and USA (Oxnard, CA) are no longer valid and cards should be sent to P.O.Box 7, Patpong Post Office, Bangkok 10506, Thailand. [TNX K1XN and The Golist]

He will start working them immediately, please do not resend KH9 requests. Tom also reports he has just completed all directly received QSL requests for ZK1XXP (DDXA September 1997 operation from Penrhyn Atoll, North Cook) and has started working on bureau cards: "if you have not received a card from an earlier request contact me directly (n4xp@juno.com) and do not resend until I advise you to". Look for him on CW (7.030, 14.040, 21.040, 28.040 MHz) and SSB (14.260, 21.260 and 28.460 MHz). QSL via W5BOS (Lanny Phillips, 8381 FM 2101, Quinlan, TX 75474-4836, USA). DXCC ---> Those who want to be included in the ARRL DXCC Yearbook must submit their cards to the ARRL DXCC Desk by 30 September. Please note that QSL cards for the three new DXCC entities (Temotu, Austral and Marquesas) should not be sent as they will be accepted for credit as of 1 October.

HS1D ---> The Daily DX reports this newly licenced amateur is Princess Sirindhorn, third in line to the Thai throne after the King, HS1A, and the Crown Prince.

NEWS FROM IRAQ ---> Pierre, HB9AMO has recently spent three months in Iraq. He visited the Radio Club of Baghdad (YI1RS) and met the President, Mr. Anan M. Aswad, YI1DX. There are some 30 licenced amateurs in Iraq, but they are permitted to operate (with their own call) only from the Radio Club in Baghdad, usually on Fridays around 12-14 UTC. The club has an old equipment with a small 3 band beam and a 40m dipole. WARC bands are permitted, but 80 and 160 metres are not allowed. Operators from the Radio Club cannot use their Yaesu FT-101E any more because of a broken pair of final amplifier tubes: if anyone has a pair of 6JS5C tubes or equivalent (6KD6, 6LB6, 6LR6) that could be sent to the Radio Club of Baghdad, the address is: Iraqi Association for Radio Amateurs, P.O. Box 55027, Baghdad, Iraq. [TNX HB9AMO]

RSGB CONVENTION ---> The annual RSGB HF & IOTA Convention will take place between 9 and 11 October. The very broad programme includes presentations on 9M0C, 3B7RF, H40AA, H75A (NA-209), KL7/K6ST (NA-210) and KL7/W6IXP (NA-150). Manfred's Home Page is at <http://www.qrz.com/df6ex> [TNX DF6EX]

QSL 9M0C ---> All direct cards to date have been replied to and posted. All e-mail requests to date have been responded to via the RSGB bureau. All bureau cards received to date have been processed and passed to the RSGB bureau. If anyone requesting a direct card has not received a card by 24 September they should re-apply to G3SWH (Phil Whitchurch, 21 Dickensons Grove, Congresbury, Bristol, BS49 5HQ, England, UK). [TNX G3XTT]

Further information is available at <http://space.tin.it/internet/fpallucc/arijesi/ii6fii/index.htm> [TNX IK6PYS]

QSL L4D ---> Phil, G3SWH still has the logs and cards for the SSB only operation on 14 and 21 MHz by L4D from Blanca Island (SA-065) on 20-21 November 1993. He will only respond to cards received, either direct or via the RSGB bureau. Please note that he is unable to help with QSLs for any other operations by L4D from any other location or on any other dates. [TNX G3SWH]

QSL MM/K5MK/P ---> Larry McKay, K5MK reports he has replied to all the requests for MM/K5MK/P cards (EU-112, May 1998) received through 1 September. The delay was due to a computer program failure, followed by a printer malfunction. [TNX K5MK and Islands On The Web]

QSL TL5A ---> PA3DHM (Delta Hotel Mike) complaints of receiving cards for TL5A - please note that the correct QSL manager is and has always been PA3DMH (Delta Mike Hotel) and that cards sent to the wrong person will be returned or destroyed. Alex, PA3DMH reports he has replied to all the requests received up to 8 August. Cards can be sent to PA3DMH either direct (Alex van Hengel, Schoener 85, 2991JK Barendrecht, The Netherlands) or through the bureau. [TNX PA3DMH]

QSL YC0AZ ---> The QSL manager for Wisnu is W7TSQ (not W7TSK as reported in 425DXN 384). We apologize for any inconvenience the typo may have caused our readers.

5V7FA ---> Both Marc, F5PCU [425DXN 375] and Cris, G4FAM [425DXN 383] hold a 5V7FA licence, which seems to have been issued twice by the Togo licencing authorities. Efforts are being made to solve the problem. For the time being please note that Marc F5PCU/5V7FA (QSL via F6FNU) works SSB, while Cris G4FAM/5V7FA (QSL via G4FAM) will be working CW in November as a member of the Voodoo Contest Group team.

A22/ & Z2/W0YG ---> Charlie, W0YG reports he worked "a bunch from Z2 but never got the chance to operate on 80/160 metres as a DX mobile signal on those bands is equivalent to a dummy load. An unforeseen bout in the bush with malaria cut short my operation from Z2 and stopped me from further operating from A2 when I went there. I will again try for licensing on my next trip and attempt to do a better job of it then". Charlie visited Botswana and Zimbabwe in July/August 1998 [425DXN 375]. QSL to Charlie Summers, 6746 North Yucca Trail, Parker, CO 80138-6110, USA.

DX AWARDS ---> The K1BV DX Awards Directory is a 250-page book listing the rules for 2640 awards from 117 countries. For further information please contact Ted Melinosky, K1BV, 65 Glebe Road, Spofford, NH 03462-4411, USA.

