SUBMARINE HAVOC LESSENS; RUMOR GERMAN SUGGESTS TALK TO AVERT WAR, BUT U. S. MAY DECLINE TO PARLEY

HONOLULU WOMEN IN MASSMEETING SHOW PATRIOTISM

Rear-Admiral Brownson, Mrs. A. J. George and Dr. Aurelia Reinhardt at Opera House Gathering, Where 300 Women Meet to Counsel on Their Part in Country's Crisis

"Let us hope we never come to blows, but if we do may the one we strike be swift and hard."
—Rear-Admiral W. H. Brownson, U. S. N., retired.
"Give us universal national service by military instruction in all the public schools of the United States."
—Mrs. A. J. George, branch director, National Security League.
"It is easy enough to get excited about the thing that is hard to think about."
—Mrs. Aurelia Reinhardt, president of Mills College, California.

A characteristic statement made by each of the three speakers who addressed the meeting called by the Women's Section of the Navy League is that given above. The remarks brought spontaneous applause, as did many others.

Theater Gay With Color
It was a pleasant sight for patriotic eyes—the interior of the Opera House, turned for the hour from a sedate theater to a mass of navy colors and pennants loaned by Comdr. V. S. Houston of the U. S. S. St. Louis, and national enthusiasm ran at a high pitch throughout the audience from the beginning of Rear-Admiral Brownson's speech until "The Star Spangled Banner" ended the meeting at noon.

To carry on a general discussion of "What Can We Do For Our Country," officers of the women's branch of the Navy League, which was organized here over a year ago to encourage Congress to increase appropriations for the navy, called the meeting for 1 o'clock today, and Rear-Admiral W. H. Brownson, retired, Mrs. A. J. George, director of the Security League, who is visiting here, and Dr. Aurelia Reinhardt, president of Mills College of California, consented to speak.

One purpose of this morning's meeting was to distribute cards for the 1000 league members here to sign, indicating what subjects such as knitting, preparing surgical dressings, cooking, clerking and so forth they are prepared in, or wish to learn at classes which are to be established for that purpose at the headquarters of the Hawaiian Allied Relief Committee.

High Paper Price Causes Grand Jury To Probe Situation
WASHINGTON, D. C., Feb. 10.—The department of justice announced today that a federal grand jury is about to investigate whether there has been a criminal conspiracy among manufacturers of paper or others in the trade to hold up prices of "news print" or newspaper material. The grand jury will determine whether such conspiracy, if any, has been in restraint of trade. The department of justice and the federal trade commission for a long time have been holding hearings and looking into the news print situation.

HACKFELD & CO. SAY NO LONGER AGENTS OF SHIPS

Health Department is Informed Representative of Owners Will Not Clean Up
Because Hackfeld & Company refuse to be considered further as agents for the German merchantmen in Honolulu harbor, and have so informed the health board in a letter signed by F. W. Klebahn, the shipping department, territorial sanitary inspectors with a dozen men began this morning to clean these ships and put them in sanitary condition.

According to the order sent to the firm yesterday, this work is being done at the expense of Hackfeld & Company as agents. Dr. J. S. B. Pratt today declined to discuss the matter of who will pay the bill, but referred to the order of yesterday and told an interviewer to draw his own inferences.

The letter from Mr. Klebahn tells us, said Dr. Pratt, "that the United States officials took charge of the boats on February 4; that at the time they were not insanitary, and if they have since become so it is due to no fault of theirs. It is practically a refusal to do the work ordered."

Deputy Attorney General Arthur G. Smith, who has advised both the harbor board and the board of health since the question came up, agreed fully with Attorney Huber's opinion. "We as territorial officials are proceeding on the same theory as the federal office," says Smith. "Our orders to clean the ships up yesterday were given in that attitude."

BUSINESSMAN OF DENVER DECLARES PROHIBITION PAYS

J. H. Causey, Financier, Tells How All Colorado is Now Happy Over Results of "Dry" Legislation; All Legitimate Business Helped; Would Be Good Investment for Hawaii

Prohibition in Colorado has helped every line of business. It has also helped to empty the jails.
"Taxes have been reduced the first year of the 'dry regime.' There is a cleaner type of government and a remarkable satisfaction all around. It would be a good business investment for Hawaii to be a 'dry' territory."
These, in a nutshell, are among the many striking comments on prohibition in the great state of Colorado given by one of Denver's leading businessmen, J. H. Causey, one of Colorado's best-known financiers. He is a member of the firm of Sweet, Causey, Foster & Company, one of the largest bond houses west of Chicago.

In an interview with the Star-Bulletin he makes it plain that Colorado likes prohibition—that even those who opposed it on various grounds now know it has been a splendid thing for the state. As a businessman, his views on the effect of "dry" legislation are particularly interesting to Hawaii, where the prohibition issue is coming strongly to the front.

Asked if it is true that Colorado is satisfied with prohibition, he said: "Yes, Colorado is very happy over her first year's experience with prohibition. Friends of mine who were leaders in the wet movement now say under no circumstances would they vote for wet Colorado and Denver again. I have conversed with some of the members of our leading clubs and practically unanimously those with whom I have talked favor, for business and social reasons, our new order of things."

Hotels Were Scared
"The hotels, of course, were most scared when we talked of doing without liquor. 'What!' they said, 'A tourist town without wine and champagne? Why, it will drive all our business away.' And so they gave large sums of money and time to fight it. The head of our largest hotel, which had a large business in liquors, told a friend of mine that his business in one month last summer was twenty thousand dollars ahead of any month in its history. One of the clerks in this hotel told

KUHIO EXPECTS HOME RULE BILL WILL NOT PASS
Giving his reason for introducing into congress his home rule bill which called for the election by the people of the governor and secretary of Hawaii and declaring that he had not expected it to pass, is the interesting information contained in a letter from Delegate Kuhio to Raymond C. Brown, secretary of the chamber of commerce.

Diggs-Caminetti Cases Up Again
WASHINGTON, D. C., Feb. 10.—An application will soon be made to the U. S. supreme court, it is reported, for a rehearing of the Diggs and Caminetti cases. + Maury I. Diggs and Drew Caminetti, two young Californians, + were convicted under the Mann + "white slave" act for taking two + girls to Reno on an immoral es- + cape. The decision of the su- + preme court, 5 to 3, has aroused + wide discussion.

Universal Military Training Is Favored

WASHINGTON, D. C., Feb. 10.—A bill calling for universal military training in the United States was favorably reported to the senate today by the senate committee on military affairs.

It provides that all male citizens must undergo six months' training during the year in which they reach the age of 19. All such are held in the army and navy reserves until they are 28.

MERCANTILE MARINE WANTS U. S. CONVOY OVER ATLANTIC

NEW YORK, N. Y., Feb. 10.—The International Mercantile Marine Company announced today that it will not send any vessels across the Atlantic unless the United States furnishes a convoy of guns and gunners.

Acting Collector of Customs Raymer Sharp says his office has received no instructions to withhold information as to the clearing of ships from this port.
"I interpret this despatch as meaning that the names and destinations of ships clearing from New York for foreign ports are not being made public," Sharp says. "The only reason I can see for such secrecy is to prevent an enemy from finding out what ships are leaving America and where they are going."

Huge Supplies Taken From Rumania

BERLIN, Germany, Feb. 10.—Enormous amounts of supplies, captured in Rumania, are being transported to Germany and Austria-Hungary, says an Overseas News Agency despatch. More than 400 steamships and 2700 tugs are carrying corn, wood and leather, as well as other materials, up the Danube.

Day's Toll of Submarines is Less

LONDON, Eng., Feb. 10.—The British steamer Lullington was sunk today, the crew reaching land. Despatches to Lloyds says that the British steamer Mantola, the Norwegian steamer Solbakken and the British steamer Beachtree have been sunk, but no mention is made of the fate of the crews.

More Than 1100 Vessels Unharmed

NEW YORK, N. Y., Feb. 10.—More than 1100 vessels have arrived at and sailed from United Kingdom ports, without harm, during the first nine days of "unrestricted submarine warfare," according to authorities here.

Late News At A Glance

POSTAGE INCREASE TO NEWSPAPERS IS BLOCKED
WASHINGTON, D. C., Feb. 10.—The provision in the postal bill increasing the postage on newspapers and periodicals was thrown out in the senate today on a point of order.

FORD PEACE BUREAU TO CLOSE DOORS NOW
LONDON, England, Feb. 10.—The Henry Ford peace bureau, which has been operating on a permanent basis at The Hague, is to be closed March 1 because of the severance of German-American relations, says a Reuter's despatch from The Hague.

ANTI-GOVERNMENT PLOT ALLEGED IN CUBA
HAVANA, Cuba, Feb. 10.—Aurelio Hevis, secretary of the interior for Cuba, notified civil and military authorities this morning that he had received advices of a plot against the government. It is reported that several army officers have been arrested.

FEDERAL PROBE OF HIGH LIVING COST IS PROMISED
WASHINGTON, D. C., Feb. 10.—The federal trade commission announced today that at the direction of President Wilson it is undertaking immediately an investigation of the high cost of food in the United States with special reference to alleged violations of the anti-trust laws. The secretary of agriculture is assisting in the probe. It is alleged that manipulations for the control and conspiracies in the distribution of foods are to be investigated particularly.

INFANTRY BATTALION TO PEARL HARBOR
Four companies of the 1st infantry, comprising about 350 men, arrived today for guard duty at Pearl Harbor, relieving the coast artillery company which was stationed there. The latter company has returned to Fort Kamehameha, according to word from Pearl Harbor this afternoon.

JESSE GRAY CANNOT BE REINSTATED
That Jesse Gray, former police officer at Wahiawa, cannot be reinstated according to the laws of the territory was the opinion given to the civil service commission at its meeting this afternoon by William Carden, deputy city attorney. This is the opinion that has been held by the commission although recently the grand jury suggested that he be reinstated. The commission also discussed what action should be taken before the legislature in regard to keeping civil service laws in operation. Now W. Aluli, chairman, said that he believed that civil service laws should be continued and asked the other members to find out what the public thought on this question.

until they secured such certificates. The Filipinos who applied were told that because their status as American citizens is still unsettled they could not enlist at this time. It is expected that on Monday many more men will apply for enlistment after the news that the station is open has been given sufficient publicity and has spread around the city.

Sam Kaai, Hawaiian, charged with manslaughter, pleaded not guilty in the circuit court today. He is alleged to have been the driver of an auto truck that collided with a wagon in which prisoners were riding to work. The collision resulted in the death of E. A. Strout, prison guard and member of the local G. A. R.

GERARD TO LEAVE BERLIN THIS EVENING, LATEST REPORT FROM EUROPE; BERNSTORFF NOT HELD

WASHINGTON, D. C., Feb. 10.—When the department of state closed this evening it was said that no communication from Germany had been received today. The view is taken that the United States might not wish to undertake discussion while ships are being sunk in violation of international law.

Detention of American Officials in Europe Likely to Be Ended Soon—No Complications So Far Arising

WASHINGTON, D. C., Feb. 10.—Late reports of ships sunk in the war-zone by submarines are being scanned eagerly today by government officials for a double reason. First, there is the ever-increasing fear that any hour may bring news that an American vessel has been sunk unwarned and American lives lost, driving the United States to use force to protect its rights. Second, there is the reason of a reported falling-off in the amount of tonnage sunk, causing wonder whether the failure of the U-boats to sink more vessels is temporary, or whether England has already done much to lessen the force of the attacks.

Reports that England is arranging to convoy great fleets of merchantmen through the war-zone have gained credence. Naval observers are wondering whether any great number of submarines are being destroyed, or whether other causes are responsible for the reduced effectiveness of the German submarines.

Berlin Invites U. S. to Suggest Means of Averting War, is Report

WASHINGTON, D. C., Feb. 10.—Germany has addressed to the United States, it is understood, a communication suggesting that the two governments discuss ways and means of preventing actual war between the two nations. The note will probably be forwarded through the Swiss government, which has assumed Germany's diplomatic activities in this country since the formal breaking of relations.

WASHINGTON, D. C., Feb. 10.—It is understood that in suggesting the exchange of views on a method of averting actual war, Germany has made it clear that although diplomatic relations are broken she greatly desires that peace be maintained. The preliminary outlines of the communication in which Germany voices these views do not indicate that it carries the suggestion that Germany will modify her submarine warfare.

WASHINGTON, D. C., Feb. 10.—A statement attributed to the German secretary of foreign affairs that the American officials in Germany would be detained as hostages for the safe conduct of von Bernstorff, his aides and men of the German ships interned in the United States is not given much credence apparently at the state department. Secretary Lansing said today that he holds the situation thus suggested to be improbable, doubting the authenticity of the statement.

Arrangements have been completed for the departure next Wednesday of Ambassador Von Bernstorff and his staff. They will sail on the liner Frederick VIII for Christiania. Not all the consuls of Germany in the United States will accompany them, as a number have been ordered to proceed to Central and South America.

The Frederick VIII is a Danish liner, owned by a Copenhagen shipping agency.

FORMER HONOLULU BOY HURT IN SAN FRANCISCO
Frederick W. Ziegler, Honolulu boy and formerly associated with the Hawaiian Trust Co., was run down by a street car and painfully injured in San Francisco a few days prior to January 23, according to advices received by friends and relatives here.

Letters from Ziegler say that he stopped off a street car at Geary and Mason streets at about 11 o'clock in the evening and, as he started across the street, was struck and knocked down by a car coming from an opposite direction. He was picked up unconscious and carried to the emergency hospital. He regained consciousness about four hours later.

BRITISH DESTROYER SUNK BY MINE IN CHANNEL
WASHINGTON, D. C., Feb. 10.—The damage done by the German submarines yesterday was comparatively slight, the total amount of tonnage sunk having been but 10,424, as against an average of more than double that for the preceding days.

The greatest loss suffered by the Allies yesterday was that of the British destroyer of the older type, which was mined in the Channel Thursday night, and all officers and men save five, lost. The neutral ship lost a ship when the Spaniard, Nueva Montana, was torpedoed without warning. Her crew, however, was saved.

CHIEF JUSTICE AND GOVERNOR IN CONFERENCE

Meeting Held to Devise Means to Relieve Court Congestion; May Call on Washington

Chief Justice A. G. M. Robertson was to confer with Governor Pinkham this afternoon as to the advisability of forwarding to the department of justice in Washington a request for the immediate appointment of a judge for the third division of the local circuit court.

The request to the chief justice that some action be taken to relieve congestion in circuit court was made by Circuit Judge Ashford this morning following a conference with Circuit Judge Whitney. Judges Ashford and Whitney were of the opinion that the congestion should be relieved at once in order to prevent a veritable deluge of criminal and other cases.

It was suggested to the chief justice that, pending the appointment of a circuit judge, one of the circuit judges on the other islands be brought to Honolulu temporarily to begin the trial of cases now pending.

The chief justice suggested that the matter be taken up with the department of justice through the governor with a view to securing the immediate appointment of a new judge. It was practically decided that, until an effort is made along this line, no circuit judge will be called in.

More than 100 cases are now pending for trial, a majority being criminal matters. Circuit Judge Ashford is trying civil cases and Judge Whitney is nearing the completion of the Kahana land case. There has been no actual work done by the third division since the elevation of Justice J. L. Cooke to the supreme bench.

Chief Justice Robertson told the Star-Bulletin that he expected to confer with the governor some time this afternoon.

King Street Bonds Sell at Premium

Offering a premium of 2 1/2 per cent, the H. M. Allen Estate was the highest bidder for the King street extension improvement bonds, amounting to \$8620, which were opened at the office of City Treasurer D. L. Conkling. The bid was \$8835. There was only one other bidder, the First National Bank, which offered \$8716.97, or a premium of 1 1/8 per cent.

This is the second block of bonds which the H. M. Allen Estate has secured, the other being the Sea View improvement bonds, for which it bid the same premium.

BRITAIN PROHIBITING JEWELRY IMPORTATION

Gold coins, watches and jewelry of every nature are prohibited from importation to Great Britain through the regular mails, according to a notice received by the Honolulu postoffice from the postoffice department, reading as follows:

"Postmaster, Honolulu, Hawaii.

"Your attention is invited to the following extract (translation) from a circular of the International Bureau of the Universal Postal Union, dated the 29th ultimo, viz:

"The postal administration of Great Britain has authorized me to inform you that the following articles are prohibited importation into the United Kingdom through the regular mails or by parcel post:

"Manufactured and unmanufactured gold, including gold coins and articles made in part of gold or containing gold.

"All articles made of silver other than silver watches and match boxes made of silver.

"Jewelry of every nature.

"I have the honor to request that you will please take notice of the foregoing."

Messages sent quickly and accurately to ships at sea or to other islands by Mutual Wireless. Phone 1574.

AHLERS MEN ARE STILL ON SHIP

Until receipt of instructions to the contrary, the officers, cook and wireless operator now living aboard the German refugee merchantman O. J. D. Ahlers at Hilo will be allowed to remain on the vessel, says Assistant U. S. Attorney S. B. Kemp, who returned to Honolulu this morning from the Crescent City.

"If nothing is done which might result in their arrest in the future, these men undoubtedly will not be brought to Honolulu and interned at the immigration station," says Judge Kemp.

"For the time being, at least, they will be kept aboard the ship at Hilo," Judge Kemp, whose trip to Hilo was for the purpose of making a personal investigation as to the status and condition of the Ahlers, says that the ship's engines have been practically ruined in the same manner as the vessels at this port. He was not informed, he adds, whether the boilers have been ruined. An inspection of the boilers was to be made yesterday afternoon and he left Hilo before the examination was made.

The vessel is being guarded by 16 men of the 25th Infantry, who are commanded by non-commissioned officers. The officers of the vessel are allowed to enter and leave as they please, but are being denied access to certain parts of the ship, including the engine and boiler rooms and the compartments where the sea-cocks are located.

While in Hilo Judge Kemp conferred with the customs officials there. Two deputy U. S. marshals are there and are assisting the customs men. Kemp says the Ahlers is a fine, large vessel and that it was built as late as '11. There is no accounting, he adds, for the members of the crew. He was informed that they left the vessel some months ago, and says it is presumed many of them came to Honolulu and probably joined the crews of the refugee boats here.

"I have nothing to say in regard to the matter," stated Richard L. Halsey, inspector in charge of the U. S. immigration station at this port, this afternoon, when asked by the Star-Bulletin what course will be taken by him relative to the officers and crew of the refugee German merchant steamer O. J. D. Ahlers at Hilo.

From reliable sources it was learned at noon that the local immigration authorities are waiting for instructions from Washington before taking any action relative to the Ahlers. No action will be taken until orders are received from Secretary of Labor W. B. Wilson or Commissioner-General of Immigration A. Caminetti instructing the local station to either have the crew brought here or taken off the boat and placed in detention at Hilo pending deportation hearings.

OAHU ORGANIZATIONS TO GET MORE TROOPS

Troops coming on the transport Logan for service on Oahu, due here next Tuesday, are divided as follows: Engineers, six; 4th Cavalry, 48; cavalry unassigned, one; 1st Field Artillery, 13; Light Field Artillery, 212; 5th Field Artillery, 55; field artillery, unassigned, 53; coast-artillery, unassigned, seven; 1st Infantry, two; 2d Infantry, four; 25th Infantry, five; 32d Infantry, 17; Infantry, unassigned, 53.

BUY SCRAP IRON BUSINESS

Walter Engle and K. Matsamoto today purchased the Honolulu Scrap Iron Company from the estates of C. H. Brown and W. G. Scott, and will continue the business under the same firm name.

CONVENIENT TOWEL RACK

It has been my experience that a nickel towel rack fastened on the end of a kitchen table is a very handy thing.

WOMEN OF HONOLULU SHOW THEIR PATRIOTISM IN MORNING MEETING

(Continued from Page 1)

balcony, boxes and over the windows, lending a surprising military effect. The colors were taken down immediately after the meeting.

Prominent Women Present

Others of Honolulu's well-known women who faced the speakers and listened with intent interest for an hour, picked at random from the assemblage, included Mesdames W. B. Castle, Gerrit P. Wilder, George P. Cooke, Charles Adams, Charles B. Cooper, Atruh Wall, George Potter, John Walker, T. Lansing, J. Morton Riggs, A. G. Smith, A. G. Hawes, B. F. Dillingham, George Sherman and many others.

Among the military folk present were Brig-Gen. and Mrs. Frederick S. Strong, Mrs. Houston, wife of Com. Houston of the St. Louis; Mrs. Crenshaw, wife of Com. Crenshaw, and Mrs. Edward Carpenter, wife of Maj. Carpenter.

Half a dozen men were present although the meeting was really a woman's affair.

Imposing in the extreme was the sight when Admiral Brownson, his gray hair which has turned to white during long years of service for the navy of the United States contrasting with the colors of the signals he knew so well, stood before the audience, flanked by the symbols of his life's loyal endeavor and backed by a huge Old Glory whose stripes and stars made the full background of the stage.

Admiral Speaks to Point

The admiral said many pertinent things, all of which cannot be printed here for lack of space. He lauded the women for their participation in the preparedness propaganda; praised Congress for its generosity, referred to the new testament where the Lord said: "He that be without a sword let him sell his garments and buy one;" took a severe rap at Dr. Schurmann, whose recent remarks at the National German American Alliance meeting and afterwards have invoked so much criticism by saying the speech was the most outrageous ever presented to an American meeting, and closed by declaring that it was not only steel and iron that made a fighting ship but the men—they are the dreadnought's true soul.

Urges Mobilizing Commerce

Mrs. George, in an eloquent manner, told the women of Honolulu what they can do for their country; that they can turn their preparations for war into an observance of the functions of peace and that what this country needs in the way of mobilization is of commerce and not of men.

Pitay remarks and patriotic appeals mingled in Mrs. George's speech and time after time she was interrupted by hearty applause for some of her more appreciated suggestions and expressions, a few of which were:

"Don't you women be like the girl during the Boer war who was told by a Britisher one day that he was too sick to be nursed by her."

"Let us women do a part to support the men who are fighting our battles for the efforts of liberty."

"I went to a peace movement meeting in Washington once and when I came out I joined every preparedness organization in sight."

Dr. Reinhardt was called from the audience by Mrs. Dillingham to make

a short address. She spoke chiefly on the proper education of American children to an understanding of the true citizenship.

Mrs. George invoked a storm of applause when she said: "Have just one test for all you do. Is it an act of a true citizen of the United States?"

DR. A. F. JACKSON NAMED DIRECTOR OF Y. M. FRIDAY

Dr. Arthur F. Jackson was elected a director of the Young Men's Christian Association at a meeting of the Board of Directors yesterday afternoon. He will succeed Robert Anderson, who was obliged to resign owing to his intended departure for California on March 1 to take up the management of the Mineral Products Company.

Dr. Jackson is well qualified for the honor conferred upon him yesterday. He was for three years general secretary of the student Young Men's Christian Association at Virginia Polytechnic Institute. Since coming to Honolulu in July, 1912, Dr. Jackson has been very active in the affairs of the Honolulu Association. He has served as a member of the physical committee and has been chairman of the board of examiners.

The report of Chairman Towse of the membership committee showed a total of 1850 members on January 31. There were presented 102 applications for membership and all were elected. Richard A. Cooke gave the treasurer's report, which showed the Association indebtedness reduced until there was an overdraft of only \$108.08 on January 31.

Lloyd R. Killam presented plans for the new inter-racial student building at the corner of Fort and Vineyard streets. This matter was referred to a special committee which will make specific recommendations at the March meetings of the directors.

Donald Ladd reported on the splendid work which is being done in the student clubs. Four new clubs were formed during the month and altogether 87 students are in the all-around Y. M. C. A. program of bible study, athletics and social life.

The report of A. E. Larimer, executive secretary, showed marked gains in nearly all departments of the Association; 325 men and boys are now in bible study classes and clubs; 56 were interviewed and advised regarding employment; there were 18 calls from employers and 24 men and boys were definitely placed during the month. There was great activity in the physical department, educational department and in the social activities of the "Y."

W. G. Hall reported 27 religious interviews during January and 18 men referred to churches. Frank C. Atherton presided at yesterday's meeting. Other directors present were: Richard H. Trent, W. G. Hall, Richard Cooke, Robert Anderson, C.

PINKHAM REFERS ZIEGLER ACTION TO HAW'N. DEPT.

National Guard Officer's Part in German American Meeting Taken Further

Connection of Col. Charles W. Ziegler with the meeting of the German American Alliance at which he presided and the resolutions there adopted and the surrounding circumstances have been referred to the Hawaiian Department.

Officers of the German American Alliance have received no further advice from the national committee nor have requests for information on the resolutions reported passed on the mainland been sent by the branch of the alliance here.

Brig-Gen. Frederick S. Strong, commanding the Hawaiian Department, has received from Governor Pinkham, commander-in-chief of the National Guard of Hawaii, a statement from Col. Charles W. Ziegler in regard to the now famous German Alliance meeting held here on Wednesday night and at which the guard officer presided. Governor Pinkham made the following statement today:

"Col. C. W. Ziegler, in the presence of the adjutant general of the National Guard of Hawaii, made a statement which was taken down by an official stenographer, and said statement has been handed to the commanding general of the Hawaiian Department."

This is the new turn in affairs that has developed since yesterday when, as announced in the Star-Bulletin, Governor Pinkham began "seeking information" on the Ziegler matter and was later in conference with Brig-Gen. Samuel I. Johnson and Col. Ziegler.

What the sending of the statement means, the governor declined to say, authorizing only the above paragraph.

PLEADS NOT GUILTY.

Charged with an attempt to commit a statutory offense and assault with a dangerous weapon, Haro Okabe, Japanese, pleaded not guilty in circuit court today. It is alleged that the defendant assaulted a Japanese woman named Takanaga Shizumo and that, when she repelled him, he attempted to stab her with a knife. The defendant, the police say, was captured by the woman's husband and turned over to the authorities.

H. Atherton, Ed. Towse, W. A. Love, Chas. F. Clemons, Emil A. Berndt, C. B. Ripley and Geo. C. Potter.

SATURDAY, FEBRUARY 10, 1917.

THE MEANING OF GERMANY'S ACTS.

Judging Germany by her actions and not by her words...

Germany insists on a course of action which means war unless by a miracle none of her U-boats violate American rights.

Germany's detention of Gerard illustrates to a curious degree her obvious plan of action.

But the detention of Gerard seems to be another step on Uncle Sam's course—another push toward the inevitable declaration of hostilities.

That cessation of our exports is exactly what Germany wants.

All of which indicates that the leaders at Berlin are in a more menacing situation than their confident words would indicate.

DISGRACEFULLY DIRTY.

"Clean-up Week" begins Monday.

It cannot begin a moment too soon. Seldom if ever in the past five years have Honolulu's streets and alleys been as dirty as today.

Has the street-cleaning department gone on strike, or merely taken a vacation?

Dusty, weed-choked gutters, filth beaten into powder, stirred up by passing wheels and hanging in the air; rubbish and garbage on main streets, mud whenever the rains come—all of this has no place in the modern city Honolulu aspires to be.

We have the essentials for as beautiful, as pleasing a "Spotless Town" as any on earth.

Is it lack of money? Is it lack of efficiency? Is it lack of enterprise? Is it lack of a little "steam" in the street-cleaning service?

What is the matter? Will some city official tell us and say exactly where the responsibility lies?

The case of Col. Ziegler of the National Guard, who presided at the German American Alliance meeting Wednesday night, is now understood to be under inquiry by territorial and army authorities and the correct course, if any, will doubtless be taken.

Perhaps Germany doesn't want to swap Gerard for Bernstorff. If that's the case, we don't blame Berlin for holding the American.

We presume it is the international situation which is responsible now for more delay on the Waikiki reclamation scheme.

"Rapid Transit Now Ready for Kalakana Avenue," says a headline. So are the rest of us.

WHY DISCARD IT?

"Discard the direct primary" is a popular cry now among Republicans in active politics.

There is no need to discard the law because it has not proved an unqualified and shining success at its very first trials.

The law was passed to correct grave evils—evils which apparently many of our leading Republicans who are also substantial men did not realize.

The law did away with some evils and brought on others. The "double campaign" is admittedly burdensome both to the poor man—on account of the expense; and the well-to-do man—on account of the time he must take from his business.

This can be corrected and it was largely corrected last fall. The primary campaign need be neither long enough nor expensive enough to be a burden.

Another evil complained of is that under the present system there is no clean-cut alignment of parties; that in the primary one party may throw its weight to the weakest candidates of the other party.

What the territory is going through now is what many states have gone through—a period of experimenting with a new law.

The average man—that is, he who constitutes the great bulk of the voters—is not making any perceptible kick.

Candidates for any local office have to work harder to land it than under the old system, but why shouldn't they?

The firm of which I am a member deals in bonds of municipalities and counties all over the state of Colorado.

The truth is that the elimination of the liquor interest and its interest in politics tends to bring in a so much cleaner type of government that public affairs are managed in a more business-like way.

Noticeable in front of the Hawaiian Opera House is the announcement of a "genuine refined hula."

This would indicate that there are some amusement-purveyors in Honolulu who recognize that a large proportion of the hulas passed out as the real Hawaiian dance are nothing but the sort of suggestive squirming made justly infamous in the Little Egyptian days of the Chicago World's Fair and thereafter.

It appears that tourists here are more concerned over the prospect of war than those on the mainland.

Now that the supreme court has affirmed the validity of the Webb-Kenyon act, it should be possible for Maine to decide definitely whether she desires to be dry-wet or dry-dry.

London's mistake on the fireman killed aboard the sinking Turino is excusable. He was a negro named George Washington and London naturally jumped to the conclusion he must be an American.

Nobody in Washington had anything to do with that peace leak, but a lot of them are going to be much more careful next time.

Coco Solo is not the name of a soda-fountain concoction. It's our new submarine base.

Queenstown is rapidly getting to be the clearing-house for submarine news.

Germany has no hesitation in performing "overt acts" against Norway.

BUSINESSMAN OF DENVER TELLS HOW PROHIBITION HELPS ALL STATE

(Continued from page one)

another friend of mine that there was some satisfaction and pleasure in running a hotel now that the drunks with their attendant vices were put out.

"Tourist Business Increases" "Another hotel which threatened to close up if it could not sell liquor, is now drawing plans for doubling its size which would make it include a whole city block.

"As a matter of fact, every line of business seems to have been helped.

"Taxes Now Reduced" "Denver's taxes have been constantly increasing in line with other cities for a number of years, but I got my tax bills a day or two before I left for Honolulu, and the tax rate is considerably reduced.

"One of my friends who has a large drygoods store tells me that his business immediately increased when the saloons were shut up, and that his sales of babies' shoes increased over fifty per cent within ninety days.

"The effect on real estate has been remarkable, too, because not only were the places where liquor was sold quickly rented to legitimate business, thereby increasing the value of the surrounding property, but our real estate dealers report a general improvement.

"I visited our city jail shortly before I left and was surprised to find such a large portion of the jail closed up and empty.

"Poverty is Reduced" "I have two friends who look after the poor and unfortunate men of our town.

"City and Town Finances Improved" "The firm of which I am a member deals in bonds of municipalities and counties all over the state of Colorado.

"Effect on Politics" "The truth is that the elimination of the liquor interest and its interest in politics tends to bring in a so much cleaner type of government that public affairs are managed in a more business-like way.

"I know of two large department stores in Denver that sold a great deal of liquor. One was a drygoods department store and the other a general merchandise store.

"In fact, we are so satisfied in Colorado with our experiment that a few months ago when the liquor interests tried to get the right to sell only beer, the suggestion was overwhelmingly turned down by a larger majority than the original vote.

"If you people on the Islands knew what a good business investment it was to have a dry territory, how much better the quality of labor—how much more money went into regular channels—how business conditions were improved, and what a splendid effect it had on the entire

community, the vote would be almost unanimous for a 'dry' Hawaii. And it is no trick even to enforce the law, because it has been thoroughly enforced in Colorado, and Henry Allen, who was there recently to get up a story for the Saturday Evening Post, says that he knows of no place which is a better example than Denver's dealing with its saloon problem during the first year.

"The fact is, when I think how at one time I opposed a dry Colorado for business reasons, and then see what splendid results are now being obtained, I think my former position was very foolish."

FRENCH BENEFIT PLANS PROGRESS

Plans for the presentation of a high-class entertainment for the benefit of the French Red Cross League are rapidly rounding into shape.

"Tickets are on sale at the Bijou theater, Bergstrom Music Company, Honolulu Music Company and the Territorial Messenger Service.

SAN FRANCISCO WANTS NATIONAL AUTOMOBILE SHOW IN THAT CITY

San Francisco wants the National Automobile show. A marconigram addressed to Wallace R. Farrington, president of the Honolulu Automobile Club, asks the support of the local organization.

PERSONALITIES

DR. ST. D. G. WALTERS is one of the returning passengers on the S. S. Wilhelmina, due Tuesday morning.

WILLIAM C. PETERSEN, acting postmaster, and Mrs. Petersen were due to leave for Hilo on the Mauna Kea this afternoon to see the volcano. They will return on the steamer Tuesday morning.

LITTLE INTERVIEWS

—E. W. QUINN, territorial senator: I am more in favor of amending the old laws than making new ones. Just because a law does not answer all the requirements is no reason that an entirely new one should be drawn up. Let us make the old one workable. The new law might be worse than the old one.

—L. W. de VIS-NORTON: Those who attended Professor Jaggars' lecture at the "Y." last night, will understand just why it is that Ambrose Patterson's marvelous volcano picture is attracting crowds to the window of the Promotion Committee's offices, especially at night when by a cunning arrangement of lights the roaring fires of Kilauea seem to be actually alive on the cap Patterson painted it entirely from memory and without a single color or detail note.

"If you people on the Islands knew what a good business investment it was to have a dry territory, how much better the quality of labor—how much more money went into regular channels—how business conditions were improved, and what a splendid effect it had on the entire

FLEMING NOT TO BE CANDIDATE

That John L. Fleming will not be a candidate for supervisor at the primaries, that he is not considering it and will not do so, are unqualified assertions of Fleming himself.

"It is not that I do not appreciate such an expression of confidence from my friends and neighbors," said Mr. Fleming to the Star-Bulletin. "For I do appreciate it. I have not the time to give the office and this is especially so just now. A member of the board of supervisors should give to the affairs of the city and county much of his time—much more of it than I could possibly give. I have my own business to attend to and the attention which that business demands absolutely precludes my considering service on the board of supervisors."

FOUR THOUSAND COTS HERE FOR GUARDSMEN

Sleeping cots for the entire guard of Hawaii, more than 4000 in number, are arriving now at the armory and are being stowed away in the various company storerooms.

The cots come wrapped in bundles and occupy little space when folded. Drayload after drayload has been delivered in the last two days at the big building.

The lecture on Christian Science in the Opera House Sunday night is to be delivered by an authorized representative of the Christian Science church in Boston. The lecturer, Mr. Clarence W. Chadwick, C. S. R., is from Omaha, Neb., and is now a member of a lecturers' board of 20 whose work it is to travel over the world lecturing on Christian Science. The lecture will begin promptly at 8 o'clock. The public is welcome.

AONA RESIGNS AS CLERK OF COURT

Circuit court is to lose A. Kael Aona, who has been associated with its several departments during the last 14 years.

Aona has announced that he will resign as clerk of the second division within a few days to become chief clerk for the law firm of Smith, Warren & Whitney. His resignation will be tendered to become effective on March 1.

Circuit Judge Whitney's resignation will become effective on February 13 and on that date, or shortly after, he will become associated with W. O. Smith and L. J. Warren in private law practice. E. W. Sutton, now a member of the firm of Smith, Warren & Sutton, leaves the firm the middle of this month to go with the Bishop Trust Co., relieving Willard E. Brown who, however, will retain his associations with the company.

Aona will be clerk of the new firm. During the last nine years he has been clerk in Circuit Judge Whitney's court and for five years prior to that period has held various other positions in circuit court.

Arthur E. Restarick, also a clerk in Judge Whitney's division, will remain in his present duties until the appointment of Judge Whitney's successor. He has not yet made any plans for the future.

Aona has made a brilliant record as court clerk, and also as registrar of the land court and temporary probation officer. His new position will be in the nature of a promotion and Judge Whitney says he is exceedingly well qualified for the work.

NAVAL MILITIA WILL GO ABOARD ST. LOUIS

Lieut.-Cmdr. W. H. Stroud of the territorial naval militia today announced an order for every member of that organization to appear at the Bungalow at 9 o'clock tomorrow morning. From there the militia will march to the St. Louis for instruction, spending the morning at practical work on the cruiser.

AHLERS MEN GO ABOUT AT WILL; WONDER IN HILO

Officers and Crew Are Not Detained; Vessel is Guarded After Machinery Wrecked

(Special Star-Bulletin Correspondence) HILO, Hawaii, Feb. 8.—Officers and men of the German merchant steamer O. J. D. Ahlers are at liberty...

HiLo people can see no reason for this since the Ahlers was wrecked as to boilers and machinery in a very complete fashion.

Deputy Collector of Customs Byron K. Baird has declared he has nothing to say beyond the fact that when he placed a patrol on the steamer his duties were ended and he had no orders to detain the officers and crew either on the Ahlers or elsewhere.

Orders Come Too Late Unfortunately the news of what had happened in Honolulu did not reach HiLo soon enough to prevent the wrecking of all machinery, etc., on board the O. J. D. Ahlers lying in the harbor.

On Monday Deputy Collector of Customs Baird received instructions from Honolulu to place a patrol on board the vessel and in accordance therewith he had 11 men of B Company, 25th Infantry, come down from the Kilauea military camp under Capt. McNab and go on board the steamer, together with Deputy U. S. Marshal J. Pierce and O. V. Startzer, both of whom arrived in Sunday last.

Work of Destruction Thorough On boarding the vessel a short examination showed the damage that had been done to the equipment. Geo. D. Russell of the Hilo Iron Works, together with James K. Kennedy of the same firm were sent for and made a comprehensive examination of the machinery, or rather what was left. They found that the work of destruction had been carried on in a very thorough manner. Practically nothing had been left unharmed. All the valve chests and ports on all the engines and pumps were absolutely destroyed, evidently by a large hammer or a large chisel, while in many of the valves cement had been poured.

Sea-Cocks Found Open Not satisfied with this and evidently in preparation for the scuttling of the ship, the sea-cocks were opened and the main yoke of the main injection valve stem was so mishandled that all that was necessary to start the inflow of sea water to sink the ship was the forcing over of this yoke with a crowbar. This was avoided, however, and a guard placed on board, Capt. McNab returning to the camp that same afternoon.

Relief Guard Arrives On Thursday a relief guard came down from the mountain camp and took the place of the soldiers who had been on board since the previous Monday. These soldiers are allowed two hours' liberty each day, being paroled out into squads sufficient to maintain a comprehensive guard pending any further action which might be taken with respect to the Germans still on board the vessel.

NEW COMPANIES ARE ON PROVOST

Three companies of the 2nd Infantry, Companies I, L and M, arrived from Fort Shafter this morning on special cars of the Rapid Transit Company to relieve three of the five companies that have been encamped during the last week at the Capitol grounds.

NEW PLANS FOR BOND CAMPAIGN

With the \$480,000 water and sewer bond issue election only 11 days away, Harry Murray and his assistants are lining up their forces and preparing for a final whirlwind campaign.

Doubtful voters are being seen and swung into line, literature explaining the bonds is being sent out broadcast, slides to be shown at all the moving-picture theaters have been made and will be put on next week, letters to all the merchants in Honolulu asking them to support the issues have been sent—in fact, nothing is being left undone to assure the passage of the bonds.

Just how many more rallies will be held and when had not been decided today. It was planned to hold a rally every night next week, but as the city has already been well covered it is doubtful if more than two or three will be held.

During the two days before the election, February 21—that is, Monday and Tuesday, February 19 and 20—special plans are on foot to advertise the bond issue.

G returned this morning to their regular post.

Maj. Cochran said this morning that no disturbance of any sort was reported by the guard on watch last night.

HAIKU FARM LOAN BILLS OPPOSED

(Special Star-Bulletin Correspondence) WAILUKU, Maui, Feb. 8.—Despite the fact that Representative Clarence H. Cooke has indicated that he will father such a bill, that the federal experiment station officials endorse it, that Former Secretary of Hawaii Thayer expresses his belief in it, and that numerous legislators and other prominent citizens of the islands who have had the opportunity of looking over the proposed measure are heartily in favor of it—Governor Pinkham has stamped the proposed Farm Loan Act of the Haiku Farmers' Association with his unqualified disapproval.

In a letter to E. C. Moore which was read at a meeting of the farmers' organization last Saturday night, the Governor wasted no words in saying that he didn't like any of the bills which have been submitted with the Haiku endorsement. He didn't go into details but indicated plainly that he isn't in any sense in sympathy with the objects sought to be attained through the measures.

May Extend Railway Correspondence was read with the Kahului Railroad Company regarding the possibility of having the company extend its tracks several miles further across the nonsettleds. This will be done in case the homesteaders can show a sufficient volume of tonnage likely to be available.

John Z. Lowe, collector of internal revenue for the second district of New York, has resigned.

TOURISTS WANTING CHIROPRACTIC are glad to know that Honolulu is up-to-date in that way, too. Consultation free. F. C. MIGHTON, D. C. (Formerly Director of Clinic, Pac. Chir. Coll., Portland). BIG FILM DEAL; 'CIVILIZATION' RIGHTS SECURED
An important deal in motion picture events was consummated yesterday when Henry Bredhoff, manager of the Hawaii Film Supply, bought the territorial rights of "Civilization." This film's one of three great films which have thus far been produced. The other two are "The Clansman" or "Birth of a Nation," and "Intolerance."
The subject covered by "Civilization" appeals strongly to everyone just at this time with a realization of the horrors of war, and people in general seeking and praying for peace. Another feature which is greatly in favor of this production is that it does not offend any class or race.
Associated with Mr. Bredhoff in this venture are W. Leslie West of Walkuku and S. E. Lucas of this city. Mr. West has recently resigned a position which he has held with the Walkuku Plantation for over seven years, and it was his intention to leave with his family for the mainland the latter part of this month. He will now, however, move to Honolulu and take an active interest in management of matters in connection with exhibiting "Civilization."
In addition to rights of this territory, these parties have secured also sole rights for Fiji Islands, Samoa, Tahiti, New Caledonia and other islands.
The Wyoming senate has passed a bill submitting a constitutional prohibition amendment to the people in 1918.

SELECTIONS FROM FAVORITE OPERAS PROMISE MUSICAL TREAT AT MOANA

Favorite operatic selections will form a large part of the program at the Moana hotel concert tonight for the benefit of Leahi Home. Signor Joaquin Wanrell has arranged the selections.
Among the numbers are the "Magic Flute," aria of Mozart, sung by Mrs. Riley Allen; "Il Secreto," from Lucia Borgia, and two songs of lighter nature by Miss Bernice Holmes; Poloness, a violin solo, by Mr. A. Podinovsky, and the Concerto in G minor by Mendelssohn, in which Mr. Fidler, Berimanie will have the solo piano part.
Signor Wanrell's own numbers will include the Pagliacci prologue and the Toreador song from Carmen in addition to a Spanish song by Alvarez. With Mrs. Riley Allen, he will give the duet from Rigoletto. Signor Wanrell has sung with some of the greatest stars of the operatic world in such musical capitals as Madrid, Milan, Odessa and Buenos Ayres, and has made a name for himself wherever he has been heard.
The sum realized from the concert will be used to further the work of Leahi Home among the sufferers from the white plague, and the concert will thus serve a double purpose. Leahi Home has many uses for any sum which may come into the hands of its directors, and funds are needed to keep pace with the constant expansion of the work. Dancing on the lanai will be enjoyed after the musical program and Mr. and Mrs. Monjo will give several exhibition dances. Tickets may be purchased at the Territorial Messenger Service or at the Young or Moana hotels.

'THE ALIEN' IS SPECIAL OFFER

George Beban, one of the leading character actors of the American stage and easily the leader on the screen, comes to the Bijou theater tonight in "The Alien," a Paramount picture "special," the last word meaning that this film has been secured by the Consolidated Amusement Company at a figure well in advance of the high price usually paid for Paramount features. It will be exhibited at the Bijou in conjunction with the five big vaudeville acts at regular prices, notwithstanding the fact that mainland exhibitors invariably raise on "specials."
Taken at 50 per cent of its face value the comment of the press of the great masterpieces of the newer art. A few, taken at random, follow:
New York Times—"The film is of the sort to lift you out of your seat. Mr. Beban's own work being of that vividly expressive sort which is graphically effective on the screen."
Brooklyn Eagle—"The story abounds in thrills, tears, sighs and sobs."
New York Herald—"If there was a dry eye in the house it must have been a glass one."
Salt Lake City Tribune—"The creation of the Italian himself may be regarded as wholly Mr. Beban's work; and it is a masterly performance."
Herald, Louisville, Ky.—"There comes a splendid climax in which Mr. Beban reaches the limits of fine emotional acting."
New York Evening Sun—"The film story has been produced with such care and ability that it stands up alongside the spoken drama as a compeller of tears and laughter."
Philadelphia Public Ledger—"A photoplay such as 'An Alien' is going to do something for the spoken drama that the artistic theater of our day is impotent to achieve."
Brooklyn Standard Union—"An unqualified success."
New York American—"Mr. Beban is an actor who if he chose might win a lasting place beside David Warfield and a few more actors. His rendering of the Italian character was wholly admirable. He had mobility of face and genuine feeling."
Motion Picture World—"A masterpiece."
Motion Picture News—"Just about perfect."

UMI-A-LILOA WILL BE GIVEN AGAIN

"Umi-a-Liloa" registered a success of such proportions upon its presentation nearly two weeks ago that it is to be repeated at the Opera House next Thursday evening, February 15. At the first performance the house was sold out in advance, and several hundred people were turned away from the door the night of the play. Under those circumstances it was decided to repeat the Hawaiian drama in response to the many requests of those who were unable to attend at that time.
Different singing and dancing numbers have been provided for the entire act features for Thursday evening. The three-act drama, which is given entirely in English, presents a picture of old Hawaiian life and customs which is of deep interest to both the student of history and the seeker after amusement. The spacious days of the old regime give opportunity for gorgeous stage pictures full of life and color.
The hula dances are among the outstanding features of the play. Those which are given are not the modern day hula arranged for tourists only, but the true rendition of the old dances which had a religious and social significance in their presentation. Old chants accompany the dancers in time to the beat of the hula drum.
A number of seats have already been engaged for the second performance of "Umi-a-Liloa." Tickets may be obtained at the Territorial Messenger Service.

Learn the latest New York dances from MADAME LESTER, Honolulu's leading teacher: Tuesday evening, Club; Friday evening, Punahou Club; Saturday morning, Children's Class. Fancy and stage dancing, private lessons by appointment. Phone 1162, I. O. O. F. Hall. Res. 3675, The Romagosa.

SOCIETY

SCHOFIELD SOCIETY

(Special Star-Bulletin Correspondence)
SCHOFIELD BARRACKS, Oct. 10.—Mrs. Hamilton Hawkins entertained at a prettily appointed bridge luncheon on Friday afternoon, for Mrs. Robert McRae of Honolulu, Mrs. Charles Hedekin, Mrs. Clarence Day, Mrs. Douglas McCaskey, Mrs. Horace Bloomergh, Miss Katherine Ames, Mrs. John Boniface, Mrs. Robert Cheney, Mrs. Richard Thomas, Mrs. Leonard Prunty, Mrs. Philip Kiehl, Mrs. Charles Willard, Mrs. Frank Halstead, Mrs. Allen Smith and Mrs. J. Perrine Barney. At the end of many interesting rubbers of auction, the handsome prizes, Japanese lamp shades, were awarded to Mrs. Barney, Mrs. Halstead, Miss Ames and Mrs. Richard Thomas.

On Wednesday evening Lieut. and Mrs. Jacob L. Devers were hosts at dinner and later at the Artillery hop for Miss Margaret Treat, Miss Katherine Treat, Lieutenant Clyde Sellock and Lieutenant Archibald Arnold.

Colonel and Mrs. Charles Hedekin have had as their house guest for a few days this week, Mrs. Robert McRae of Honolulu.

Lieut. and Mrs. Ernest Cullum had as dinner guests on Wednesday evening before the Artillery hop, Mrs. Peters, Miss Peters, Col. John McMahon and Lieut. Raymond McQuillen.

Mr. Richard Hungerford and Miss Hattie Hungerford, father and aunt of Mrs. Hugh Wise, arrived from the States on the Great Northern last week to spend several months with Maj. and Mrs. Wise.

Mrs. Herman Erenkottler is entertaining at bridge this afternoon for the following ladies: Mrs. William Banister, Mrs. Arthur Locke, Mrs. William Snow, Mrs. John Corey, Mrs. Harrison Richards, Mrs. J. Perrine Barney, Mrs. Eley Denson, Mrs. Robert Cheney, Mrs. Raymond Pratt, Mrs. Allen Smith, Mrs. Ellen Jordan, Mrs. Clarence Day, Mrs. J. H. Michelson, Mrs. John Boniface and Mrs. Karl Truesdall.

Miss Anne Hawkins has Miss Alice Palmer of Fort Shafter as her house guest.

On Thursday evening Dr. and Mrs. Charles Jewell motored into town and attended the Cornell dinner given at the University Club for Cornell graduates living in Hawaii.

Mrs. Elvid Hunt was hostess for

the First Infantry Reading Club on Tuesday afternoon.

Captain and Mrs. George Paine will entertain at dinner this evening for Captain and Mrs. Raymond Pratt, Mrs. George Helme and Lieut. and Mrs. Harrison Richards.

Miss Katherine Treat was the inspiration for a very enjoyable "movie" and supper party on Thursday evening at which Miss Gertrude Jones and Miss Katherine Jones were hostesses. The other guests included Captain and Mrs. Augustine McIntyre, Capt. and Mrs. De Russey Hoyle, Miss Margaret Treat, Capt. Stephen Smith, Dr. Charles O'Connor, Lieut. Clyde Sellock, Lieut. Bertram Frankenberg, Lieut. Clift Andrus, Lieut. Daniel Murphy, Lieut. Raymond McQuillen and Lieut. Archibald Arnold.

Miss Ellen Bodley left for the States on the Matsonia, sailing Wednesday. Miss Bodley has been the house guest of Capt. and Mrs. Kerr T. Riggs for several months and has been very popular socially.

On Friday evening Capt. and Mrs. John Thomas were dinner hosts for fourteen guests.

Maj. and Mrs. Charles Lloyd are entertaining at dinner tonight, when their guests will be Gen. and Mrs. Charles G. Treat, Col. and Mrs. William Snow, Maj. and Mrs. Fred Austin and Capt. and Mrs. J. Perrine Barney.

Gen. and Mrs. Frederick S. Strong, accompanied by their house-guests, Mr. and Mrs. Peuehouze of New York City, Miss Chisholm and Lieut. Wallace Philson, motored out from Honolulu on Wednesday evening to attend the artillery hop.

Mrs. George Paine gave a delightful tea on Monday afternoon for Mrs. William Snow, Mrs. Arthur Locke, Mrs. William Banister, Mrs. Charles Lloyd, Mrs. Fred Austin, Mrs. Ellen Jordan, Mrs. Charles Daly, Miss Helena Palmer, Mrs. William Brown, Mrs. De Russey Hoyle, Mrs. J. Perrine Barney, Mrs. John Corey, Mrs. Harry Pfeil, Mrs. Jacob Devers, Mrs. Hatfield Vanderveer and Mrs. William McCleave.

On last Saturday evening Lieut. Archibald Arnold was host at a most enjoyable dinner given at the Haleiwa Hotel, his guests including Capt. and Mrs. Augustine McIntyre, Mrs. Margaret Treat, Miss Ellen Bodley, Miss Katherine Treat, Lieut. Clyde Sellock and Lieut. Frank Schneider.

Mrs. Samuel Frankenberg was hostess at bridge on Tuesday afternoon for Mrs. Ellen Jordan, Mrs. J. H. Michelson, Mrs. John Corey and Mrs. William McCleave.

Preceding the hop at the Mounted Service Club on Wednesday evening Capt. and Mrs. William Browning were hosts at a charmingly appointed dinner. The several small tables were attractively decorated in red African daisies and unshaded candles, while novel little cards marked the places for Maj. and Mrs. Fred Austin, Capt. and Mrs. Raymond Pratt, Capt. and Mrs. Robert Love, Lieut. and Mrs. Oliver Dickenson, Lieut. and Mrs. William McCleave, Miss Helena Palmer, Miss Gertrude Jones, Miss Katherine Jones, Lieut. Clift Andrus, Lieut.

SERVICE FIRST

Bertram Frankenberg and Capt. and Mrs. Browning.

Miss Margaret Treat and Miss Katherine Treat were hostesses at a jolly riding party and picnic on Tuesday night for Mrs. Kerr T. Riggs, Miss Gertrude Jones, Miss Katherine Jones, Miss Ellen Bodley, Lieut. Clyde Sellock, Lieut. Clift Andrus and Lieut. Archibald Arnold.

Capt. and Mrs. George Paine have as their house-guest Mrs. George Barrington Helme of Springfield, Ill.

Lieut. and Mrs. Harold Vanderveer entertained at dinner on Wednesday evening in their usual delightful manner. Covers were laid for Capt. and Mrs. George Paine, Lieut. and Mrs. Harrison Richards, Mrs. George Helme and Lieut. John Hauser.

Maj. and Mrs. Joseph Janda were the honor guests at a prettily appointed dinner at which Capt. and Mrs. John Burnett were hosts at Haleiwa on Saturday evening. About a table tastefully decorated with pink hibiscus blossoms were seated Miss Carrie McMahon, Miss Esther McMahon, Capt. James Ulio, Capt. Charles Bankhead, Lieut. Eugene Landrun, Lieut. Whitfield Cutchin, Maj. and Mrs. Janda and Capt. and Mrs. Burnett.

The transport sailing on last Sunday afternoon took many well-known and popular service people, whose foreign tour had expired, to their new stations in the states. Col. and Mrs. B. Walker Atkinson will go to Kansas City, Col. and Mrs. George Bailey and Miss Mayer to San Francisco, Col. and Mrs. Daniel Howell, Maj. and Mrs. Joseph Janda, Maj. and Mrs. Walter Short and Miss Hortense Short, Capt. and Mrs. James Higgins, Capt. and Mrs. Frederick Black, Lieut. and Mrs. Wilbur Rogers, all of whom will learn the whereabouts of their new posts upon their arrival in San Francisco.

Army circles were much surprised and pleased at the final culmination of a long-looked-for event in the marriage of two of its popular favorites, Col. Tieman N. Horn and Mrs. Isabel Howell Clinton, Father Ignatius Fealy of the 1st Field Artillery officiating. The wedding took place on Saturday afternoon at the home of Col. and Mrs. Daniel Lane Howell, the parents of the bride-elect, at Fort Shafter, and was a very quiet informal affair. The happy couple left immediately after the ceremony for Hilo, where they will spend their honeymoon. Their many friends are now impatiently awaiting their return to tender them a warm and enthusiastic welcome.

Mrs. Samuel Faison and her two children, who have recently returned to Schofield from the mainland, were home-going passengers on the Great Northern, sailing Saturday. Mrs. Faison was called to Washington, D. C., on account of the serious illness of her mother.

Mrs. Philip Kiehl was the guest of honor at a charmingly appointed bridge incheon given by Mrs. Thomas L. Bolton in Honolulu on Monday afternoon. Mrs. Le Vergne Gregg and Mrs. William McCleave were the other post ladies who attended this delightful affair.

Capt. and Mrs. De Russey Hoyle were dinner hosts on Wednesday evening before the artillery hop for Maj. and Mrs. Charles Lloyd and Lieut. and Mrs. Howell Estes.

Col. and Mrs. Frank Albright entertained at a beautiful dinner on Wednesday evening, complimenting Gen. and Mrs. Charles G. Treat. The round table at which the guests were seated was most attractive, having for a centerpiece several baskets of violets, sweet peas and ferns. Covers were laid for Gen. and Mrs. Treat, Col. and Mrs. Charles Hedekin, Col. and Mrs. William Snow, Col. and Mrs. William Banister, Col. Lloyd Brett, Col. Samuel Faison and Col. and Mrs. Albright.

The news has been received at Schofield of the engagement of Miss Ruth Guyer, daughter of Maj. and Mrs. George Guyer, to Lieut. John G. Burr of the 5th Field Artillery. The wedding, which will be a military one, will take place in the spring at Fort Sill, Okla.

Miss Dorothy Van Way is spending the week-end as the guest of Miss Mildred Church of Honolulu. Lieut. and Mrs. Joseph O. Daly were home-going passengers on the Great Northern, sailing last Saturday morning.

PETITION TO CHANGE ARLEIGH COMPANY NAME

Petition for amendment to the articles of association of A. B. Arleigh & Co., thereby changing the name of the firm to Patten Company Limited, was filed today at the office of the territorial treasurer. The petition is signed by W. N. Patten, president, and D. T. Blue, secretary.

TROOP XX DANCE
Troop XX, Boy Scouts, dance will be held at the K. of P. hall instead of the Normal school on Friday, February 16, at 7:45 p. m. General admission will be 25c.

FORBES WILL RETURN ON GREAT NORTHERN

Charles R. Forbes, superintendent of public works, will return on the Great Northern, arriving here February 19, according to private advices which have been received from him.

Forbes, who recently underwent a severe operation in San Francisco, had intended to come on the Wilhelm, reaching here next Tuesday, but his condition was not such as to allow his leaving when that boat sailed on Wednesday of this week.

GERMAN PROPOSES U. S. OUTLINE PLAN TO AVERT WAR; MEANWHILE REPORTS SAY U-BOAT CAMPAIGN IS TO GO ON

HONOLULU WOMEN IN MASSMEETING SHOW PATRIOTISM

Rear-Admiral Brownson, Mrs. A. J. George and Dr. Aurelia Reinhardt at Opera House Gathering, Where 300 Women Meet to Counsel on Their Part in Country's Crisis

"Let us hope we never come to blows, but if we do may the one we strike be swift and hard."

Women of Honolulu, 300 of them, gathered at the Opera House at 11 this morning, heard and discussed "preparedness" plans, navy support and the part that patriotic American women can play.

A characteristic statement made by each of the three speakers who addressed the meeting called by the Women's Section of the Navy League is that given above. The remarks brought spontaneous applause, as did many others.

Theater Gay With Color It was an pleasant sight for patriotic eyes—the interior of the Opera House, turned for the hour from a sedate theater to a mass of navy colors and pennants loaned by Comdr. V. S. Houston of the U. S. S. St. Louis, and national enthusiasm ran at a high pitch throughout the audience from the beginning of Rear-Admiral Brownson's speech, until "The Star-Spangled Banner" ended the meeting at noon.

To carry on a general discussion of "What Can We Do For Our Country," officers of the women's branch of the Navy League, which was organized here over a year ago to encourage Congress to increase appropriations for the navy, called the meeting for 1 o'clock today, and Rear-Admiral W. H. Brownson, retired, Mrs. A. J. George, director of the Security League, who is visiting here, and Dr. Aurelia Henry Reinhardt, president of Mills College of California, consented to speak.

Services Are Volunteered One purpose of this morning's meeting was to distribute cards for the 1000 league members here to sign, indicating what subjects such as knitting, preparing surgical dressings, coking, clerking and so forth they are prepared to, or wish to learn at classes which are to be established for that purpose at the headquarters of the Hawaiian Allied Relief Committee.

Many Tourists Present Besides over 200 members of the Women's Section of the Navy League there were present a large number of Hawaii's visitors, who stopped at the door to tell local members that they belonged to mainland organizations and are vitally interested in the meeting and its success.

Mrs. Walter F. Dillingham, president, presided on the platform and presented the speakers. Mrs. T. J. King, vice-president; Mrs. W. L. Whitney, secretary, and Miss Beatrice Castle were also present, assisting in the management.

Chief Quartermaster George Howard of the St. Louis, with three sailors, hung the many-colored flags, draping them gracefully around the platform.

NEW YORK STOCK MARKET TODAY

Following are the closing prices of stocks on the New York market today, sent by the Associated Press over the Federal Wireless:

HACKFELD & CO. SAY NO LONGER AGENTS OF SHIPS

Health Department is Informed Representative of Owners Will Not Clean Up

Because Hackfeld & Company refuse to be considered further as agents for the German merchantmen in Honolulu harbor, and have so informed the health board in a letter signed by F. W. Klebahn, of the shipping department, territorial sanitary inspectors with a dozen men began this morning to clean these ships and put them in sanitary condition.

According to the order sent to the firm yesterday, this work is being done at the expense of Hackfeld & Company as agents. Dr. J. S. B. Pratt today declined to discuss the matter of who will pay the bill, but referred to the order of yesterday and told an interviewer to draw his own inferences.

"The letter from Mr. Klebahn tells us," said Dr. Pratt, "that the United States officials took charge of the boats on February 4; that at the time they were not sanitary, and if they have since become so it is due to no fault of theirs. It is practically a refusal to do the work ordered."

The sentiment expressed in this letter is similar to that in a letter sent on Wednesday to the harbor board.

Mere fiction! This is the way in which District Attorney S. C. Huber today characterized the claim that the vessels are under control of the United States.

"They are not now controlled by us and never have been," said Attorney Huber, "save for such police control as was deemed necessary to safeguard the harbor from their sinking or blowing up."

Deputy Attorney General Arthur G. Smith, who has advised both the harbor board and the board of health since the question came up, agreed fully with Attorney Huber's opinion.

"We as territorial officials are proceeding on the same theory as the federal officials," says Smith. "Our orders to clean the ships up yesterday were given in that attitude."

Sanitary Engineer S. W. Tay and Chief Inspector C. Charlock were in charge of the force today which cleaned the vessels. The Prinz Waldemar was found in the worst condition—not the Pommeran, as had been expected. A. W. Hansen, food commissioner, condemned such decayed food as was discovered. The refuse was covered with lime and carted away.

A tight flaxseed poultice caused the death of John Capella, aged 16, at Peoria, Ill.

A man with a bullet hole over the heart was found on the westbound tracks of the White line trolley in Crickstadt, N. J.

BUSINESSMAN OF DENVER DECLARES PROHIBITION PAYS

J. H. Causey, Financier, Tells How All Colorado is Now Happy Over Results of "Dry" Legislation; All Legitimate Business Helped; Would Be Good Investment for Hawaii

Prohibition in Colorado has helped every line of business. It has also helped to empty the jails.

Taxes have been reduced the first year of the "dry regime." There is a cleaner type of government and a remarkable satisfaction all around.

It would be a good business investment for Hawaii to be a "dry" territory.

These, in a nutshell, are among the many striking comments on prohibition in the great state of Colorado given by one of Denver's leading businessmen, J. H. Causey, one of Colorado's best-known financiers. He is a member of the firm of Sweet, Causey, Foster & Company, one of the largest bond houses west of Chicago.

In an interview with the Star-Bulletin he makes it plain that Colorado likes prohibition— that even those who opposed it on various grounds now know it has been a splendid thing for the state. As a businessman, his views on the effect of "dry" legislation are particularly interesting to Hawaii, where the prohibition issue is coming strongly to the front.

Asked if it is true that Colorado is satisfied with prohibition, he said: "Yes, Colorado is very happy over her first year's experience with prohibition. Friends of mine who were leaders in the wet movement now say under no circumstances would they vote for wet Colorado and Denver again. I have conversed with some of the members of our leading clubs and practically unanimously those with whom I have talked favor, for business and social reasons, our new order of things."

Hotels Were Scared "The hotels, of course, were most scared when we talked of doing without liquor. 'What' they said, 'A tourist town without wine and champagne? Why, it will drive all our business away.' And so they gave large sums of money and time to fight it. The head of our largest hotel, which had a large business in liquors, told a friend of mine that his business in one month last summer was twenty thousand dollars ahead of any month in its history. One of the clerks in this hotel told

(Continued on page four)

KUHIO EXPECTS HOME RULE BILL WILL NOT PASS

Giving his reason for introducing into congress his home rule bill which called for the election by the people of the governor and secretary of Hawaii and declaring that he had not expected it to pass, is the interesting information contained in a letter from Delegate Kuhio to Raymond C. Brown, secretary of the chamber of commerce.

In referring to the bill, Kuhio says: "I see that my home rule bill has raised considerable discussion there. I am glad it has, for that is the reason I introduced it."

Kuhio also said that he has asked for an appropriation for Nawiliwili harbor but was doubtful if he could get it as only one project is allowed Hawaii this session, that being Kaifi channel.

Diggs-Caminetti Cases Up Again

Universal Military Training Is Favored

(Associated Press by Federal Wireless) WASHINGTON, D. C., Feb. 10.—A bill calling for universal military training in the United States was favorably reported to the senate today by the senate committee on military affairs.

It provides that all male citizens must undergo six months' training during the year in which they reach the age of 19. All such are held in the army and navy reserves until they are 28.

CHIEF JUSTICE AND GOVERNOR IN CONFERENCE

Meeting Held to Devise Means to Relieve Court Congestion; May Call on Washington

Chief Justice J. G. Robertson was to confer with Governor Pinkham this afternoon to the advisability of forwarding to the department of justice in Washington a request for the immediate appointment of a judge for the third division of the local circuit court.

The request to the chief justice that some action be taken to relieve congestion in circuit court was made by Circuit Judge Ashford this morning following a conference with Circuit Judge Whitney. Judges Ashford and Whitney were of the opinion that the congestion should be relieved at once in order to prevent a veritable deluge of criminal and other cases.

It was suggested to the chief justice that, pending the appointment of a circuit judge, one of the circuit judges on the other islands be brought to Honolulu temporarily to begin the trial of cases now pending.

The chief justice suggested that the matter be taken up with the department of justice through the governor with a view to securing the immediate appointment of a new judge. It was practically decided that, until an effort is made along this line, no circuit judge will be called in.

More than 100 cases are now pending for trial, a majority being criminal matters. Circuit Judge Ashford is trying civil cases and Judge Whitney is nearing the completion of the Kahana land case. There has been no actual work done by the third division since the elevation of Justice J. L. Coke to the supreme bench.

Chief Justice Robertson told the Star-Bulletin that he expected to confer with the governor some time this afternoon.

KING MAY MAKE RACE FOR MAYOR

Charles E. King, whom Judge Ashford recently appointed as trustee of the Bishop Estate, is considering, at the request of friends, running for mayor on the Republican ticket. It is quite likely that he will run, he says, but he will reach a definite decision in a few days.

"I am a Republican," King says, "but more of an independent with Republican tendencies."

King says his friends are urging him to run for mayor, and that he also has been urged to run for supervisor. But if he runs at all, he says, it will be for mayor.

GERARD TO LEAVE BERLIN THIS EVENING; LATEST REPORT FROM EUROPE; BERNSTORFF NOT HELD

(Associated Press by Federal Wireless) WASHINGTON, D. C., Feb. 10.—Germany has addressed to the United States, it is understood, a communication suggesting that the two governments discuss ways and means of preventing actual war between the two nations.

The note will probably be forwarded through the Swiss government, which has assumed Germany's diplomatic activities in this country since the formal breaking of relations.

WASHINGTON, D. C., Feb. 10.—It is understood that in suggesting the exchange of views on a method of averting actual war, Germany has made it clear that although diplomatic relations are broken she greatly desires that peace be maintained.

The preliminary outlines of the communication in which Germany voices these views do not indicate that it carries the suggestion that Germany will modify her submarine warfare.

The communication, it is said on good authority in official circles this afternoon, clearly invites the United States to make suggestions regarding steps which the United States thinks might prevent war.

The information here is to the effect that while Germany is proceeding with arrangements for unrestricted submarine warfare, it is certain her diplomats in various parts of the world have been informed that while "military necessity" prevents granting a period in which neutral nations may adjust their maritime affairs, care will be exercised to see that no neutral ships will be subjected to torpedoing without warning.

WASHINGTON, D. C., Feb. 10.—Ambassador Gerard, who has been detained in Berlin by the German government, it is reported, will leave the German capital at seven this evening for Zurich, Switzerland, according to a despatch to the Swiss legation here.

WASHINGTON, D. C., Feb. 10.—A statement attributed to the German secretary of foreign affairs that the American officials in Germany would be detained as hostages for the safe conduct of von Bernstorff, his aides and men of the German ships interned in the United States is not given much credence apparently at the state department. Secretary Lansing said today that he holds the situation thus suggested to be improbable, doubting the authenticity of the statement.

Arrangements have been completed for the departure next Wednesday of Ambassador Von Bernstorff and his staff. They will sail on the liner Frederick VIII for Christiania. Not all the consuls of Germany in the United States will accompany them, as a number have been ordered to proceed to Central and South America.

The Frederick VIII is a Danish liner, owned by a Copenhagen shipping agency.

Von Stumm Declares Germany Regrets Detention of Gerard

(Overnight Despatch) WASHINGTON, D. C., Feb. 9.—Ambassador Gerard is still practically a prisoner and hostage in Berlin, and the Berlin foreign office is attempting to justify this last of German moves by declaring that Germany's treatment of the American envoy is in retaliation for similar treatment given to Count von Bernstorff by the American government.

In a statement issued last night and printed in the Handelsblad of Amsterdam, Foreign Minister von Stumm of the Kaiser's government declared that Germany "regrets that it has been found necessary to adopt such measures towards Mr. Gerard, the American ambassador in Berlin, but that they were compelled by the measures which the government of the United States has seen fit to adopt toward Count von Bernstorff."

The German foreign minister then declares that this government has "prevented Count von Bernstorff from using the telegraph and has failed to give him his passports."

High Paper Price Causes Grand Jury To Probe Situation

(Associated Press by Federal Wireless) WASHINGTON, D. C., Feb. 10.—The department of justice announced today that a federal grand jury is about to investigate whether there has been a criminal conspiracy among manufacturers of paper or others in the trade to hold up prices of "news print" or newspaper material.

BRITISH DESTROYER SUNK BY MINE IN CHANNEL

(Associated Press by Federal Wireless) WASHINGTON, D. C., Feb. 10.—The damage done by the German submarines yesterday was comparatively slight, the total amount of tonnage sunk having been but 10,424, as against an average of more than double that for the preceding days.

King Street Bonds Sell at Premium

Offering a premium of 3 1/2 per cent, the B. M. Allen Estate was the highest bidder for the King street extension improvement bonds, amounting to \$3620, which were opened at the office of City Treasurer D. L. Conkling. The bid was \$3835. There was only one other bidder, the First National Bank, which offered \$3716.97, or a premium of 1 1/2 per cent.

BLUE SKY LAWS OF THREE STATES VALID

WASHINGTON, D. C.—Blue-sky laws of three states—Ohio, South Dakota and Michigan—designed to curb sale of fraudulent securities, were recently upheld as constitutional in the supreme court.

SAY EMBASSY HAD INSIDE INFORMATION

NEW YORK, N. Y.—The German embassy at Washington was at one time apprised of "inside information" of the business of J. P. Morgan & Company, on behalf of the French and English governments, through an alleged compact between an employee of the Morgan firm and a Washington lawyer who was a personal

AHLERS MEN ARE STILL ON SHIP

Until receipt of instructions to the contrary, the officers, cook and wireless operator now living aboard the German refugee merchantman O. J. D. Ahlers at Hilo will be allowed to remain on the vessel, says Assistant U. S. Attorney S. B. Kemp, who returned to Honolulu this morning from the Crescent City.

"If nothing is done which might result in their arrest in the future, these men undoubtedly will not be brought to Honolulu and interned at the immigration station," says Judge Kemp. "For the time being, at least, they will be kept aboard the ship at Hilo."

Judge Kemp, whose trip to Hilo was for the purpose of making a personal investigation as to the status and condition of the Ahlers, says that the ship's engines have been practically ruined in the same manner as the vessels at this port. He was not informed, he adds, whether the boilers have been ruined. An inspection of the boilers was to be made yesterday afternoon and he left Hilo before the examination was made.

The vessel is being guarded by 16 men of the 25th Infantry, who are commanded by non-commissioned officers. The officers of the vessel are allowed to enter and leave as they please, but are being denied access to certain parts of the ship, including the engine and boiler rooms and the compartments where the sea-cocks are located.

While in Hilo Judge Kemp conferred with the customs officials there. Two deputy U. S. marshals are there and are assisting the customs men. Kemp says the Ahlers is a fine, large vessel and that it was built as late as 1911. There is no accounting, he adds, for the members of the crew. He was informed that they left the vessel some months ago, and says it is presumed many of them came to Honolulu and probably joined the crews of the refugee boats here.

"I have nothing to say in regard to the matter," stated Richard L. Halsey, inspector in charge of the U. S. immigration station at this port, this afternoon, when asked by the Star-Pullet what course will be taken by him relative to the officers and crew of the refugee German merchant steamer O. J. D. Ahlers at Hilo.

From reliable sources it was learned at noon that the local immigration authorities are waiting for instructions from Washington before taking any action relative to the Ahlers. No action will be taken until orders are received from Secretary of Labor W. B. Wilson or Commissioner-General of Immigration A. Caminetti instructing the local station to either have the crew brought here or taken off the boat and placed in detention at Hilo pending deportation hearings.

OAHU ORGANIZATIONS TO GET MORE TROOPS

Troops coming on the transport Logan for service on Oahu, due here next Tuesday, are divided as follows: Engineers, six; 4th Cavalry, 48; cavalry unassigned, one; 1st Field Artillery, 13; Light Field Artillery, 212; 5th Field Artillery, 55; field artillery, unassigned, 52; coast artillery, unassigned, seven; 1st Infantry, two; 2d Infantry, four; 25th Infantry, five; 32d Infantry, 17; Infantry, unassigned, 53.

BUY SCRAP IRON BUSINESS

Walter Engle and K. Matsamoto today purchased the Honolulu Scrap Iron Company from the estate of C. H. Brown and W. G. Scott, and will continue the business under the same firm name.

Rock suitable for lithograph stones has been discovered in the Philippines. Exposure to ozone for five minutes increases the fermenting powers of brewers' yeast.

DR. A. F. JACKSON NAMED DIRECTOR OF Y. M. FRIDAY

Dr. Arthur F. Jackson was elected a director of the Young Men's Christian Association at a meeting of the Board of Directors yesterday afternoon. He will succeed Robert Anderson, who was obliged to resign owing to his intended departure for California on March 1 to take up the management of the Mineral Products Company.

Dr. Jackson is well qualified for the honor conferred upon him yesterday. He was for three years general secretary of the student Young Men's Christian Association at Virginia Polytechnic Institute. Since coming to Honolulu in July, 1912, Dr. Jackson has been very active in the affairs of the Honolulu Association. He has served as a member of the physical committee and has been chairman of the board of examiners. The report of Chairman Towse of the membership committee showed a total of 1850 members on January 31. There were presented 102 applications for membership and all were elected. Richard A. Cooke gave the treasurer's report, which showed the Association indebtedness reduced until there was an overdraft of only \$108.08 on January 31.

Lloyd R. Killam presented plans for the new inter-racial student building at the corner of Fort and Vineyard streets. This matter was referred to a special committee which will make specific recommendations at the March meetings of the directors.

Donald Ladd reported on the splendid work which is being done in the student clubs. Four new clubs were formed during the month and altogether 87 students are in the all-round Y. M. C. A. program of bible study, athletics and social life.

The report of A. E. Larimer, executive secretary, showed marked gains in nearly all departments of the Association; 325 men and boys are now in bible study classes and clubs; 56 were interviewed and advised regarding employment; there were 18 calls from employers and 24 men and boys were definitely placed during the month. There was great activity in the physical department, educational department and in the social activities of the "Y."

W. G. Hall reported 27 religious interviews during January and 18 men referred to churches. Frank C. Atherton presided at yesterday's meeting. Other directors present were: Richard H. Trent, W. G. Hall, Richard Cooke, Robert Anderson, C. H. Atherton, Ed. Towse, W. A. Love, Chas. F. Clemons, Emil A. Berndt, C. B. Ripley and Geo. C. Potter.

PORTLAND MILL HOLDS RECORD FOR SHINGLE OUTPUT

PORTLAND, Ore.—That Portland possesses the shingle mill with the largest individual output in the United States is proved by figures cited in the current issue of the Timberman. In 1910 the Manassee Lumber Company at their Portland mill produced 280,000,000 red cedar shingles, setting it at the head of all shingle mills in the United States. Second place is held by a plant at Daymond, Wash., which has 155,311,000 as its mark for 1916.

PRINCETON STUDENTS FOR TRAINING BY 503 TO 92

PRINCETON, N. J.—In a straw ballot by Princeton students 503 ballots were cast "for universal military training," while 92 students voted in opposition. The vote was taken to offset testimony given before to Senate Committee of Military Affairs recently by a delegation purporting to be representative of various colleges and universities in the country. That delegation asserted undergraduates of the country were opposed to universal military training.

TWO RAILROADS TO BE SOLD AT AUCTION SALE

ST. LOUIS, Mo.—Announcement is made that the St. Louis, Iron Mountain & Southern railroad would be sold at foreclosure February 21. The Missouri Pacific railway will be sold at auction the same day.

The sales of the two roads is to clear the way for the ending of the reorganization of the Missouri Pacific Mountain system. Under the reorganization plans, both roads will be under one management, as they are at present.

WOMEN OF HONOLULU SHOW THEIR PATRIOTISM IN MORNING MEETING

(Continued from Page 1.)

balcony, boxes and over the windows, lending a surprising military effect. The colors were taken down immediately after the meeting.

Prominent Women Present

Others of Honolulu's well-known women who faced the speakers and listened with intense interest for an hour, picked at random from the assemblage, included Mesdames W. R. Castle, Gerrit P. Wilder, George P. Cooke, Charles Adams, Charles B. Cooper, Arthur Wall, George Portet, John Walker, T. Lansing, J. Morton Riggs, A. G. Smith, A. G. Hawes, B. F. Dillingham, George Sherman and many others.

Among the military folk present were Brig. Gen. and Mrs. Frederick S. Stroug, Mrs. Houston, wife of Com. Houston of the St. Louis; Mrs. Crenshaw, wife of Com. Crenshaw, and Mrs. Edward Carpenter, wife of Maj. Carpenter.

Half a dozen men were present although the meeting was really a woman's affair.

Imposing in the extreme was the sight when Admiral Brownson, his gray hair which has turned to white during long years of service for the navy of the United States contrasting with the colors of the signals he knew so well, stood before the audience, flanked by the symbols of his life's loyal endeavor and backed by a huge Old Glory whose stripes and stars made the full background of the stage.

Admiral Speaks to Point

The admiral said many pertinent things, all of which cannot be printed here for lack of space. He lauded the women for their participation in the preparedness propaganda; praised Congress for its generosity, referred to the new testament where the Lord said: "He that be without a sword let him sell his garments and buy one;" took a severe rap at Dr. Schumann, whose recent remarks at the National German American Alliance meeting and afterwards have invoked so much criticism by saying the speech was the most outrageous ever presented to an American meeting; and closed by declaring that it was not only steel and iron that made a fighting ship but the men—they are the dreadnought's true soul.