ITALIAN LAKE ISLANDS AWARD ---> It is available to both licenced and SWLs who have worked/heard stations (from 1 January 1998) operating from Italian islands located in lakes (not IOTA). The award (I.L.I.A.) is sponsored by the Crazy DX Group (P.O. Box 11, 04011 Aprilia - LT, Italy). For further information visit <http://www.grisnet.it/crazy> or <http://www.qsl.net/crazy> [TNX CRAZY DX GROUP]

HIGHWAY ARC AWARD ---> It is available to both licenced amateurs and SWLs who have worked/heard 23 stations (from 1 July 1996 onwards) whose last letter of the call sign makes up the words "Highway Amateur Radio Club". Send a copy of the log (certified by two other radio amateurs from your radio club) with US\$ 6 or 12 IRCs to The Awards Manager, P.O. Box 779, New Germany, 3620 South Africa. [TNX ZS5BBO]

QSL HP3XUG & HO3A ---> Louis, KG6UH/HP3XUG/HO3A reports that his current address (PSC 61 Box 324, FPO AA 34061) [425DXN 384] will cease to forward after February 1999. The new address is: Capt. Louis N. Anciaux, USN (RET), PSC 1 Box 57, APO AA 34001-0057, USA. His local Panama address (Apartado 417, David, Chiriqui, Republica de Panama) remains valid, although it is quite slow at times.

QSL KH9 ---> Do not resubmit cards for K8XP/KH9, N200/KH9, N6MZ/KH9 and N2WB/KH9 (the Dateline DX Association's DXpedition to Wake in February-March). Tom, N4XP reports that cards are being processed and mailed daily, but there are two factors that slow down the process: many operators put cards for QSOs with all four stations in a single SASE while others put

QSO labels from one or more QSOs with more than one of the DXpedition calls on a single QSL.

QSL UA9LP ---> Serge, UA9LP (ua9lp@yahoo.com) is active daily on 10-80 metres RTTY from Zone 17. QSL direct to his new address: Serge S. Abyshev, Box 698, Tyumen 625000, Russia. [TNX UA9LP]

QSL YC8VIP ---> Ovy, YC8VIP (OC-070) reports that VK4FW is *not* his new QSL manager [425DXN 386]. QSL cards should be sent to W6MD (Steve Busono, 1700E, 13th No. 14 OE, Cleveland, OH 44114, USA). [TNX OPDX Bulletin]

QSL VIA NE8Z ---> Rick, NE8Z is the QSL manager for HC1HC and HD1HC and can confirm all past, present and future QSOs. His address is Rick Dorsch, P.O. Box 616, Hamburg, MI 48139-0616, USA. [TNX NE8Z]

RODRIGUEZ 1999 ---> The DXpedition to Rodriguez Island will not take place in early January 1999 [425DXN 383] due to the concurrent DXpedition to Campbell [425DXN 383]. However Frank, AH0W is reported to be still planning the 3B9 operation on a later date. [TNX The Daily DX]

- PY - Nylson, PY1BNE will be active (on 40, 10 and 20 metres CW and SSB) as PY1BNE/p from Itacuruca Island (SA-029, DIB 66) between 12 and 18 October. QSL via PY1BNE (Nylson Eduardo dos G. Peixoto, Rua Joaquim Palhares 585/304, 20260-080, Rio de Janeiro-RJ, Brazil). [TNX PY1BNE and PP5SZ]
- SP - Special event station SN20JP is active until 31 October from Cracow to celebrate the 20th anniversary of pope John Paul II's pontificate. QSL via SP9PKZ. [TNX SP9MAX]
- VE - Special event station VY1A will be active in October and November to celebrate the 100th anniversary of the Yukon Territory Gold Rush. QSL via VY1JA (VE stations) and KB5IPQ (others). [TNX DX News Sheet]
- VP9 - Seiji, JH6RTO/AH0R will be active (especially on 12, 17 and 30 metres) as AH0R/VP9 from Bermuda (NA-005) between 15 and 17 October. QSL via JH6RTO either direct (Seiji Fukushima, 1182-2506 Hase, Atsugi, 243-0036 Japan) or through the bureau. [TNX The Daily DX]
- VR2 - VR2SS (JK2PNY) will be active as VR98SS/p from Lamma Island (AS-006), Hong Kong between 12 and 20 October. QSL via JK2PNY (Motoi Kawatsu, 205 Mezon Hiramatsu, 3-17-15 Nishisugamo, Toshima-ku 170-0001, Japan). [TNX JI6KVR]
- W - Lew, N6VV has not given up being active from NA-184 [425DXN 387]. "I am going to the abandoned lighthouse with the St. George Reef Lighthouse Historical group", Lew reports. "They have been trying to get on the rock for some time now but have run into WX related problems for a number of years. The reason they go out only during the winter is that they must comply with wildlife regulations which prohibit visiting the lighthouse until 1 October each year due to breeding sea-lions and birds. Travel to the rock can ONLY be accomplished by helicopter as the sea approach is treacherous". The group has now hired a smaller helicopter and, weather permitting, Lew will try to set up on Friday evening (16 October) and to operate for 24 hours on 17 October. [TNX N6VV and Islands On The Web]
- ZF - Bruce, N6NT will be active as ZF2NT from Little Cayman (NA-016) from 11 October until April 1999 while building a new house. QSL via N2AU. [TNX DX News Sheet]

BT2HC & UE0LEZ ---> Martti, OH2BH reports that the recent special event stations [425DXN 385] were a tremendous success. They received quite a bit of local coverage in both the television and print media, and it is hoped that this enthusiasm for ham radio spreads into other areas of the region. [TNX N4GN]