Urges Mobilizing Commerce

Mrs. George, in an eloquent manner, told the women of Honolulu what they can do for their country; that they can turn their preparations for war into an observance of the functions of peace and that what this country needs in the way of mobilization is of commerce and not of men.

Pitay remarks and patriotic appeals mingled in Mrs. George's speech and time after time she was interrupted by hearty applause for some of her more appreciated suggestions and expressions, a few of which were: "Don't you women be like the girl during the Boer war who was told by a Britisher one day that he was too sick to be nursed by her." "Let us women do a part to support the men who are fighting out battles for the efforts of liberty."

"I went to a peace movement meeting in Washington once and when I came out I joined every preparedness organization in sight." Dr. Reinhardt was called from the audience by Mrs. Dillingham to make

a short address. She spoke chiefly on the proper education of American children to an understanding of the true citizenship.

Mrs. George invoked a storm of applause when she said: "Have just one test for all you do—is it an act of a true citizen of the United States?"

CHILDREN ARE TAKEN FROM MOTHER BY COURT

Because it appeared that she was following in the footsteps of her mother, an alleged woman of the underworld, a 13-year-old Porto Rican girl today was committed to the girls' industrial school by Circuit Judge Whitney. The woman was in juvenile court with her five children. She said she wanted to take them all to San Francisco. Judge Whitney decided otherwise. He put the oldest girl and boy in the reform schools and committed the three young children to the Gospel Mission orphan home in Kaimuki, conducted by Evangelist W. E. Pietsch.

VALLEY PHYSICIANS FAVOR FARRELL BILL

SALEM, Ore.—A resolution calling upon the senate to pass the Farrell sterilization bill now before the judiciary committee, has been received from the Medical Association of Polk, Yamhill and Marion counties. The resolution stated that the majority of the members of the association favored the measure. Senator Farrell moved that the resolution be turned over to the judiciary committee for consideration, before an unfavorable report was returned from that committee.

DRUNKENNESS MAY BE CRIME IN OREGON

SALEM, Ore.—Representative Crandall has come to the aid of Dr. Anderson's bone dry bill with a stringent measure which makes drunkenness a crime in Oregon, so that, with the bone dry law, when enacted, prohibiting the importation of intoxicating liquors as a beverage, the bibulous individual will be put in jail if he sidesteps and gets an overload. The measure, besides making drunkenness a crime, provides a penalty running from a fine of \$40 or 30 days in jail for the first offense to 90 days in jail for the third and all subsequent offenses.

PLEADS NOT GUILTY.

Charged with an attempt to commit a statutory offense and assault with a dangerous weapon, Iitaro Okabe, Japanese, pleaded not guilty in circuit court today. It is alleged that the defendant assaulted a Japanese woman named Takanaga Shizumo and that, when she repelled him, he attempted to stab her with a knife. The defendant, the police say, was captured by the woman's husband and turned over to the authorities.

BRITAIN PROHIBITING JEWELRY IMPORTATION

Gold coins, watches and jewelry of every nature are prohibited from importation to Great Britain through the regular mails, according to a notice received by the Honolulu postoffice from the postoffice department, reading as follows:

"Postmaster, Honolulu, Hawaii. Your attention is invited to the following extract (translation) from a circular of the International Bureau of the Universal Postal Union, dated the 29th ultimo, viz:

"The postal administration of Great Britain has authorized me to inform you that the following articles are prohibited importation into the United Kingdom through the regular mails or by parcel post:

"Manufactured and unmanufactured gold, including gold coins and articles made in part of gold or containing gold.

"All articles made of silver other than silver watches and match boxes made of silver.

"Jewelry of every nature.

"I have the honor to request that you will please take notice of the foregoing."

ACCUSE GERMANY OF FORGERY TO SHIP GOODS

ST. GALL, Switzerland (via Paris).—A prohibition against the shipment of Swiss merchandise in certain Dutch companies has been issued, according to authoritative information, as the result of the discovery of a quantity of forged certificates, intended to be used in shipping German goods to America. It was found that the signature of a British consul in Holland had been forged on several occasions.

Several arrests have already been made here in connection with the affair, and the hope is expressed that the prohibition, which seriously affects Swiss commerce, will shortly be withdrawn.

RIBS USED TO MAKE FINGERS AND THUMBS

BERLIN, Germany.—German medical papers report a striking innovation in surgery that has been tried by Dr. Neuhäuser in one of the army hospitals—a new method for growing new fingers to replace amputated digits.

The earlier method was to graft a toe upon the amputated finger or thumb, but Dr. Neuhäuser has successfully used a piece of rib as material for fingers and thumbs, getting at the same time a covering for the new members in a flap of skin taken from the breast just outside the ribs.

FOR KITCHEN USE

A piece of bed ticking about a yard square, preferably old, will save your kitchen towels and many a burned

AHLERS MEN GO ABOUT AT WILL; WONDER IN HILO

Officers and Crew Are Not Detained; Vessel is Guarded After Machinery Wrecked

(Special Star-Bulletin Correspondence) HILO, Hawaii, Feb. 8.—Officers and men of the German merchant steamer O. J. D. Ahlers are at liberty although the officers and crews of other similar vessels in Honolulu and on the mainland, according to advices, are detained in custody of immigration authorities.

Hilo people can see no reason for this since the Ahlers was wrecked as to boilers and machinery in a very complete fashion. Deputy Collector of Customs Byron K. Baird has declared he has nothing to say beyond the fact that when he placed a patrol on the steamer his duties were ended and he had no orders to detain the officers and crew either on the Ahlers or elsewhere.

On Monday Deputy Collector of Customs Baird received instructions from Honolulu to place a patrol on board the vessel and in accordance therewith he had 17 men of B Company, 25th Infantry, come down from the Kilauea military camp under Capt. McNab and go on board the steamer, together with Deputy U. S. Marshal J. Pierce and O. V. Stutzler, both of whom arrived in Sunday last.

Work of Destruction Thorough On boarding the vessel a short examination showed the damage that had been done to the equipment. Geo. D. Russell of the Hilo Iron Works, together with James K. Kennedy of the same firm were sent for and made a comprehensive examination of the machinery, or rather what was left. They found that the work of destruction had been carried on in a very thorough manner. Practically nothing had been left unharmed.

Sea-Cocks Found Open Not satisfied with this and evidently in preparation for the scuttling of the ship, the sea-cocks were opened and the main yoke of the main injection valve stem was so mishandled that all that was necessary to start the inflow of sea water to sink the ship was the forcing over of this yoke with a crowbar.

On Thursday a relief guard came down from the mountain camp and took the place of the soldiers who had been on board since the previous Monday. These soldiers are allowed two hours' liberty each day, being paroled out into squads sufficient to maintain a comprehensive guard pending any further action which might be taken with respect to the Germans still on board the vessel.

NEW COMPANIES ARE ON PROVOST

Three companies of the 2nd Infantry, Companies I, L and M, arrived from Fort Shafter this morning on special cars of the Rapid Transit Company to relieve three of the five companies that have been encamped during the last week at the Capitol grounds. This brings all of the 3rd Battalion into town, as one company was already here in camp with the 2nd Battalion. The 3rd Battalion is the one regularly commanded by Maj. W. B. Cochran, who is in charge of the provost guard. Companies E, F and

NEW PLANS FOR BOND CAMPAIGN

With the \$480,000 water and sewer bond issue election only 11 days away, Harry Murray and his assistants are lining up their forces and preparing for a final whirlwind campaign. Doubtful voters are being seen and swung into line, literature explaining the bonds is being sent out broadcast, slides to be shown at all the moving-picture theaters have been made and will be put on next week, letters to all the merchants in Honolulu asking them to support the issue have been sent—in fact, nothing is being left undone to assure the passage of the bonds.

Just how many more rallies will be held and when had not been decided today. It was planned to hold a rally every night next week, but as the city has already been well covered it is doubtful if more than two or three will be held. A canvass of every doctor in the city did not find one who was opposed to the issue, and in fact all were emphatically in favor of the proposal.

During the two days before the election, February 21—that is, Monday and Tuesday, February 19 and 20—special plans are on foot to advertise the bond issue. While all the details have not yet been settled, the general outline of the plan is to have a large float filled with musicians and decorated with appropriate banners. Throughout both days this float will be driven about the street, occasionally stopping to give concerts, and with the big crowds, both local and visitors, it is deemed sure to make a hit and well as greatly boost the issue.

G returned this morning to their regular post. Maj. Cochran said this morning that no disturbance of any sort was reported by the guard on watch last night.

HAIKU FARM LOAN BILLS OPPOSED

(Special Star-Bulletin Correspondence) WAILUKU, Maui, Feb. 9.—Despite the fact that Representative Clarence H. Cooke has indicated that he will father such a bill, that the federal experiment station officials endorse it, that Former Secretary of Hawaii Thayer expresses his belief in it, and that numerous legislators and other prominent citizens of the islands who have had the opportunity of looking over the proposed measure are heartily in favor of it—Governor Pinkham has stamped the proposed Farm Loan Act of the Haiku Farmers' Association with his unqualified disapproval.

In a letter to E. C. Moore which was read at a meeting of the farmers' organization last Saturday night, the Governor wasted no words in saying that he didn't like any of the bills which have been submitted with the Haiku endorsement. He didn't go into details but indicated plainly that he isn't in any sense in sympathy with the objects sought to be attained through the measures. No action was taken by the association on the letter.

Correspondence was read with the Kahului railroad Company regarding the possibility of having the company extend its tracks several miles further across the mountains. This will be done in case the homesteaders can show a sufficient volume of tonnage likely to be available. A number of farmers are planning to plant sugar cane to rotate with pineapples, and if this class of agriculture is generally adopted the tonnage problem is likely to be solved. It was stated that C. C. James had definitely decided to plant 10 acres of cane, this being the largest area yet undertaken in the district.

John Z. Lowe, collector of internal revenue for the second district of New York, has resigned.

'THE SIGN OF THE ROSE'

SELECTIONS FROM FAVORITE OPERAS PROMISE MUSICAL TREAT AT MOANA

Favorite operatic selections will form a large part of the program at the Moana hotel concert tonight for the benefit of Leahi Home. Signor Joaquin Wanrell has arranged the selections.

Among the numbers are the "Mazurka," aria of Mozart, sung by Mrs. Riley Allen; "Il Segreto," from Lucia di Lammermoor, and two songs of lighter nature by Miss Bernice Holmes; Polonaise, a violin solo, by Mr. A. Podinovsky, and the Concerto in G minor by Mendelssohn, in which Mr. Fidler Bernicani will have the solo piano part.

Signor Wanrell's own numbers will include the Pagliacci prologue and the Toreador song from Carmen in addition to a Spanish song by Alvarez. With Mrs. Riley Allen, he will give the duet from Rigoletto. Signor Wanrell has sung with some of the greatest stars of the operatic world in such musical capitals as Madrid, Milan, Odessa and Buenos Ayres, and has made a name for himself wherever he has been heard.

The sum realized from the concert will be used to further the work of Leahi Home among the sufferers from the white plague, and the concert will thus serve a double purpose. Leahi Home has many uses for any sum which may come into the hands of its directors, and funds are needed to keep pace with the constant expansion of the work. Dancing on the lanai will be enjoyed after the musical program and Mr. and Mrs. Monjo will give several exhibition dances. Tickets may be purchased at the Territorial Messenger Service or at the Young or Moana hotels.

'THE ALIEN' IS SPECIAL OFFER

George Beban, one of the leading character actors of the American stage and easily the leader on the screen, comes to the Bijou theater tonight in "The Alien," a Paramount picture "special," the last word meaning that this film has been secured by the Consolidated Amusement Company at a figure well in advance of the high price usually paid for Paramount features. It will be exhibited at the Bijou in conjunction with the five big vaudeville acts at regular prices, notwithstanding the fact that mainland exhibitors invariably raise on "specials."

Taken at 50 per cent of its face value the comment of the press of the mainland brands this film as one of the great masterpieces of the newer art. A few, taken at random, follow: New York Times—"The film is of the sort to lift you out of your seat. Mr. Beban's own work is of that vividly expressive sort which is graphically effective on the screen. Brooklyn Eagle—"The story abounds in thrills, tears, sighs and sobs." New York Herald—"If there was a dry eye in the house it must have been a glass one."

Salt Lake City Tribune—"The creation of the Italian himself may be regarded as wholly Mr. Beban's work; and it is a masterly performance." Herald, Louisville, Ky.—"There comes a splendid climax in which Mr. Beban reaches the limits of fine emotional acting." New York Evening Sun—"The film story has been produced with such care and ability that it stands up alongside the spoken drama as a compeller of tears and laughter."

Philadelphia Public Ledger—"A photoplay such as 'An Alien' is going to do something for the spoken drama, that the artistic theater of our day is impotent to achieve." Brooklyn Standard Union—"An unqualified success!" New York American—"Mr. Beban is an actor who if he chose might win a lasting place beside David Warfield and a few more actors. His rendering of the Italian character was wholly admirable. He had mobility of face and genuine feeling."

Motion Picture World—"A masterpiece." Motion Picture News—"Just about perfect." Henry Ford, president of the Ford Motor Company, was allowed to proceed with the construction of a \$12,000,000 smelter on the Detroit river, near Detroit.

Capt. Charles Peterson of the Matsonia reported today by wireless to Castle & Cooke that fine weather is being met and everybody on board is well. The liner is bound for San Francisco, having left Honolulu Wednesday.

BIG FILM DEAL; 'CIVILIZATION' RIGHTS SECURED

An important deal in motion picture events was consummated yesterday when Henry Brodthoff, manager of the Hawaii Film Supply, bought the territorial rights of "Civilization."

This film is one of three great films which have thus far been produced. The other two are "The Cansman" or "Birth of a Nation" and "Intolerance."

The subject covered by "Civilization" appeals strongly to everyone first at this time with a realization of the horrors of war, and people in general seeking and praying for peace. Another feature which is greatly in favor of this production is that it does not offend any class or race.

Associated with Mr. Brodthoff in this venture are W. Leslie West of Walluku and S. E. Lucas of this city. Mr. West, has recently resigned a position which he has held with the Walluku Plantation for over seven years, and it was his intention to leave with his family for the mainland the latter part of this month. He will now, however, move to Honolulu and take an active interest in management of matters in connection with exhibiting "Civilization."

In addition to rights of this territory, these parties have secured also sole rights for Fiji Islands, Samoa, Tahiti, New Caledonia and other islands.

The Wyoming senate has passed a bill submitting a constitutional prohibition amendment to the people in 1918.

UMI-A-LILOA WILL BE GIVEN AGAIN

"Umi-a-Liloa" registered a success of such proportions upon its presentation nearly two weeks ago that it is to be repeated at the Opera House next Thursday evening, February 15. At the first performance the house was sold out in advance, and several hundred people were turned away from the door the night of the play. Under those circumstances it was decided to repeat the Hawaiian drama in response to the many requests of those who were unable to attend at that time.

Different singing and dancing numbers have been provided for the entire act features for Thursday evening. The three-act drama, which is given entirely in English, presents a picture of old Hawaiian life and customs which is of deep interest to both the student of history and the seeker after amusement. The spacious days of the old regime give opportunity for gorgeous stage pictures full of life and color.

The hula dances are among the outstanding features of the play. Those which are given are not the modern day hula arranged for tourists only, but the true rendition of the old dances which had a religious and social significance in their presentation. Old chants accompany the dancers in time to the beat of the hula drum.

A number of seats have already been engaged for the second performance of "Umi-a-Liloa." Tickets may be obtained at the Territorial Messenger Service.

SOCIETY

SCHOFIELD SOCIETY

(Special Star-Bulletin Correspondence)
SCHOFIELD BARRACKS, Oct. 10. Mrs. Hamilton Hawkins entertained at a prettily appointed bridge luncheon on Friday afternoon, for Mrs. Robert McRae of Honolulu, Mrs. Charles Hedekin, Mrs. Clarence Day, Mrs. Douglas McCaskey, Mrs. Horace Bloombergh, Miss Katherine Ames, Mrs. John Boniface, Mrs. Robert Cheney, Mrs. Richard Thomas, Mrs. Leonard Prunty, Mrs. Philip Kiehl, Mrs. Charles Willard, Mrs. Frank Halstead, Mrs. Allen Smith and Mrs. J. Perrine Barney. At the end of many interesting rubbers of auction, the handsome prizes, Japanese lamp shades, were awarded to Mrs. Barney, Mrs. Halstead, Miss Ames and Mrs. Richard Thomas.

On Wednesday evening Lieut. and Mrs. Jacob L. Devers were hosts at dinner and later at the Artillery hop for Miss Margaret Treat, Miss Katherine Treat, Lieutenant Clyde Selleck and Lieutenant Archibald Arnold.

Colonel and Mrs. Charles Hedekin have had as their house guest for a few days this week, Mrs. Robert McRae of Honolulu.

Lieut. and Mrs. Ernest Cullum had as dinner guests on Wednesday evening before the Artillery hop, Mrs. Peters, Miss Peters, Col. John McMahon and Lieut. Raymond McQuillen.

Mr. Richard Hungerford and Miss Hattie Hungerford, father and aunt of Mrs. Hugh Wise, arrived from the States on the Great Northern last week to spend several months with Maj. and Mrs. Wise.

Mrs. Herman Erlenkotter is entertaining at bridge this afternoon for the following ladies: Mrs. William Banister, Mrs. Arthur Locke, Mrs. William Snow, Mrs. John Corey, Mrs. Harrison Richards, Mrs. J. Perrine Barney, Mrs. Eley Denson, Mrs. Robert Cheney, Mrs. Raymond Pratt, Mrs. Allen Smith, Mrs. Ellen Jordan, Mrs. Clarence Day, Mrs. J. H. Michelson, Mrs. John Boniface and Mrs. Karl Truesdall.

Miss Anne Hawkins has Miss Alice Palmer of Fort Shafter as her house guest.

On Thursday evening Dr. and Mrs. Charles Jewell motored into town and attended the Cornell dinner given at the University Club for Cornell graduates living in Hawaii.

Mrs. Elvid Hunt was hostess for

the First Infantry Reading Club on Tuesday afternoon.

Captain and Mrs. George Paine will entertain at dinner this evening for Captain and Mrs. Raymond Pratt, Mrs. George Helmle and Lieut. and Mrs. Harrison Richards.

Miss Katherine Treat was the inspiration for a very enjoyable "movie" and supper party on Thursday evening at which Miss Gertrude Jones and Miss Katherine Jones were hostesses. The other guests included Captain and Mrs. Augustine McIntyre, Capt. and Mrs. De Russey Hoyle, Miss Margaret Treat, Capt. Stephen Smith, Dr. Charles O'Connor, Lieut. Clyde Selleck, Lieut. Bertram Frankenberg, Lieut. Cliff Andrus, Lieut. Daniel Murphy, Lieut. Raymond McQuillen and Lieut. Archibald Arnold.

Miss Ellen Bodley left for the States on the Matsonia, sailing Wednesday. Miss Bodley has been the house guest of Capt. and Mrs. Kerr T. Riggs for several months and has been very popular socially.

On Friday evening Capt. and Mrs. John Thomas were dinner hosts for fourteen guests.

Maj. and Mrs. Charles Lloyd are entertaining at dinner tonight, when their guests will be Gen. and Mrs. Charles O. Treat, Col. and Mrs. William Snow, Maj. and Mrs. Fred Austin and Capt. and Mrs. J. Perrine Barney.

Gen. and Mrs. Frederick S. Strong, accompanied by their house-guests, Mr. and Mrs. Peulouze of New York City, Miss Chisholm and Lieut. Wallace Philoon, motored out from Honolulu on Wednesday evening to attend the artillery hop.

Mrs. George Paine gave a delightful tea on Monday afternoon for Mrs. William Snow, Mrs. Arthur Locke, Mrs. William Banister, Mrs. Charles Lloyd, Mrs. Fred Austin, Mrs. Ellen Jordan, Mrs. Charles Daly, Miss Helena Palmer, Mrs. William Browning, Mrs. De Russey Hoyle, Mrs. J. Perrine Barney, Mrs. John Corey, Mrs. Harry Pfeil, Mrs. Jacob Devers, Mrs. Harold Vanderveer and Mrs. William McCleave.

On last Saturday evening Lieut. Archibald Arnold was host at a most enjoyable dinner given at the Haleiwa Hotel, his guests including Capt. and Mrs. Augustine McIntyre, Mrs. Margaret Treat, Miss Ellen Bodley, Miss Katherine Treat, Lieut. Clyde Selleck and Lieut. Frank Schneider.

Mrs. Samuel Frankenberg was hostess at bridge on Tuesday afternoon for Mrs. Ellen Jordan, Mrs. J. H. Michelson, Mrs. John Corey and Mrs. William McCleave.

Preceding the hop at the Mounted Service Club on Wednesday evening Capt. and Mrs. William Browning were hosts at a charmingly appointed dinner. The several small tables were attractively decorated in red African daisies and unshaded candles, while novel little cards marked the places for Maj. and Mrs. Fred Austin, Capt. and Mrs. Raymond Pratt, Capt. and Mrs. Robert Love, Lieut. and Mrs. Oliver Dickenson, Lieut. and Mrs. William McCleave, Miss Helena Palmer, Miss Gertrude Jones, Miss Katherine Jones, Lieut. Cliff Andrus, Lieut.

FORBES WILL RETURN ON GREAT NORTHERN

Charles R. Forbes, superintendent of public works, will return on the Great Northern, arriving here February 19, according to private advices which have been received from him.

Forbes, who recently underwent a severe operation in San Francisco, had intended to come on the Wilhelmnia, reaching here next Tuesday, but his condition was not such as to allow his leaving when that boat sailed on Wednesday of this week.

We announce another Personally Conducted Excursion to the

Bertram Frankenberg and Capt. and Mrs. Browning.

Miss Margaret Treat and Miss Katherine Treat were hostesses at a jolly riding party and picnic on Tuesday night for Mrs. Kerr T. Riggs, Miss Gertrude Jones, Miss Katharine Jones, Miss Ellen Bodley, Lieut. Clyde Selleck, Lieut. Cliff Andrus and Lieut. Archibald Arnold.

Capt. and Mrs. George Paine have as their house-guest Mrs. George Harrington Helmle of Springfield, Ill.

Lieut. and Mrs. Harold Vanderveer entertained at dinner on Wednesday evening in their usual delightful manner. Covers were laid for Capt. and Mrs. George Paine, Lieut. and Mrs. Harrison Richards, Mrs. George Helmle and Lieut. John Hauser.

Maj. and Mrs. Joseph Janda were the honor guests at a prettily appointed dinner at which Capt. and Mrs. John Burnett were hosts at Haleiwa on Saturday evening. About a table tastefully decorated with pink hibiscus blossoms, were seated Miss Carrie McMahon, Miss Esther McMahon, Capt. James Ulio, Capt. Charles Bankhead, Lieut. Eugene Landrun, Lieut. Whitfield Cutchin, Maj. and Mrs. Janda and Capt. and Mrs. Burnett.

The transport sailing on last Sunday afternoon took many well-known and popular service people, whose foreign tour had expired, to their new stations in the states. Col. and Mrs. B. Walker Atkinson will go to Kansas City, Col. and Mrs. George Bailey and Miss Mayer to San Francisco, Col. and Mrs. Daniel Howell, Maj. and Mrs. Joseph Janda, Maj. and Mrs. Walter Short and Miss Hortense Short, Capt. and Mrs. James Higgins, Capt. and Mrs. Frederick Black, Lieut. and Mrs. Wilbur Rogers, all of whom will learn the whereabouts of their new posts upon their arrival in San Francisco.

Army circles were much surprised and pleased at the final culmination of a long-looked-for event in the marriage of two of its popular favorites, Col. Tieman N. Horn and Mrs. Isabel Howell Clinton, Father Ignatius Fealy of the 1st Field Artillery officiating. The wedding took place on Saturday afternoon at the home of Col. and Mrs. Daniel Lane Howell, the parents of the bride-elect, at Fort Shafter, and was a very quiet informal affair. The happy couple left immediately after the ceremony for Hilo, where they will spend their honeymoon. Their many friends are now impatiently awaiting their return to tender them a warm and enthusiastic welcome.

Mrs. Samuel Faison and her two children, who have recently returned to Schofield from the mainland, were home-going passengers on the Great Northern, sailing Saturday. Mrs. Faison was called to Washington, D. C., on account of the serious illness of her mother.

Mrs. Philip Kiehl was the guest of honor at a charmingly appointed bridge incheon given by Mrs. Thomas L. Bolton in Honolulu on Monday afternoon. Mrs. Le Vergne Gregg and Mrs. William McCleave were the other post ladies who attended this delightful affair.

Capt. and Mrs. De Russey Hoyle, were dinner hosts on Wednesday evening before the artillery hop for Maj. and Mrs. Charles Lloyd and Lieut. and Mrs. Howell Estes.

Col. and Mrs. Frank Albright entertained at a beautiful dinner on Wednesday evening, complimenting Gen. and Mrs. Charles G. Treat. The round table at which the guests were seated was most attractive, having for a centerpiece several baskets of violets, sweet peas and ferns. Covers were laid for Gen. and Mrs. Treat, Col. and Mrs. Charles Hedekin, Col. and Mrs. William Snow, Col. and Mrs. William Banister, Col. Lloyd Brett, Col. Samuel Faison and Col. and Mrs. Albright.

The news has been received at Schofield of the engagement of Miss Ruth Guyer, daughter of Maj. and Mrs. George Guyer, to Lieut. John G. Eurr of the 5th Field Artillery. The wedding, which will be a military one, will take place in the spring at Fort Sill, Okla.

Miss Dorothy Van Way is spending the week-end as the guest of Miss Mildred Church of Honolulu.

Lieut. and Mrs. Joseph O. Daly were home-going passengers on the Great Northern, sailing last Saturday morning.

PETITION TO CHANGE ARLEIGH COMPANY NAME

Petition for amendment to the articles of association of A. B. Arleigh & Co., thereby changing the name of the firm of Patent Company Limited, was filed today at the office of the territorial treasurer. The petition is signed by W. N. Patten, president, and D. T. Blue, secretary.

SOCIETY

MRS. RALPH E. BRISTOL AND MRS. CHAPIN A. DAY ENTERTAIN

The Country Club was the setting for a large and very delightful luncheon given on Tuesday of this week, when Mrs. Ralph E. Bristol and Mrs. Chapin A. Day entertained a large company. The table was in the shape of a T. At the top end of the table was an electrically lighted fountain, which called forth a deal of applause. On either side were baskets filled with pink hibiscus and pink Transvaal daisies and lace fern. Down the center of the long table were baskets with high handles filled with the same flowers. Large, gracefully poised butterfly bows rested on each basket handle. The name cards were very pretty, being hand-painted hibiscus in delicate coloring with stands attached, which made a natural looking blossom.

The guests invited by Mrs. Bristol and Mrs. Day were Mrs. Niles of Kansas City, Mrs. E. E. Bodge, Mrs. F. Q. Cannon, Mrs. C. C. von Hamm, Mrs. Charles R. Forbes, Mrs. E. O. Howard of Salt Lake City, Mrs. A. W. Post of Kansas City, Mrs. B. W. Railey of Kansas City, Mrs. M. L. Woolley of Oakland, Mrs. R. L. Noggle, Mrs. Charles A. Stoble, Mrs. H. G. Thompson of Walla Walla, Wash.; Mrs. A. D. Starr of Walla Walla, Mrs. D. Keith, Jr., of Salt Lake City, Mrs. Stanton Wyatt, Mrs. George White-law, Santa Barbara, Cal.; Mrs. Jack Kuhns, Mrs. Mary Briggs of Chicago, Mrs. Belle Boone of Kansas City, Mrs. Frederick Jewett Lowrey, Mrs. S. T. Lewis of Chicago, Mrs. F. W. Stewart of Salt Lake City, Mrs. George Maulle of Salt Lake City, Mrs. J. D. Wood of Salt Lake City, Mrs. J. W. Abbott of Ogden, Utah; Mrs. E. J. Harness of Ogden, Utah; Mrs. Scott of Helena, Mont.; Miss Scott, Mrs. F. J. Center, Mrs. H. Danzig, Mrs. W. J. Coon, Mrs. W. W. Cameron, Mrs. Florence Bodge, Mrs. William Amon Purdy, Mrs. W. Montgomery of Los Angeles and Mrs. Wade of Los Angeles.

MR. AND MRS. GEORGE II BROWN'S PACIFIC CLUB DINNER

At the Pacific Club last Saturday evening one of the prettiest tables was that over which Mr. and Mrs. George II Brown were host and hostess. The circular table was a striking one with its gilded basket filled with American Beauty roses and long trails of asparagus vine. Mr. and Mrs. Brown's guests were Miss Jessie Kennedy, Miss Ruth Soper, Miss Tegart, Mr. Stanley Kennedy, Mr. Vivian Dyer and Mr. Francis Brown.

GUESTS AT PLEASANTON
Among the Pleasanton guests are the following visitors: Miss C. A. Lawbaugh, Calumet, Mich.; Mrs. T. F. Robinson, Battle Creek, Mich.; Miss Ruth D. Robinson, Battle Creek, Mich.; Mrs. Agnes O'Neil, Chicago, Ill.; Miss Hattie H. Pohl, Chicago, Ill.; Mr. F. C. Ball, Muncie, Ind.; E. A. Ball, Muncie, Ind.; Miss Lucy Ball, Muncie, Ind.; Mrs. R. B. Bell, Chicago, Ill.; Mrs. M. G. Kellogg, Chicago, Ill.; Mr. and Mrs. Beddingfield, Canada; Mrs. E. Hutchinson, Michigan City, Ind.; I. Frankford, Los Angeles; Henry Klien, Los Angeles; Mrs. Henry Klien, Los Angeles; G. W. Noble, Chicago, Ill.; Mrs. R. Hoffield, San Francisco, and Miss M. De Cora, San Francisco.

MR. AND MRS. HERBERT DOWSETT'S INFORMAL DINNER
At their charming Peninsula home Mr. and Mrs. Herbert Dowsett entertained on Tuesday evening. A basket of spring blooms ornamented the table center. Mr. and Mrs. Dowsett's guests were Mr. and Mrs. George Brown, Miss Eloise Wichman and Mr. Dickson Nott.

Miss Laura Low, who left Wednesday for a year's study of music on the mainland.

GUESTS REGISTERED AT THE COURTLAND

Mrs. D. Ahlborn of San Francisco, Cal.; Mr. G. P. Ahlborn of Honolulu, Mr. and Mrs. J. R. Adams of Pendleton, Ore.; Mrs. G. C. Archer of New York City, Mr. and Mrs. T. Boylan of Honolulu, Mrs. J. N. Bell of Honolulu, Mrs. and Miss Buckland of Honolulu, Mr. Paul Bartlett, Miss A. Curtis, Miss Ciccio, Mr. and Mrs. Geo. M. Collins of Honolulu, Mrs. W. Worrall of Honolulu, Mr. and Mrs. E. Wilson of Springfield, Mass., Mr. and Mrs. L. D. Glanz, Miss Dorothy Glanz, of Chicago, Mrs. Henry H. Love of Spokane, Wash., Miss R. B. Hite of New York City, Mr. Chas. Mayer, Mr. and Mrs. A. K. Mayer of Indianapolis, Dr. A. R. White of Honolulu, W. W. Williamson, Charles E. Blair of New York, Mrs. F. Denys, Miss Maud Denys of Washington, D. C., Johns H. Bothwell and Mrs. E. A. Wood of Sedalia, Mo., Mrs. Bransford Lewis of St. Louis, Mo.

CENTRAL UNION RECEPTION

Largely attended and delightful in all of its details was the informal reception given by the Women's Society of Central Union church at the parish house Thursday afternoon from 3 to 5 o'clock in honor of the new president, Mrs. Edwin Benner, the retiring president, Mrs. John Trenholm Warren, and Mrs. Arthur L. Andrews, a former president who has just returned from a nine months' eastern trip. Receiving with these women was the chairman of the social committee, Mrs. J. L. Young, and Mrs. George Curry, chairman of the hostess committee of the day. Assisting around the rooms, introducing guests, were the women of the new executive board, while refreshments were served later by a bevy of young girls. Mrs. Curry's assistants for the day were Mesdames H. W. Marvin, F. C. Lyser, J. H. Drew, Percy Morse, Donaghho and Miss Margaret Hopper.

The program was in charge of Miss Hopper and included the singing of Cadman's exquisite "Land of the Sky Blue Water," by Mrs. Cyril Hooks, with piano accompaniment by her mother, Mrs. Wadman; the reading of the flower scene from "Ingomar," delightfully given by Miss Elizabeth Hobdy; and the singing of two of Grant Schaefer's charming songs of nature by Miss Ethel Damon, Miss Hopper acting as Miss Damon's accompanist.

The Reception room was garden-like with its masses of tropical palms and long-stemmed peach-blow hibiscus blossoms, while the small tables scattered about for the serving of refreshments each held a large brown basket brimming over with exquisite pastries. After the program hot chocolate with whipped cream, sandwiches and delicious home-made tea cakes were served. This was the first social affair given since the new officers took charge of the society and indexed a most successful year of sociability and good cheer.

necklaces, states, using his string to have proved very successful. The Three has promised that he will be artists to Hawaii for four chamber concerts in the near future. The magnificent piano Madame Lerner was given by manufacturer and it has in all of her mainland concert seldom that we in Honolulu afforded the opportunity of hearing an instrument. A great playing of this artist is heard, and those who were enough to hear her on Thursday will remember the vibrant singing tone she Technique in a pianist is more than simply skipping down the keyboard, playing the notes as the notes are written. The quality of tone production, the dynamic force used in passages emphasized—all go to make a subtle thing—"technique," I hope to possess, but few attain. Situated as we are, so far mainland, we are not permitted to hear all or even a fair portion of the great number of artists who in American concert tours, we are willing to accept Madame Lerner's interpretations of the and we all extend to her our aloha and wish that she will return on another concert trip.

MR. CLARENCE WATERMAN A DINNER HOST

The dance at the Courtland on Thursday evening brought many guests to the hotel. Mr. Clarence Waterman presided as host at one of the many pretty dinners, his guests being Mr. and Mrs. William Williamson, Mr. and Mrs. A. K. Mayer, Miss Ethel Potter and Mr. A. R. Mayer.

MRS. W. J. COON ENTERTAINS AT A BRIDGE TEA

Mrs. William J. Coon entertained at a bridge tea at her home on Thursday afternoon. The rooms were effectively decorated with cut flowers from the garden. A gift appeared for the one holding the highest score at each table, things typical of the islands being awarded to the visitors from the mainland. Mrs. Coon's guests were Miss Briggs, Mrs. George Case, Mrs. Abbott, Miss Sara Teetzel, Mrs. C. A. Scott, Mrs. Henry H. Williams, Mrs. Crittenden, Mrs. Ralph E. Bristol, Mrs. J. French, Jr., Mrs. Shaver, Miss Pocock, Mrs. J. J. Lecker, Mrs. Darling, Miss Glenna Thomas, Mrs. Chapin A. Day, Mrs. C. Fairweather, Mrs. Hamers, Mrs. W. O. Larimer, Mrs. A. E. Murphy, Mrs. W. A. Purdy, Mrs. G. Dashiroy, Mrs. Graves, Mrs. John Caum, Miss E. C. Thomas and Mrs. George Renton.

MR. A. B. CLARK A DINNER HOST

The Pleasanton hotel was the setting for an extremely pretty dinner given by Mr. A. B. Clark on Wednesday evening. The guests were seated at a circular table that was most attractive, a basket filled with sweet peas, Cecil Bruner roses and violets giving a charming effect. The dance at the Pleasanton was the evening's enjoyment. Mr. Clark's guests were Mr. and Mrs. Fred B. Damon, Mr. and Mrs. Gustav Schaefer, Mr. and Mrs. Samuel Allen Walker, Mrs. George Bennett, Mrs. Harold Giffard, Mr. A. W. Brown, Mr. Robert White and Mr. Robert McCorriston.

DANCE AT THE COURTLAND

The Courtland hotel gave its weekly dance on Thursday evening and a most enjoyable affair it was. After dinner the guests danced till midnight. Some among those who entertained were Mr. and Mrs. Thomas Boylan, who had as their guests Mr. and Mrs. Butler; Miss Custella had five guests; Mr. Julius Unger had six guests, as did Mr. Clarence Waterman; Mr. and Mrs. George Collins had 10 guests; Mrs. Nellie Johnson had six guests.

GEN. AND MRS. STRONG'S DINNER
At their pretty Waikiki home Gen.
and Mrs. Frederick S. Strong enter-
tained a company of guests at dinner
on Thursday night. Mrs. Strong's
table decorations are always extreme-
ly pretty and this table was no possi-
bly prettier than others. American
Beauty roses were used in generous
profusion; broad satin ribbon in the
shade of the roses adding greatly to
the whole.

and Mrs. Johnson. The table was set
in the tea room at the Johnson's
beach home and decorated with gin-
ger blossoms and deep red roses. A
maile lei was at each guest cover,
and as it was a moonlight night little
other than candle light was used,
making it an exceptionally attractive
affair.

The guests were Count Izergun, Mr.
and Mrs. L. H. Kirtledge of Cleveland,
Mrs. Ingram Stanback, Mrs. Frances
Reed, Mrs. Monroe of Chicago, Miss
Reed of New York City, Mr. and Mrs.
George Ankers, Mr. R. H. Bonine of
Cleveland and Mr. W. J. Fleming.

A BIRTHDAY CELEBRATION
Mrs. J. Morton Riggs celebrated her
birthday last Sunday evening. A very
elaborate birthday dinner was served
at the Rathskeller and Mrs. Riggs
was showered with good wishes
cables, marconigrams and gifts,
among which were a silver loving cup
with the dinner guests' names inscrib-
ed and two very handsome necklaces.
A lot of funny gifts were also showered
on this very popular matron. Dancing
on the roof garden followed. The
table was very beautiful. Three bas-
kets of flowers were used. In the
center was a basket filled with American
Beauty roses an dat either end was a
basket filled with sweet peas and
violets. Tulle in every shade of the
blossoms used made a harmonious
and beautiful whole.

Mr. and Mrs. Riggs' guests were
Mr. and Mrs. Percy Evans, Mr. and
Mrs. James McCandless, Mr. and Mrs.
Arch McKillop, Mrs. Georgina Archer,
Mrs. Esther Harris, Mrs. Alma T. Pat-
terson, Mr. F. B. Silverwood, Mr. Wal-
ter P. Hudson, Mr. Corbin and Mrs.
Guy Buttolph.

MR. AND MRS. H. H. HART OF
BERKELEY ENTERTAIN
This evening Mr. and Mrs. H. H.
Hart of Berkeley, Cal., are giving a
dinner at the Rathskeller. The table
is to be decorated with spring blooms
in every shade. Mr. and Mrs. Hart's
guests will be Mr. and Mrs. Harry
Lewis, Mr. and Mrs. Robert Shingle,
Mr. and Mrs. Alexander G. Hawes,
Mrs. Granville D. Abbott of Piedmont,
Cal., Miss Ville of San Francisco, Mr.
Walcott of Berkeley and Mr. Frank
Armstrong.

MR. AND MRS. R. D. SCOTT ENTERTAIN AT THE PLEASANTON
Mr. and Mrs. R. D. Scott of Cleve-
land, Ohio, entertained at dinner at
the Pleasanton Hotel on Friday even-
ing. A basket of Chinese asters made
a very effective centerpiece. Mr. and
Mrs. Scott's guests were Mr. and
Mrs. C. B. Bartlett of Cleveland, O.,
Mrs. M. A. Huniston, Mrs. Bland, Mrs.
Burr W. Freer, Miss Mary Freer and
Dr. A. C. Wall.

MARRIAGE ANNOUNCED
Doctor and Mrs.
Oliver Anderson Jeffreys
announce the marriage of their sister
Helen Isabelle Irvine Jeffrey

MR. AND MRS. JAMES D. DOLE'S
DINNER
Mr. and Mrs. James D. Dole were
dinner host and hostess on Wednes-
day evening at the Country Club, en-
tertaining for eight guests.

MOANA HOTEL GAILETY
The Moana hotel has been very
gay this week. On Tuesday evening
the dance drew a large crowd. Wed-
nesday afternoon 10 tables of bridge
were going. This evening after the
charity musical recital for Leahli
Home the guests are invited to remain
and enjoy the dance.

MRS. MENASSES GIVES A DINNER
Mrs. Menasses, a guest at the Moana
hotel, entertained on Tuesday evening
with a dinner-dance. The guests
were Mrs. Thompson, Mrs. McKay,
Mrs. Luiz of San Francisco, Mrs. Cohen
of San Francisco, Mrs. Krieger of
Buffalo, Mrs. Door and Miss Door of
San Francisco.

MR. AND MRS. CHARLES DANA
WRIGHT ENTERTAIN
Mr. and Mrs. Charles Dana Wright
entertained six guests at dinner on
Tuesday evening at the Country Club.

A TENNIS TEA
Miss Beatrice Castle was hostess at
an informal tennis tea on Wednesday
afternoon, the guests going to Miss
Castle's for tea after the games.

BRIG.-GEN. AND MRS. SAMUEL
JOHNSON ENTERTAIN
Count Izergun of Petrograd and Mr.
and Mrs. L. H. Kirtledge of Cleveland
were the honor guests at a pot supper
on Thursday evening given by Gen.

and her husband by the Honolulu public
on this her first visit to Hawaii.
In private life the lovely Russian
artist is Mrs. Vladimir Schavich.
Her husband has been conducting a
series of chamber concerts in the
states, using his string trio, which
have proved very successful. He
promises that he will bring these
artists to Hawaii for four or five
chamber concerts in the near future.
The magnificent piano used by
Madame Lerner was given her by
the manufacturer and it has been used
in all of her mainland concerts. It is
seldom that we in Honolulu are af-
forded the opportunity of hearing such
an instrument. A great point in the
playing of this artist is her superb
tone, and those who were fortunate
enough to hear her on Thursday even-
ing will remember the beautiful,
vibrant singing tone she produced.
Technique in a pianist is infinitely
more than simply skipping up and
down the keyboard, playing composi-
tions as the notes are written only.
The quality of tone produced, the ac-
centuation of melody, the different
dynamic force used in passages to be
emphasized—all go to make up that
subtle thing—"technique," which all
hope to possess, but few attain.

Situated as we are, so far from the
mainland, we are not permitted to
hear all or even a fair portion of the
great number of artists who appear
in American concert tours. However,
we are willing to accept Madame Ler-
ner's interpretations of the masters
and we all extend to her our hearty
aloha and wish that she may soon
return on another concert trip.

r. and Mrs. Frank A. Guernsey and
Dr. and Mrs. L. R. Johnson will sail
on February 12 on the steamship
Great Northern for the Hawaiian Isl-
ands. They will be in Honolulu for
the annual festival and will visit all
the islands.—Stockton Record.

Misses Elva and Juanita Ghrardelli
will accompany their mother, Mrs.
Louis Ghrardelli, to Honolulu, leaving
early in February for a sojourn of a
month or six weeks.—San Francisco
Examiner.

CAPT. AND MRS. JOHN THOMAS'
DINNER PARTY
Capt. and Mrs. John Thomas enter-
tained dinner guests on Friday even-
ing at their quarters, Schofield Bar-
racks. Capt. and Mrs. Thomas'
guests were Mr. and Mrs. Harvey V.
Murray, Mr. and Mrs. Alexander G.
Hawes, Mrs. Eleanor Hyde-Smith,
Miss Helen Alexander and Mr. Will-
iam Lewers.

MR. JULIUS UNGER'S INFORMAL
DINNER
Mr. Julius Unger entertained at the
Courtland hotel on Thursday evening
of this week. The table was simply
decorated with a basket of pink roses
in the center. Mr. Unger's guests
were: Mr. and Mrs. S. Peck, Dr. and
Mrs. Ormond Wall and Miss Stella
Peck. Dancing was enjoyed after
dinner.

THE PLEASANTON HOTEL
The dancing party given on
Wednesday evening at the Pleasanton
hotel management was a great suc-
cess. About 100 guests were in the
dining room for dinner and after din-
ner a large company of the younger
set who had been invited came and
danced until midnight.

some among those who entertained
were:
Mrs. J. E. Ely entertained, honoring
Mr. and Mrs. A. M. Nowell, Mrs. Kath-
erine Ives and Miss C. Pearson.
Mr. and Mrs. L. W. de Vis-Norton
had as their honor guest Prof. T. A.
Jagger.

Luring dinner Miss Pearson sang
very pleasingly and was encored sev-
eral times.
Last evening the hotel had a din-
ner-dance.
Next Wednesday the usual exhibi-
tion hula will be given in honor of the
Great Northern passengers. A dance
will follow, to which Honolulu society
is invited.

MRS. CURTIS F. LAUKEA ENTER-
TAINS
A Chinese luncheon with Chinese
illies as a centerpiece and Chinese
name cards at each cover was Mrs.
Curtis F. Laukea's way of entertaining
Mrs. Alexander G. M. Robertson, Mrs.
James T. Lewis, Mrs. Carlos Lona,
Mrs. James Jaeger and Mrs. George
Smithies. After luncheon needlework
made the afternoon hours pass
rapidly.

MRS. WILLIAM JOHNSON'S DIN-
NER
Mrs. William Johnson was hostess
at an informal dinner on Thursday
evening at the Courtland Hotel, enter-
taining for Miss Jessie Rae, Miss Ruth
Johnson, Mr. Paul Bartlett, Mr. Wil-
liam Johnson and Mr. Charles King.
Dancing was the diversion after din-
ner.

MR. AND MRS. GEORGE COLLINS
HONOR MISS MAUD HIND
Miss Maud Hind of Oakland, Cal.,
was the guest of honor at a dinner
given on Wednesday evening by Mr.
and Mrs. George Collins at the Court-
land Hotel. As decorations a brown
rustic basket was filled with long
sprays of golden shower and Austral-
ian fern.

After dinner the guests danced
until midnight. Mr. and Mrs. Collins'
guests were Miss Maud Hind, Miss
Mary Lucas, Miss Harriet Lucas, Miss
Mona Hind, Miss Margaret Hind, Mr.
F. Quager, Mr. Charles Lucas, Mr. How-
ard Worrall and Mr. Ross.

DR. AND MRS. ORMOND WALL'S
CHOWDER PARTY
This evening Dr. and Mrs. Ormond
Wall are giving a chowder party, hon-
oring Mr. and Mrs. Samuels of Rhode
Island. It will be held at the Wall's
Kahala home and after supper squid
spearing is to be the evening's sport,
typical of Hawaiian activities. Dr.
and Mrs. Wall's guests will be Mr.
and Mrs. Samuels, Mr. and Mrs. James
D. Dougherty, Mrs. Dora Ahlborn, Mrs.
Freer, Mrs. Bland, Mrs. Huniston,
Mr. and Mrs. F. D. Chandler and Mr.
George Ahlborn.

MR. AND MRS. F. NILES GIVE A
DINNER
Mr. and Mrs. F. Niles of Kansas
City, who are visitors here for the
winter, entertained at the Moana hotel
on Tuesday evening. A basket of
pastel shaded Transvaal daisies were
a pretty ornament on the table. After
dinner dancing was enjoyed. Mr. and
Mrs. Niles' guests were Chief Jus-
tice and Mrs. Alexander G. M. Robert-
son, Mayor and Mrs. John Lane, Mr.
and Mrs. Cochran of Kansas City, Mrs.
Boone and Miss Boone of Kansas
City.

MRS. POWELL C. FAUNTLEROY
ENTERTAINS
Mrs. Powell C. Fauntleroy of Fort
Kamohameha was a luncheon hostess
on Tuesday of this week at the
Country Club, entertaining 16 guests.
Bridge made the afternoon hours pass
pleasantly.

MISS LALLEY OF NEW YORK A
DINNER HOSTESS
Miss Lally of New York city gave
a dinner on Tuesday evening at the
Moana, honoring Mr. and Mrs. J. W.
Benton, Mrs. E. J. Steele and Mr.
Norbury.

SOCIETY

COMINGS AND GOINGS OF THE SMART SET

Mrs. James D. Dougherty is entertaining on Thursday of next week at a bridge tea.

Mrs. C. D. Lufkin of Maui is expected back in Honolulu on the Wilhelmina Tuesday.

Mrs. Harry Hoffman will be at home to her friends on the first and second Monday of each month.

Mr. and Mrs. A. Wiley Mather, who spent last winter here, are expected back on the Wilhelmina.

Mrs. F. A. Schaefer was a luncheon hostess on Monday at her Nuuanu home, honoring Miss Maria von Holt.

Dr. St. D. G. Walters, who has been enjoying a mainland vacation trip, will arrive home next Tuesday morning.

Miss Anna Lackland was a luncheon hostess on Tuesday of this week at the Country Club, entertaining for 22 guests.

Mrs. E. L. Chittenden and Mrs. Joseph French, Jr., are leaving on Saturday's Mauna Kea for a week's sojourn at the Volcano.

Miss Ellen Bodeley of Louisville, Ky., who has been the house-guest of Col. and Mrs. Frank R. Keefer, left for her Southern home on the Matsonia.

Mrs. G. C. Horton of Pasadena, Cal., is the house-guest of Mr. and Mrs. Isaac Cox at their Kaimuki home. Mrs. Horton will be here until after the Carnival.

Mr. and Mrs. Walter Dusenberg have secured the Eugene Steeres' Kahala beach home and here they will live until they decide just where they wish to build.

Mr. and Mrs. Walter Dusenberg will arrive on the Wilhelmina. Mr. and Mrs. Dusenberg are on their honeymoon trip, being married several weeks ago on the mainland.

Mrs. E. L. Chittenden of Niles, Cal., was a passenger arriving on the Sonoma and will be the guest of Mrs.

Joseph French, Jr., at her Keeaumoku street home for the next six weeks.

Mrs. Eugene Steere will preside as tea hostess on Thursday of next week, honoring Mrs. A. L. Andrews, who has been on the mainland for the past nine months. The tea is from 3 to 6.

Miss Catherine and Miss Carolyn Raymond are entertaining on Tuesday of next week, honoring Miss Scott of Fort Shafter, who, with her family, leaves very shortly for the mainland.

After a year in Honolulu Mr. and Mrs. J. H. Hall returned to San Francisco on the Great Northern, taking with them their little niece, Stephanie Quinlan, who will be gone for several months.

Mr. and Mrs. Herbert Dowsett are entertaining at the Country Club on Wednesday evening, giving a valentine party in honor of Miss Eloise Wickman and Mr. Dickson Nott, whose engagement was recently announced.

A trip to Honolulu and other places of interest in the Hawaiian Islands will be included in a vacation jaunt by Mrs. J. Babler and daughter, Avis, who left Portland with this delightful prospect in view yesterday morning. The ladies visited here over Christmas with Mrs. M. M. Hawkins and other relatives and left for Portland on Tuesday afternoon.—South Bend, Wash., Pilot.

Mrs. Harold Law, Mrs. L. L. Dunbar and Miss Florence Braverman were among the San Franciscans sailing yesterday on the Great Northern for Honolulu. Mrs. Law and Miss Braverman were accompanied to the dock by Mrs. Samuel Hopkins, Mrs. Arthur Vincent and little Hartland Law.—San Francisco Examiner.

Among the army folk who will leave for Honolulu on the February transport are Col. and Mrs. Richmond Schofield. They will be accompanied by their attractive daughter, Miss Margaret Schofield. Col. Schofield will be stationed at Schofield Barracks, about 33 miles from Honolulu.—San Francisco Examiner.

Mrs. Granville Abbott will be one of the many tourists from Oakland who are sailing this month and next for Honolulu to enjoy the festivities attendant upon the annual Carnival. Mrs. Abbott with a party of friends will sail January 24 on the Matsonia for a sojourn of a month or more.—San Francisco Examiner.

Miss Elinor McNear sailed for Honolulu last week with some Eastern friends. They plan to be away some time, visiting various points of interest in the islands. Miss McNear has many friends in that fascinating region who are delighted with the prospect of entertaining the charming girl.—S. F. Bulletin.

Miss Marjorie Guild of Honolulu spent a very pleasant evening with Miss Helen Coulter last Wednesday. Miss Guild is at present enjoying her vacation from a select Berkeley school for young ladies where she is finishing her education.—Sausalito, Cal., News.

MAUI SOCIAL NOTES

(Special Star-Bulletin Correspondence)

MAUI ENGAGEMENT ANNOUNCED
WAILUKU, Maui, Feb. 9.—The marriage of Miss Gladys Irene Sabey and Mr. James Smith, whose engagement was announced some weeks ago, will take place at the home of the bride's parents, Dr. and Mrs. L. A. Sabey, in Paia next Friday evening. Although invitations will be limited

to the more intimate friends of the young people, the wedding promises to be an exceptionally pretty affair. The attendants will be Miss Dottie Henning, as bride's maid, and Mr. Jean Sabey, brother of the bride, as best man.

MAUI CHORAL CLUB ACTIVE
WAILUKU, Maui, Feb. 9.—A very pleasant and enthusiastic meeting was that of the Choral Club, held last Friday evening at the Paia Community House, at which officers for the new year were elected and plans discussed for the coming season's work. A bounteous supper was the first thing on the evening's program and this, together with the heartening effects of recent success to discuss, put everybody in a happy frame of mind for the more serious work.

The officers elected were F. B. Cameron, president; W. S. Beeman, secretary-treasurer; Mrs. W. S. Nicoll, librarian; executive committee, Mrs. H. D. Sloggett, William Phillips and Mrs. A. C. Bowdish. Harry Washburn Baldwin will continue as director.

The outgoing officers are: H. D. Sloggett, president; Mrs. Bowdish, secretary-treasurer; Mrs. Murdoch, librarian; executive committee, Mrs. H. A. Baldwin, Mrs. W. S. Nicoll and D. C. Lindsay.

The score for Victor Herbert's "Serenade," which will be undertaken later in the season was gone over. The club will, however, give a minstrel show within the next six weeks which promises to be a good show. The evening was finished up with dancing and music and a generally good time. A great deal of enjoyment is anticipated from the work in the next few months.

PEGGY CENTER NOT TO SING ON MAUI
WAILUKU, Maui, Feb. 9.—Peggy Center will not sing on Maui as had been hoped by the talented young singer's many friends on this island. Definite word to this effect was received the first of the week by Mrs. H. A. Baldwin. Miss Center wrote that as it was necessary that she return to Australia sooner than she had expected, she will be unable to come. She expects to sail by the Niagara on the 21st to resume her musical studies.

MR. F. B. SILVERWOOD HONORED
Mr. and Mrs. J. Morton Riggs are entertaining tomorrow evening honoring Mr. F. B. Silverwood of Los Angeles. The table is to be decorated with deep yellow chrysanthemums and lace ferns. Mr. and Mrs. Riggs' guests will be Mr. F. B. Silverwood, Mr. and Mrs. Lester Petrie, Mr. and Mrs. George Angus, Mr. and Mrs. Thomas Wall, Dr. and Mrs. M. E. Grossman, Mr. and Mrs. Arthur F. Wall, Mrs. I. J. Shepherd, Mrs. Alma Patterson and Miss Dorothy Allen.

MACARONI AU GRATIN
Break half pound of macaroni in small pieces, boil in salt water until tender; drain, rinse in cold water and drain again. Chop one peeled onion and two green peppers from which the seeds have been removed and cook until tender in three tablespoons of butter. Add the solid portion of a can of tomatoes, one teaspoon of sugar and one teaspoon of salt, cook ten minutes, add the macaroni, mix thoroughly, turn into a buttered baking dish, sprinkle with buttered crumbs and bake about half an hour, or until the crumbs are brown.

Melt a tablespoon of butter in the frying pan, and one onion cut up and when slightly browned add six fresh tomatoes peeled and cut up or two cups of canned tomatoes, then add salt and pepper to taste. When the tomatoes and onion are cooked beat three eggs and stir into the mixture and when cooked remove from fire and serve hot on toast.

HOTEL LOBBY LORE

In honor of the approaching Carnival season the Moana Hotel bell-boys have turned out in new white uniforms, double-breasted with two shiny rows of bright buttons.

Chief Clerk Poirier of the Moana Hotel has received a request from a prominent party which expects to come here soon for a private cottage with dining room and servants attached.

Chief Clerk Creed of the Young Hotel looks at his room registry and then at the advanced requests for reservations and then at his assistants—and then swallows hard and says nothing.

Montana people who arrived recently from the Treasure State include Miss Edith Greenough and Mrs. Lucy Walters of Missoula, Montana, who will be here at the Seaside Hotel, until February 21.

F. J. Callahan, an extensive miner of Wallace, Idaho, and a friend, A. T. Herton, came to Hawaii recently to shake a few of the northern shivers out of their systems with a generous application of Waikiki surf. They are at the Seaside Hotel.

With the paving of Kalakaua avenue continuing directly in front of the beach hotels now and with nearly every room filled with visitors those who do not see the beach often should know that there is a particularly lively scene in that neighborhood.

As a manufacturer of refrigeration plants and from a country where it sometimes gets cold enough to make them out of nature, J. B. Lacey of British Columbia comes to Honolulu with Mrs. Lacey for a little real moderate weather, jumping from the heat of Australia on his way home.

Making steel lathes for an occupation and general conducting of great steel forges during the stress of war-time orders has brought Mr. and Mrs. M. A. Coolidge and their three daughters, Miss Louise, Judith and Helen, to Hawaii for a vacation from their home in Fitchburg, Mass. They are at the Seaside Hotel and expect to be here about two months. Registrar Charles H. Morrison of the bureau of conveyances is a schoolmate and former fellow townsman of Coolidge and is showing the visitors some of Honolulu's attractions.

VITAL STATISTICS

BORN.
KAMEEKA.—In Honolulu, Feb. 8, 1917, to Mr. and Mrs. Howard Kameeka of 193 Liliuokalani street, a daughter—Esthe.

IIWAALANI.—In Honolulu, Feb. 4, 1917, to Mr. and Mrs. Richard K. II-waalani of Chung Hoon lane, a daughter—Lani.

MARRIED.
KAUHINI-TAYLOR.—In Honolulu, Feb. 9, 1917, Daniel Kauhini, Jr., and Miss Hannah H. Taylor, Rev. Akako Akana of the Young People's League, officiating; witnesses—Mrs. Nellie Jackson and Mrs. M. A. Baker.

JOSIAH-CLARK.—In Honolulu, Feb. 7, 1917, Peter Josiah and Miss Catherine Clark, Rev. Father Philip Blom of the Catholic Church of Our Lady of Peace, officiating; witnesses—Robert Clark and Helena Una.

DIED.
MOELUHI.—In Honolulu, Feb. 8, 1917, Daniel B. Moeluhi of Kanoa lane, near Alapai lane, street-cleaner, a native of Kaupo, Maui, 67 years old.
JOHNSON.—In Honolulu, Feb. 9, 1917, Edward Kaholomoku Johnson of No. 3, rear 377 North Kukui street, married, blacksmith, a native of this city, 38 years old.

HERRICK.—In Stockton, Cal., Feb. 7, 1917, Charles Frederick Herrick, formerly of Honolulu, a native of this city, 49 years old.

DESCRIPTION OF CAPITOL NEEDED

That some written description of the Capitol building should be placed on one of its halls for the benefit of visiting strangers who call there, is the opinion of one man who was looking about the building yesterday.

"It is my belief," he said, "that Honolulu would do well to have the story of this place printed, set in a little frame and placed somewhere on the wall so that persons who call here can read for themselves about it, without hunting up the elevator boy or the janitor."

"For example I have been wondering when this structure was started, and how long it took to complete it. I have not been able to find anyone about here yet who could answer the question."

"I am told that this was the old home of the monarchy. A brief his-

tory of the place, with some word as to what the various portions of the building were used for, would interest many of us who call here."

Several territorial officials to whom the matter was mentioned by the Star-Bulletin expressed the belief that such a plan would be good to put into effect. Many strangers call every day, they say, and a description of this sort would be of value.

BAKED BANANAS

Remove the skins from the bananas and scrape the long fibers from the outside; cut in halves, lengthwise, and put in a granite pan. Pour over the bananas a mixture of two tablespoons of melted butter, one-third cup of sugar and the juice of half a lemon. Bake in a moderate oven about 30 minutes. Turn once during baking. The bananas should be baked frequently with the butter and sugar mixture, which forms a thick syrup and browns slightly when the bananas are done.

Oysters are better fried in oil than in lard or butter.

SOCIETY

FT. SHAFTER SOCIETY

(Special Star-Bulletin Correspondence)

FORT SHAFTER, Feb. 10.—Mrs. William E. Cochran entertained most delightfully at luncheon on Monday in her quarters in the main garrison. Those playing during the afternoon were Mrs. Frank Hunter of Los Angeles, Mrs. William Lloyd Morris of Morgantown, West Virginia; Mrs. John Mason of California, Mrs. William R. Dashiell, Madame Pearson, Mrs. Ralph C. Holliday, Mrs. Charles S. Lincoln, Mrs. Lohman, Miss Bonnie Scott, Miss Elizabeth Rosenbaum, Mrs. Raymond A. Wheeler, Mrs. Alfred L. Rockwood, Miss Campbell, Mrs. Bernhardt K. Stumberg, Mrs. John S. Sullivan and Mrs. Edward Fuller Witsell. The prizes, which were most attractive Japanese wall flower vases, were won by Madame Pearson, Mrs. Dashiell, Mrs. Witsell and Mrs. Lincoln. The guests' prizes, dainty little needlecases, were given to Mrs. Mason, Mrs. Morris and Mrs. Hunter. Mrs. Otho B. Rosenbaum, Mrs. Charles McKain and Miss Eleanor Scott came in for tea which was served at the close of the game at the small tables at which the guests had been playing.

Mrs. Elvid Hunt of Schofield Barracks is the guest of Capt. and Mrs. Benjamin McClellan while Capt. Hunt is in camp.

Lieut. and Mrs. Walter S. Greacen were the dinner guests of Lieut. and Mrs. Alfred L. Rockwood on Thursday evening.

Maj. and Mrs. William B. Cochran have issued invitations for a dinner on Wednesday evening, February 14.

Lieut. Lester D. Baker and Miss Isabel Baker dined with Maj. and Mrs. Charles A. Ragan of Fort Kamehameha on Friday evening.

Mrs. Lohman has issued invitations for a bridge to be given on Wednesday afternoon, February 14.

Mrs. John Mason will be the guest of Lieut. and Mrs. Walter S. Greacen of Schofield Barracks, over Sunday.

Lieut. and Mrs. Ralph C. Holliday are to be congratulated on the birth of a daughter, Dorothy Ann.

Those from Fort Shafter noticed at Mrs. Robert R. Raymond's tea on Thursday afternoon when she invited a number of friends to meet Mrs. L. O. Emmerich of Hazelton, Pa., were Mrs. William Reese Scott, Mrs. Raymond A. Wheeler, Mrs. Paul S. Reincke, Miss Bonnie Scott and Miss Eleanor Scott. Mrs. Wheeler poured

tea, Mrs. Reincke served the tea and the Misses Raymond were assisted by the Misses Scott in serving punch.

Mrs. William B. Cochran entertained at luncheon on Wednesday for Mrs. Edward Fuller Witsell, Lieut. Col. William Weigel and Col. Henry C. Hodges.

Maj. and Mrs. William B. Cochran, Lieut. and Mrs. Carl A. Hardigg were the dinner guests of Mrs. J. A. McCandless on Wednesday evening.

Miss Elizabeth Rosenbaum had as her dinner guests on Wednesday evening Lieut. Landrum and Lieut. Corday W. Cutchin.

The sewing club met on Tuesday afternoon at the quarters of Mrs. Edwin S. Hartshorn. Those present were Mrs. Edward Fuller Witsell, Mrs. Guy G. Palmer, Mrs. Daniel Lane Howell and Mrs. William R. Dashiell.

When Mrs. Arthur Smith of Honolulu entertained on Thursday afternoon for Miss Ruth Baker of Rhode Island, her guests from Fort Shafter were Miss Honne Scott and Miss Eleanor Scott.

Mrs. Otho B. Rosenbaum entertained at dinner on Tuesday evening in her quarters in the main garrison for Maj. and Mrs. Frank Grant, Miss Mary Grant and Miss Helen Grant. After dinner Mrs. Rosenbaum and her guests adjourned to the Tuesday Evening Card Club in Headquarters buildings.

Lieut. and Mrs. Frank A. Sloan were dinner hosts on Sunday for Capt. and Mrs. Frederick Black who left on the transport Sheridan that afternoon, and for Capt. and Mrs. Robert Lyon.

Mrs. Frederick Black and her small son, Master Frederick, will not accompany Capt. Black to his new station but will go for an indefinite stay with Mrs. Black's parents, Mr. and Mrs. Ross, in their winter home in Florida.

Mrs. Otho Bane Rosenbaum was a bridge hostess last Saturday afternoon, when she entertained for Mrs. Frank W. Hunter of Los Angeles, who is the house-guest of her sister, Mrs. Ralph C. Holliday.

Those to enjoy Mrs. Rosenbaum's hospitality on this occasion were Mrs. Daniel Lane Howell, Mrs. Ralph C. Holliday, Mrs. Claire R. Bennett, Mrs. Raymond A. Wheeler, Mrs. William Lloyd Morris, Mrs. Charles McKain, Mrs. William B. Cochran, Mrs. William E. Hunt, Mrs. William R. Dashiell, Madame Pearson, Mrs. Edward Fuller Witsell, Mrs. John Sullivan,

Mrs. Thomas J. Camp, Mrs. John Mason, Mrs. Alfred L. Rockwood, Mrs. Eugene H. Hartnett, Mrs. Frederick A. Baker, Mrs. C. A. Ragan, Mrs. Campbell, Mrs. Guy G. Palmer, Mrs. Aiden C. Knowles, Mrs. Robert Reck, Mrs. Thomas L. Crystal, Mrs. James Rice, Mrs. Robert Lyon, Mrs. Edwin S. Hartshorn and Mrs. Frank W. Hunter. After a number of exciting rubbers had been played the first prize was awarded to Mrs. Hunt, who held the highest honors, a pair of most attractive shoe buckles. Mrs. Hunter received the second prize, a very pretty desk pad, while Mrs. Knowles was consoling with a desk nocker. A delicious collation was served at the close of the game.

Mrs. Charles McKain has issued invitations for a tea on Thursday afternoon, February 10, to meet her sister, Mrs. William Lloyd Morris of Morgantown, W. Va.

Col. Henry C. Hodges and Capt. Carl A. Martin were the dinner guests of Mrs. Claire R. Bennett in her quarters in the cantonment on Tuesday evening.

Mrs. Carl A. Hardigg is the guest of her aunt, Mrs. J. A. McCandless, while Lieut. Hardigg is in camp.

Lieut. and Mrs. George M. Halloran entertained at dinner on Saturday night for Capt. and Mrs. Joseph A. McAndrew, who left last Sunday on the transport Sheridan, and for Mrs. Claire R. Lennett.

Maj. and Mrs. Eugene H. Hartnett had as their dinner guests on Tuesday evening Col. Henry C. Hodges, Capt. Harry H. Blodgett and Capt. Harry E. Knight. The daintily appointed table had for its decorations pale yellow chrysanthemums and delicate ferns.

Capt. and Mrs. William E. Hunt entertained at supper Sunday evening in their quarters in the main garrison for Col. Henry C. Hodges, Capt. Halstead, Capt. William M. Smart and Lieut. Landrum.

When the card club met on Tuesday evening in the Officers' Club in headquarters Mrs. William E. Hunt was the hostess, who graciously received the guests. Those to enjoy the ever popular game were Mrs. Daniel Lane Howell, Lieut. Col. Earl C. Carnahan, Mrs. Edward Fuller Witsell, Lieut. Col. and Mrs. William R. Dashiell, Madame Pearson, Mrs. William B. Cochran, Capt. and Mrs. Aiden C. Knowles, Mrs. William Lloyd Morris, Mrs. Eugene Hartnett, Capt. and Mrs. Raymond A. Wheeler, Mrs. Otho Bane Rosenbaum, Mrs. Lohman, Miss Elizabeth Rosenbaum, Capt. and Mrs. Frank Grant, Miss Mary Grant and Miss Helen Grant.

The prize, an electric flashlight, was won by Mrs. Witsell.

One of the most delightful affairs of the week was the bridge luncheon

given by Mrs. William R. Dashiell, cohostess with Mrs. Frank E. Hunter. The combination, which were most picturesque, were an effective combination of crape and ferns, the color scheme throughout being yellow. The games of bridge and five hundred were enjoyed before luncheon. The fortunate prize-winners were Mrs. Thurston, receiving an attractive Japanese basket, Mrs. Lyon, a set of leather address books; Mrs. Hayes, a most attractive saal bowl, and Mrs. Dashiell, a box of soap. Mrs. Dashiell's prizes on this occasion were Mrs. Frank Hunter, Mrs. Edward Fuller Witsell, Mrs. Thomas Harker, Mrs. Webber, Mrs. W. L. Emory, Madame Pearson, Mrs. Robert Lyon, Miss Elizabeth Rosenbaum, Mrs. Charles S. Lincoln, Mrs. Thurston, Mrs. Jack Hayes, Mrs. Gadozly, Miss Ladsen, Miss Isabel Baker, Mrs. Bernhardt K. Stumberg, Mrs. Aiden C. Knowles, Mrs. William E. Hunt, Mrs. William Lloyd Morris, Mrs. Alfred Rockwood and Mrs. John Mason.

Col. Earl C. Carnahan was the dinner guest on Tuesday evening of Lieut. Col. and Mrs. William R. Dashiell.

Col. and Mrs. Daniel Lane Howell entertained most delightfully in their quarters in the main garrison on Monday evening when they gave a farewell dinner to Madame Melba. The color scheme being yellow, the table had for its centerpiece a most attractive combination of Hawaiian lilies and ferns, while candles shaded in yellow cast a mellow glow over the table. A concert rendered by the 2nd Infantry band was enjoyed during the dinner. The guests on this occasion were Madame Melba, Gen. and Mrs. Frederick S. Strong, Mr. Julius Knight of Australia, Dr. and Mrs. Adams, Mr. and Mrs. Peleuze of New York, Mr. and Mrs. von Hamm and Dr. and Mrs. Charles B. Cooper.

Mrs. Aiden C. Knowles will entertain this afternoon at a swimming tea at the Outrigger Club for Mrs. William R. Dashiell, Madame Pearson, Mrs. Edward Fuller Witsell, Mrs. Edwin S. Hartshorn, Mrs. Thomas Harker, Mrs. George M. Halloran, Mrs. Bernhardt K. Stumberg, Mrs. Raymond A. Wheeler, Mrs. William E. Hunt, Mrs. Webber, Miss Helen Grant, Miss Mary Grant, Miss Bonnie Scott, Miss Eleanor Scott, Mrs. Otho B. Rosenbaum, Mrs. Alfred L. Rockwood and Miss Elizabeth Rosenbaum.

Maj. Frank A. Grant of the Quartermaster Corps and his family are occupying quarters No. 3 in the cantonment. The major and family were en route from the Philippines, but owing to the serious illness of their daughter, Miss Dorothy Grant, they were compelled to disembark at Honolulu on Sunday. Miss Grant is improving and Maj. Grant hopes they will be able to continue their journey on the transport Thomas on or about March 5.

Lieut. Col. William Weigel, commanding officer of the 2nd Infantry, was the guest of Mr. and Mrs. Clow at an elaborate dinner given by them at the Moana Hotel on Tuesday evening.

Lieut. Col. William Weigel will be the guest of Mr. Law on a short trip to view the wonders of the island on Sunday.

A dance was given in the headquarters building of Fort De Russy Friday evening of this week to which members of the committee from Forts De Russy, Armstrong and Ruger had invited the officers of Fort Shafter. Among those present from Fort Shafter were Lieut. Col. William Weigel and Dr. Harry M. Deiber.

Story of the housewife who found the proper way to cook--

She splits some kindling and cuts her finger.

She climbs the cellar stairs.

She goes back again for a suttler of coal.

She strains her back lugging the coal upstairs.

The fire gets too hot and scorches the food.

The fire goes out and she rekindles it.

And then the coal is gone!

Very sad! What's the use? etc.

Reel 2

She buys a GAS Range and gets breakfast

A match the only kindling.

The heat once regulated, it does not vary.

She has a chance to read the news.

Breakfast ready to serve on time.

No fires to watch. Breakfast is enjoyed.

Plenty of time. No fire building until the fire is wanted.

Time enough to say good bye to hubby.

Moral: COOK WITH GAS

COAST ARTILLERY NOTES

(Special Star-Bulletin Correspondence)

FORT KAMEHAMEHA, Feb. 10.—Mrs. Powell C. Fautleroy of Fort Kamehameha entertained charmingly at luncheon at the Country Club Tuesday for Mrs. John C. Ohnstad, Mrs. Malcolm P. Andrus, Mrs. Norris Stayton, Mrs. Harold D. Burdick, Mrs. Andrew Hero, Miss Hunter, Mrs. Russell P. Reeder, Madame Reeder, Mrs. John Lee Holcombe of Fort Kamehameha, Mrs. Kendall, Mrs. Houston, Miss Hught of Honolulu, Mrs. Clark, Mrs. Bailey, Mrs. Crenshaw from the navy yard. The small tables at which the guests were seated were made attractive with corsage bouquets of pink sweet peas at each plate, and during the courses of the luncheon the guests progressed from table to table.

Mrs. Stewart S. Giffin was hostess for the Fort Kamehameha Bridge Club Thursday morning. Those members present were Mrs. Russell P. Reeder, Mrs. John C. Ohnstad, Mrs. Malcolm P. Andrus, Mrs. Powell C. Fautleroy, Mrs. John Lee Holcombe, Mrs. William Hicks, Mrs. Otto Schrader, Mrs. Norris Stayton.

Capt. and Mrs. Otto Schraeder entertained delightfully at dinner Wednesday evening for Maj. and Mrs. Russell P. Reeder, Capt. and Mrs. John C. Ohnstad, Capt. and Mrs. Norris Stayton. Pink carnations and pink shaded candles made a most attractive table.

Col. and Mrs. Andrew Hero of Fort Kamehameha were hosts at a beautifully appointed dinner at Heine's Saturday evening. Those who enjoyed Col. and Mrs. Hero's hospitality were Lieut. and Mrs. Stewart S. Giffin, Lieut. and Mrs. Steere, Capt. and Mrs. William Hicks, Capt. and Mrs. Malcolm P. Andrus, Capt. and Mrs. Walter Baker of Fort Kamehameha, Capt. and Mrs. Lawrence Crawford of Honolulu.

Capt. and Mrs. Louis D. Peplin of Fort De Russy had as guests at dinner Friday evening Miss Marion Chapin and Mr. George Marshall of Honolulu, Dr. and Mrs. Walter L. Reesman of Fort Kamehameha, Mrs. Reed and Lieut. Philoon. After dinner the party attended the post hop.

Men, Books, People & Things by Ed. Gardner

About a month before Jack London died he sent a telegram to a San Diego pastor in answer to a request for advice regarding grape culture and prohibition.

"Never had much experience with wine grape growing. The vineyards I bought were old, worked out, worthless, so I pulled out the vines and planted other crops. I still work a few acres of profitable wine grapes. My position on alcohol is absolute nation-wide prohibition. I mean absolute. I have no patience with half-way measures. Half-way measures are unfair, are tantamount to confiscation and are provocative of underhand cheating, lying and law-breaking. When the nation goes in for nation-wide prohibition that will be the end of alcohol, and there will be no cheating, lying nor law-breaking."

"Personally, I shall continue to drink alcohol for as long as it is accessible. When absolute prohibition makes alcohol inaccessible I shall stop drinking and it will not be any hardship on me and on men like me whose name is Legion."

"And the generation of boys after us will not know anything about alcohol save that it was a stupid vice of their ancestors.—Jack London."

Mr. London did not say that he approves of the use of alcohol so long as it remains "accessible." He merely says that he will continue to use it so long as it is accessible.

Why, is pathetically told in "John Barleycorn."

On a slip of paper in his own hand Mr. London requests that a copy of this telegram be sent to me. "Probably it was his last hand-written message for you," Mrs. London writes. This telegram is in accord with his life, his work, his most sincere wishes. He wanted prohibition—he needed it. He needed it as Edgar Allen Poe did, and Bill Nye, Robert J. Burdette and James Whitcomb Riley did.

He needed it as do many of our most brilliant and useful living men whose names may not be mentioned.

Unlike most men, he was not ashamed to say that he drank while he did not believe in drinking.

He had a deep interest in our young men, as I have reason to know, and his advice to them was, "total abstinence" from the use of intoxicating beverages.

He refused to grant their necessity medicines. "Stop the manufacture absolutely," he said.

Among other clippings Mr. London had sent to me was a copy of his resignation from the Socialist party "because of its lack of fire and fight" at a time when such things seem necessary. He was not afraid of changing his mind or shifting a quarter for new emergencies. He did not "carry his head upon his shoulder" in order to maintain a rabidous "consistency," the "hogbowl of little minds." He dealt with the present like a man.

I wonder who will rise up to write Jack London as he really was, the man and brother!

Aside from the vapors of a few weak newspapers, there has never been any indication of German-American disloyalty in the United States.

The talk was by Germans in the United States, the plots and lawless acts were by Germans; not German-Americans.

And in the event of war with Germany there is no more danger of a civil revolt among us than there is of a Japanese or Italian insurrection. And if there were it would make not one iota of difference as to a given measure affecting our honor and perpetuity.

Our president and congress have acted and will act upon constitutional grounds. What a useless piece of government ours would be if when immediate action became necessary we should have to refer the matter to our voters for approval!

It would be like a physician's calling upon the American Medical Association as to whether he will arrest a deadly disease or not when he has in his hands the authority, skill and instruments with which to save his patient's life.

I notice one significant fact about the "protest" which has aroused so much feeling. It was not made by our most prominent and influential German-Americans in Hawaii. I fail to find the names of men like Messrs. Georg Rodiek, J. F. C. Hagens, B. von Dam and others who are fair and impartial and have an intelligent conception of American constitutional law.

The whole protest is based upon hasty, ill-considered action rather than upon a disloyal intention; it is ill-thought, unfortunately worded.

Five minutes' careful reconsideration by most of those who heard it would have saved it from publicity.

VALENTINES AT ARLEIGH'S

UNEARTH'S GERMAN SECRET RADIO PLANT AT ARGENTINE

(Associated Press by Federal Wireless) RIO JANEIRO, Argentine, Feb. 8.—A radio station in the town of Niortheroy, a suburb of Rio Janiera, has been discovered which has been communicating with German vessels interned in the harbor here.

A measure which would permit women to vote for president was introduced in the Minnesota legislature.

Mrs. Elias Reynolds of Pleasantville, N. Y., celebrated her one hundred and first birthday.