ERITREA 1998 ---> The Space A DX Group [425DXN 383] 20 operators will have to apply for their license after they are in Eritrea, and each operator will have to pay \$500 for his/her operating permit, as they can not operate as a group with one licence. "At this point the donations are just enough to cover the cost of our excessive baggage", Bruce Richards (WD4NGB) reports. "We are planning to use two hotels on opposite sides of town so we can run 4 stations 24 hours a day. If you want this to take place, we will have to get additional donations coming in very soon. We are not asking the DX community to cover the complete cost of the license, which is \$10,000, but without some help on this, a large percentage of the operators will not be able to go". Donations can be sent to Eritrea, c/o Bruce Richards, 533 Briarwood Dr., Clarksville, TN 37040, USA and will be returned if the operations does not tak place. For more information, check <http://qsl.net/eritrea> or

<http://pagus.it/E31DX> [TNX WD4NGB]

ET3AA ---> The log for the recent ET3AA operation from the club station of the Ethiopian Amateur Radio Society in Addis Ababa [425DXN 383] is now available on-line at <http://www.bramham.demon.co.uk/> on the ET3AA page (a Java enabled browser is required). Steve (G3VMW) and Andy (G4ZVJ) made 10,300 QSOs as follows (band/QSOs): 10/2266, 12/1451, 15/1994, 17/1431, 20/1321, 30/700, 40/648, 80/40, 160/1 (160 and 80 metres were particularly difficult because of the high levels of QRN). QSL via G3VMW (Steve Wilson, 3 Crag Gardens, Bramham, Wetherby, Wetherby, West Yorkshire, LS23 6RP, England) or via EARS, P.O. Box 60258, Addis Ababa, Ethiopia. Any additional donations will be passed on to the Ethiopian Amateur Radio Society (EARS) to further amateur radio and technical training in Ethiopia. [TNX G3VMW]

LU1XT ---> This has been the new call of Dionisio Andrade, LU8XPD since 4 August. Dion transmits from Tierra del Fuego, IOTA SA-008. [TNX LU1XT/LU8XPD]

MACAO ---> OH2PM (XX9TR) and OH2BH (XX9TZ) were active over the past weekend from Macao while preparing their station there for the upcoming contest season.

QSL VIA HB9BGN ---> Albert, HB9BGN can only confirm contacts made with ZA1A during the 1992 CQWW CW Contest. For all the other ZA stations whose route is "via HB9BGN", Albert acts as a maildrop: "I have no logs and no QSLs of those stations", he says. "I collect the QSL-mail which I receive and forward it to Tirana as soon as we have received 100-150 letters. The next shipment will be at the end of October". Albert has forwarded over 5,000 letters since 1992. [TNX HB9BGN]

QSL VIA IK2DUW ---> Antonello, IK2DUW (Box 22, 20051 Limbiate - MI, Italy) reports he has received the logs from Armenia and has replied to all the direct requests for EK88L [425DXN 380].

QSL VIA IK7JTF ---> He is the QSL manager for Tanya, BV5BG and can confirm contacts made from 1991 onwards. QSL to Salvatore Borace, 3 Trav. Corso Roma N.C., 70010 Cellamare - BA, Italy. [TNX IK2IQD]

ROWLEY SHOALS 1999 (VK9-99) ---> Planning of the VK9-99 DXpedition to Imperieuse Reef, Rowley Shoals (Western Australian Outliers, OC-???) [425DXN 383] is well in advance. The operators will be Jim Model (K9PPY), Sam Pimenta (CT1EEN), Steve Pall (VK2PS) and Mal Johnson (VK6LC, team leader) and they will be active for five days (21-25 September 1999) on SSB and CW with two stations. Donations can be sent to either ILHYW (Gianni Varetto, P.O. Box 1, 10060 Pancalieri - TO, Italy) or VK9-99, Malcolm K. Johnson, Commonwealth Bank of Australia, 187 High Road, Riverton 6148, Western Australia, Account 76 6164 5005591. Further information will be available soon at http://www-dx.deis.unibo.it/htdx/iota/vk9_99.html

AMSTERDAM 1998 ---> Jeffrey Pawlan, WA6KBL (pilot station for North America:

jpawlan@ieee.org) reports that the FT5ZH DXpedition to Amsterdam Island [425DXN 381] is on schedule and there are no problems so far. The equipment departed from Marseille on 5 October. The operators (Mehdi, F5PFP and Eric, F5SIH) will depart by plane for Reunion in early November. Enroute to Amsterdam Island, the ship will stop at both Crozet and Kerguelen, but Mehdi and Eric are most unlikely to operate from either of these islands. They will arrive on Amsterdam Island on 25 November and expect to have all antennas erected and operational on 27 November. They will operate around the clock on all bands CW, SSB and RTTY as much as they can until their departure on 25 December. The logs will NOT be available on the web while the operations take place. QSL via F6KDF. [TNX KF2TI and WA6KBL]

DX-CAFE ---> The DX-Cafe service (provided by Yann, F1NGP) is now fully active. This service broadcasts real time DX Spots taken from the Internet (see OH2BUA's DXSUMMIT page at <http://oh2aq.kolumbus.com/dxs/>) and the channel can be reached via packet radio. For further information please contact Fabrizio Sartoni, IK4VYX at rac2610@racine.ra.it

QSL CY9AA ---> Dennis Motschenbacher, K7BV (4357 Appollonio Way, Carson City, NV 89704, USA) has processed and mailed the majority of the direct cards for the CY9AA operation from St. Paul Island (28 June-3 July 1997) [425DXN 378]. Amateurs who sent their card via the VE9 Bureau are now invited to send another request to K7BV via the USA Bureau. [TNX QRZ-DX]