WORK OF PALAMA TOLD IN REVIEW

The annual meeting of Palama Settlement was held last night. Heads of departments submitted reports and the Palama Boy Scouts presented a little sketch called "A Strenuous Afternoon." Vice-president Walter F. Dillingham presided. The president, J. R. Galt, is on the mainland.

Head Worker James A. Rath stated that the budget for 1917 would be \$42,750 or \$5310 more than last year. The dental clinic will be expanded this year and there will be an additional department for baby welfare work.

Reviewing the work of the free dispensaries, Pa Ola day camp, for tubercular children, the summer camp at Waiatua, the work of the nurses and of the boys' and girls' workers, Rath declared the settlement needed new buildings particularly for kindergarten and girls' work, a dispensary and for boys' work.

Other reports were given by W. R. Humphries, assistant head worker; Miss Christine Kemp, head nurse; Miss Florence Lowe, girls' worker; and E. B. Clark, treasurer. W. F. Dillingham and W. R. Castle were elected trustees.

Scoutmaster Robert Anderson had charge of the Boy Scouts' entertainment.

In her report Miss Lowe reviewed the girls' activities and spoke of the assistance given in swimming instruction by Miss Ruth Stacker, girls' athletic director, and Miss Elizabeth Spencer, assistant.

Humphries thanked Harvey Chilton, Benjamin H. Clark, D. L. Conkling and Frank Rosehill, his assistants, for the athletic success of Palama Settlement, and Dr. Harry N. Kerns for the excellent lecture course.

T. H. Davies & Co., L. Young Corretters and Miss Evelyn Cunningham, formerly in charge of girls' work, and H. von Holt were commended for their help.

Figures Tell Own Story In figures the report for the year was as follows:

New patients, 6492; total number cases treated, 13,966; nursing calls, 7631; social calls, 96,334; total treatments, 163,573; sent to doctors, 1429; sent to hospitals, 509; sent to Queen's Hospital, 94; sent to Maternity Home, 8; sent to Children's Hospital, 355; sent to Leahi Home, 43; sent to Pa Ola, 7; Kalia Receiving Station, 2; Dental Clinic, 1815; Palama Dispensary Clinic 4571; medicine, etc., dispensed, 4655; positive cases (tuberculosis), 59.

The postoffice authorities, to save fuel, stopped the pneumatic tube service in Paris.

NEW SUBMARINE BASE TO GUARD PANAMA CANAL

(Associated Press by Federal Wireless) WASHINGTON, D. C., Feb. 10.—The immediate creation of a submarine base at Coco Solo Point, near Atlantic entrance of the Panama canal, has been decided upon by the war department and yesterday Secretary Baker sent a recommendation to that effect to congress, which is expected to pass favorably upon the matter at once.

The movement which has had some force in the past to submit the question of peace or war to a referendum vote of the people, came to the fore again yesterday when Congressman Galloway introduced a resolution calling for the submission of the question of war to a vote save in cases of invasion or of insurrection.

The senate interstate commerce committee formally approved yesterday the proposal to supplement the Adamson law by amending it so as to give to the president the authority to take over the railroads and telegraphs and telephones of the nation in times of military necessity. This amendment will be reported to the senate today.

All over the country yesterday the work of getting ready went forward with a vim. A system of scout patrols for the coast, mapped out last November by the War College, has been put into force at Boston. The hundreds of motorboat owners have been organized and divided into classes for armed patrols of the waters, while factories for the manufacture of aeroplanes yesterday notified the government that the entire resources of their plants are at the disposal of Uncle Sam whenever he wants them. They are capable of turning out 175 planes weekly.

ALLEGED VIOLATION OF U. S. NEUTRALITY

(Associated Press by Federal Wireless) NEWPORT NEWS, Va., Feb. 9.—According to apparently well authenticated reports here British subjects have recently been loading munitions intended for the warships hunting the German sea raiders on ships assembled inside the Virginia Capes and to have been sending supplies to countless rendezvous along the Atlantic coast.

CIGAR BLOWS LID OFF INGALL'S STOVE

TACOMA, Wash.—Cigars containing a highly explosive substance, which aroused the federal authorities late in December, are being manufactured and distributed here, local police believe, after receiving a report of the experience of W. W. Ingalls of Sumner, whose determination to abstain from smoking was the only thing, he is convinced, saved his life.

An attractive looking cigar handed him by a stranger, when thrown in a stove by Ingalls, blew off the lid and knocked down the stove pipe.

The explosive cigar apparently was of the same brand as that which seriously injured John D. Bennett of Brawley, Cal., Christmas Day.

MOONEY FOUND GUILTY OF FIRST DEGREE MURDER

(Associated Press by Federal Wireless) SAN FRANCISCO, Cal., Feb. 10.—Thomas J. Mooney, labor agitator, charged with complicity in the setting off of a bomb that killed a number of spectators during the preparedness parade in this city last summer, was convicted yesterday afternoon by the jury which held his fate. He was found guilty of murder in the first degree, and will be sentenced February 13. The jury in returning its verdict did not recommend the prisoner to the mercy of the court as it is customary to do.

Mooney's aged mother was in the court room when the jury returned its verdict, and was carried out screaming prayers for her son's life, and fighting the bailiffs. Mooney's alleged companions in the crime, Mrs. Reina Mooney, I. Weinberg and Edward Nolan will be tried immediately.

FRENCH LINER SLIPS PAST TEUTON DIVERS

(Associated Press by Federal Wireless) NEW YORK, N. Y., Feb. 9.—The French liner Espagne, which left Bordeaux on January 28, previous to the German announcement of unrestricted submarine warfare, arrived at this port yesterday. She had passed safely through the dangerous zone of undersea warfare. Fears for her safety had been felt and her arrival here occasioned great relief. The Espagne brought 167 passengers.

BOOZE SEIZED FOR VIOLATION REVENUE LAW

(Associated Press by Federal Wireless) SAN FRANCISCO, Cal., Feb. 9.—The entire liquor stock of Julius Levin, which was valued at \$300,000, was seized by the officials of the internal revenue office yesterday. Levin is charged with a violation of the revenue laws.

GRIFFIN AND EKLUND LOSE NERVE. RACKING MATCH TO EASTERN STARS.

"Peck" Griffin Plays Sensational Tennis Throughout Match While Eklund Makes Great Showing in Play Yesterday—Church and Throckmorton Play Careful Match With Strong Dash at Finish—Tennis Enthusiasts on Edge During Play

TENNIS TOURNAMENT. Beretania Courts Today at 3:45. Finals of men's doubles—3 out of 5—William Johnston and John Strachan vs. George Church and Harold Throckmorton.

Matches Sunday. At Hawaii Polo and Racket Club courts: 3:29 p. m.—William Eklund vs. Alan Marshall.

Matches Monday. At Beretania Courts: Harold Throckmorton vs. Billy Warren.

Some day when the Kilanese Ice Company is working extra shifts getting out ice on the crater of Halema-nau, we may see better tennis play in a doubles match than was witnessed yesterday afternoon at Beretania courts, when Clarence "Peck" Griffin electrified the crowd with a series of smashes and drives that is seen but seldom in our great game of tennis.

Griffin and Eklund lost out to Church and Throckmorton in the semi-finals of the doubles, but they lost out fighting with a fine courage for every point. Griffin was as busy as an armistice man trying to get a step-ladder through a revolving door, and that would seem to be some little work.

After Church and Throckmorton had captured the first set, Griffin and Eklund made a fight for victory, and this set brought out tennis such as has not been witnessed before on a local court.

In his best match here Griffin did not show his class of tennis but yesterday he showed a game that was well nigh perfect. He played his back court shots with a care and his genius for detecting a weak spot in the opponent's play was responsible for many of the points.

What healthy Nerves Mean to You. A strong, vigorous nervous system means health, strength and ability to endure hardship and also to enjoy the full pleasures of life.

The man with healthy nerves accomplishes greater tasks with less fatigue. He has a clear eye, an active brain and a sound body. He is enabled to think better and work faster. He has energy. With healthy nerves he can overcome the hardest competition, be successful and gain wealth.

The woman with healthy nerves is never listless, weak or hopeless; she is not irritable, she never suffers from hysteria, she has a reserved surplus of endurance. Healthy nerves will prevent the sleepless mother, although with care and nursing, from a "break down" caused by her double or triple duty.

All men and women who suffer from these forms of nervousness—known as Neurasthenia—who have "gone to pieces," who lack energy, who have insomnia, who have succumbed to nervous prostration or nervous exhaustion, either mental or physical, whose condition is one of irritable weakness, will find ready relief and cure in the peculiar properties of SENSAPERSA.

These wonderful little tablets contain no mercury or other injurious drug. They act like magic. The bright eye, the elastic step, the clear and active brain, the courage and strength and comfort they impart are noted almost from the first day they are taken. One box of Sensapersa will do a great deal of good, the full course treatment of six boxes is guaranteed to give absolute satisfaction or the money will be refunded.

THE BROWN EXPOPT. CO., Dept. 16, 14 Cortlandt, St. New York, N. Y.

the hard volleys of the two Easterners alone. His work was magnetic and Eklund followed this up with the best set of his career.

Battle of Wits. Griffin was crafty and resourceful in this battle of speed and wits. He made practically impossible returns and his sharp drives with a cut to them had Throckmorton playing far back of the base line. His acute angle shots which shaved the net, and dropped safe close to the side lines were marvelous, and in the last game in the second set won out after the same had gone to deuce with a smashing cross court shot that brought cheers from the large gallery present.

In the third set the great pace that he had set wore him down, and Eklund, too, fell from the heights that he had attained, but nevertheless the two players fought on, sending the games to deuce four times before Griffin outed for the last point, which gave the Easterners a victory. With a flash in his eyes and a smile on his lips Griffin made his last stand in the doubles match that will be remembered for some time in local tennis.

Local Player Stars. Honolulu tennis enthusiasts were particularly pleased at the great showing made by Eklund. The local champion did not prove to be a weak sister and fought back with a purpose. Many of his shots were difficult ones, and his returns of hard drives to the back court were responsible for many points for his side.

William Eklund learned some tennis yesterday. He made slips that were costly, but he came back strong with some drives which killed off the visitors from the Atlantic. Eklund served well and played an improved game in backhand strokes, but his great work was cast in the shadow due to the fine play of the California player.

Easterners Rally. Church and Throckmorton played starting tennis, and after the first two sets gave Griffin and Eklund a variety of drives that wore them down. Throckmorton excelled in his hard smashes which gained many points, while Church was a wizard at the net, turning hard drives off his racket for sure points. Throckmorton proved weak on his service yesterday while Church showed a weakness in only one spot, that being over head shots which is usually a strong link in his chain of play.

As a usual rule the honors always go to the victors, but no one who watched the match yesterday afternoon can give the credit for the great play to anyone but Griffin. The match today is certain to be exciting when Church and Throckmorton meet Johnston and Strachan. Both the Easterners are heady players who show great promise of giving the California stars a real battle from start to finish.

In the first set Throckmorton won his serve in a deuce game, and then Griffin came back with a win on his serve. Church also took his serve, and Eklund on his serve won out with one point for the Easterners. His serve had a break to it that was difficult to handle. Throckmorton, Griffin and Church won their serves, but Eklund lost out, and the former inter-scholastic star landed his last serve and the first set went to the Easterners.

Best of Day. The second set brought out magnificent tennis. The first game went to deuce and then Griffin sent two smashing drives that Church could not handle. Again he took the net and forced both Easterners back with a series of drives and angle shots which were spectacular. On one rally the ball shot back, sounding like a machine gun fire. Then Eklund lost his serve after it had gone to deuce, and the Easterners, with Church serving, dropped the next game after a deuce had been called. The last game of this set was captured by great play on the part of Griffin and Eklund. With the game at deuce, Eklund made a remarkable return of one of Throckmorton's drives which gave Griffin a chance for a kill and on the next play a short angle shot gave them the set point.

The points scored during the match were, Easterners, 87; opponents, 81. There was but one love game in the match, this coming in the third set when Griffin and Eklund made their last bid for victory.

California Win. The second match of the day brought out Johnston and Strachan vs. Hoogs and Warren. The Californians proved too much for the local players, but the class of play on the part of the Honolulu boys was especially good. Warren made a number of beautiful ground strokes and was especially good on plays from the back court. Hoogs was best in his work at the net.

The Californians did not score an overwhelming victory on points, but they had the finesse which carried them through for telling points. Johnston was especially good in all

"BILL" JOHNSTON WAS STAR AT EARLY AGE; HIS MOTTO---TRY FOR THEM ALL

"Nature made Bill Johnston a tennis player," says S. R. Marvin, who loves to talk tennis. The former national champion, who plays this afternoon on the Beretania courts with John Strachan, started his tennis on the same courts with the same player.

"When Bill began to divide the tournament honors with Strachan his stock stroke was a chop. He became known as the most confirmed chopper in the club. Inexhaustible energy and an unerring chop will accomplish wonders. Billy won several trophies with these and his nerve. His forearm drive, now the talk of the tennis world, was a later development.

"There are various stories abroad as to how Johnston acquired the stroke. Some of the boys claim that it is the old soup kitchen smash they learned at the time of the fire. When the people, driven from their homes by the holocaust, were dwelling in the park a large soup kitchen stood in tempting proximity to the tennis courts. Miscellaneous youngsters used to delight in hitting the balls as often as possible into the soup.

"According to some of Johnston's contemporaries in the club his chop, as the result of frequent shots at the tempting target, assumed the proportions of the full forearm drive now famous throughout the world. But I think the youngster's history is doubtful as to facts.

ST. LOUIS LANDS BASKET HONORS. Intercollegiate Basketball League. St. Louis College once more holds title to the championship of the Intercollegiate League in basketball.

St. Louis College once more holds title to the championship of the Intercollegiate League in basketball. Yesterday afternoon the Saints clinched the title by winning from McKinley by a score of 31 to 9 at the Y. M. C. A.

"Smiles" Vredenberg starred throughout the game for St. Louis, and his great work aided by the fast play of Lam Wing, Kanahale, Christian, Santos and "Dutch" Vredenberg gave the Saints a big lead and the title. Lujan was the big star for the McKinley team, and his play had the Saints upset on a number of occasions.

McGrillis called the teams together at 3:20, and St. Louis began their play from the start, and then Kanahale and Lam Wing got busy and began scoring points.

In the Kam-Punahou game the Buff and Blue players proved to be wizards at throwing baskets and on the home court of the Kam boys won by a score of 12 to 5. Pekalo and Holmes showed improved play and starred throughout for Punahou. They kept after McGuire and Dower, and the Kam forwards were unable to score in their usual manner. The victory for Punahou gives her a tie with McKinley. Summary and scores of the game follow:

Lineup and summary: St. Louis—Kanahale, Lam Wing and Santos, forwards; Christian, center; "Dutch" and "Smiles" Vredenberg, guards. McKinley—Lujan and Borthwick, forwards; Auerbach and Tsune, centers; J. and W. Thompson and Bent, guards.

SPARK PLUGS TO PLAY FORDERS AT BALL LOT SUNDAY

Shift your gears for Athletic park tomorrow morning at 9 o'clock, and watch the game of baseball, that is if you have an imagination, between the forces of Selbman's and the Frank Combs baseball artists.

Then Luck Yee will leave for the Combs squad, and promises to have his shoots on high gear throughout the match. The game promises to draw a good crowd, and the spark plugs and come heaters are going to gather at the park to witness the battle. The game should be a big boost for baseball among the honk-honkers, and a banner crowd is expected when the Kiaxon sounds.

ASK BASKETBALL CHARTER

Directors of the Hilo Basketball League have petitioned for a charter with the territorial treasurer, stating their intentions to develop basketball and other sports in the Crescent City. Those signing the petition are Young E. Colville, Robert T. Forrest, J. R. Zimmerman, Eugene Deyo and Arthur L. MacKaye.

TOADSTOOLS POISON SHEEP NEAR ROSEBURG

ROSEBURG, Ore.—Toadstools have been found to be the cause of death among sheep in this vicinity by W. L. Cobb, the Bend banker who owns a large ranch near Kellogg. He has lost nine sheep recently from eating poisonous toadstools in one of his pastures.

Field goals—Rothschild, 2; Decker, 2; Peterson, 1; Dower, 1; McGuire, 1. Foul goals—Rothschild, 2; Decker, 1; Dower 1. Referee, Whitcomb; timer, Eordan; scorer, Simeona.

WRECKING CREW AND CHINESE TO BATTLE SUNDAY

Tomorrow afternoon at 3 o'clock the Wrecking Crew will meet the Chinese team in a benefit game for the Sun Lan School. The two fastest teams in Hawaii will be seen in action, and a good game is expected.

Then Luck Yee will leave for the Combs squad, and promises to have his shoots on high gear throughout the match. The game promises to draw a good crowd, and the spark plugs and come heaters are going to gather at the park to witness the battle.

Directors of the Hilo Basketball League have petitioned for a charter with the territorial treasurer, stating their intentions to develop basketball and other sports in the Crescent City.

TOADSTOOLS POISON SHEEP NEAR ROSEBURG

ROSEBURG, Ore.—Toadstools have been found to be the cause of death among sheep in this vicinity by W. L. Cobb, the Bend banker who owns a large ranch near Kellogg.

Field goals—Rothschild, 2; Decker, 2; Peterson, 1; Dower, 1; McGuire, 1. Foul goals—Rothschild, 2; Decker, 1; Dower 1.

NAVY

THEODORE ROOSEVELT OUTLINES TWO-PART PREPAREDNESS PLAN

In Letter to Patriotism Congress Advocates System of Training

Need of military preparedness in America, both as to the training of her men and the development of her resources, the two going side by side, was pointed out by Theodore Roosevelt in a letter read to the Congress of Constructive Patriotism which met in Washington late last month.

"I advocate military preparedness," said the colonel, "not for the sake of war, but for the sake of safeguarding this nation against war so long as that is possible, and of guaranteeing its honor and safety if war should nevertheless come.

"We need first and foremost a thoroughly efficient and large navy; a navy kept under professional guidance; a navy trained at every point with the sole purpose of making it the most formidable possible instrument of war the moment that war comes; a navy, the mismanagement of which shall be treated as a capital offense against the nation. In the next place, we need a small but highly efficient regular army, of say a quarter million men; an army where provision is made for a certain proportion of the promotions to be by merit, instead of merely seniority; an army of short-term soldiers, better paid than at present; and an army which, like the navy, shall be under the guidance of a general staff. Moreover, every year there should be at one time field maneuvers of from 50,000 to 100,000 men, so that the army commander, the corps commanders, the division, brigade and regimental commanders, who would have to face a foe at the outbreak of war, would all have had experience in performing their duties under actual field conditions, in time of peace."

Roosevelt declares his admiration for the militiamen who went last summer to the border, though he points out that the system under which they worked was a grave injustice to them. It was worse than ineffective, he says. But the country needs to remember that the guard is to be depended upon for the second line of defense.

But this is not enough. Every citizen, if he is fit to be a citizen, should fit himself to serve his country. If need be, persons unfit physically can yet do their part of high service at home.

"Be it remembered that such a national armed force as that for which I ask, while very powerful for defense, would be almost useless for aggression. I wish to see our navy second only to that of Great Britain, because Great Britain is the only power whose naval needs are greater than ours. I do not ask that our army become second, or anywhere near second, to Germany's, because Germany's military needs are far greater than ours; but merely that relatively to our size our army be made to correspond to that of Switzerland.

"This would mean that for the last two or three years of school our boys would have some military training, substantially such as is given in the Swiss and Australian schools; and that at about the age of 19 they would spend six months in actual service in the field (or at sea with the fleet) with the colors, and would thereafter for three or four years be required to spend a couple of weeks each year with the colors. Each year, among those who had served well for the six months, a number could be chosen to be trained as officers. These would then be given by the nation for two years, free, a training somewhat like that at West Point, although not as rigid or as thorough. They would be required to pay for this training by, for a certain number of months during each of the few following years, doing their part in drilling the recruits of that year. It would probably be necessary to pay the recruits a small minimum wage so as to be sure that the poorest family would not suffer hardship because of the absence of the young man for six months. No man would be allowed to purchase exemption. The sons of the richest men in the land would have to

serve exactly like anyone else and do exactly the same work—which, incidentally, would be a bit of uncommon good fortune for them.

Sid's by side with this preparation of the manhood of the country must go the preparation of its resources. The government should keep a record of every factory or workshop of any kind which would be called upon to render service in war, and of all the railroads. All the workers in such factories and railroads should be tabulated so that in the event of war they would not be sent to the front if they would do better service where they were—although as far as possible every strong man should be sent to the front, to the position of danger, while work done in safety should be done by women and old men. The transportation system should receive special study. Factories which would be needed in time of war should be encouraged by the government to keep themselves properly prepared in time of peace, and should be required to fill specimen orders, so that there would be no chance of their breaking down in the event of a sudden call at the outbreak of war. Industrial preparedness must go hand in hand with military preparedness."

GIVE ORDERS FOR GUARD MARCHERS

Directing the assembling and handling of National Guard troops for the big military parade on Washington's Birthday, Carnival Week, the following memorandum has been issued from guard headquarters:

The 1st Regt., Haw. Inf., N. G., and the 1st Sep. Co., Haw. Eng., N. G., will participate with the troops of the Hawaiian Department in a parade in honor of the 155th anniversary of the birth of George Washington, first president of the United States, to be held in this city on February 22, 1917.

His Excellency, the Governor of Hawaii, has consented to review the parade, the reviewing stand to be located at the Capitol grounds, facing King street, on the left of the line of march.

The 1st Separate Company, Hawaiian Engineers, will march with Companies C and D, 3d Regt. U. S. Engineers, as an Engineer Battalion. This battalion will assemble on River street, north of King street, head of column at King street.

The 1st Hawaiian Infantry will be brigaded with the 2d U. S. Infantry, and a provisional regiment of U. S. Coast Artillery. This brigade will assemble on Queen street and River street, head of column on River street, near King street.

The assembly will be made with as little interference as practicable to traffic, and intersecting streets will be kept open while waiting for the movement to commence. Organizations will close up on those in front of them, so as to be able to take their places in column without delay. Assembly will be completed by 9:25 a. m. Column will move at 9:30 a. m.

The line of march will be from Aala park along King street to Kapolei streets, where the parade will be dismissed. The guide will be left. The march will be conducted in column of platoons; infantry platoons of three squads each.

The brigadier-general commanding the parade will leave the column at Likelike street, but no salutes, except to the governor, will be rendered. Bands will not turn out of column. Double time will not be taken up on passing the reviewing stand.

At the end of the line of march all intersecting streets will be available for troops returning to the armory, and organization commanders will take up suitable formations to avoid blocking troops still in column.

The uniform of the organization of the National Guard of Hawaii participating will conform as nearly as possible to that of the Regular troops.

First American Soldier Ever to Fire Machine Gun

J. W. WICKWIRE

It was one afternoon in the autumn of 1861 that Richard Jordan Gatling, inventor of the famous Gatling gun, came across the river from Washington down to the Virginia side to test out his invention before officers of the Army of the Potomac.

Gatling called for a volunteer to turn the crank of the new machine while the officers looked on, and from the crowd of curious soldiers that stood about there stepped a volunteer. The young fellow was J. W. Wickwire, an enlisted man in the 5th Army Corps. Wickwire is now visiting in Honolulu.

Beyond a doubt Wickwire has the distinction of being the first soldier that ever fired a machine gun in the American army; for the Gatling gun is said to be the first invented.

He recalls the scene vividly and remembers the conversation he had with the renowned inventor as he finished several periods of turning the machine gun crank, during which time Gatling fed in blank cartridges. Gatling stated that he himself and other civilians had fired the gun, but that Wickwire was the first soldier to do so.

"I didn't think much of it at the time," says the old soldier, "but later when the Gatling gun became more famous I remembered what he had said I would like to know absolutely if that honor is really mine."

Mr. Wickwire says that the American government did not purchase any of these machines for the army at this time, but that two were purchased and used in the 83rd Pennsylvania Regiment, the funds being donated by the state or by private citizens. His own regiment did not use any during the war, which he saw to the end. He became an officer before the war closed.

Some 29 years ago he again met Mr. Gatling, at a time when the inventor had come to New York state to consider the erection of a factory there. The site was picked near land owned by Mr. Wickwire and the latter went to the inventor to arrange a sale, but the deal was not consummated.

"I had intended to mention the other incident to him," says Mr. Wickwire, who is now 77 years of age. "but others were pressing in to see him and the opportunity did not come. I regret, of course, that I did not speak out at the moment."

The veteran, though old in years, has a kindly face and a fund of humor that combine to make him seem young. His friends here say of him that he is one of the kindest men that ever lived.

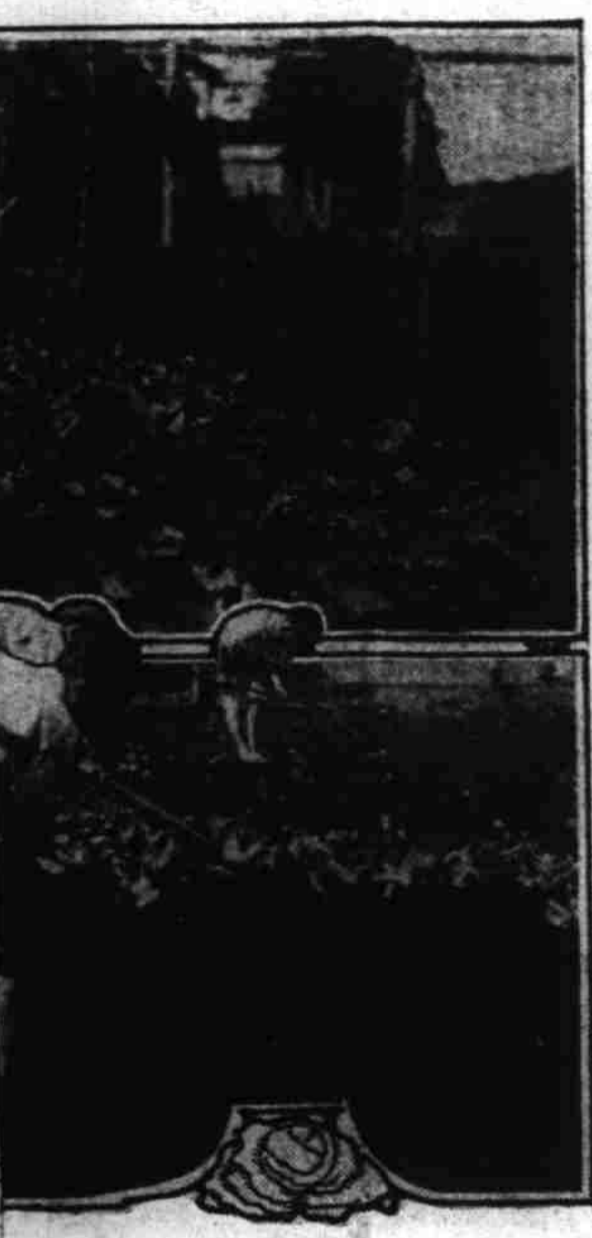

Incidentally he is a booster for Hawaii and on a trip here several months ago collected and sent back ahead of him 6000 seed leis, which he distributed throughout New York, his home state.

He is also a friend of newspapers and declares that the daily press is the greatest educator, surpassing even schools and books. Without the newspapers, he says, the country would not be so advanced by far. His home town is Akron, Erie county, N. Y. He has been a member of the Masonic Lodge there for 54 years.

Mr. Wickwire was here last year during Carnival time and rode with Honolulu's G. A. R. men in the military parade.

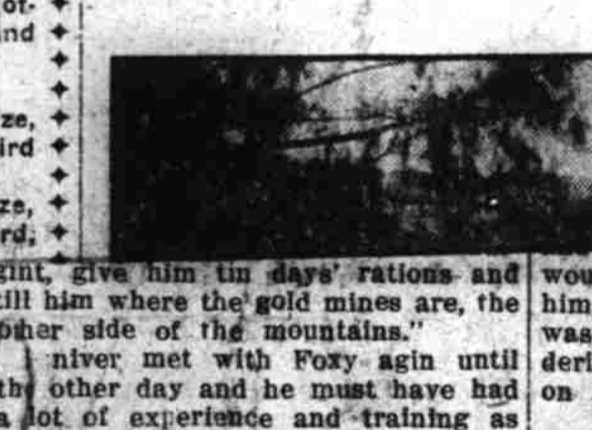

Three women were killed and six other persons injured when an Illinois Central train struck a street car at a crossing at Rockford, Ill., hurling the car into a creek.

SOMEWHERE IN GARDENING NEWS

at Papaikou school and boys at work in

Laupahoehoe Home Garden

The first of the season's crops, the potatoes, were planted last week. The average temperature for this week was 75.13 degrees and the average amount of rain was four inches.

In our garden we planted lettuce, radishes. They are 17 days old and are growing nicely. The radishes six inches tall and the lettuce six inches tall.

We have watered our garden since the seeds began to grow. The water pipe is quite a long distance from the garden.

We had to cut down guava branches to get around the garden so that the children will not get in the way.

We have learned that plants have sunlight, air and water. We learned how many days it takes to grow radishes.

An interested gardener.

WON'T ABANDON VANCOUVER SOON

It is claimed at Washington that there is no danger of the abandonment of Vancouver barracks even if Pierce Puntj, Wash., donates the American camp to the government for military purposes. In response to a letter from Senator Chamberlain, Secretary of War Baker in a letter said: "The matter of the selection of sites or permanent garrisons of the army provided for in the national defense act is now under consideration by the war department, but in any plan which is to be adopted the military reservations now owned by the government will, as a matter of economy, undoubtedly be used to their fullest extent. While it may be advisable for economy of supply and for the better training of troops ultimately to abandon some of the smaller posts, such action cannot be taken in the near future. I can assure you that whether the land near Tacoma is donated for military purposes or not, Vancouver barracks and Fort Lawton will continue to be needed for garrisons for an indefinite period."

MARY ANDRAE'S GARDENING NEWS

Laupahoehoe, T. H. Jan. 24, Editor Honolulu Star-Bulletin.

Sir: I am writing to you about my home garden. The average temperature for this week was 75.13 degrees and the average amount of rain was four inches.

THREE MILITIAS MAY CRUISE HERE

Seven war vessels will be included in the cruising fleet, providing the plans of the naval militia authorities work out, the three organizations assembling at some common port on the mainland coast. They will sail in fleet formation.

The schedule as it now stands provides for the Oregon naval militia leaving Portland July 14, completing the maneuver work about August 3, says The Telegram. In all probability the Oregon contingent will use the cruiser New Orleans and torpedo boat destroyer Goldsborough; the Californians will be aboard the battleship Oregon, the torpedo boat Farragut and the destroyer Huntington, while the Washington men will use an armored cruiser and the gunboat Vicksburg.

HOLD BIG AERONAUTIC EXHIBIT IN NEW YORK

Beginning last Thursday, to last for the week, the First Pan-American Aeronautic Exposition is being held at Grand Central Palace, New York.

According to letters telling of the event, which have been received by the officers of the Aero Club of Hawaii, this will be the most auspicious of any exhibit of the kind ever held in America.

It is to embrace everything aeronautical, all of which will be set in a most artistic staging which expresses the idea of flight. There are more than 100 exhibitors. Special features have been arranged for each day.

WILL INSTRUCT BOYS IN MILITARY TACTICS

Two junior military training camps for boys of Indiana between 15 and 18 years old are to be held at Fort Benjamin Harrison in July and August of this year.

The plans are to accommodate as many as 1600 boys in each camp. Training will be under the supervision of army officers. The first camp is to be from July 2 to 28, and the second camp from August 2 to 28.

SETS HYDROAEROPLANE RECORD FOR ELEVATION

In the final test of a hydroaeroplane at the navy aviation station at Pensacola, Fla., Philip Rader, carrying Lieut. McElvaine as a passenger, ascended 10,500 feet, making what was said here to be a record for altitude in a hydroaeroplane. The machine remained in the air four hours. The flight was made on January 26.

MEN'S FASHIONS FOR 1918 TO BE AS FANCY AS WOMEN'S

NEW YORK.—Kimono sleeves, plaits and gored and slash pockets are going to be the modish thing in 1918—for men, not women. At an exhibit recently of advance styles for 1918, displayed by two perfect gentlemen, all of these new fashions were shown.

To add a dash of color to the story, sky-blue lining for evening dress will prevail.

SCHOOL AND HOME GARDENS PROSPER AS CONTESTANTS WORK FAITHFULLY

GIRLS OF PAIA WRITE OF COOKING, SEWING AND OTHER USEFUL INDUSTRIES

Interesting Letters From Pupils Who Are Determined to Learn Practical Work

Paia, Maui, Jan. 31, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: I am writing to you a short letter to let you know what we do in the Paia school. There are 67 girls that take cooking lessons. They are divided into six divisions and I belong to the first division.

On Friday afternoon we have 20 girls in lace making, 24 girls in embroidery; 13 girls in weaving and 35 girls in sewing. I belong to the weaving class and like it very much.

Now I am going to tell you what we do in cooking class on Mondays which interests me very much for we learn a great deal in cooking.

On Mondays the seventh grade girls and a girl of the eighth grade take up cooking. We are 11 girls in our class and start cooking at 10:30 a. m.

After we get down there Miss Lam who is our cooking teacher tells us what to do. On each Monday we have different girls who take up the parts of cooking. There are two tray girls, three bread girls, four lunch girls and two dessert girls.

The tray girls set the trays for the teacher and carry them at twelve. The lunch girls do the cooking and serve the lunches at twelve. The bread girls cut the bread and butter it while the dessert girls make the cakes or whatever it may be and sell them at twelve while one of the lunch girls collect the money. After lunch the lunch girls have to wash their own dishes and the dessert girls wash their own while the rest wipe the dishes, clean the stove and sink, sweep the floor, scrub the tables and empty the garbage box. All this work is done before 1:15. Then we take our aprons off and leave the kitchen until our turn comes again.

Well I think this is all about cooking in our school.
Yours truly,
LUCY MEDEROS,
Grade VII.

Dear Sir: I have been asked to write you a letter stating the condition of our manual school work.

Our manual work consists of cooking, lace making, embroidery, weaving and sewing.

We have cooking every day, which is done by 67 girls. These are divided into six divisions. About 10 cook each day.

There are 20 girls who take lace making and 24 in embroidery, 13 in weaving and 35 in sewing. All this work is done on Friday.

I am one of the girls in the weaving class. I guess you must be interested to hear something about our weaving. There are 13 girls in our class. The first thing we had to do was to gather some grasses and iron wood needles of which our baskets are made. Some of our baskets are made with birch-bark bottoms. They are made from sugar-cane, tall grasses, iron wood needles or pine needles and these are bound together with raffia.

Yours truly,
LILY MAKIA,
Grade VIII.

Dear Sir: I am going to tell you about our different divisions and classes in fancy work. I think you would like to hear some of them.

We have cooking, embroidery, lace making, and weaving.

I am in one of the lace making classes. Last year we made six night-gown yokes and two corset covers. In doing this we had a very hard time. We had to be careful and make them clean and neat. We used about 20 spools of thread and some yards of ribbons. We have this work on a week on Friday afternoon so it takes a long time to finish a yoke. Now we are making more beautiful things than before.

Yours truly,
MISAO FUGIKODO,
Grade VII.

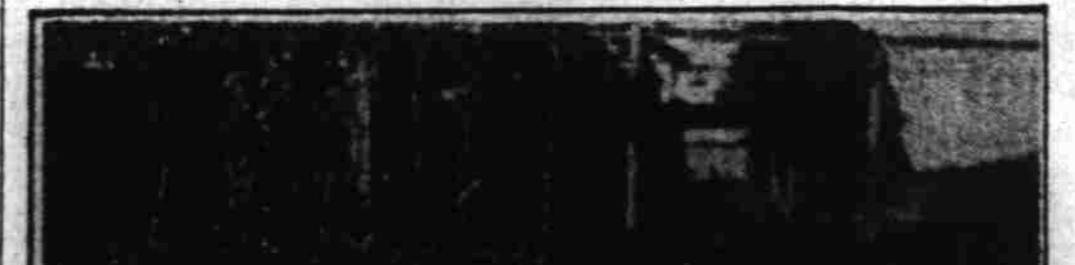

Dear Sir: Just a few lines to let you know what we do in our manual work. We take cooking lessons. There are 67 girls taking cooking lessons. They are divided into six divisions.

I belong to the first division. We took once a week from 10:30 to 1:15. We have lace making, embroidery, weaving and sewing on Friday afternoon. There are 20 girls in the lace making class, 24 girls in embroidery, 13 girls in weaving and 35 girls in sewing. I belong to the weaving class.

I am going to tell you what we do on Friday afternoon in the weaving class. I am making a round basket with a birch-bark bottom and iron wood needles. Next month I am going to make a nut bowl out of some kind of grass. We start weaving at one o'clock and finish at two. I am interested in this class very much. I guess this is all for this time.

Yours truly,
FLORA NUNES,
Grade VII.

Papaikou School Already Selling Its Vegetables

Plot of beans growing nicely at Papaikou school and boys at work in cabbage patches.

Editor Honolulu Star-Bulletin.
Dear Sir: I am writing to you about our home garden. The average temperature for this week was 75-1-3 degrees and the average amount of rainfall was four inches.

In our garden we planted lettuce and radishes. They are 17 days old. They are growing nicely. The radishes are six inches tall and the lettuce three inches tall.

We have watered our garden since the seeds began to grow. The water pipe is quite a long distance from the garden.

We had to cut down guava branches to get around the garden so that the children will not get in the garden.

We have learned that plants must have sunlight, air and water. We also learned how many days it takes lettuce and radishes to grow.

An interested gardener,
MARY ANDRADE.

THE PRIZES

- The following prizes are offered by the Star-Bulletin and Mr. Frank C. Atherton:
 - OAHU
 - School gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - Home gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - KAUAI
 - School gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - Home gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - MAUI
 - School gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - Home gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - MOLOKAI AND LANAI
 - School gardens—First prize, \$15; second prize, \$5.
 - Home gardens—First prize, \$15; second prize, \$5.
 - EAST HAWAII
 - School gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - Home gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - WEST HAWAII
 - School gardens—First prize, \$25; second prize, \$15; third prize, \$10.
 - Home gardens—First prize, \$25; second prize, \$15; third prize, \$10.

Laupahoehoe Home Garden

Beans (string), area cultivated, 150 sq. ft.; amount of actual sales, 60 cents; value of an acre at the same rate, \$174.
Radishes, area cultivated, 110 sq. ft.; amount of actual sales, \$1; value of an acre at the same rate, \$99.96.
Lettuce, area cultivated, 398 sq. ft.; amount of actual sales, \$5.60; value of an acre at the same rate, \$616.
It will be noted that the values of our produce are based on actual sales and not on estimated values. Whatever remained unsold was fed to the rabbits.

Papaikou, Hawaii, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: This week we made two new beds in our garden and planted beets and turnips. Everything in our garden is growing well. Our cabbages are about eight inches high. We have fertilized a carrot bed this week. During the latter part of last term we planted a bed of carrots. These are now ready for use. We have sold some to our kitchen department. We also sold some cabbages and beans.

Enclosed please find pictures of a bed of carrots, a bed of beans and a bed of cabbages.
Yours truly,
THIRD GRADE,
Papaikou School.

MISHAPS DO NOT DISCOURAGE LADS

Hanalei, Kauai, Jan. 25, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: The greatest trouble in our garden is trying to keep the plants from being washed away. As soon as the plants come up a heavy down-pour washes them away; our soil being sandy and soft.
The boys show no discouragement. They quickly drop their despair and start a new garden after each wash-out.
We have put some fertilizer on our garden this week and having had some sunshine there has been little progress in growth.
Yours truly,
MEMBERS OF HANAIEI SCHOOL GARDEN,
Sosaku Yamamoto.

KEAHUA FINDS TROUBLE WITH HUNGRY CHICKENS

Keahua School, Maui, T. H., Feb. 4, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: I am going to write you this letter to tell you about our gardens. Since I wrote you last we have made new gardens. Mr. Bowman has brought us some new seeds. These seeds are watermelon seeds, carrot seeds, cabbage seeds, onion, radish and other seeds. The chickens have pulled all the corn up.
Yours truly,
RAPHEAL MOLINA,
Grade V.

PLANS TO SELL HIS VEGETABLES SHORTLY

Hanamaulu, Kauai, Jan. 31, 1917.
To the Editor of the Star-Bulletin, Honolulu, T. H.
Dear Sir:
I have a home garden that is 11 ft. long and 6 ft. wide. I planted my seeds, lettuce, beets and cabbage. When my vegetables are full grown I expect to sell them and use the money for buying some more seeds. The cabbages are (between) small but the worms eat the leaves and I

ONE HUNDRED HOME GARDENERS MAKE PUUNENE DISTRICT A BUSY SECTION

Puunene, Maui, Feb. 3, 1917.
Editor Honolulu Star-Bulletin,
Honolulu, T. H.

Dear Sir: The pupils and teachers of the Puunene School are intensely interested in the reports of the School Farm Contest that appear in the Star-Bulletin. Each issue containing Geese Reports is placed on our school bulletin board. It is necessary to have it under glass for protection against wear and tear as each of our 100 pupils would place their fingers on the pictures and printed matter if it were not so protected. This, in itself, is complete proof that your efforts in the interest of practical vocational education are getting good results.

If other proof be needed, we have it in unlimited measure. It is surprising and gratifying to watch the progress of our 100 home gardeners preparing their seed beds and constructing their irrigation system. Their plots are all in the same lot near the school and under our watchful eyes. Some rocks that had to be removed require the combined efforts of 12 or 15 children. The pupils have learned to exchange help in such cases and their cooperative habits thus formed are worthy of appreciation. Construction of irrigation ditches is developing the idea of community interest and the fact that they must be constructed across individual plots, under some conditions, teaches that the rights of the individual must be subservient to the common good. The principle of individual ownership and inspiration to the work and makes it enduring.

Our main school garden serves as an object lesson and a source of encouragement to the home gardeners. We have just completed harvesting three of our 14 divisions of this garden. The products were beans, radishes and lettuce. The results of this harvest are as follows:

Beans (string), area cultivated, 150 sq. ft.; amount of actual sales, 60 cents; value of an acre at the same rate, \$174.
Radishes, area cultivated, 110 sq. ft.; amount of actual sales, \$1; value of an acre at the same rate, \$99.96.
Lettuce, area cultivated, 398 sq. ft.; amount of actual sales, \$5.60; value of an acre at the same rate, \$616.

It will be noted that the values of our produce are based on actual sales and not on estimated values. Whatever remained unsold was fed to the rabbits.

Our main school garden serves as an object lesson and a source of encouragement to the home gardeners. We have just completed harvesting three of our 14 divisions of this garden. The products were beans, radishes and lettuce. The results of this harvest are as follows:

Number of days on which luncheons were served 61
Number of luncheons served at 5c each 2127
Number of desserts served at 5c each 811
Number of luncheons served free to the girls in the classes 479
Total number of luncheons and desserts served 3147
Average number per day 55
Cash received for luncheons sold \$123.15
Cash received for 2 broken fishes 20
Cash received for cakes, etc. 65
Due from teachers for luncheons 15.25
Value of estates on hand 8.47

Total \$157.70
Paid for estates \$9.20
Paid for estates by D. P. I. 25.95
Bills outstanding 16.65
Total \$117.90
Net gain for the term \$13.00

The domestic science department in charge of Miss Rose Takayo Okamura, a graduate of the Honolulu Normal School with the class of 1916. The success that she has made with this activity of our school is a high recommendation for her and for the institution in which she was trained.
We hope to describe the features of our school life in future reports.
Very respectfully,
E. A. BROWN.

WATERTOWN UNABLE TO GET SCHOOL GARDEN BUT HOME GARDENS TRIED

Watertown School, Puuloa, Feb. 3, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: The Watertown school was moved to its present location last year near the government road and the lot is not fenced yet.

This new ground is exposed to all kinds of fowls, horses, donkeys, and cattle which are running loose in the neighborhood. The lot is now being cleared of Klava trees and stumps, but the fencing will come later on.

Owing to the conditions stated above, we are unable to start a "School Garden" for the "School Farm Contest."

Some of the children have started "Home Gardens" as they are anxious to win a prize.
Yours truly,
Z. MCKEAGUE.

"Dear Sir: My home garden is getting along very nicely now, but the climate was too bad. There are few insects in my garden which are now destroying my products.

The plants that are growing now are the mushrooms, tomatoes and turnips. I think the lettuce and onions will not grow.

My garden is five feet wide and five long. It is a square garden. The seeds are planted two inches apart. The digging of my garden was about a foot deep.

I am hoping that the plants will grow. I will send some drawing next month.
Yours truly,
KATSUYOSKI YOSHINO,
Grade V.

"Dear Sir: My home garden is getting along very nicely. I started it on January 24, 1917. I have five kinds of products, mushrooms, tomatoes, turnips, onion and lettuce. The mushrooms and the lettuce, and the turnips and the tomatoes are growing, but the onion I think it wouldn't grow. The bed is 4 ft. long, and 3 ft. and 2 in. wide. Sometimes the weather is bad and sometimes it is clear. There are few insects that bothers my plants. When it rains I do not water my plants. I think that is all I can tell you this month, I will tell you the rest next month.

Yours truly,
LOUISA MOTTAS.

P. S.—I will send you my drawing of my plants next month.

"Dear Sir: I have started my home garden but it was hard for me to clean it.
I first cleaned the ground with a rake to clear the stones away. My

garden is about 7 feet long, 6 feet wide.

The climate is sometimes very bad. My plants are growing very nicely. I will send you my drawings next month.

There are no insects around to harm the plants. I have 5 kinds of products, onions, tomatoes, turnips, muskmelons and lettuce.

Yours truly,
LILLIAN OLEPAU,
Age 12.

"Dear Sir: I am writing you these few lines to let you know about my garden. It is 15 feet wide. The soil is not rich but it has some horse manure. Some of the products are growing, such as mushrooms, turnips and tomatoes. The mushrooms are 2 inches high, the turnips are 1 1/2 inch high and the tomatoes are 1 1/2 inch high. The weather is cold in the night and morning and in the day it is a little warm. Now this is all that I have to tell you so good-by.

Yours truly,
AUGUST COELHO,
Grade V.

P. S.—I will send some drawings of my garden next month. The digging of my garden is about one foot deep.

"KEOKEA GIRL TELLS HOW SOIL FERTILIZED AND PLANTS STARTED

Keokea School, Keokea, Maui, Hawaii, Jan. 26, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: I would like to tell you something about the school garden. In September, 1916, we got the garden ready to plant things.

We gathered manure on our way to school to enrich the soil.

When our garden was ready we planted beans, corn, taro and flowers. In January, 1917, we gathered our beans. We have about 35 pounds of red beans for seed now.

I will write you again.
Yours truly,
(Miss) PAN LUNG TONG,
Grade III.

HAULA SPENDS TIME IN DIGGING GROUND

Hauula, Oahu, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: We spend our time in digging the ground this week. Our gardens have been divided and we expect to spend more time in softening the dirt before planting.

Yours truly,
AU TAN CHONG.

Talks With The Editor On The Progress of The Contest

School farm contest letters continue to pour in on the Star-Bulletin. This week a number more schools gave notice that they are entering, and the volume of letters increases.

Teachers and pupils are urged to observe certain simple rules regarding letters. They should be on one of the paper only, and if possible should be not more than one page, foolscap size. Of course, if there is very much interesting news to tell, more space should be necessary, but it is the pupil who can tell the most in the space of one page who will get the most credit in letters.

The Star-Bulletin wants to publish as many letters each week as possible but this is impossible until teachers and pupils will cooperate by seeing that the letters are short.

Nevertheless, it is the editor's greatest pleasure each week to get these hundreds of letters from our friends, large and small, all over Hawaii.

They all show the schools working hard, working daily, and thinking rightly how to make their gardens better, neater, prettier; how to make their communities better.

All Hawaii is benefiting from these gardens, for they are making each community brighter, busier, happier.

And then we have such fine letters, too, from the girls and boys doing other useful things besides gardening—sewing, cooking, weaving, lace-making, carpentering, etc. These letters we like to get quite as much as those about the gardens.

A few days ago the judges of the contest on Oahu, together with Mr. W. R. Farrington, general business manager of this paper; Superintendent Kinney, Vocational Instructor Bry-an and other school officials made a tour of Oahu. Some of the letters this week mention this. They were very much pleased with what they saw.

It was Mr. Farrington who, away back in 1907, got up the first school garden contest in Hawaii along the lines now again used, and ever since then he has been enthusiastic over the work the children can do.

He is more enthusiastic now than ever, and all of those who are watching the schools as they plan and dig and plant and reap are sure that this contest is going to be one of the finest things the schools have ever done.

write from Haena, Kauai, news of their home garden.

Miguni Nikoba and Konichi Abe send drawings of their vegetables, dated January 26.

There are a number of letters from Anahola, Kauai, by Kando Sumimoto, Yoshio Fujimitsu, Masashi Kambayashi, H. Wada, King Kojima and Kerr R. Lovell.

Paia, Maui, sent a nicely-written batch of letters this week, all on the same size of paper. They were from girls of the school writing about their manual training work. Others were lished today. Others from Christine from Christine Williams, Ngan Kin Lum, Hisano Katsura, Keono Okakoda, Yoshimi Iwamoto, Yoshino Nagata and Kaneyo Kokubun.

Pearl City late last week sent in a large number of letters, including those from Naoto Nakashima, Totoki Kawa, Misao Tokuda, Yone Ohara, Misyo Matsumoto, T. Higuchi, Chidori Oda, Ashige Matsumoto, Hugh Robertson, Margaret Hauu, T. Katayama, Katsu Nishimoto, Jiro Suzuki, Goh Matsunaga, Sadie Park, Mary McShane, K. Higuchi, Ko Fa Ho, Yutaka Ohara, Alice Reis, Luke Chun Hung.

'LOTS OF FUN,' SAYS HAIKU BOY

Haiuku, Maui, T. H., Feb. 7, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: We began our school garden Friday, February 2.

We selected a piece of ground 27 by 42 feet back of the school cottage. It was covered with tall grass and guava trees. We broke up the ground with picks and hoes and carried the grass away. The ground is now leveled off and ready to be fertilized.

We are going to build a fence of barrel staves to keep the chickens out of our garden.

It was hard work to spade the ground but we had lots of fun. We will be glad when planting times come.

Yours truly,
KIYO ENOMOTO,
Grade VII.

KEAHUA FINDS TROUBLE WITH HUNGRY CHICKENS

Keahua School, Maui, T. H., Feb. 4, 1917.
Editor Honolulu Star-Bulletin.

Sir: I am going to write you this letter to tell you about our gardens. Since I wrote you last we have made new gardens. Mr. Bowman has brought us some new seeds. These seeds are watermelon seeds, carrot seeds, cabbage seeds, onion, radish and other seeds. The chickens have pulled all the corn up.

Yours truly,
RAPHEAL MOLINA,
Grade V.

PLANS TO SELL HIS VEGETABLES SHORTLY

Hanamaulu, Kauai, Jan. 31, 1917.
To the Editor of the Star-Bulletin, Honolulu, T. H.
Dear Sir:
I have a home garden that is 11 ft. long and 6 ft. wide. I planted my seeds, lettuce, beets and cabbage. When my vegetables are full grown I expect to sell them and use the money for buying some more seeds. The cabbages are (between) small but the worms eat the leaves and I

am trying to kill them. I planted my seeds in the month of Dec. 16, 1916. I water my garden every afternoon and pull weeds. I am going to send the pictures the next time.

Hopping that I will have luck with my garden.
My address is Joseph F. Andrade, Hanamaulu, Kauai.
Yours truly,
JOSEPH F. ANDRADE.

Prof. A. P. Blanks resigned as assistant of public speaking at Colgate University.

OAHU JUDGES VISIT PEARL CITY SCHOOL, SEE GARDEN PROGRESS

Children Tell of Work Done and Principal Says Interest is Keen

Pearl City School, Feb. 7, 1917.
Editor Star-Bulletin School Farm Contest, Honolulu, T. H.
Dear Sir: The youngsters were greatly stirred up over the visit of the Contest Judges. Even the war news and the diplomatic situation was nothing to it. We live in an atmosphere of "farm arithmetic," "farm English" and agricultural topics generally, whenever we can spare five minutes.

The boys decided to grade down a small hill in the rear of the lot and use that good dirt to build their garden beds up about a foot higher. Some under-taking! But the job goes merrily on. Our next crop will be put in as soon as practicable and we all join in the earnest wish that you will soon come again and find our garden vastly improved.

Yours truly,
KATE B. HAFFORD.

Pearl City School, Pearl City, T. H.
Dear Editor: The area of our garden is 120 square yards, not counting the paths and the uncultivated beds. The products that are doing best are onions, beans, turnips, radishes, lettuce and eggplant.

The crops that we've harvested are radishes, beans, lettuce and turnips. We are very glad to see the judges come, but we are sorry that they came in the morning and not in the afternoon, because we did not have a chance to work our garden any Friday since three weeks ago, because it rained very hard and was too muddy.

I beg to remain,
Very respectfully yours,
ITAH TSAU GUM.

Pearl City School, Pearl City, T. H., Feb. 2, 1917.
Dear Editor: Today I planted beans. The crops are growing very well. The area of the garden is 120 square yards.

Some of the boys have already harvested their garden crop. The beans are growing very nicely. I am sorry that the judges came too early Friday. If they had come at half-past two the garden would have looked very good. We did not work for three weeks on Friday afternoons.

KEOKEA SCHOOL, MAUI, NOW AFTER ANOTHER PRIZE

Makena P. O. Kokea School, Maui, Jan. 12, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: We, pupils of the Kokea school through our writer wish to inform you that we desire to enter the Contest.
We have flower beds. We sent flowers to the First Maui County Fair and won the second prize and as the flowers and trees were put together under one class so the trees got the first prize and the flowers got the second prize.

In December, 1916, we had our ground prepared for planting. It was 42 ft. by 36 ft. We worked two hours a week and so it took us a whole month to clear the plot. When we started to clear it, the ground was covered with thick manie grass. It was a hard work for the roots of the grass were deep in the ground. However, we overcame this difficulty. Then we dug the ground to clear up what roots left. Posts were secured from some of our peach trees, poultry wire 6 ft. high and 150 ft. long was furnished by the teacher and we enclosed our ground. We did this in order to keep the chickens away from destroying our plants.

Before we closed for the Christmas Mr. Bowman, our vocational instructor, visited us and gave us some packages of seeds, which we sowed in our new garden. The seeds were radish, peas, cabbages and turnips. There were other seeds of our own—lettuce, cucumbers, onions and beets. These were also sowed. The radish grew up nicely and showed the best of all. We took chance in watering and in caring the plants. Some of the seeds did not grow at all. Before our school closed our plants were looking fine, but to our great disappointment when we came back this term all our plants were destroyed by cut worms and Kona storms.

The cut worms are caterpillars whose color of the back is almost black and whose belly is white. At day time they bury themselves in the dirt around the plants.
The only best way we learned of destroying them is to use a kind of poison called Paris Green. This is mixed with flour and sprinkled over the ground. So when the worms come out at night to eat the plants they die and are killed. We didn't use the poison because we were away and so the plants were destroyed.

The Kona wind blew off the dirt and even the tiny plants and the Kona rains which always followed the wind washed away what plants left or covered them with dirt. However, for the week ending January 5th we clear the garden again and planted some Hawaiian onions. For the week ending January 12th we broke up new garden 10 ft. by 20 ft. On Wednesday the 10th we had a Kona storm which buried our onions deep in the ground. Then on Friday the same week we sowed some of our government seeds which were cucumbers, beets, turnips, lettuce and cabbages.

Yours truly,
KIM TET CHING, Room IV.

Dear Sir: During the week ending January 26th, we broke up more ground, the area of which was 980 sq. ft. During the week we had Kona storms mostly every day. The temperature, daily, has been 60 deg. This afternoon the temperature in our room was 58 deg. It rained and we had to stop working for it was our working period. We have 2 hours to work in a week, one on Wednesday afternoon and the other on Friday. I wish to say that we have no time to work after school for we attend our Chinese school from 2 o'clock till 4:30 p. m. every day and also attend school in the morning.

We have a plot of ground whose area is 5000 sq. ft. in which we planted corn last year. It is now clean but we have not planted anything in it yet for we are waiting until the stormy months are over.

The seeds which we sowed on the 10th and 12th are not showing any sign of growth.
Yours truly,
KIM CHAN LAU, Room IV.

Paia Shop Work of Practical Use in Maui Schools

Here is an interesting letter from John E. Walker at Paia, Maui. Unfortunately the drawings to which he refers cannot be made. They are quite nicely done. He writes: Paia, Maui, Feb. 5, 1917.
Editor Honolulu Star-Bulletin.

Sir: Just prior to your announcement at the High school I had cultivated my home garden. Last year I planted and raised all the vegetables needed in the house. I then allowed the garden to rest, fertilizing it now and then. A week before Mr. Breman told me of this contest. I had turned under the beans in the garden and prepared it for planting. Therefore, although I had a great deal of trouble in reclaiming the land last year, I had little or no trouble this year.

The ground is very rich and a little heavy as yet. My first attempt last year was with wax beans and I have again this year started with wax beans. The drawings given on the next page are respectively: (1) Three days after planting this plant broke through the ground. At 6 in. in the morning it had grown (as in the drawing) 13-8 inches above the ground. (2) The same plant at 5 p. m. showing how quickly the plant opened up, being then 13-4 inches high. (3) This shows the same plant at 4 the next afternoon, 24 hours later, when it was 25-8 inches high. (4) This shows the above mentioned plant when it was 68 hours old, that is, after it first showed above the ground. It was 4-4 inches above ground. These illustrations are taken from the actual plant and are made as accurate as possible. The roots are taken from similar plants which were destroyed by the cattle which were on the garden. I was not sure whether this was right or not so I made the line between the first drawings and the second drawings.

I attempted to lighten a bed, which was heavy and would grow nothing, by spreading sand over the surface and then tilling it under, thus mixing it into the dirt. Since then the bed has shown a great change as is shown by the rapid growth of the beans illustrated which were in the bed.
Yours truly,
JOHN E. WALKER.

CONTEST NOTES

(Continued from page one)
Paul Ferreira of Kapala, Kauai, who goes to Hanalei school, sends some particularly good drawings of his vegetables at various stages. The drawings are nicely colored and neatly done, and he is going to send some more pictures a little later, when his vegetables are larger. Well done, Paul!

From Hanalei, Kauai come a number of letters and drawings, dated January 31. Among those writing are Arthur Aarona, M. Morishige, Yachiyo Shirataki, Walter Sauborn, Dick Lo, William Lo, Joseph M. Keone, John Kakuua, Lawrence Mahu, S. Hasegawa and Kum-Lin. Many of these are of Hanalei school. There is also a drawing.

Francisco Mapa, Grade 3, and Fukuchi Enoki, Grade 3, Pepeekeo, have sent letters about their home gardens.

Hanalei, Kauai, is represented by Violet Freitas, Virginia Freitas and John Freitas, Jr. John sending drawings with his letter.

Wahiawa school, Wahiawa, Oahu, sends in some well-prepared letters. They are brief and well-written and at the bottom of each is a colored drawing. Letters have been received from Charles Baker, Moshel Selikawa, A. Wakabayashi, Akira Kakakama, M. Matanabe and Kazuo Yoshida.

Some of the late January letters are from Paia, being sent by John F. Abreu, Joe Silva, J. Takakura and John Andrade.

The letters from Grades 5 and 6, Anuloa school, Honokaa, Hawaii, come in nicely typewritten. This helps the editor a great deal in reading them. This week letters were received from Manuel Gonsalves, Yoshitaru Hasegawa, George Rezents, Walter Arioli, George Gouveia and Charles de Mello.

Mary Kamalani, Emily Gotterres and Elsie Wong write from Honomakau school, Kohala, about their home gardens.

Masaru Morimoto writes from Hanalei school, Kauai, that he is hard after one of the prizes.

The Honomakau school Correspondence Club sends in a closely-typewritten letter, dated February 1, about the school garden. It is getting along well, in spite of obstacles, and the school is much interested. "We are glad the Star-Bulletin has given a page to this subject," the school writes.

Kauai High and Grammar school is evidently very busy with its garden work. Letters have come from Louisa Kaini, Ernst Wedemeyer and Manuel Gouveia telling of various phases of the work.

J. J. Theunes writes from Anahola, Kauai, that planting on the new land is well under way.
Yoshizo Yamagata of Waimea, Kauai, has planted a flower in the middle of his garden with which he is printing his name. This shows originality and ambition.
Mr. H. H. Brodie, one of the best-known men in island educational matters, writes from Kauai (Hanalei) that the children are greatly interested and a large amount of fine work

KAMEHAMEHA III SCHOOL'S HOME GARDENS ENTER

Lahaina, Maui, T. H., Feb. 7, 1917.
Editor Honolulu Star-Bulletin.

Dear Sir: I am enclosing compositions from the children who have entered the gardening contest from Kamehameha III School, Lahaina. We have no soil that can be used for school gardens, but a number of the children have home gardens. Next month we hope to have some photographs or drawings to send you.
Very truly yours,
BENJ. O. WIST.

AGRICULTURE

By Kaiu Akiona, Grade VI.
February 8, 1917.
I have a garden located in the Kanaha Valley and it is not a level land. The size of the garden is 200 ft. perimeter. In this garden I planted lettuce, radishes, carrots, sugar beets, turnips, cabbages, peanuts and potatoes in large sections. First I dug the soil very soft and mixed it with fertilizer.

HOME GARDEN
By Matsugi Yoshikawa
I planted cucumbers but the chickens scratched them up.
So I dug it up again.
I planted radishes. It needs fertilizer.
My yard is 10 ft. long and 9 ft. wide.
I have to irrigate my garden every day.

By Hikoge Hirashima
I have a garden about 50 yards around. I dug out the ground and raked it and planted some lettuce and onions. I did not water because it was a rainy day. When I looked at it, it was about one inch high. I watered the plants this week. I replanted some lettuce on the other ground.
It is about five inches high. The heads are about ten in.

FARM
By Hatsuno Osato
We have to plow the ground before we plant the vegetables and then we make a garden and plant the seeds. For about one week the seed will not grow. The size of the garden is two sides about 3 yd. and the other two sides is about 1 yd. long. It will take about 2 weeks to grow. My mother will then go and sell the cabbage. My mother can not plant cabbage every day because she is very old. I have no time to help my mother but some times I help her to pull the grass out of the cabbage. Sometimes I plant the cabbage seeds and I will go and sell it. I will sometimes dig the ground to make it soft. Sometimes I will water the vegetables.

HOME GARDENER
By Kazuo Marinaga
My plants are growing well. The cabbage is now about 6 in. high. It needs little fertilizer. My pumpkins are 2 in. high. My cabbage garden is 12 yds. around. My pumpkin garden is about 1 yd. around. I water it every day. My cabbage garden is soft and my pumpkin garden is soft.

KOOLAU ENTERS; GOOD WORK DONE

Kilauea, Kauai, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.

Sir: I enclose herewith letters from pupils of Koolau school, Kauai. Kindly register these children as contestants for the prize on home gardens.
Yours very truly,
MARY F. BUCH.
Principal, Koolau School, Kilauea, Kauai, T. H., Jan. 30, 1917.

Editor Honolulu Star-Bulletin.
Sir: My garden is right down by the sea shore. The plant are grow very well. The ground is not so stoney.
I planted my seed on December 16, 1916. The weather here is rainy and sometimes it's hot. The plants are 5 in. long and some are 3 in. long. I have cabbage and lettuce and some turnips.
The garden is 15 in. square. I work on my garden every day. I pick up weeds on my garden when the weather is hot.

Yours truly,
CHARLES RICHARD, Grade III.

Sir: I planted my seeds on Saturday, December 28, 1916. I dug the dirt 6 inches and then I planted my seeds. The seeds are growing very good.
Every day I pull my weeds from my garden. I make the birds afraid. When the seeds grow 1 inch I did not let the horses go into my garden. I take care of my plants.
Now they plants are 2-1-2 in. tall. I planted Boston lettuce. I work in my garden 5 hours.
Yours truly,
MASASHI TAKENAKA, Grade III.

Sir: My house is not near the sea shore. I planted my seed on December 14, 1916. I cleaned all the weeds away and raked them over. Then I planted lettuce and watermelon. They are three inches tall now. The watermelon seed did not grow.
I work on my garden one hour every week and when there is grass I hoe it away. We had much rain this week. There is no insect to harm my vegetables.
Yours truly,
UTAKA KAGAWA, Grade V.

Sir: I planted the seeds on December 23, 1916. The ground was very hard and so we had to dig it up. We planted the seeds in the valley near the water. The garden is 24 feet long and 16 feet wide.
I planted corn, radish and lettuce. The corn is 7 inches, and the lettuce is 2 inches. The radish dried.
I worked this month 14 hours. We have rainy days and so the ground is soggy. We had to pull the weeds every night and morning. We put some fertilizer in our garden.
Yours truly,
HARUVO HORIBE, Grade V.

Sir: I have another piece of land to plant vegetables. It is about 125 by 45 feet long. We got permission from Mr. Jesus to use it. The boys work in the morning and at noon. We have no hoes here so the boys bring their own hoes from home. They started to pull the grass on Monday, and are beginning to dig. The little boys of Grade 1 help to carry the grass away. Some of the beds in the old garden have been turned into nursery beds. The vegetables are growing well. They are watered every day.
Yours truly,
FLORA GOUVEIA.

TOOK PRIZE AT FAIR, NOW TRIES FOR ANOTHER
Pepeekeo, Hawaii, Feb. 1, 1917.
Editor Honolulu Star-Bulletin.
I have a home garden.
I had planted lettuce, beans, bananas, cabbages, peppers, diakon, carrots, corn, peaches and taro.
The carrots, lettuce, beans, bananas, taro, pepper growing fine.
I carried fertilizer to them.
At the Country Fair I took second prize.
My garden is 50 ft long and 20 in wide.
The weather is good so I think the garden will grow fine.
Yours truly,
ALSADA FREITAS, Grade 4.

JOSE MALIERE RAISES CABBAGES, EATS THEM
Pepeekeo, T. H., Feb. 1, 1917.
Editor Honolulu Star-Bulletin.
Sir: I have beans, potatoes, Japanese cabbage, carrots, lettuce, corn and radishes in my garden.
I work very hard in my garden.
I put fertilizer on it to make things grow.
I sold ten cents worth of Japanese cabbage.
I ate ten cents worth of cabbage.
I bought seeds with my own money. I hope my garden will take a prize. I am in the second grade.
Very truly yours,
JOSE MALIERE,
Pepeekeo, Hawaii, T. H.

PAIA BOY TELLS OF HIS GARDEN

Paia School, Feb. 5, 1917.
Editor Honolulu Star-Bulletin.

Sir: I am going to tell you about our shop work that is done on Monday and Wednesday.
Last term I made a mallet, picture frame, necktie hanger and helped on a picture frame clamp. This clamp was made by a boy in grade VIII and myself.
This term we are making several teachers' desks, one for the Haku school. Some of the other boys are making different things. We are having a hard time to plane the board for the Haku school desk. The grain of the board is rough and so we have a hard time.

All the boys of grades V, VI, VII, and VIII have shop work. These are the grades that work in the shop on Monday and Wednesday. Grades VII and VIII. There are ten boys in grades VII and VIII. We work from 9 a. m. to 10:30 a. m.

Grade V and VI have shop work on Tuesday and Thursday and they have eleven boys. Grade V have shop work on Friday from 9 a. m. to 10:30 a. m. We have ten boys working on Friday afternoon and four boys in the printing shop from grades VII and VIII. The boys that work on Friday afternoon are grade VI, VII and VIII.
Yours respectfully,
YOSHIO TANAKA,
Paia School, Grade VII.

Paia, Maui, Feb. 5, 1917.
Editor Honolulu Star-Bulletin.
Sir: I wish to tell you about the shop work of the Paia school. On Mondays and Wednesdays the eighth and seventh grades do shop work from 9 a. m. to 10:30 a. m. On Tuesdays and Thursdays the fifth and sixth grades do shop work. And on Friday afternoons part of the eighth and seventh grade boys do printing from 12:45 p. m. to 2 p. m. and part do shop work. We have altogether thirty-three boys working in the shop. We have made lots of things since we began working. Some of the things are as follows: Tables, chairs, picture frames and other important things.

On Mondays the eighth and seventh grades do mechanical drawing for about half an hour and the rest of the time we work on what we have started.
The eighth and seventh grades are in the first division which I am in. Mr. Pereira is our teacher. Last year we made four large kitchen tables and a library table. The library table was sent to the first Maui County Fair with many other things. Our shop work is really a success.
Yours respectfully,
ALFRED FERNANDO,
Grade VIII, Paia School.

Hilo, Hawaii, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.
Sir: I am going to tell you what we did in our garden during last month. First we hoed the grass. Then we leveled the ground. We dug the ground to make it soft so that the roots of the little plants would grow well.
After we did all this we began to plant things. First we planted strawberries. Then we planted sweet corn. All these plants are growing very nicely.
The weather this week has been dry. But we think that we do not need to carry water for the plants yet. We have found out that when it rains once in a while our plants grow better.
Yours truly,
KAUMANA SCHOOL,
Gotechi Akaki, Grade IV.

KAUMANA SCHOOL GARDEN GROWING

Gokala, Hawaii, February 2, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: The young plants in our school garden are growing well, and the boys are watching them daily. Watching these plants grow and making the soil around them loose is a very interesting work. By doing this work the pupils know the different kinds of vegetables and how to spell their names.
The pear trees in our school yard are in bloom and they look very pretty. One peach tree is also blooming. It looks very beautiful to me. I wish the legislature will set apart some money for our new school buildings so that everything in our school yard will be as beautiful as the trees.
Thanking you for publishing the letters of my assistants in your paper, I beg to remain,
Yours truly,
MASAO MINEA,
Reporter, Ookala School.

REPORTER OF OOKALA SAYS GARDEN WORK IS EXTREMELY INTERESTING

ANAHOLA BOY WORKS TO OVERCOME TROUBLES
Anahola, Kauai, Feb. 3, 1917.
Editor Honolulu Star-Bulletin.
Sir: Planting home garden, I have planted cabbages, sweet potatoes, Irish potatoes and tomatoes. My cabbages are not so tall. I have planted about two weeks now. It is about half inch tall. I had a hard time cleaning my garden. It has little grass growing now. There are no insects destroying my garden, but only chickens. I had planted cabbages before but the chickens went in the garden and ate the cabbage leaves.
Yours truly,
KEER R. LOVELL,
Fifth Grade.

WAIAKOA HOPES TO WIN AGAIN

Waiakoa, Maui, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.
Sir: I wish to let you know that the Keiahau School is going to join the Star-Bulletin School Farm Contest. In 1907 this school won second prize in the Bulletin's Agricultural Contest, and last year we won first prize for agricultural exhibits at the County Fair. This year we are determined to win first prize in the Star-Bulletin's School Farm Contest. Our garden is 95 ft. long and 82 ft. wide. It is enclosed by wire netting. We have been weeding our garden. We did not plant anything during the month of January because the weather was so cold.

We are going to plant onions, sweet corn, peppers, beans, peas, and tomatoes. When we have these things planted we are going to fertilize them. We had a little rain during the month of January but the ground is damp and fit for planting. This contest should continue till May because there will be not much to see in March.
Yours truly,
EVA A. NEWTON.

PAUAHAW'S CORN GROWING NICELY

Paauhau, Hawaii, Jan. 30, 1917.
Editor Honolulu Star-Bulletin.
Sir: I was very much interested in reading some of the letters in your paper from the other schools. I think they would like to hear from us, too, so I am writing you our next letter.
Last Friday we planted corn, beans and turnip. Of these corn is the vegetable that has grown the most. Now it is four inches high.

We got some free seeds from Aggeler & Musser of Los Angeles with our order. We ordered our seeds from them because their climate is almost the same as ours, and we think the seeds ought to grow better.
We laid a pipe into the individual garden with our teacher last Friday. It has three faucets, one near the southwestern corner, one in the center, and one in the southeastern corner of our garden.
The boys who own gardens have planted beans today.
I hope we will win one of the prizes, and I am doing my best to help our school.
Yours respectfully,
TANIO HAYAKAWA.

LIHUE GIRL IS GETTING RESULTS

Lihue, Kauai, Feb. 6, 1917.
Editor Honolulu Star-Bulletin.
Sir: I am writing you these lines to let you know how my garden is getting along.
I have a bed of lettuce and a bed of beans. I planted them on January 20 and now they are growing nicely. I had a hard time removing the rocks and softening the soil and now I have to do something to prevent the chickens from eating my plants. It frequently rains which is a great help for me in watering the plants.
I will write to you again at the end of the month about their progress.
Respectfully yours,
MABEL AIU.

"WE ARE GOING TO WIN A PRIZE." SAY HUSTLING WORKERS OF PEPEEKEO

Pepeekeo, Hawaii, Feb. 1, 1917.
Editor Honolulu Star-Bulletin.
Sir: Our garden at Pepeekeo school is growing fine.
We have harvested our crop to the following amount: radishes \$ 25, beans \$ 35, diakon \$ 20, carrots \$ 10.
We will plant soon Kohl Rabbi, lettuce, and turnips.
We are sending you some drawings of plants from our garden.
The weather is fine. We are going to work hard and win a prize.
Yours truly,
CHILDREN OF PEPEEKEO SCHOOL, Grade IV.

OOKALA HAS GARDEN CONTEST ARTIST WHO SENDS NEAT DRAWING

Hiyoshi Hiihano, artist of the Ookala school in the garden contest, sends the Star-Bulletin a very neat sketch of the garden and the vegetable beds. Unfortunately there is not room for it this week, but Ookala gets credit for its neatness and complete details. Kiyoshi also writes:
Ookala, Hawaii, Feb. 2, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: I am sending you enclosed herewith, a complete sketch of the Ookala School garden. This sketch will show you the location of the beds and kinds of vegetables we planted.
By and by I shall send you some colored pictures.
I thank you for putting my first sketch in your paper.
I beg to remain,
Yours respectfully,
KIYOSHI HIILANO,
Artist, Ookala School.

RAINY WEATHER STOPS GARDENING AT WAIHOLE

Waihole School, Oahu, Feb. 3, 1917.
Editor Honolulu Star-Bulletin.
Sirs: Owing to rainy weather we did not do much work in the garden. The soil is too sticky. The only work we did were pulling weeds.
The vegetables are growing slowly. The beans seem to grow the fastest.
We had tried to take some pictures of our garden, but bad weather had prevented us. Will send you some as soon as we can get them.
Yours truly,
D. F. LEE.

MOLOKAI SCHOOL ENTERS CONTEST

Kamalo, Molokai, Jan. 31, 1917.
Editor Honolulu Star-Bulletin.
Dear Sir: I am writing to tell you about our school garden.
We heard of your School Farm Contest and wished to enter it.
We started digging on Friday, January 5, 1917. Friday is our working day and we have from 12:30 to 2 p. m. to work in our garden. We dug down about two feet, then put in a layer of old straw and filled in with soil and manure. We thought this would hold the moisture better. This is a dry, windy place and the soil in the school yard is sandy.
We have only a small piece finished, as there are not many big boys in our school. There are six boys from 10 to 13 years and these are our biggest boys.
We are going to do our best to see what can be done here.
Truly yours,
KAMALO SCHOOL.

TELLS OF HOME GARDENS, KAUAI

Hanalei, Kauai, Jan. 31, 1917.
 Honolulu Star-Bulletin, Honolulu, T. H.
 Dear Sir: I would like to be a contestant for the home garden. My garden is 5x3 feet. I planted water-melon seeds. I planted them on December the first. They are growing swell.
 Yours truly,
 EMILIA LOTA.
 Hanalei, Kauai, Jan. 31, 1917.
 Star-Bulletin, Honolulu, Oahu, T. H.
 Dear Sirs: I am telling you what I did with my garden. First, I broke my garden January 4, 1917. Second, I softened the soil January 6 and planted the same day. January 12 it came up. I transplanted again, January 18. When it rained on Monday, January 29, it took away some of my seeds. I made drawings out of it. I planted my beets, radishes, carrots, peanuts, eggplant and the watermelon. With the exception of the cabbage all of my seeds were killed by the water; only the beets, carrots and radishes more. They are growing well.
 Yours truly,
 HENRIETTA MAHUKI.

HAENA STRIVES TO SAVE GARDEN

Hanalei, Kauai, Feb. 3, 1917.
 Editor Honolulu Star-Bulletin.
 Sir: I inclose letters to you from two of the children, who had no stamps. I also inclose a couple of drawings of our school garden. We've had too much rain, yet things are doing fairly well, considering they have to be covered with brush all the time, for our fence has not come. Very truly,
 MRS. E. M. BOOCO,
 Haena School.

Hanalei, Kauai, Jan. 31, 1917.
 Dear Sir: I am going to tell you about my home garden. I made my garden and afterwards I worked the soil. When the work was finished I planted my seeds and the seeds that I planted were carrots, beets, radish, cabbage, eggplant and watermelon. But there is one thing I planted my cabbage in a box then I transplanted it, and it is growing. I am taking care of my garden. There were four days of rain and the water came over my garden and the seeds were not injured by the water.
 Yours truly,
 MARY KANEL,
 Grade IV.

Hanalei, Kauai, Jan. 31, 1917.
 Dear Sir: I am going to write you about my garden. I worked my garden on Saturday then I planted the seeds. Then afterwards I hoed. Sometimes I went and weeded my garden. Then afterward I came to school and I dug the soil till it was 1 inch deep. My garden is 4 feet long and 3 feet wide. I planted eggplants and radishes. They are growing well. I did not transplant my growing. The rain did not took the seeds away.
 Yours truly,
 ELLA AHU,
 Grade IV.

WAIANAE SELLS ITS VEGETABLES

Waianae, Feb. 1, 1917.
 Editor Honolulu Star-Bulletin, Honolulu.
 Dear Sir: I am writing you a letter to tell you about our school garden. Our vegetables sent to the territorial market were sold for \$4.49. Now we have \$12.49 in the school fund from the vegetables. Our vegetables were sold at an average \$0.17 a pound.
 Our new plants are growing well. I am not watering my garden every day because we have had plenty of rain. We are going every Friday to pull weeds and to water the plants in the garden.
 Yours truly,
 INORU TANAKA,
 Grade V.

MANY MORE GARDEN PLOTS NOW FINISHED; PAIA BOYS WORK HARD

Paia, Maui, Feb. 5, 1917.
 Editor Honolulu Star-Bulletin.
 Sir: The peas that I told you about are coming up slowly owing to cold weather during the past week. Sweet corn will be planted in another rectangular plot that has been finished. The boys are still working on their plots. Many more plots have been finished, but have not yet been planted. It takes some time to finish plots on Paia school ground. The more you dig the more stones you find. We just clear away the biggest stones and leave the tiny ones. Pipes will be laid through the plots so that water can be easily got. There are two pieces of land that are being used. One is above the school cottages and one below. The general school plot is below the cottages.
 Respectfully yours,
 MANUEL SILVA,
 Grade VIII, Paia School.