QSL MJ0ASP/MU0ASP ---> Mathieu, F5SHQ has been at Saint Saviour, Jersey since July [425DXN 373]. He is active in his free time as MJ0ASP from Jersey (EU-013) and MU0ASP from GU2FRO's QTH on Sark Island, Guernsey (EU-114). His QSL manager reports the cards have not arrived as yet from the printer, please be patient. QSL via F5OIU (Jacky Gargot, 21 allée Cabernet, F-33140 Cadaujac, France). [TNX F5OIU]

QSL T32NCC ---> Dave Wright, K6JOX (ex-KB6JOX) is the new "temporary" manager for Chuck, T32NCC (OC-084). "At this time, his QSL cards have not been printed, and I have not received any logs from Chuck", Dave reports. "Zoli, HA1AG (soon to possibly be Chuck's permanent QSL manager) and I are in process of setting up QSL management for him. He does not have cards, reliable mail service, or money for postage/QSL cards". The situation on Fanning is very primitive. Chuck powers his rig from a wind generator charging batteries and operates from a boat with an antenna strung between palm trees on the island. At this point, Dave cannot say when he gets the logs from Chuck, but for the time being you can send your QSL to K6JOX and he will try to have some QSOs confirmed by Chuck "on the air". [TNX K6JOX]

QSL VIA 7L1MFS ---> Yoh is the QSL manager for 3W4EZD, 3W5FS, 3W6EZD, E21AOY, HS7CDI, FG/JA2EZD, FS/JA2EZD, J6/JA2EZD, RA3RCL, RA3RQF, XU2A, XU2C and XUX0. He has moved recently and his new address is Hiroshi Yoh Yoshida, Shinko, 4-4-1 Arakawa, 116-0002 Tokyo, Japan. [TNX The Daily DX]

ANDAMAN AND NICOBAR IS ---> Nat, VU2NTA reports he is "now making another attempt to try and obtain permission for VU4. The going is pretty tough, with the government very unsupportive on the matter". He needs the support from the DX community and would like DXers to send him e-mail messages indicating their requests for activation of Andaman and Nicobar Islands by INDIAN AMATEURS (please note that "any requests to join the expedition by non Indian hams will definitely make the expedition a non starter!"). Send your message to vu2nta@amsat.org and KYFC. [TNX W2FG and VU2NTA]

C.Is.A. ---> The Canadian islands activated by VE2MA/p on 17 October were Ile St-Amour (PQ-044), Ile St-Ignace (PQ-045), Ile Madame (PQ-046) and Ile-Aux-Ours (PQ-047). For further information on the Canadian Islands Award please visit <http://www.tir.com/~wd8mgq/index.html>

D.I.C. ---> The Diploma delle Isole Campane (Campania region Islands Award) is sponsored by ARI Pozzuoli. For further information please contact the Award Manager, IK8UHA at either ik8uha@amsat.org or Sezione ARI, attn. Antonio Barbato (IK8UHA), P.O. Box 1, 80078 Pozzuoli - NA, Italy. [TNX IK8UHA]

ISLAND RENAMED ---> Kiribati has officially renamed Caroline Island as part

of its promotional campaign approaching the new millenium. It is now called Millennium Island. The information comes from the Tourism Council of the South Pacific (<http://www.tcsp.com/>)

NA-184 ---> Lew, N6VV and Dan, W7DR were on St. George Reef for only 23 hours on 17-18 October and logged 1187 QSOs in about 18 hours of operation ("I would guess more than 50% of the QSOs were with Europe", Lew says). QSL via N6VV (cards started going out on 21 October!). A photo and some historical information on St. George Reef Lighthouse, are available at <http://members.aol.com/fairyfeller/stgeo.html>: "after visiting the web page", N4VA says, "I feel a much stronger appreciation for Lew's efforts!" [TNX N4VA and N6VV]

QSL 3B7RF ---> The latest report (29 October) from Switzerland states that 26,100 QSOs have been confirmed so far. All direct cards received before 25 October have been replied. If you do not receive your direct card within a couple of weeks, please contact HB9BXE at hb9bx@pilatus.net before mailing a second request. Bureau requests are being processed as well. QSL via HB9RF (Postfach 37, CH-6319 Allenwinden, Switzerland). [TNX HB9BGN]

QSL BD7JA & BI7W ---> Reports mentioning F/HH2HM as QSL manager for BD7JA/7 and BI7W [425DXN 390] are not correct. Yang, BD7JA states he has never authorized anyone to handle these QSL chores. QSLs go to P.O. Box 1713, 510600 Gaungzhou, People's Republic of China. We apologize for any inconvenience this may have caused Yang and our readers.

QSL EA9EA ---> Joe, W3HMK reports that due to a miscommunication he will not be handling the QSL chores for the Ceuta Contest Club, EA9EA. Cards will be handled by EA9AZ. [TNX The Daily DX]

QSL EP2MM ---> Clyde, W5TQE has been reported as being QSL manager for this station and he is receiving many requests for cards. "I have not operated as EP2MM for over 25 years", he reports, "and I cannot reply to EP2MM cards". [TNX G3NUG]

QSL UA0IAS ---> It has been reported that many people were sending mail to the old callbook address for UA0IAS/0 at Box 500. Please note that all the mail CURRENTLY at Box 500 will be forwarded to the correct address, so it will not be necessary for anybody to resubmit a QSL, but any mail coming into Box 500 NOW will NOT be forwarded. Vald's current address is Vladimir Kolodkin, P.O.Box 11, Palatka, 686110 Magadanskya, Russia. Reports from Russia also mentioned that there is a mail strike now, so anybody waiting for mail should have patience. [TNX KB80]

QSL YA1R ---> Roger, G3SXW reports he is receiving direct cards for YA1R, which was active earlier this month. Please note that this call was actually issued to Roger in 1970 (and at that time the QSL manager was G3TXF), but he has not been in Afghanistan since 1973. The QSL route given by the 1998 YA1R is RW3LO.

Cards for CO2VG and CM2VK can be sent to HI3JH, but please note that he is not the actual QSL manager for these stations (he just helps

The site has been entirely restyled and now it can be found at the new URL

There are two separate mailing lists for automatic subscription to the
bulletin in its two versions (English and Italian).

- 3D2 - Lee Reisenweber, 3D2VA (ex-VP2VE) is the only resident who enjoys DXing on CW (but he works SSB as well, when the propagation is good, around 11 UTC on 14.165 and 14.226 +/- QRM). He may have some plans for the future, but first of all he wants to get settled as he has been in Fiji for only two months. QSL via WA2NHA. [TNX 3D2VA]
- 3W - Coly, UA0FM is going to be active as 3W5FM (not 3W5FW as reported in 425DXN 391: apologies for the typo!). QSL to P.O. Box 66, Vladimир, 600011, Russia.
- 5N - Radio amateurs from Nigeria are allowed to use the prefix 5N38 to celebrate the 38th anniversary of the independence of Nigeria. [TNX DX News Sheet]
- 9K - Bob, 9K2ZZ will be leaving Kuwait on 14 November, after some 163,000 QSOs on 10-160 metres, CW, SSB and RTTY. QSL direct only to W8CNL (Raymond McClure, 5 McKenzie Circle, N. Augusta, SC 29841-4319, USA), who can confirm contacts made also with 9K0ZZ, 9K2/N6BFM and N6BFM/4U.
- 9V - Special event station 9V8SEA will be active from Singapore (AS-019) on 13-15 November during the 26th South East Asia Net (SEAnet) Convention [425DXN 367]. [TNX DX News Sheet]
- DL - DL2RNS, DL2RVL and DL2VFR plan to be /P from Poel Island (EU-098, DIA O-002) between 13 and 15 November. They should operate 24 hours a day mostly on CW, with some SSB on the usual IOTA frequencies. QSL via home calls through the bureau. [TNX DL2VFR]
- F - Special event station TM80A is active until 15 November to celebrate the 80th anniversary of the end of World War I. QSL via F6KVD. [TNX F6AJA and Les Nouvelles DX]
- GD - Steve, G4UOL will be active again (on all bands, CW only) as GD4UOL from the Isle of Man (EU-116) between 20 UTC on 20 November and 16 UTC on 4 December. He will participate in the CQ WW CW DX Contest and plans are to concentrate on 17 and 12 metres as long as the bands produce QSOs. QSL via bureau to GD4UOL or direct to G4UOL. Skeds via e-mail (steve@g4uol.demon.co.uk) are welcome for QSOs outside the contest. [TNX G4UOL]
- HI - Mike, DL1HCM will be active (mainly on CW on 160, 80 metres and

WARC) as DL1HCM/HI8 from Dominican Republic (NA-096) between 24 November and 6 December. He will participate in the CQ WW CW DX Contest (SOAB). QSL via DL1HCM (QSOs will be confirmed automatically through the bureau, but if you need a direct card the address is Michael Peters, Moisinger Allee 72, 23558 Luebeck, Germany). Skeds for 160 and 80 metres are welcome at dl1hcm@luebeck.netsurf.de [TNX DL1HCM]

JD1_min- JL1KFR will be /JD1 from Minami Torishima (OC-073) between 6 and 25 November. He will concentrate on RTTY and CW in his spare time. [TNX 7K4QOK]

SP - Special event station SN0SUL will be active on all bands (CW, SSB, RTTY and SSTV) until 15 November to celebrate the 80th anniversary of the Regaining of Independence of Poland. The station is located at Sulejowek, near Warsaw, the home of Polish national hero Joseph Pilsudski. QSL via bureau to SP5ZCC. [TNX SP5UAF]

W - The FBI (Federal Bureau of Investigation) ARA is operating their club station K3FBI from Quantico, VA during the month of November in celebration of the FBI's 90th birthday. XZ - The first group of XZ1N operators [425DXN 390] will arrive in Yangon on 20 November and expects to be on the air by the 21st; the second group will arrive on 27 November just in time for the CQ WW CW DX Contest. Four HF stations will be operating and an array of over ten antennas will be in place on the hotel roof (100 feet above ground). Operations on 160 metres will be throughout the expedition with an entry in the ARRL 160 Meter Contest. There may be an extension of the 160 metres operation for another week past the official end date (6 December), if permitted. Look for XZ1N on the usual DX frequencies (in addition, especially on the higher bands, an effort will be made to listen in the General Class portion). Two pilot stations will synthesize your comments and feedback and forward it to the team: Dick Wolf, N6FF (n6ff@snowcrest.net) and Richard Briggs, WA7MTF (wa7mtf@intrepid.net). QSL via W1XT. Further information on the DXpedition is available on the Internet (see "News from the Web" below) [TNX NA7DB]

Edited by 11JQJ & IK1ADH

14.265 MHz ---> DXers should note that the FCC has declared a communications emergency to support the Honduras disaster relief effort. Under the order, which was issued on 10 November, amateur radio stations are required to refrain from using 14.265 MHz (+/- 3 kHz) unless they are taking part in the handling of emergency traffic.