PAAUHAU FLOWER GARDENS PROVE INTEREST KEEN

Paaahu, Hawaii, Feb. 2, 1917.
 Editor of the Star-Bulletin, Honolulu, Hawaii.
 Dear Sir: I think you would be interested to know about our flower garden, so I am writing you this letter. The ground is very soft now. There are no weeds, but a very few stones. We did not put fertilizer in the garden because it is hard to get. The names of our flowers are carnations, roses, Chinese lilies, violets and spotted-leaf tars. They are growing well because we water them in the morning and sometimes in the evening. They are now three and a half inches high. We are very interested in the garden. Our teacher put thorns in the gardens so that the children will not step on the flowers. He has told them many times to keep away, but they won't so he wants them to learn by themselves. Last week the weather was rainy, but this week the weather is very warm and dry.
 Yours truly,
 MARY RAPOZA,
 Grade V.

Dear Sir: This is the day we have to send you a letter, so I am going to send you this one. The ground in our garden is soft and moist because we are taking good care of it. There are no weeds in the garden and few stones. The head cabbage is pretty well fertilized. We put two kinds of fertilizer. One is called manure and the other is called bone meal. The names of the products we have growing are head cabbage, tomatoes, lettuce, corn and peppers. Before we plant anything we soften the ground. All our lettuce are sprouting. The Chinese peppers are not sprouting.
 Yours truly,
 KAME HAYAKAWO,
 Grade IV.

Dear Sirs: Today is our day to send you a letter, so I am going to tell you about the garden. The ground is very soft and moist. There are few stones and no weeds to be cleaned. We have put some horse manure and bone meal in the beds, so the ground is very soft for the plants to grow. We have planted head cabbage, tomatoes, lettuce, corn, sweet potatoes and peppers. There are two kinds of corn growing. They are maize and Oregon sweet corn. We have built a framework for the tomatoes to climb on. After we had planted the vegetables we hoed the ground to make it soft and gave it plenty of air. This week the weather is dry and we are watering the garden every day.
 Yours truly,
 TAMACHI HORITA,
 Grade IV.

WAIANAE PUPILS ARE CULTIVATING

Waianae, Oahu, Feb. 7, 1917.
 Editor Honolulu Star-Bulletin.
 Sir: I am writing you a letter to let you know about the plants in the school garden. Our new plants are growing well and many weeds are growing too. Our weather is rainy and we have not watered our plants. We have cabbage, cucumber, beets, carrots, onion, and parsley. This coming Friday we are going out to pull weeds and to water the plants.
 Yours truly,
 INORU TANAKA,
 Grade V.

Waianae, Oahu, Feb. 7, 1917.
 Editor Honolulu Star-Bulletin.
 Sir: I am going to write to you this letter to let you know what I am doing in the garden. Since the rain many weeds sprung up besides the vegetable plants. I pulled most of them. I have not been watering my garden beds for a few days. Often the cabbage butterflies come and destroy the cabbages. If I see them I try to kill them but they are skillful and escape quickly. Chickens come also and eat the cabbages or beets. Yesterday a rabbit came into the garden and ate some of my cabbages. Last Friday Mitsuo Kimura, one of the garden boys, and I went to get some manure for the young plants. We put the manure in the beds and watered the beds.
 Yours truly,
 DAIKICHI ORITA,
 Grade VI.

NINOLE GARDEN BEDS TOLD OF

Ninole, Hawaii, Feb. 1, 1917.
 Editor Honolulu Star-Bulletin.
 Dear Sir: I am going to tell you something about our garden beds. We have beds on the western side of the garden. Each bed is 2 yards wide and 3 yards long. Between the beds there is a two foot road and a three foot road along the eastern side of the garden beds. We planted taro on the side of the road along the beds. We expect to plant more soon. Each member of the garden club owns a bed. Most of the beds have been planted by those who own them.
 Yours truly,
 OTICHI MATSUSHIGE,
 Grade 6.
 Dear Sir: I am in Grade 4 and 12 years old. I have garden bed No. 17 in our school garden. It is 2 yd. by

RICH SOIL FOUND AT KALIHI-WAENA

Kalihi-waena school, Oahu, was disappointed two weeks ago because no letters were printed from that school. Last Saturday the school was represented, and here are some letters written the previous Friday—for good measure.
 Kalihi-waena School, Feb. 2, 1917.
 Editor Honolulu Star-Bulletin.
 Sir: We were expecting to see some of our letters in your paper but did not see any of them.
 Mr. De Corte has found a pocket of rich soil 600 feet away from the garden. The weather is fair and the boys are going to rebuild the beds for the rain has washed the soil away. The boys will haul the rich soil from the pocket and will dress the beds until they are all dressed. The cabbage in the seedling boxes, are growing well and they are 3 inches high. We have found cut worms in the beds.
 Respectfully yours,
 FREDERICK HUTCHISON,
 Kalihi-waena School, Grade Va.
 Sir: The letters written by the Kalihi-waena pupils have not been published in the paper, and the children are disappointed. The weather is fair, and now is the best time to work. When the rain came down it washed the soil away from the beds and the boys are trying hard to rebuild them. Mr. De Corte has found a pocket of rich, black soil about 600 feet away from the garden. He is going to have the boys haul it to the beds so as to give a good top dressing. The cabbage seeds, which were planted in the seedling boxes, are now 3 inches high. The cutworms are very thick down there and they eat the roots of the plants. The boys are trying very hard to have the beds fixed in good shape.
 Respectfully yours,
 LENA ALBERTS,
 Grade Va.
 I was in my bed on Monday, Jan. 29, 1917.
 I like to work in the garden because I learn how to work the soil and raise vegetables. The first bean seeds that we have planted are growing very nicely. They are 3 inches out of the ground.
 Yours truly,
 YUTAKA YADA,
 Grade 4.
 The senate committee on printing after an investigation reported the possibility of saving \$469,000 annually by the elimination of useless public documents.

The New York Electrical School
 Whether Sixty or Sixteen, you are assured absolute success in the future if you attend the only school devoted to teaching every angle of Electrical Industry by a method of "actual practice." All ages enter this school on the same level, are shown "how" and "why," and make rapid progress under the watchful eye of a staff of highly trained and experienced men. No preparation needed to take this course and you can start any day of any week throughout the whole year.
 Write for illustrated booklet and "be shown" what the N. Y. Electrical School can do for YOU.

CONDENSED MILK HIGHLANDER
 Always to the front
 Throughout Australia and the Pacific you will find that where Highland Condensed Milk is used once, it is always to the front. Because of its superior quality, it has won its way to the top against competition of other brands. If the housewife will but try one tin—let her test it against the brand she is now using—she will quickly realize its superiority in flavor, richness, quantity, purity, economy, value. Sounds like a big claim to make—let Highlander Condensed Milk prove it. Made from the finest richest milk of specially selected herds in the rich dairy pastures of Southland, New Zealand. Do you wonder that it excels?

700 PROMINENT U.S. CHURCHMEN SUGGEST PEACE

Editors, Professors and Business Men Join Them In Broad Message

Bishops, universities and college presidents and professors, secretaries of church boards, and of social service organizations, pastors, editors, business and professional men who are prominent in the churches, with a number of women, have issued a "Message to our Christian Brethren of All Lands," in which they "take open stand with those who labor for the establishment of lasting peace upon the foundations of righteousness."

Included in the list are Bishops David H. Greer, New York; Ethelbert Talbot, South Bethlehem, and Cortland Whitehead, Pittsburg, of the Protestant Episcopal church, and Bishops McDowell, Chicago, and E. R. Hendrix, Kansas City, of the Methodist Episcopal church.

Some pastors who signed are Drs. Charles E. Jefferson, Henry Sloan Coffin and Nehemiah Boyton of New York; Wallace Radcliffe, Washington; James E. Vance, Nashville, and W. C. Covert, Chicago.

In the list of officials of religious organizations are found the names of Francis E. Clark, Boston, president of the Union Society of Christian Endeavor; John A. Marquis, Cedar Rapids, moderator of the Presbyterian General Assembly; H. C. Herring, Boston, general secretary of the National Council of Congregational churches, and Ballington Booth, New York, head of the Volunteers of America.

Among the university, college and theological seminary presidents are W. H. P. Faunce, Brown University; J. Ross Stevenson, Princeton, Theological Seminary; W. Douglas McKim, Hartford Theological Seminary; Henry Churchill King, Oberlin College; Harry A. Garfield, Williams College, and Frank Strong, University of Kansas.

The federal courts are represented by Judges John M. Klilita, Toledo, and John R. Hazel, Buffalo.

The following are among the business and professional men who signed: H. J. Heinz, Pittsburg; James N. Gamble, Cincinnati; E. T. Burrows, Portland, Me.; Lucien Warner and George Foster Peabody, New York; John T. Stone, Baltimore, and A. A. Hyde, Wichita.

The message pronounces in favor of a League of Nations, and limitation of armaments, and a World Court, either The Hague Court or a similar tribunal.

Bishop Luther B. Wilson of New York, of the Methodist Episcopal church, is chairman of the committee which drafted the message. The other members are Hamilton Holt, George A. Plimpton, Dr. Frederick Lynch and Dr. Charles S. Macfarland.

Bishop Wilson says that his committee was appointed at a conference of 40 clergymen and laymen, held at the residence of George A. Plimpton, the publisher, president of Ginn & Company, at which Bishop David H. Greer of the Protestant Episcopal church presided. Bishop Wilson stated that the message expresses the views of men and women who do not believe that the war should be fought until one side of the other is completely exhausted, if methods can be devised which will insure future permanent peace.

"Of course," says Bishop Wilson, "those who have signed this message believe in a righteous peace. No other kind of peace can be discussed at all. We do believe also that a League of Nations and a permanent International Court will insure permanent peace. These proposals for such international machinery constitute the new elements in the world situation. It is our conviction that they furnish a way out of the age old and vicious circle. Without them it would probably be better that the war, with all its inimitable horrors, should go on."

A general committee of 12 members was constituted with Mr. Brandt as chairman, and with the help of Mr. Killam, Charles F. Loomis was secured as county secretary in charge of the work, to begin active operations on the ground May 1, 1916, and about that time he and his family arrived on the scene and active operations began.

Membership—There are 13 organized clubs in 10 different centers whose membership totals over 200. Many of the men and boys being reached are not organized into clubs.

Educational—Six English night school classes are in operation. The teachers are paid and the classes are self supporting.

Illustrated and popular scientific lectures have been held and practical talks on current events and thrift given.

Club reading rooms have been supplied with magazines and papers. Library books have been circulated.

Citizenship—Messrs. Paul Steel and M. Kakehi of the Territorial Citizenship Committee conducted citizenship campaigns among the Filipinos and Japanese. Their talks were illustrated.

A number of young men have been assisted in applying for birth certificates and first papers.

Message Urging Peace is Sent to Christian Brethren of All Lands

At a time when the world is suffering the indescribable horrors of war, and when the possibility of peace by negotiation is being urged by various governments, we desire to take our open stand with those who labor for the establishment of lasting peace upon the foundations of righteousness, believing that responsibility for the welfare of humanity is inevitable and universal.

FIRST. We are convinced that any adequate guarantee of lasting peace involves the establishment of a League of Nations, with provision for the limitation of armaments, and we believe that the agreement to establish such a League of Nations should accompany the offer or acceptance of any proposal for negotiation concerning the termination of the war.

SECOND. We believe that the approach to a just peace makes necessary an agreement that the adjustment of territory and compensation be upon the basis of righteousness alone, with due regard for the rights of all nations, small and great, obedient and neutral, and that all differences not otherwise adjustable should be referred for arbitration either to The Hague Court or to some tribunal constituted for this particular purpose.

THIRD. We believe that any adequate program of negotiation in the interest of peace should further include the entire matter of relief, reconstruction and reconciliation in which the warring nations, the United States and other neutrals, shall engage for the common good.

While we sign this statement without the authorized action of the several bodies with which we are connected, we cherish the hope that it will be approved by a large proportion of those with whom in faith or practice we are associated, and we submit this deliberate expression of our attitude and principles to the prayerful consideration of our brethren in all nations, warring or neutral.

Without assuming to advise in the world crisis which is upon us, we nevertheless declare our profound belief that the sincere proffer of negotiations upon such conditions as we have named, and the acceptance of such proffer in the same spirit, must inevitably insure to the immediate and lasting good of mankind, as also to the greater glory of God, and we pledge our support of every measure, proposed or adopted, looking definitely toward this end.

The foregoing message, signed by seven hundred representative churchmen and other Christian citizens, is the result of several conferences held in New York City by a group of some 49 clergymen and laymen the last week in December, 1916, and the first week in January, 1917. These conferences consisted of members of the Church Peace Union, the Commission on International Justice and Goodwill of the Federal Council of the Churches of Christ in America, and the Executive Committee of the World Alliance for Promoting International Friendship through the churches, and others. This message was adopted by the conference and the committee was instructed to secure signatures. This message is now issued to the American public and is being sent to representative Christian leaders in other countries, both neutral and those at war, with the names of those who have thus far expressed their approval and their desire to sign it. All signatures represent only the individuals who sign and not the organizations of which they are members.

A BIT OF Y. M. C. A. HISTORY

At the Civic Convention of 1916, at Kalahe, Kauai, T. Brandt called attention to what he considered a pressing need for some provision to be made for the interim stage of boys and young men, between the school age and the responsibilities of life. Here there was considerable waste and many boys went to ruin. Somewhat later a similar conviction came to Rev. J. M. Lydgate and to several other Kalahe people, and led them to go to Waimea to talk the matter over with Mr. Brandt, and the outcome of the conference was a determination to investigate the feasibility and advisability of inaugurating some work along the lines of the Rural Young Men's Christian Association. A little later with this purpose in view, Mr. Lydgate went to Honolulu and talked the project over with the Hawaiian Board people and with L. R. Killam of the Honolulu Young Men's Christian Association. Finding that the plan promised to be just what was wanted, Mr. Killam was invited to come to Kalahe to confer, on the spot, with those most interested, to explain the working of the Rural Young Men's Christian Association plan, and to ascertain what financial backing could be secured for such work on the basis of a two years' experiment.

In pursuance of this suggestion Mr. Killam, Mr. Lydgate and Mr. Brandt made a canvass of the island, from Kalahe to Waimea, with such encouraging results that the enterprise was immediately put on its feet, and steps were taken to inaugurate the work forthwith.

Very valuable assistance was given by the Hawaiian Board in the matter of building site, and \$1000 toward the residence of the local secretary, without which it would have been difficult to inaugurate the work.

A general committee of 12 members was constituted with Mr. Brandt as chairman, and with the help of Mr. Killam, Charles F. Loomis was secured as county secretary in charge of the work, to begin active operations on the ground May 1, 1916, and about that time he and his family arrived on the scene and active operations began.

Membership—There are 13 organized clubs in 10 different centers whose membership totals over 200. Many of the men and boys being reached are not organized into clubs.

Educational—Six English night school classes are in operation. The teachers are paid and the classes are self supporting.

Illustrated and popular scientific lectures have been held and practical talks on current events and thrift given.

Club reading rooms have been supplied with magazines and papers. Library books have been circulated.

Citizenship—Messrs. Paul Steel and M. Kakehi of the Territorial Citizenship Committee conducted citizenship campaigns among the Filipinos and Japanese. Their talks were illustrated.

A number of young men have been assisted in applying for birth certificates and first papers.

BIRTHDAY OF LINCOLN WILL BE OBSERVED

Special Sermon and Music Are Features of C. U. Week From Tomorrow

Lincoln's Birthday will be fittingly commemorated at Central Union church on the preceding Sunday by a special sermon preached by Rev. J. H. Williams, D. D., on "Lincoln's Greatest Achievement." The patriotic note will also be brought out in the decorations of the auditorium.

The morning service will be opened by these organ numbers: "Adagio," by Gullmant, and "Grand Choeur in A Flat," by Faulkes, and concluded by Foerster's "Postlude in D Minor." The anthem for the choir is Stainer's "Awake! Awake! Put on Thy Strength," and the offertory solo will be sung by Miss Pearson.

Sunday evening will be "Mid-Pacific Night" and the two schools, Kawaihao Seminary and Mills school, will come down from Manoa Valley in full force and will occupy the center section of the church auditorium. Miss Harrison will preside at the organ as usual, playing "Berceuse," by Frysinger, "Andante Religioso," by Massenet, and "Postlude in F," by Reed, but the balance of the music will be contributed by the Mid-Pacific Institute, under the direction of Miss Ruth S. Tubbs. Dr. J. H. Williams will speak on "The Potter's Wheel."

A very interesting program has been arranged, the items of which are as follows: Organ Prelude. Anthem—"Savior, Again to Thy Dear Name" (Llewellyn), Kawaihae Glee Club.

Responsive Reading. Anthem—"New America" (Longacre), Mills Glee Club.

Prayer. Response—Kawaihae Glee Club. Offertory Anthem—"When the Roses Bloom" (Reichardt). Hymn.

Address—"The Potter's Wheel," Rev. J. H. Williams, D. D.

Hymn. Benediction. Followed by Kawaihae Benefit. Girls Glee Club.

Organ Postlude.

HONOR ROLL OF BIBLE SCHOOL IS GIVEN PUBLICITY

Central Union Bible school has recently published an attendance honor roll and reports on the benevolence of the school as follows:

The following students of the school have a record of perfect attendance for the entire year of 1916:

Junior Department—Clive Chilton, Pang Wong, Natalie Rowe.

Intermediate Department—Mildred Morse, James Armstrong, Mary Teselsky.

The following have had no absences during the months of October, November and December, 1916:

Primary Department—Dorothy Adams, Lyman Arnold Dean, Frances Alicia Forbes, Margaret Gere, Lloyd Hopwood, Florence Horn, Richard Leach, David Warren, Winifred Webster, Mary Theodora Richards.

Intermediate Department—Theodore Forbes, Alice Teselsky, Thelma Thompson.

Junior Department—Jessie Booth, Phillips, Brooks, Wendell Brooks, Lewis Buckingham, Warren Chamberlain, Sylvia Dean, John Devereux, Kailani Devereux, Emma Louis Erdman, Frederick Forbes, Marion Lewis, Samuel Morse, James Rath, Jr.

Senior Department—Francis Cushingam, Andrew Geriz.

The average attendance per Sunday during 1916 was 212 and during the last three months of the year it was 353.

Offerings for the Year—A total of \$932.70 was received from the weekly offerings of the Bible school and given to the following benevolent objects:

Kilo Boarding School (5 boys), \$125; Konehala Girls' School (4 girls), \$100; Maunaloa Seminary (4 girls), \$100; Kawaihae Seminary (4 girls), \$100; Hawaiian Board for Chinese Work, \$75; Hawaiian Board for Japanese Work, \$75; Work of Mr. and Mrs. Wickes in China, \$75; work of the Delaportes and Mauri Mission, \$125; support of boy in Kamehameha Schools; \$25; fund for needy children, \$4.15; Anti-Saloon League, \$10; Christmas at Immigration station, \$20; special Christmas gifts to mission schools, \$22; work of Mrs. Shepherd at Ainala, Turkey (birthday offerings), \$72.25. Total, \$932.70. Average offering per Sunday for year, \$17.81.

"CONFESSION" TOPIC FOR C. E. GATHERING

CENTRAL UNION CHURCH.

EPISCOPAL CHURCHES.

St. Clement's Episcopal Church—Wilder avenue and Makiki street. Rev. John Osborne, rector; Rev. Leand H. Tracy, vicar. The services for Sunday morning, will be:

7 a. m.—Holy communion.

9:45 a. m.—Sunday school.

11 a. m.—Mains and sermon.

7:30 p. m.—Evensong and sermon. The vicar, Rev. L. H. Tracy, will preach at both services. The theme for the morning will be "The Swan Song of Human Life." For the evening, "The Revelation of the Righteous God."

KALIHU UNION CHURCH.

Kalihi Union church, between Gwaha avenue and Kamehameha IV road.

Rev. Charles McVey, pastor.

Morning service, 11 a. m.

Evening service, 7:30 p. m.

Mid-week prayer meeting, Wednesday, 7:30 p. m.

GOSPEL MISSION

King street, near Liliha, E. C. Keuffman, Fort Shafter, T. H. Superintendent.

W. E. Pietsch, Evangelist.

Sunday—Sunday school 2:30 p. m.

Tuesday—Gospel meeting (Spanish), 7:45 p. m.

Thursday—Bible study, 7:45 p. m.

Saturday—Gospel meeting, 7:45 p. m.

FIRST CHURCH OF CHRIST, SCIENTIST.

Old Fellows building King and Fort streets, entrance on Fort street, Sunday 11 a. m., Sunday school 9:30 a. m., Wednesday evening meeting at 8 o'clock. Free reading room, Pantheon building, corner Hotel and Fort streets, rooms 1 and 2, open daily from 10 a. m. to 3 p. m., except Sundays and legal holidays. A cordial invitation to attend our services and visit our reading room is extended to all

men and daughters to be partners with him in the divine enterprise of bringing in the Golden Age. Think of it. God loans his omnipotence to men and runs the risk of men abusing the gift. All the beauty that the creator gives through the sunshine and the sunset and the landscape is placed at the disposal of all artists. Voices also fall through the rift in the sky. Visions are sent, for by the vision splendid man is on his way attended. Every gift that God has is held at the disposal of his children. Nothing is withheld by the God who loves His earthly child, and has set His heart upon man to redeem him, and trusts to man His truth, His beauty and His omnipotence that as partners they may bring in the ideal commonwealth.

Now the fourth great idea in the theology of the Christ concerns man's part in the new science. There are but two luminous and self-evident realities in the universe—God and the soul, and religion is a nerve of relationship through which life is communicated from the larger God above the stars to the lesser God beneath the stars. Jesus found his new science on this principle that what God is, man must become. The kingdom that is in God's nature is duplicated in the kingdom that is within man's nature, through the shock of a new creative act. Wonderful as is our age through its tools, comforts and conveniences, it is at best a rude, blundering, savage age, with respect to laws, justice and humanity. Think of an era that has saloons, gambling houses, ward heeled grafters on government contracts, whoring in war prosperity with revelry and glutony and drunkenness and lust that would make an ancient Epicurean and Roman sycariste seem in contrast a model of virtue.

In the midst of conflict, and when the whole world seems to have gone mad, we must look forward to a common Golden Age. Every new book written in behalf of the poor, every law passed to lessen their burdens, every art that doubts its beauty, every song that increases its sweetness, every statesman fashioning a shield to lift above the weak, every kind deed, every generous act, every hold prayer is prophetic, telling us that the kingdom of God is coming, and that there will be one law, one element and one divine event toward which the whole creation will move.

The third great idea is that God is one who trusts man and makes his

COAST MINISTER TO GIVE SERMON AT M. E. CHURCH

Rev. Robert Whitaker, Well Known Here, Has Had Wide Experience

Rev. Robert Whitaker, one of the well-known visitors in the city, is to occupy the pulpit of the First Methodist church tomorrow morning. The name of Robert Whitaker is not unfamiliar to Honolulu residents, as for two and a half years a young man of that name taught at Mills school and preached at Ewa. He was the nephew and namesake of the one who is here now.

Mr. Whitaker came to the islands three weeks ago to write the biography of Dr. John T. Gulick, to whom he is related, and has been steadily engaged on that task since arrival. He and Mrs. Whitaker are staying with Dr. and Mrs. Gulick in Manoa Valley. Mr. Whitaker expects to complete his task and return to the mainland in about a month.

"Who's Who" gives the list of books already published by Mr. Whitaker as "My Country and Other Verses," "The Gospel at Work in Modern Life," "Why Callest Thou Me Good?" "One Woman's Worth" and "Laughter and Life." The last volume, published last year, won for him a \$400 prize from the American Sunday School Union in an international contest for the best books on the amusements of young people.

His pastoral experience has been wide. He served his apprenticeship as a missionary in Mexico and then had pastorates in Seattle, Wash., Salem, Ore., and in Oakland, Palo Alto and Los Gatos, Cal. It was when he was preaching at Palo Alto that Mr. Loofbourou, then a student at Stanford, made his acquaintance. Without doubt Mr. Whitaker has been one of the most progressive and virile thinkers of the Baptist church on the Pacific Coast. But as a contributor to many periodicals and magazines his influence has extended far beyond his own denomination and the localities where he has worked. Few men have faced more courageously the industrial and economic conditions of today, or have adapted the Christian message more helpfully to our changing conditions. From his wide experience as a lecturer and writer on these themes he has become recognized as an expert on the social outreach of Christianity and his presence in the city is an opportunity for those interested in this direction to hear him.

His subject Sunday morning will be "The Old-Time Religion," and will be a discussion of the way out of sectarianism. At the evening service the pastor will speak on "The Mark of a Man."

UNION CHURCH AT MAKAWAO HAS MEETING

Officers Elected for Next Year; Small Gain in Membership is Made

Special Star-Bulletin Correspondence) MAKAU, Maui, Feb. 3.—The Makawao Union church held its annual meeting recently and reported a small net gain in members, a better grading of the Sunday school and increase in benevolences.

The Choral Club was a year old February 1st and reported a total income of more than \$1200, with a substantial balance on hand for the new year. The new officers are: F. B. Cameron, president; W. S. Beaman, secretary-treasurer; Mrs. W. S. Nicoll, librarian; Williams Phillips, Mrs. H. D. Slaggett and Mrs. A. Craig Bowditch, executive committee.

Recently the club gave a very popular selection of "Pinaroff." Other productions have been "Queen Esther" and "High Jinks," a vaudeville performance of high grade. Sixty people sat down to the buffet supper which preceded the annual meeting.

ONE MORE MID-WEEK SERVICE AT CHURCH

There will be one more mid-week service at Central Union church devoted to the subject of prayer on the concluding subject in these Wednesday evening services will be "An Answer Unanswered Prayer." This problem of unanswered petitions has troubled many, and its consideration should be helpful. All interested in the discussion of this theme are cordially invited to be present at the Wednesday evening meeting, which is held at 7:30 o'clock in Central Union parish house.

Senator John J. Boylan of New York introduced a concurrent resolution calling for the appointment of a committee of two senators and five assemblymen to investigate the activities of the Executive Council.

'JEREMIAH' IS LECTURE TOPIC

That intensely interesting man, Jeremiah, will be the theme of Dr. R. D. Williams' lecture Sunday morning in his course on "The Modern Social Message of the Prophets."

While this series of talks is given under the auspices of Central Union Bible School, it is open to all who are interested in such topics and an especially cordial invitation is extended to the younger men and women of the community.

The class meets in the large upstairs lecture room of the Kilohana building, Beretania and Miller streets, at 10 o'clock, and the special subject for Sunday morning is announced as "Jeremiah's Earlier Sermons."

Plans, Expanded Epiphany, Epiphany for Epiphany to San, Duns and Vind... by Mrs. B. B. B. B.

MACCAUGHEY TO TALK ON MONDAY

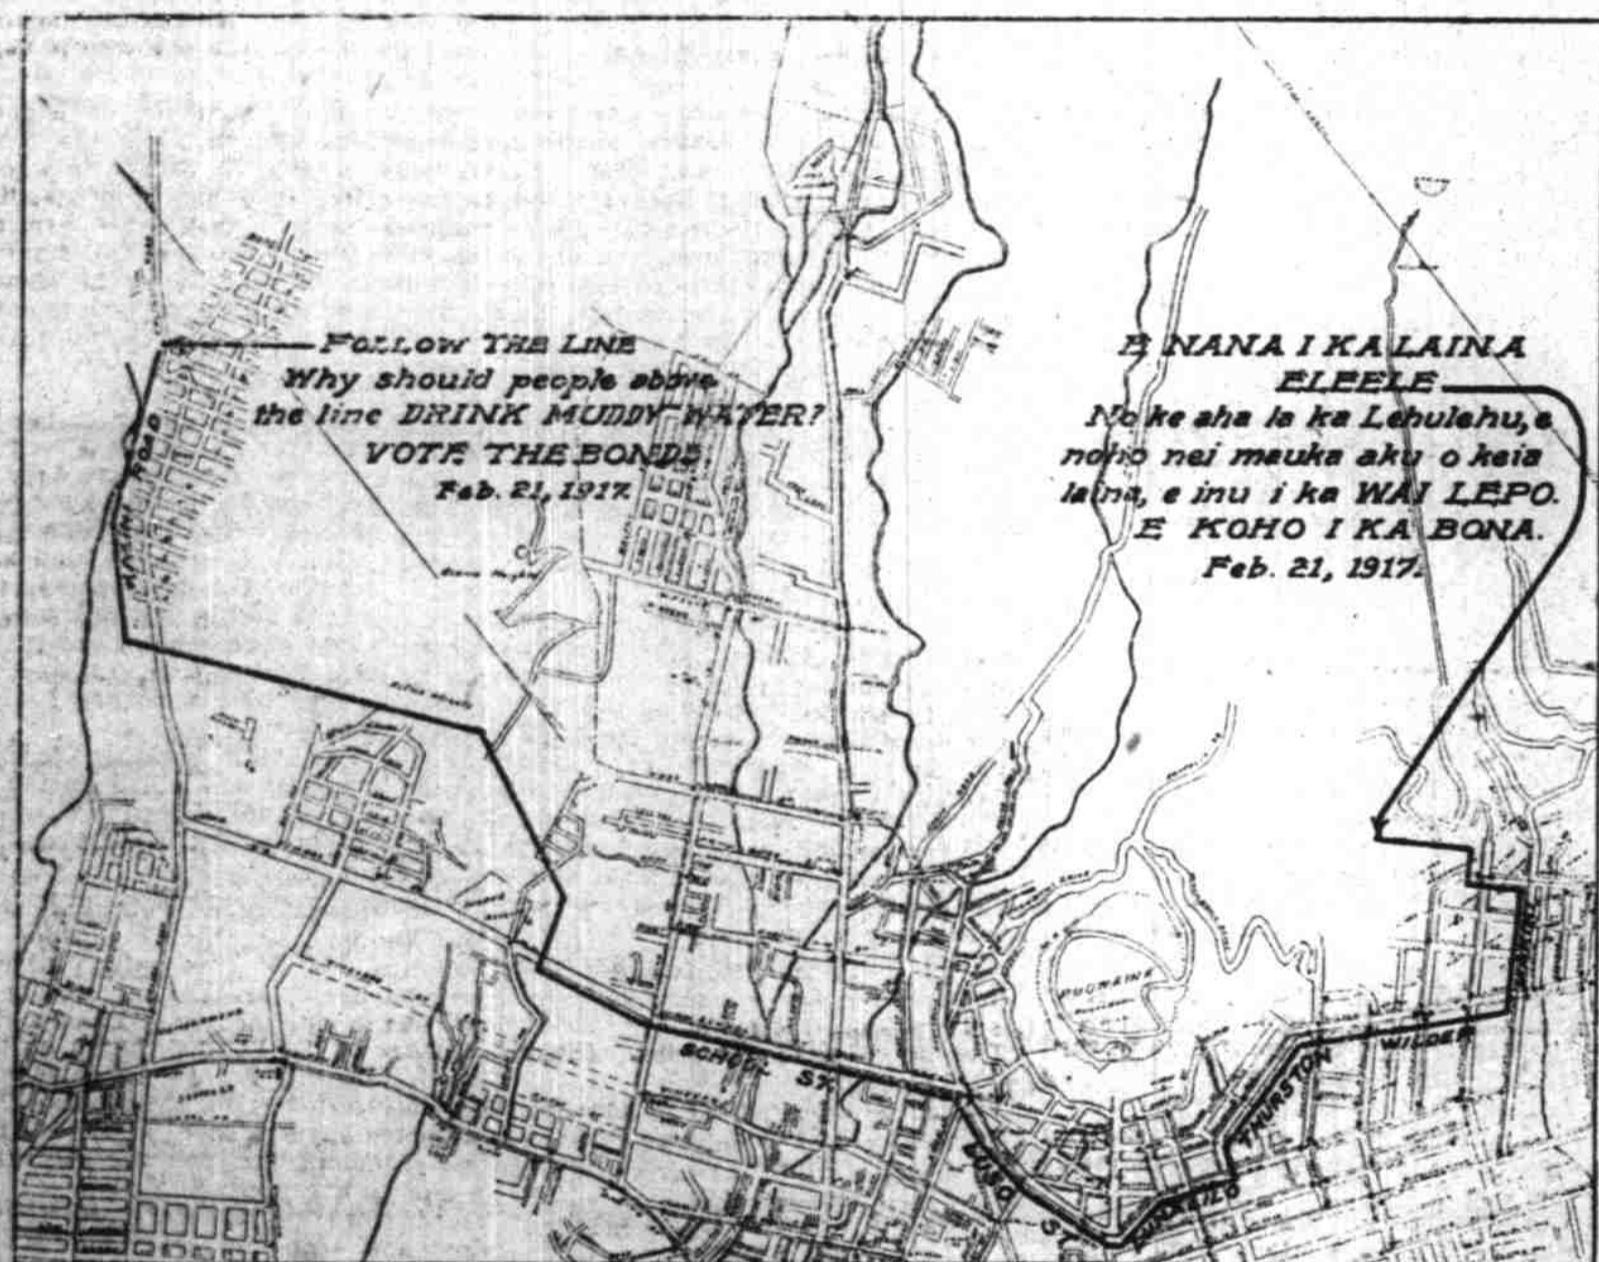

Professor Vaughan MacCaughey will address the teachers and officers of Central Union Bible school, together with any others who may be interested, Monday afternoon, February 12, at 4:30 o'clock in the parish house. While on an extended visit to the mainland Professor MacCaughey took occasion to investigate conditions of Bible school work there and also to study the latest movements in religious education and this talk will contain the result of his investigations. The subject of his address will be "Practical Progress in the Bible School Program."

Professor MacCaughey was for some time superintendent of Central Union Bible school and is the chairman of the religious education committee of Central Union church. He has devoted much time to the subject and he will furnish most interesting and interesting address.

Plans, Expanded Epiphany, Epiphany for Epiphany to San, Duns and Vind... by Mrs. B. B. B. B.

HONOLULU'S PRESSING PROBLEMS

Water and Sewer Improvements

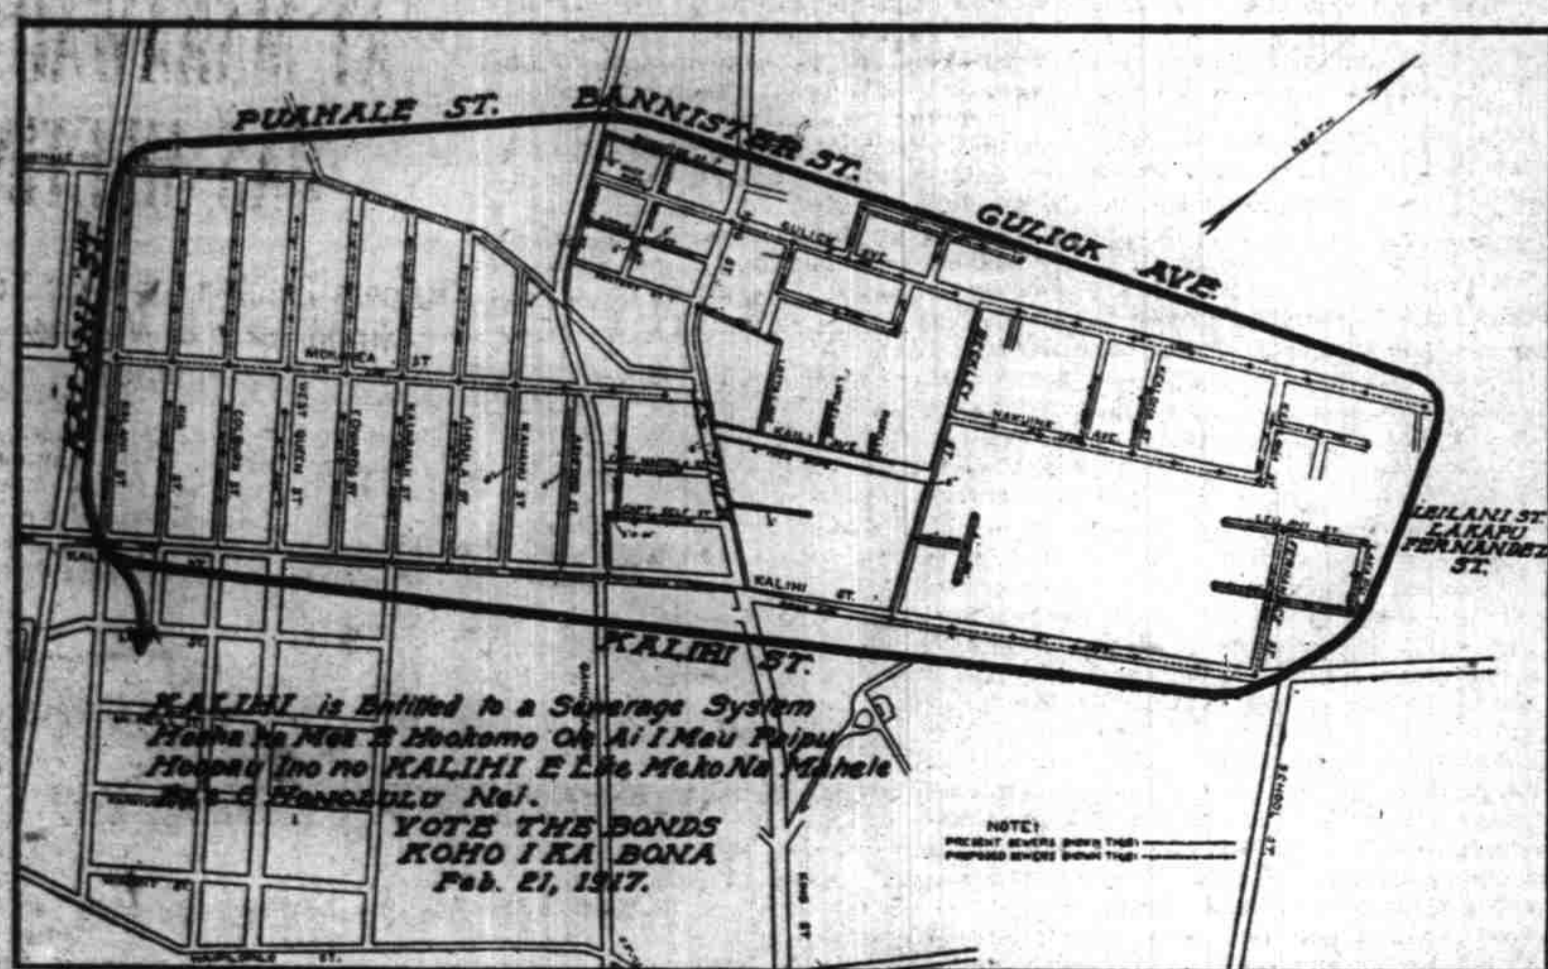

People living above School Street, in Puunui District, Alewa Heights, Kalihi Valley, Punchbowl District, Prospect Street, Thurston Avenue and Wilder Avenue drink muddy water.

A filtration plant will give them pure water

No community is so poor that it can afford to put up with impure water.

Vote the Bonds

Kalihi without a sewer system can never be a safe place for the home builder.

The small investor should be protected.

Disease germs lurk in the seepage from cesspools.