BHUTAN ---> Jim Smith, VK9NS, who was planning to go to Bhutan in late October/early November, reports he has "reluctantly decided to postpone my planned travel for the time being for several reasons. We have had major problems on Norfolk in the last two weeks involving air travel to and from the island. (...) There will be some disappointment at this decision however as you are aware this planned visit to MOC was not intended to be a DXpedition but rather a means of getting things organized for the near future. (...) We will return to Bhutan as soon as it is practical to do so and when I can travel to Bangkok more easily". [TNX OPDX Bulletin]

D68BW ---> Hermann, DJ2BW logged 8252 QSOs on the nine HF bands during his recent operation as D68BW from Comoro Islands (AF-007). QSL via DJ2BW either direct (Hermann Samson, Tannenweg 2, 54317 Osburg, Germany) or through the bureau.

QSL CX5C ---> Jorge, CX6VM reports he is not the QSL manager for CX5C [425DXN 392]. This could have been "a miscopy of my callsign during the contest or a pirate", as Jorge's contest call is CX5X (QSL via W3HKN). We apologize for any inconvenience this may have caused our readers.

QSL KH0AS ---> Jim Sladek, WB4UBD is the *new* QSL manager for Mike, KH0AS. Those who have not received their direct cards should not resend at this time, as Jim expects to have the backlog in the mail by mid-November. Please note that if you have submitted cards to Mike via bureau, he probably never received them, as there is no Incoming Bureau for KH0. [TNX WB4UBD]

QSL TG9IGI ---> The *new* QSL manager (direct and bureau) for Germano, TG9IGI is Mario Ambrosi, I2MQP. Germano is reported to be preparing his station for RTTY activity. [TNX IK2NCJ]

QSL UU5J ---> Amateurs from Japan only can send their requests to JA6UBK, whose correct address is: Kouichi Ohba, 103 Daitoh Blg., 308 Yakuin, 2-4-5 Chuou Ku, Fukuoka City, 810-0022, Japan. [TNX UU2JQ]

QSL MANAGER NEEDED ---> The Crimean Contest Club (UU5J) is looking for a QSL manager in the US who can print and handle bureau and direct cards for contacts made with stateside amateurs. Please get in touch with Rusty, UU2JQ at nik@expl.cris.net

QSL NOT VIA KI4RU ---> Bob, KI4RU has been shown as the QSL route for several stations (namely 4J1GC, YU2WV/5N0, AA5K/NH0, P29KH, S52DV, V29YS, V420KAO, VK5BWR, YU2WV), but he is *NOT* and has *NEVER* been a manager for any DX stations. [TNX KI4RU]

QSL VIA K1WY ---> In an effort to speed up QSL returns and to reduce the cost of QSLling, the K1WY DX Association (P.O.Box 2644, Hartford, CT 06146-2644, USA) now has an office in Europe: The K1WY DX Association, P.O. Box 90, Eeklo 9900, Belgium. Stations managed by the Association are: 5R8ET, ET3BT, GI3MUS, GI6YM, K1WY, KW1JY, ON4CAT, ON9CAT, P29CC, S21J, TF7GX, TF8GX, UA0AOZ, UA0DC, UA0ZBK and ZL3KIM. [TNX K1WY]

QSL VIA VE1JS ---> Those who worked VE1JS or VE1YDX (NA-127) in any IOTA contest should note that John's *new* direct QSL address is: John Scott, General Delivery, Sandy Cove, NS, Canada B0V 1E0. [TNX VE1JS]

QSL VIA W3HC ---> Mac, W3HC reminds that amateurs sending multiple cards in one envelope with one SASE should be patient and wait until he gets all the QSLs from the printer: "One person sent six cards", Mac reports, "and I have all but one so he must wait until that one card is printed". Mac has recently added a "Photo Album" to his web site at www.qsl.net/w3hc

QSL VIA WA3HUP ---> Mary Ann Crider, WA3HUP (2485 Lewisberry Rd, York Haven, PA 17370, USA) is the new QSL manager for Ezzat, SU1ER (SU1JOTA, SU0ERA, SU8LXR). [TNX The Daily DX]

RUSSIAN ROBINSON CLUB (AWARDS) ---> The Russian Robinson Club (RRC) sponsors the following awards: RABA (Russian Antarctic Bases Award), RASA (Russian Arctic Stations Award), RRA (Russian Robinson Award, the Russian islands national award programme), RMMA (Russian Maritime Mobile Award), FJL (Franz Josef Land), W-RR-A (Worked RRC members Award). ST. PETER & ST. PAUL ROCKS 1999 ---> JA4MRL will be joining PT7AA, PS7KM and WX5L in the March 1999 DXpedition to St. Peter and St. Paul Rocks (SA-014) [425DXN 387]. They plan to operate as ZY0SP (on SSB and RTTY, QSL via PS7KM) and ZY0SZ (on CW, QSL via PT7AA) on all bands for 12-14 days, 24 hours a day, with an emphasis on RTTY and 160, 80, 40 and 6 metres. This DXpedition, which is organized by the Natal DX Group, is likely to be the last chance to work this DXCC entity and IOTA group for many years to come, as the Brazilian Navy and the Brazilian Institute for the Environment are going to restrict the access to the islands. The total budget for the DXpedition is around US\$ 11,000: contributions from the DX community will be highly appreciated and can be sent to either PS7KM, WX5L or JA4MRL. [TNX PS7KM]

HELP NEEDED ---> The K1WY DX Association has learned of a fire in early November that has destroyed all the equipment and computer of Igor, UA0ZBK and Serge, UA0DC in Khabarovsk (Zone 19). K1WY has logs for these stations up to the fire date and is collecting funds from other amateurs to assist Igor and Serge to rebuilt. Donations may be sent to either of the offices of the Association (P.O. Box 2644, Hartford CT 06146-2644, USA and P.O. Box 90, Eeklo 9900, Belgium). [TNX K1WY]

QSL IL3/IK4HPU ---> Alberto, IK4HPU reports the direct cards for his IIA activity from RO-022 have been mailed. Bureau cards will be sent in mid December by IK2PZG.

QSL UA0IAS/0 ---> Eric, OH2BF is receiving cards for this station. Please note that he is *NOT* the QSL manager for UA0IAS/0. Eric was simply the one who relayed the QSL information [425DXN 378], which is Vladimir Kolodkin, Box 11, 686110 Palatka, Russia.

QSL UA0YAY ---> Paolo, IK2QPR reports he is the new QSL manager for this station, operating from Zone 23.

QSL YO2LDE --> Daniel, YO2LDE (yo2lde@mail.rtns.ro) reports that his QSL manager for contacts made from 1 January 1997 is KB5IPQ, while cards for his May-June 1997 RTTY activity from Albania as ZA/YO2LDE should be sent to Daniel Vuescu, Zadei F3-1-7, RO-1700, Resita, Romania.

+ SILENT KEY + It was with the greatest sadness that we have learnt of the sudden passing of Mary Lou Brown, NM7N. She was on her way home after her participation in the Lord Howe (VK9LX) most recent activities. Nick Hacko, VK2ICV says "Mary Lou gets a lot of credit for helping the rest of us get a great lot of enjoyment out of our trip. She was undoubtedly the most liked person on the DXpedition".

- ZL9 - Oooops! In 425DXN #396 it was mentioned that the 6-25 January DXpedition to Campbell Island would be active as ZL1CN. That was clearly a typo, as the 12-member team will operate as ZL9CI. We apologize for any inconvenience this may have caused our readers.

BOSNIA-HERZEGOVINA ---> Only stations with T9 prefixes count for DXCC and CQ Contests. 4N4, 4O4, YT4, YU4 and YZ4 stations (located in the areas controlled by Serbia), as well as 9A11 stations (located in the areas controlled by Croatia), are not accepted. [TNX The Daily DX]

IRCs ---> Bill, K1SE (QSL manager for A92GD) reminds DXers that if IRCs do not have the stamp in the left corner from the post office where they were purchased, US post offices will NOT accept them. Please note that Bill confirms via the bureau direct cards received with unredeemable IRCs.

QSL AS-095 ---> Direct cards for QSOs made with UE0ZZZ and RZ0ZWA/p (AS-095) in July 1998 should be addressed to P.O.Box 12, Petropavlovsk-Kamchatsky, 683000, Russia. [TNX RA0ZD]

QSL 3W5FM ---> Cards for Coly still are via UA0FM (his home call) [425DXN 391], but please note that the *new* address is: P.O. Box 37, Vladimír, 600000, Russia. [TNX RA0FF]

QSL FT5ZH ---> Those who wish to ask for a direct QSL for FT5ZH are requested to refrain from sending any SAE or SASE. In order to speed up the process, return envelopes will be provided by the Council of Europe, all you have to do is to send your card + return postage + a LABEL WITH YOUR ADDRESS (if you

do not send a label, at least make sure your full and correct address is shown on or attached to your QSL, but note that this will slow down the return process). QSL via F6KDF (Radio Club de la Gendarmerie, 292 route de Genas, F-69677 Bron Cedex, France) [TNX F6NOD & WA6KBL]

QSL H75A & IOTA ANNUAL UPDATE ---> Mike Crownover, AD5A reports that all direct requests for H75A cards (NA-209) have been mailed out and should be in your hands in plenty of time for submission for the annual update. Mike also urges other expeditioners to make an effort to get their cards out by early January so that IOTA members may receive them in time to include them in the annual update submission. The deadline for submission is 1 February 1999.

QSL HS0ZCX ---> Martin, G4UQF reports that the new QSL manager for HS0ZCX is G4SQA. If you have already sent your requests to G4UQF, do not send duplicates, as these cards are being forwarded to G4SQA.

QSL LT5V ---> This is the contest call used by Alex, LU8VCC and the North Patagonia DX Group. QSL is via LU8VCC either direct (P.O. Box 465, 8332 Roca - RN, Argentina) or through the bureau. [TNX LU8VCC]

QSL XR3J ---> Fernando, PY5DZ reports that the current address for HB9AOF, QSL manager for this scout station (<http://www.qsl.net/xr3j>) [425DXN 397], is Yves Margot, 7 route A. Ferrand, CH-1233 Lully, Switzerland.

QSL ZS80NRM ---> ZS6Y reports the last ZS80NRM QSLs were shipped out four weeks ago. If no cards were received, the cause is mail problems in South Africa, and new requests for cards should be sent to KK3S either direct or through the bureau. [TNX KK3S]

QSL NOT VIA KI4RU ---> Bob, KI4RU has been shown as the QSL route for several stations (namely 4J1GC, YU2WV/5N0, AA5K/NH0, P29KH, S52DV, V29YS, V420KAO, VK5BWR, YU2WV), but he is *NOT* and has *NEVER* been a manager for any DX stations. [TNX KI4RU]

QSL VIA N4XP ---> Tom, N4XP reports that all direct requests (except those received in the last 7-10 days) for ZK1XXP and KH9 (1998) cards have been sent out. If you do not receive your card within a reasonable time, please contact Tom at n4xp@juno.com [TNX The Daily DX]

QSL VIA PA1AW ---> This is the new call of Alex, PA3DMH. Please note that his home page, from where to reach the log search facility for TL5A etc, has changed as well. The new URL is <http://www.igr.nl/users/palaw/index.html> - PA1AW is the QSL manager for 9Q2L, 9R1A, 9X5EE, D25L, TL5A, TL0R and ZS6/PA3DZN.

SPONSORSHIP AVAILABLE ---> Adam, SP2HPD and Alec, SP2EWQ are printers and are willing to provide a DXpedition with QSL cards. If interested, please e-mail them at promedia@itnet.com.pl (put "QSL card sponsorship" in the subject line). [TNX SP2EWQ]

**** DX INFORMATION ****

- FT5Z - A serious storm approaching Amsterdam Island forced Mehdi, F5PFP and Eric, F5SIH to go QRT as FT5ZH earlier than planned, around 18.10 UTC on 21 December. They have made a real effort to work on 160 metres, but the noise level there has been over S-9 and as of 19 December less than 25 stations had been logged on Top Band. Propagation on 10 metres did not co-operate at all, but at the end of the day the DXpedition was beyond expectations, as they made more than 32,000 QSOs with just two operators and no backup for shifts. QSL via F6KDF. [TNX F5NOD and WA6KBL]
- H40 - Bernhard, DL2GAC now plans to be active as H44MS from Pigeon Island (OC-065), Temotu [425DXN 397] between 23 January and April. He will be joined by DK9FN (CW operator) until early February. QSL via DL2GAC. [TNX DX News Letter]
- HK - Gerard, F2JD has had his licence renewed [425DXN 386] as HK3/G0SHN. He will stay in Colombia for one or two years. QSL via F6AJA. [TNX F6AJA and Les Nouvelles DX]
- JA - Masa, JE1DXC expects to be active (mainly on CW) as JE1DXC/6 from Tsushima Is (AS-036) sometime between 24 and 30 December. QSL via home call. [TNX DX News Sheet].
- JD1_oga- Den, JI1FLB plans to be active as JI1FLB/JD1 from Ogasawara (AS-031) between 30 December and 2 January. QSL via JI1FLB (Seiichi Tanaka, 2-12-20 Nishimizumoto Katsushika-ku, Tokyo 125-0031, Japan). [TNX The Daily DX]
- KL - AL7R (Brent), AL7O (Gary, QSL via AL7BL) and KL7XX (Bill) are active from Prudhoe Bay, where it is permanent darkness in December and January. They are QRV for Europe around 1823 kHz at between 05.00-07.30 UTC and 16.00-22.30 UTC. [TNX DX News Sheet]
- PY - Ben, PY1QN will be active (probably on CW only) as PT9/PY1QN between 31 December and 7 January from Bodoquena, Dourados and Amanmbai in the state of Mato Grosso do Sul. QSL via PY1QN. [TNX PY1KS]
- T3 - Karl, DL1VU is active as T3OCT from Tarawa, West Kiribati (OC-017) [425DXN 398] until 27 December. He will then move to Banaba and operate as T33VU throughout January. QSL via DL2MDZ. [TNX DX News Letter]
- TU - Aldo, I2AOX and Marco, IK2CHZ will be active from TU5IJ's QTH at Nassian, Ivory Coast between 12 and 25 January. They plan to operate on 10, 15, 20, 40 and 80 metres SSB and CW, possibly on 160 metres and WARC bands as well. QSL direct to I2AOX. [TNX IK2CHZ]
- VP2M - DF2SS is active (CW, SSB and RTTY) as VP2MHJ from Montserrat (NA-103) until 8 January. He uses a 100 watt rig with a 50 foot vertical for 10-160 metres. QSL via DL2MDZ. The web page for this operation is at <http://www.wimo.com/vp2m.htm> [TNX DJ5AV and DX News Letter]
- VP9 - N1KS will be active as N1KS/VP9 from Bermuda (NA-005) between 27 December and 1 January. QSL via JA1FUI. [TNX DX News Letter]
- VU - Bernhard, DL2GAC will be active as VU2BMS from India until 13 January. QSL via bureau to DL2GAC. [TNX DX News Letter]
- W - Ed, W4YO, will operate as W4YO/p from Harbor Island, South Carolina

(NA-110) between 26 December and 3 January. Look for him on 10, 15 and 20 metres. QSL via W4YO either direct or through the bureau. [TNX W4YO]

- W - Dick, K2ZR expects to be active again (mostly on CW) as K2ZR/4 from Key West, Florida Keys (NA-062) between 13 January and 15 April. QSL via home call. [TNX DX News Sheet]

- YB - Ronny, YC8TXW and Benny, YC8YZ are also planning an operation from Sula Islands (OC-076), probably in March. Plans for the future include the activation of two new ones, namely Mapia (YB8) and Lucipara (YB9) Islands. Meanwhile YC8VIP is reported to be trying to get a local amateur QRV from Banda Islands (YB8, OC-157). [TNX K7SO and Islands On The Web]
- ZL9 - The New Zealand Department of Conservation has granted a permit to the Kermadec DX Association ZL9CI team [425DXN 396] which restricts the operators to "daytime" visits only, of around 18 hours. There is a provision in the permit that allows them to remain on Campbell if the weather is deemed too rough to return to the ship, but the decision to go or stay will be made on a daily basis by the DoC officer with the team. However the permit allows operation for about 2 hours after sunset and before sunrise, which should give a potential of 70 hours operation on the low bands during the DXpedition. On a day to day basis, ZL9CI will have at least six stations on the air between 16 UTC and 10.30 UTC. [TNX EI6FR]
- ZS_ant - Bud, ZS1B is currently active from Antarctica using the call sign ZS7B. In a recent QSO with Lanny, W5BOS he stated he has not processed any QSL cards for his September ZD9 operations from Tristan da Cunha (AF-029) and Gough Island (AF-030) and DXers will have to wait until he returns from this trip.