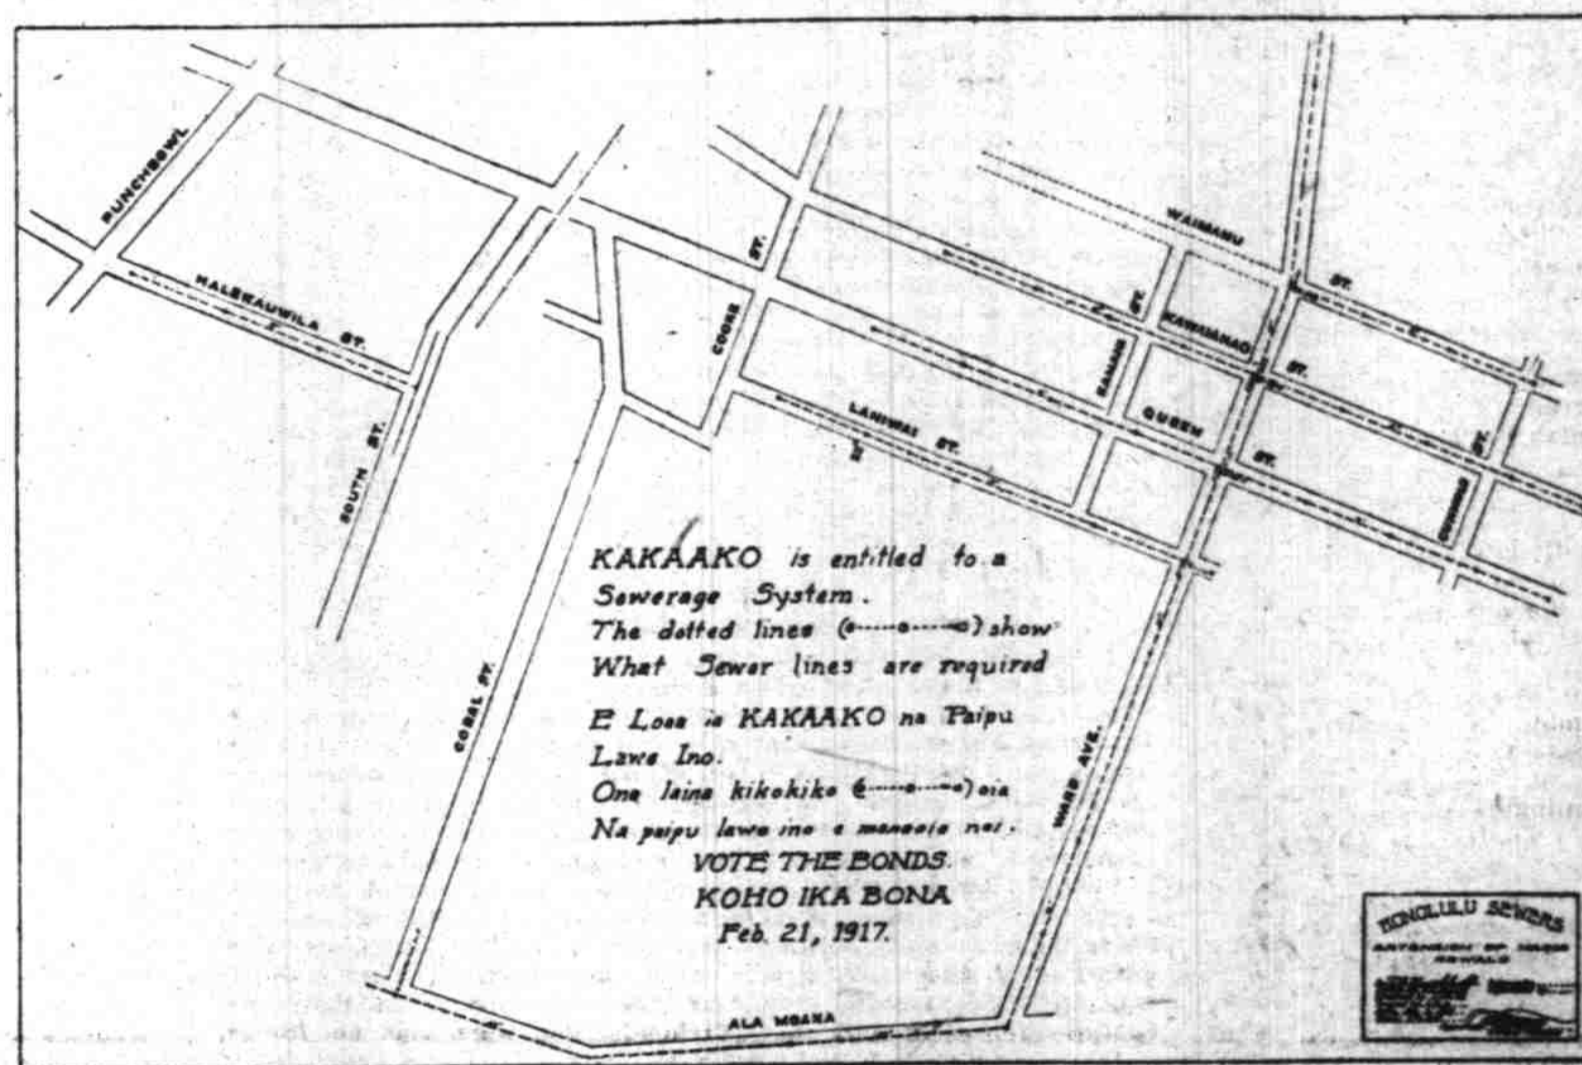

Honolulu once paid a heavy toll in lives and money from cholera and plague. Is it not better for the City to give **Kalihi** a sewer system, than for the small home owner to pay doctor and undertaker bills?

Seepage from cesspools contaminate the taro patches. Why not keep Hawaii's staple food clean?

A sewer system for Kalihi is the answer.

Vote the Bonds

Kakaako has no sewer system.

There are cesspools in Kakaako.

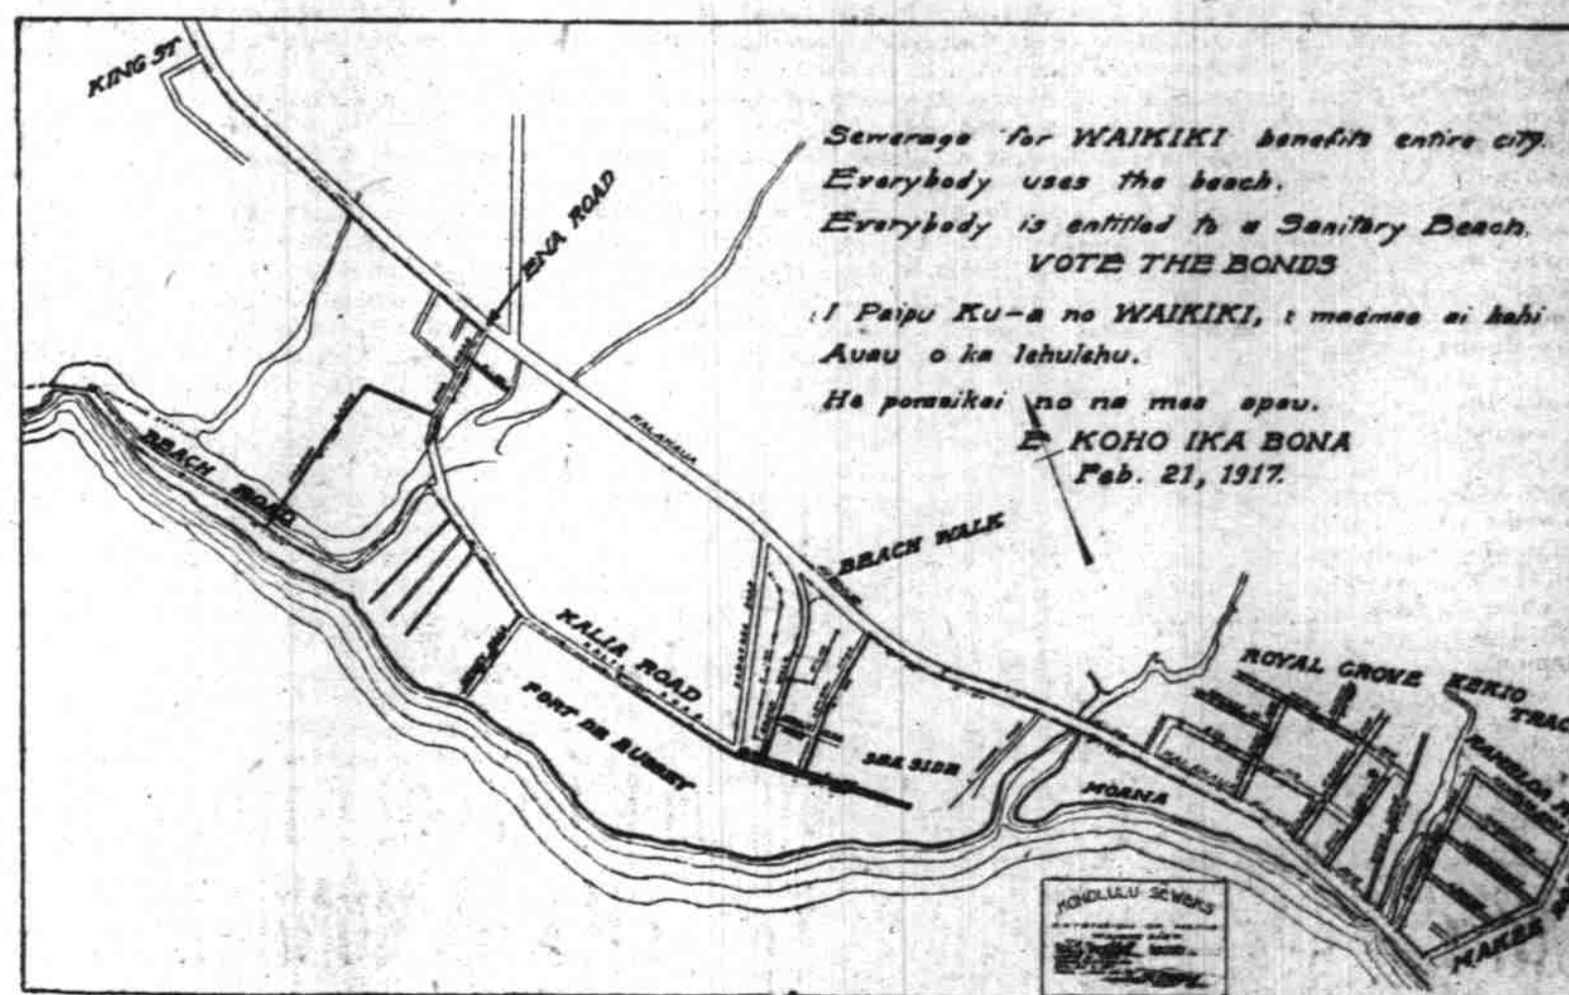

These breeding places of disease endanger the health and life of the residents of Kakaako, as well as the health and life of Honolulu.

Is it fair to the residents of Kakaako to be compelled to use cesspools?

This is a question, Mr. Voter, that you will be asked to answer February 21.

The bonds give Kakaako a sewer system.

Vote the Bonds

Waikiki is Honolulu's Famous Tourist Asset.

It is destined to be one of its principal residence sections.

Cesspools now in Waikiki are a danger to **all Honolulu.**

Is it fair to the fame of Honolulu to have cesspools in Waikiki?

You must answer this, Mr. Voter, at the polls February 21.

Vote the Bonds

Financial BUSINESS WORLD Commercial

BRITAIN THROUGH INDIA MAY BE ABLE TO DOMINATE WORLD IN SUGAR INDUSTRY

Writer Adds 6,000,000 Tons to Other Resources of 5,000,000 Tons in Empire and Possessions and Points Out Vast Possibilities That Await Intelligent Effort—Other Nations May Take Warning

It is a great awakening, if a rude one, which the British islands are receiving, in an industrial respect, from the war.

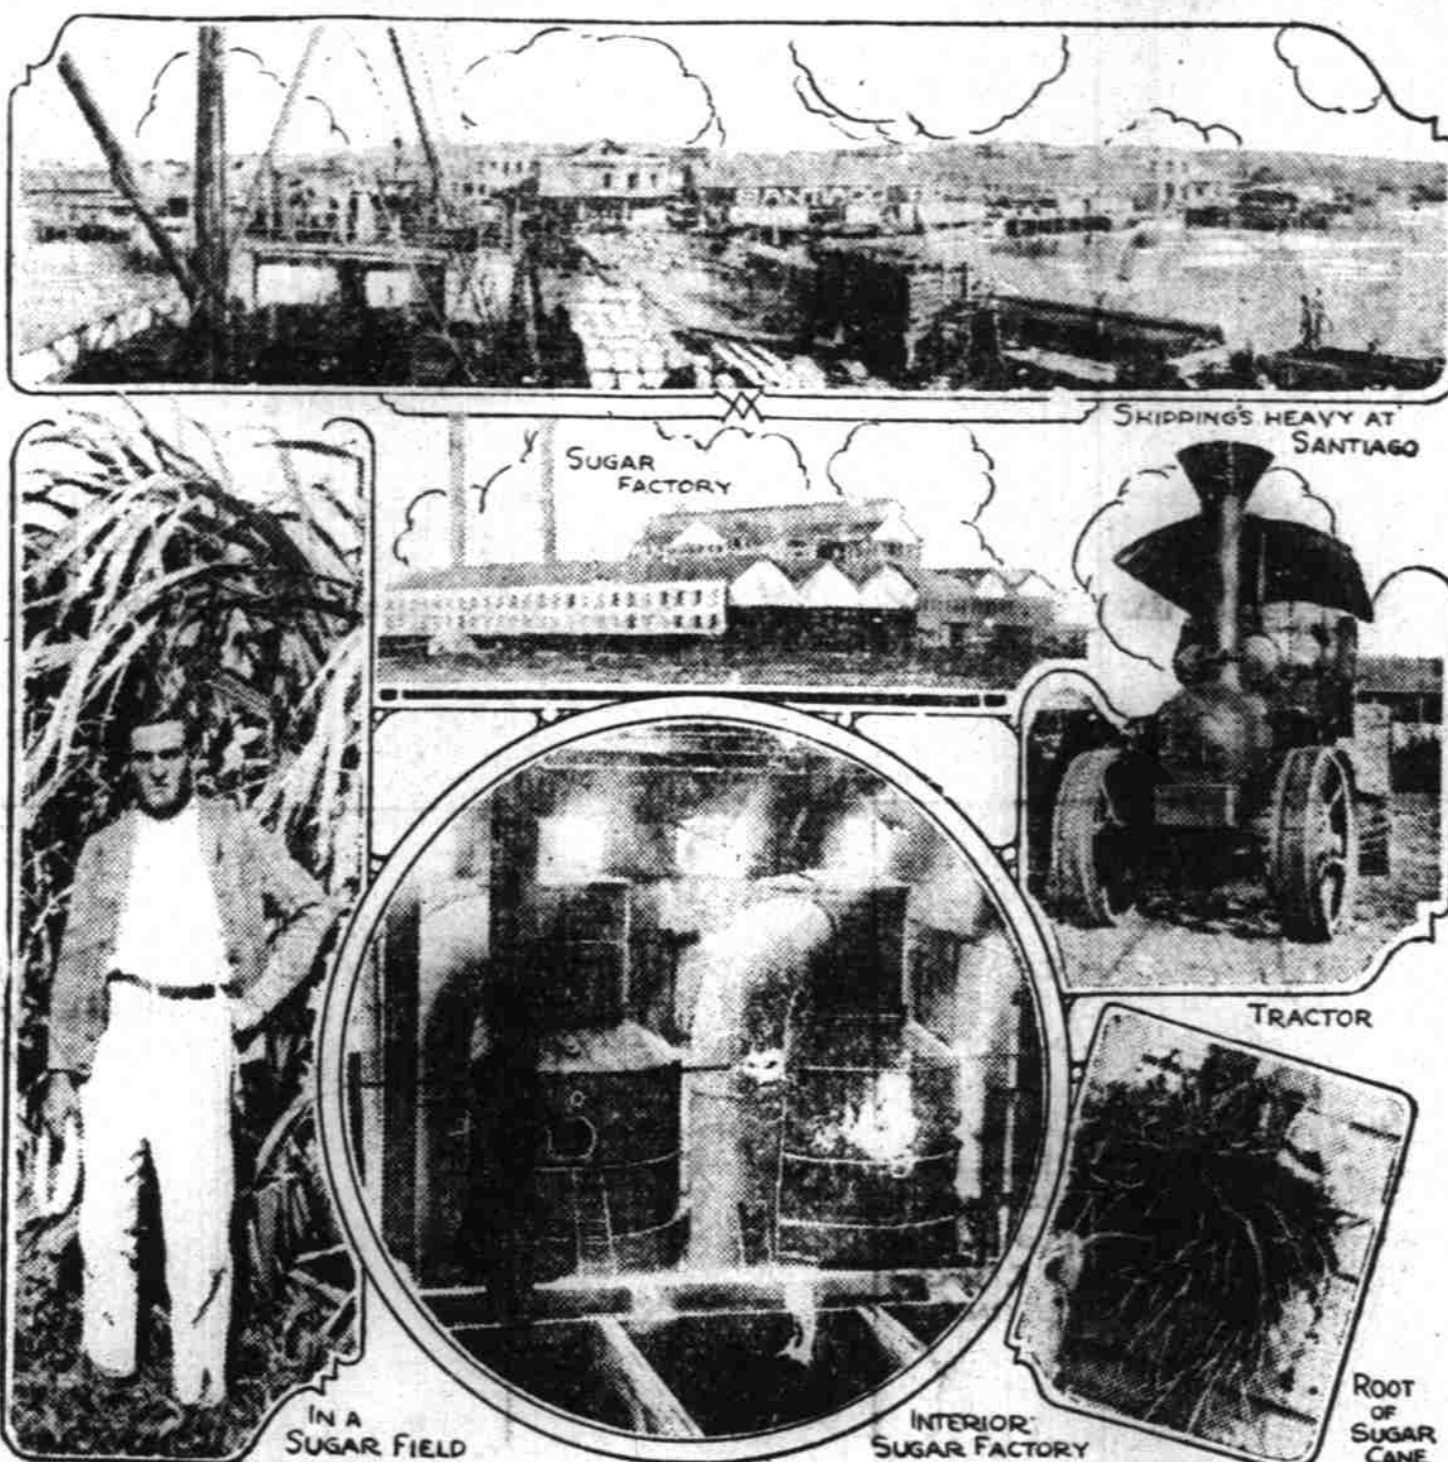

With much emphasis of facts and figures the treatise mentioned—"The High Price of Sugar and How to Reduce It"—frequently refers in highly complimentary strain to the conduct of the Hawaiian sugar industry.

Taking what he calls "this modest estimate" of two tons to the acre, still, Mr. Smith adds 6,000,000 tons from other parts of the empire to India's hypothetical 5,000,000 tons, making a total of 11,000,000 tons, and bids his readers "think what an immense augmentation would be secured to the empire's wealth, on the one hand, and, on the other hand, how we could dominate the sugar market of the world with such an increased output at our disposal to handle."

Hawaiian's Position Unique Runar Olsson Seffer, the representative of the Chilean Nitrate Committee, is quoted in a pamphlet entitled "The Cultivation of Sugar Cane," to show the yields per acre of four varieties of cane propagated by the Hawaiian Sugar Planters' Association at this experiment station, which range from 16.54 to 8.87 tons of sugar, the second lowest being 13.07 tons.

Williams-Keily-Meeks Company. We buy, sell, trade, bid and quote on stocks of all kinds, no matter where located.

No other single export from any other Latin-American country equals the enormous output of the Cuban cane fields.

Sugar raising in Cuba is a picturesque industry. It has its exciting and dramatic periods. Millions of dollars are sometimes expended in equipment to get the cane to the mills.

While there came a reaction in the local stock market Friday there being some losses scored for the day on the list, prices of listed securities have generally improved since last Saturday to Friday afternoon.

SEWARD, Alaska.—Miners of the Iditarod district and the lower Yukon, Inoko and Kuskokwim districts are heading a movement to have work begin at once on the branch line of the government railroad system in Alaska, which has been projected from Sustina valley northward into the lower Yukon valley.

The architects are also affected to some extent by the same cause as with few people wanting plans drawn for homes and business blocks, their principal work is now inspecting the work already under way.

Placer ground of ordinary richness cannot be touched, it is said, unless the yield is sufficient to offset this high freight rate. A railroad from the Seward Fairbanks line to this district would enable the miners to bring in cheap fuel from the Matanuska coal fields and also insure a greatly reduced freight rate via rail from here.

With the shutting down of work north of Anchorage additional contracts have been let along the arm and there are now about 1600 men at work on this section which includes the heaviest construction on the entire line.

Reflecting business done last month there have been recorded in the office of the bureau of conveyances since the first of the month 42 deeds affecting Honolulu and Oahu real estate.

Expectations are that oyster suits will be brought against Honolulu Consolidated Oil. They will be in the nature of test suits.

The nominating committee of the chamber of commerce has selected a ticket, but waits until acceptances have been secured before making any announcements.

The industrial accident board is continuing discussion of changes needed in the compulsory compensation law. So also are insurance men.

During the past week 26 building permits were issued by the building inspector, the total estimated cost of which is \$37,315.70. Most of the permits were small, only 10 over \$1000 and one large one amounting to \$15,000.

James Hohl, Jr., a private in the Quartermaster Corps at Fort Hamilton, was shot in the back by a guard when he attempted to escape from the fort.

STOCKHOLDERS' PROBLEMS DIFFER FROM THOSE OF HALF CENTURY AGO

Minutes of Meeting Held 1862 Tell of Consideration of Problems in Ethics

Vastly different are the matters considered by stockholders of sugar companies in these islands today from the problems that stockholders of such companies were called upon to consider half a century ago if one is to judge by the copy of minutes which recently came to the Star-Bulletin.

After reciting the title of the company and place and date of the session the minutes proceed to tell that it was called to discuss the memorial that had been presented by Rev. Mr. Lond and that free discussion was held upon the expediency of requiring the manager to compel the plantation manager to compel the people to attend the church that "is at present used by him."

Should there be suggested to the manager any more effectual rules to suppress licentiousness or should he be censured for lack of care in this matter? The reply was no.

Should there be suggested to the manager any more effectual rules to suppress licentiousness or should he be censured for lack of care in this matter? The reply was no.

BUSINESS NOTES

Work of relocating the tracks on Kalakaua avenue is to start this week.

Henry St. Goar of San Francisco replaced A. J. Campbell on the directorate of the Honokaa Sugar Company at the meeting Friday.

A capacity list of passengers on the Wilhelmina, now en route here, does not indicate a falling off of tourist trade.

Retail stores of the city are to close on Monday, February 19, the first day of the Carnival.

Ten o'clock sessions of the stock exchange on Saturdays is meeting with the approval of members.

The offices of Hackfeld & Company were closed Thursday following advice of the death of Mrs. Marie Hackfeld, widow of the founder of the Hackfeld business.

Selling foreign ships is now forbidden by the president.

The harbor board has decided that a gravity wall shall be built along Pier 10 for strengthening purposes.

Street improvement work has made good progress in the past week.

Mainland advices are to the effect that there is little chance of an increase of duties on sugar. These were

church during absence from the plantation?

Shall the manager do more to enforce attendance at church than to use the persuasive measures of theretofore and setting an example by attendance himself?

Shall such week-day prayer meetings be held whenever the manager can spare the people from work? The answer to this question was "Yes," and at such meetings the manager shall compel attendance of all laborers except Roman Catholics, on pain of fine or punishment.

Shall religious meetings be held on the plantation after working hours? The answer to this was again yes, but no penalty was to be imposed for non-attendance.

Shall church members be allowed to attend, during working hours, the quarterly or business meetings of the church? Again the answer was yes.

Shall the manager be censured for forbidding the people during working hours or at any other time for visiting the minister and gossiping over the affairs of their fellow laborers? The answer was "No," provided it was after working hours; they should not be hindered from talking over their "pillkins."

Should there be suggested to the manager any more effectual rules to suppress licentiousness or should he be censured for lack of care in this matter? The reply was no.

Shall it be committed to the judgment of the manager as to the living of the people and full management of them after being hired without allowing appeal from him, except to the courts of the country? The answer was yes.

And the business for which the meeting was called having been completed, an adjournment was taken.

Signed by the secretary of the company.

sent before the present critical situation arose.

Expectations are that oyster suits will be brought against Honolulu Consolidated Oil. They will be in the nature of test suits.

The nominating committee of the chamber of commerce has selected a ticket, but waits until acceptances have been secured before making any announcements.

The industrial accident board is continuing discussion of changes needed in the compulsory compensation law. So also are insurance men.

BUILDING PERMIT FOR NINE DAYS REPRESENT \$44,682

During the past week 26 building permits were issued by the building inspector, the total estimated cost of which is \$37,315.70. Most of the permits were small, only 10 over \$1000 and one large one amounting to \$15,000.

SUGAR CANE IS KING IN BALMY CUBA; HUGE CROP IS ESTIMATED

It contains the greatest content of sugar it is cut.

A number of men come into Cuba every year for the cane cutting season, which lasts from about the middle of December until the middle of the ensuing summer, but the labor available for the sugar industry is not sufficient. In fact, the shortage of labor today in Cuba is the great handicap for any further extension of the sugar business in the island. Among the cane cutters are laborers from Spain, negroes from Jamaica, the Canary Islands and other points. A good cane cutter can cut from two and one-half to three long tons of cane a day, stripping the leaves from the top of the cane so the stalk may go direct to the crusher. But three or four field hands, with their machetes, are necessary. As the cane cutters also load the stalks into the great two-wheeled carts drawn by bulls, a ton and one-half of cane is a good day's work for any man.

The cutting of cane is an art in itself. No machine can take the place of the expert. The giant knife sometimes more than two feet long and keen-edged as a razor, strikes the stalk diagonally an inch or two above the ground and emerges below the soil. If the cane were to be cut horizontally, that is straight across and level with the ground, it is probable that the hard outside sheathing of the stalk which encloses the juicy cellular matter, would split or crack, affording access to insects or bacteria which would set up a process of decay, that spreading downward, might kill the roots, thus eliminating the likelihood of a new stalk the next year.

As soon as the army of cane cutters, sometimes comprising two or three thousand men, marches into the cane fields, there begins a fight against time that only ends when the cut cane passes into the huge iron jaws of the crusher. If a stalk of cane has been cut from the ground, if the leaves have been cut off arresting its growth, or if it has been burned, it rapidly sours. Fire going through a field of cane will cause the juice to exude and permit the air to gain access to the interior, causing the same to sour more rapidly than if it had been cut at the proper time; in any event when the life of the cane is arrested by any of these means, fermentation sets up in the sugary juice. Often you can taste alcohol in the fermenting cane.

When the cane is ripe, that is, when

It contains the greatest content of sugar it is cut.

PHILIPPINES SEEK TO IMPROVE CANE VARIETIES BY SEEDLINGS

(In the article which follows a brief description is given by C. W. Hines, sugar technologist of the Philippine bureau of agriculture, of the methods being worked out for the improvement of cane varieties in the sugar production districts of the islands.)

Work in the improvement of sugar cane varieties in the Philippine islands is related as follows by the Manila Cane news in an account of the plans being made for the distribution of seedlings:

"C. W. Hines, sugar technologist for the bureau of agriculture, has recently returned from Pampanga, Tarlac, and Pangasinan provinces, where he has been investigating sugar cane growing and arranging for cooperative work in which improved varieties of sugar cane and leguminous crops will be planted.

Many Varieties Tested

"A number of varieties of cane imported by the bureau from abroad have given excellent results here and the intention is to extend the planting of these varieties as rapidly as possible. During the past year upward of 100,000 points of this cane were distributed to the planters in the different provinces. It is planned this year if possible to double the distribution during the present planting season, provided that the planters request their cane points early so that the entire stalk may be utilized for planting, instead of only the tip.

"The cooperative stations each will contain one hectare of land, one-half of which will be planted to cane and the other half to leguminous crops. "It has been proved during the past three years that greatly increased yields of cane may be obtained and the cane will mature longer where leguminous crops are used in rotation with the growing of sugar cane. "The seed and points for the cooperative stations are furnished gratis and the bureau also supervises the planting of the cane. "The crop is harvested by the planter, who furnishes the land and labor for cultivation. "During the first three years the crop will be used to extend the planting and it is hoped that at the end of that time there will be sufficient seed and cane points available for the entire plantation. "Where individual planters desire to test the improved varieties of cane they are supplied with a limited number of points free of charge from the experiment station nearest these planters. "The bureau grows its own supply of cane points at the La Carlota, Holo and Alabang experiment stations. —Facts About Sugar.

Don't Put All Your Eggs in One Basket

Invest some of your money in Honolulu Real Estate. It will prove a bonanza to anyone who has the foresight to invest in it. The best Real Estate in Honolulu—not only as an investment but as a perfect spot for a perfect home, is

McINERNEY PARK TRACT

"Honolulu's Loveliest Homesite"

Piped for water and gas, wired for electricity and telephones, offering quick and continuous street car service—McInerney Park Tract convinces you of its up-to-date conveniences. Reasonably priced, healthful, having exceptional outlook, offering every advantage in the way of schooling facilities and the society of nice playfellows for your children—McInerney Park Tract convinces you of its exceptional location.

This property is situated on the lower slopes of Aiewa Plateau. It commands a marine and mountain view that for real beauty and range is unsurpassed. It has an elevation of 250 to 300 feet above the sea, an annual rainfall of 38 inches—small but adequate for abundant foliage, and is only a 10-minute street car ride from the corner of King and Fort streets.

Terms—\$50 cash; \$10 per month at 6 per cent interest on unpaid balance.

Gas, Water, Telephones, Electric Lights, Street Car Service.
Lots in Sections A, B, and C, 7c per square foot.
Lots in Sections D and E, 10c per square foot.
Sizes of the lots vary from 5000 to 15,000 square feet.

Artist of Yosemite to Exhibit Next Week

Upper picture is a reproduction of a canvas recently painted by H. C. Best, a marine view from the Pierpoint looking westward across the shallows in which he has caught the lights and colorings of the island seas and skies with remarkable fidelity.

Below is a reproduction of "Innocence." The painting is a large canvas and is one of the best pictures from life that Mr. Best has ever produced. Its coloring is typical of the artist and the expression which he has put into the picture is the admiration of all who see it.

"It is my belief that people love beautiful things," says H. C. Best, the Yosemite artist now visiting Honolulu, and in that belief he is preparing an exhibition which will open at the University Club Monday evening. A wide range of subjects are to be found on the canvases, which will be hung on the club's walls for two weeks.

Mr. Best is an apostle of beauty as opposed to sensationalism or the decadent in art. Strength he does not despise; no man can paint the majestic glory of great mountains without strength in method and effect; but Mr. Best does not believe that mere rudeness or rawness, however disguised in name, will ever win the place held by pure beauty in the heart of the public.

For a number of years Mr. Best has spent his summers in the Yosemite Valley of California where he has a concession on which he has built a studio. He has painted the Yosemite in all moods and from all viewpoints, and with such success that he has been called all over the world "the Yosemite artist." But he does not confine himself to the Yosemite as a subject, as the University Club exhibit will show. He has Italian views, full of the sun-drenched color of the real Italia; Grand Canyon views of many-hued impressiveness; bits of California, north and south, and last and not least of the landscapes, a number of new canvases of dream-like beauty of Hawaii.

Mr. Best has also some figure paintings of rare excellence, showing the same ripened yet delicate color-sense as the landscapes. The last three months since his arrival here have been busy ones for the artist, who has found so many subjects crying for his brush in these isles of paradise that he is fairly bewildered with the wealth of material.

A number of invitations have been sent out for the first evening of the exhibition, next Monday, February 12. After that evening the exhibit will be open to the public every day.

CHARACTER-BUILDING PROGRAM AT LOCAL Y. M. C. A. IN JANUARY

The report of the educational department of the Young Men's Christian Association presented to the board of directors at the regular monthly meeting yesterday noon showed a fine character-building program in that department which has 301 young men and boys enrolled. Rolla K. Thomas, educational secretary, reports on the following activities:

Opening of New Term.—On January 1 the new term of school brought in a large number of enrolments, the total of 54 students coming in the new classes organized. The classes started during the full term were opened for registration. The new term opening educationally and financially was a success. The largest increases were made in the commercial classes.

Thursday Night Lectures Started.—These educational and entertaining lectures which were started on January 4 are one of the most attractive features of the department. They will continue for several months. The January series follows:

January 4, Dr. C. F. Dole, "Is Peace Practicable?" 63 present.
January 11, Mr. Mason S. Stone, "Twentieth Century Tendencies in Education," 20 present.
January 18, Dr. J. F. Dickie, "The Land of Scott and Burns in Picture and Story," 59 present.
January 25, Maj. C. G. Mettler, "Modern Artillery," 51 present.

Student Assemblies.—Four gatherings were held during the month at which the night school students took part. These meetings are held on Thursday evenings. A program of constructive nature is held. During January the speakers were as follows:

January 4, Paul Steel, illustrated lecture, 45 present.
January 11, S. W. Robley, "But, If Not," 44 present.
January 18, W. R. Farrington, "Building a Business," 40 present.
January 25, R. E. Lambert, "The Rules of Progress," 35 present.

In addition to the assemblies of the night school daily assemblies are held for the day students. Every Monday some speaker is brought in for a short talk and to conduct devotional services.

A Religious Service to the Community.—During the past seven months, since the educational department opened a small book supply store, 98 copies of Fosdick's "Planning of

Prayer" have been distributed to the thinking people of the city. This has been carried on through the churches and with the Y. W. C. A. Other books such as Fosdick's "Manhood of the Master" and Rauschenbach's "Social Principles of Jesus" have been sold in large numbers. An effort to bring the people of the city to think more deeply of the contents of such books is highly profitable.

Religious Interviews.—During the month of January religious interviews were conducted in the educational department by the following men: Mr. Berndt, Mr. Chase, Mr. Higgins, Mr. Howard and Mr. Judd.

CITY NEIGHBORHOOD CIRCLES WILL MEET

Neighborhood circles under the auspices of the Central Union Women's Society will hold their regular monthly teas on Thursday, February 15, at 2:30 o'clock, and any visiting women from other cities who are interested in Central Union in any way or would like to become better acquainted with its members are urged to attend the circle meeting nearest to their residence or boarding place. No special invitations are required, although each hostess asks that all who contemplate coming to her home telephone their acceptance before the meeting. As refreshments are always served at these little informal gatherings it is necessary that each hostess know how many for whom to prepare. The February hostesses will be as follows:

Circle 1, Mrs. George Kluegel, Haleiwa tract, Manoa; Circle 2, Mrs. John M. Angus, 2534 Lower Manoa road; Circle 3, Mrs. John Drew, 2105 Kamehameha avenue; Circle 4, Mrs. Frank Atherton, 2224 Kamehameha avenue; Circles 5 and 6, Mrs. Stanley Livingston, 1633 Anapuni street; Circle 7, Mrs. W. P. Sledge, 3264 Waialae road; Circle 8, Mrs. I. H. Beadle, 254 Levers road; Circle 9, Miss Amie Hustace, 1222 Kapiolani street, corner Kinsau; Circle 10, Mrs. W. C. Hobdy, 1419 Dominis street; Circles 11 and 12, Mrs. Charles Hustace, Jr., 122 Kapiolani street, corner Beretania; Circle 13, Mrs. W. O. Smith, 2062 Nuuanu avenue, corner Bates; Circle 14, Mrs. Agnes H. B. Judd, 66 Wyllie street; Circle 15, Mrs. R. H. Leach, Aieua Heights; Circle 16, Mrs. James A. Rath, Palama Settlement.

SAGE TEA DANDY TO DARKEN HAIR

Lock Years Younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. This preparation is a toilet requirement and is not intended for the cure, mitigation or prevention of disease.—Adv.

CUTLERY HOSPITAL

Shears, Razors and Safety Blades cured of that dull feeling. Fat Razors made thin by our grinding treatment. Safety blades treated to mow down hair and stumps. All operations performed by expert grinding surgeon.

CARL MILLER, 1125 Fort, the only practical grinder in Honolulu.—Adv.

NEBRASKA-COLORADO ROAD NAMED FOR BUFFALO BILL

DENVER, Colo.—The Omaha-Lincoln-Denver highway will probably be named "The Buffalo Bill Trail" as a memorial to Col. W. F. Cody. A meeting to make the change in name will be called at Lincoln by C. H. Roper, president of the Highway Association. The Denver Motor Club will join in the project.

Part of the plan is that the trail should be lined with markers typifying the early activities of the famous scout and Indian fighter. For this purpose an appropriation of \$25,000 will be sought of the Nebraska legislature.

The highway traverses that part of the plains where Col. Cody did most of his work as a pioneer. It runs from Omaha and Council Bluffs through southern Nebraska to Colorado, entering this state east of Holyoke. By way of Sterling, Fort Morgan and Hudson it reaches Denver.

Exports from the port of New York for the week ended January 13 totaled \$75,000,000.

The BELMONT

Lead-Coated-Steel CASKETS

Embracing greater protective features than has ever been possible to obtain in caskets made of wood.

Recommended because of its great strength and durability.

The body is formed from a solid sheet of heavy armor plate steel, coated with pure lead and cloth covered. No wood or glue is used in its construction and it will not come apart in wet ground.

It cannot be crushed by the earth nor invaded by animals.

It affords protection to the body in a greater measure than any other casket made and can be secured at a price very little in excess of an ordinary wood casket.

The name BELMONT is on each genuine casket.

We Invite Your Inspection.

HONOLULU, TERRITORY OF HAWAII, SATURDAY, FEBRUARY 10, 1917.

NEWS AND PRACTICAL INFORMATION ABOUT AUTOMOBILES

FIELDS AND FIELD WINDINGS FOR GENERATORS AND FOR MOTORS ARE DESCRIBED BY EXPERTS

(By Special Permission From Motor Age.)

A good form of winding for direct current dynamo, called a closed circuit winding, makes use of all of the loops of wire all of the time except when the two commutator segments to which a loop is connected are in contact with a brush or brushes of the same polarity. One of the simplest forms of closed circuit winding is shown in Fig. 1, which consists of a wire ring with four coils wound about it and interconnected by means of four commutator segments, as shown in the figure. For convenience in referring to these coils they are designated as A, B, C and D. The two coils A and B are short circuited by the two brushes when they are in the position shown in the figure. An instant later, however, coil A is in series with coil B on the right side and coil C is in series with coil D on the left side, and this connection remains until coils B and D are short circuited by the brushes. An instant later coil D is in series with coil A on the right side and coil B is in series with coil C on the left side.

It is apparent that the coils opposite each other are short circuited by the brushes at the same time that they are symmetrically arranged, as in this case, and as one coil leaves the right circuit and enters the left circuit at the lower brush, while there is a coil leaving the left circuit and entering the right circuit at the upper brush. With this arrangement of commutator segments and coils all of the coils are in circuit with the external circuit all of the time, except when they are short circuited by the brushes. If the position of the brushes on the commutator is such that the coils are moving parallel to the magnetic field when the coils are short circuited there will be no electrical pressure induced in the coils, and as a result the electrical pressure between the brushes is not decreased by short circuiting the coils.

Pressure in Coils
The electrical pressure in all of the coils on the right side of a vertical line through the brushes will be in the opposite direction to the electrical pressure in the coils on the left side of the vertical line through the brushes. The electrical pressures in the coils on the right and left sides of the vertical line act oppositely to each other, just as the electrical pressures of two batteries connected in parallel act oppositely with respect to each other, but they act in the same direction with respect to the external circuit.

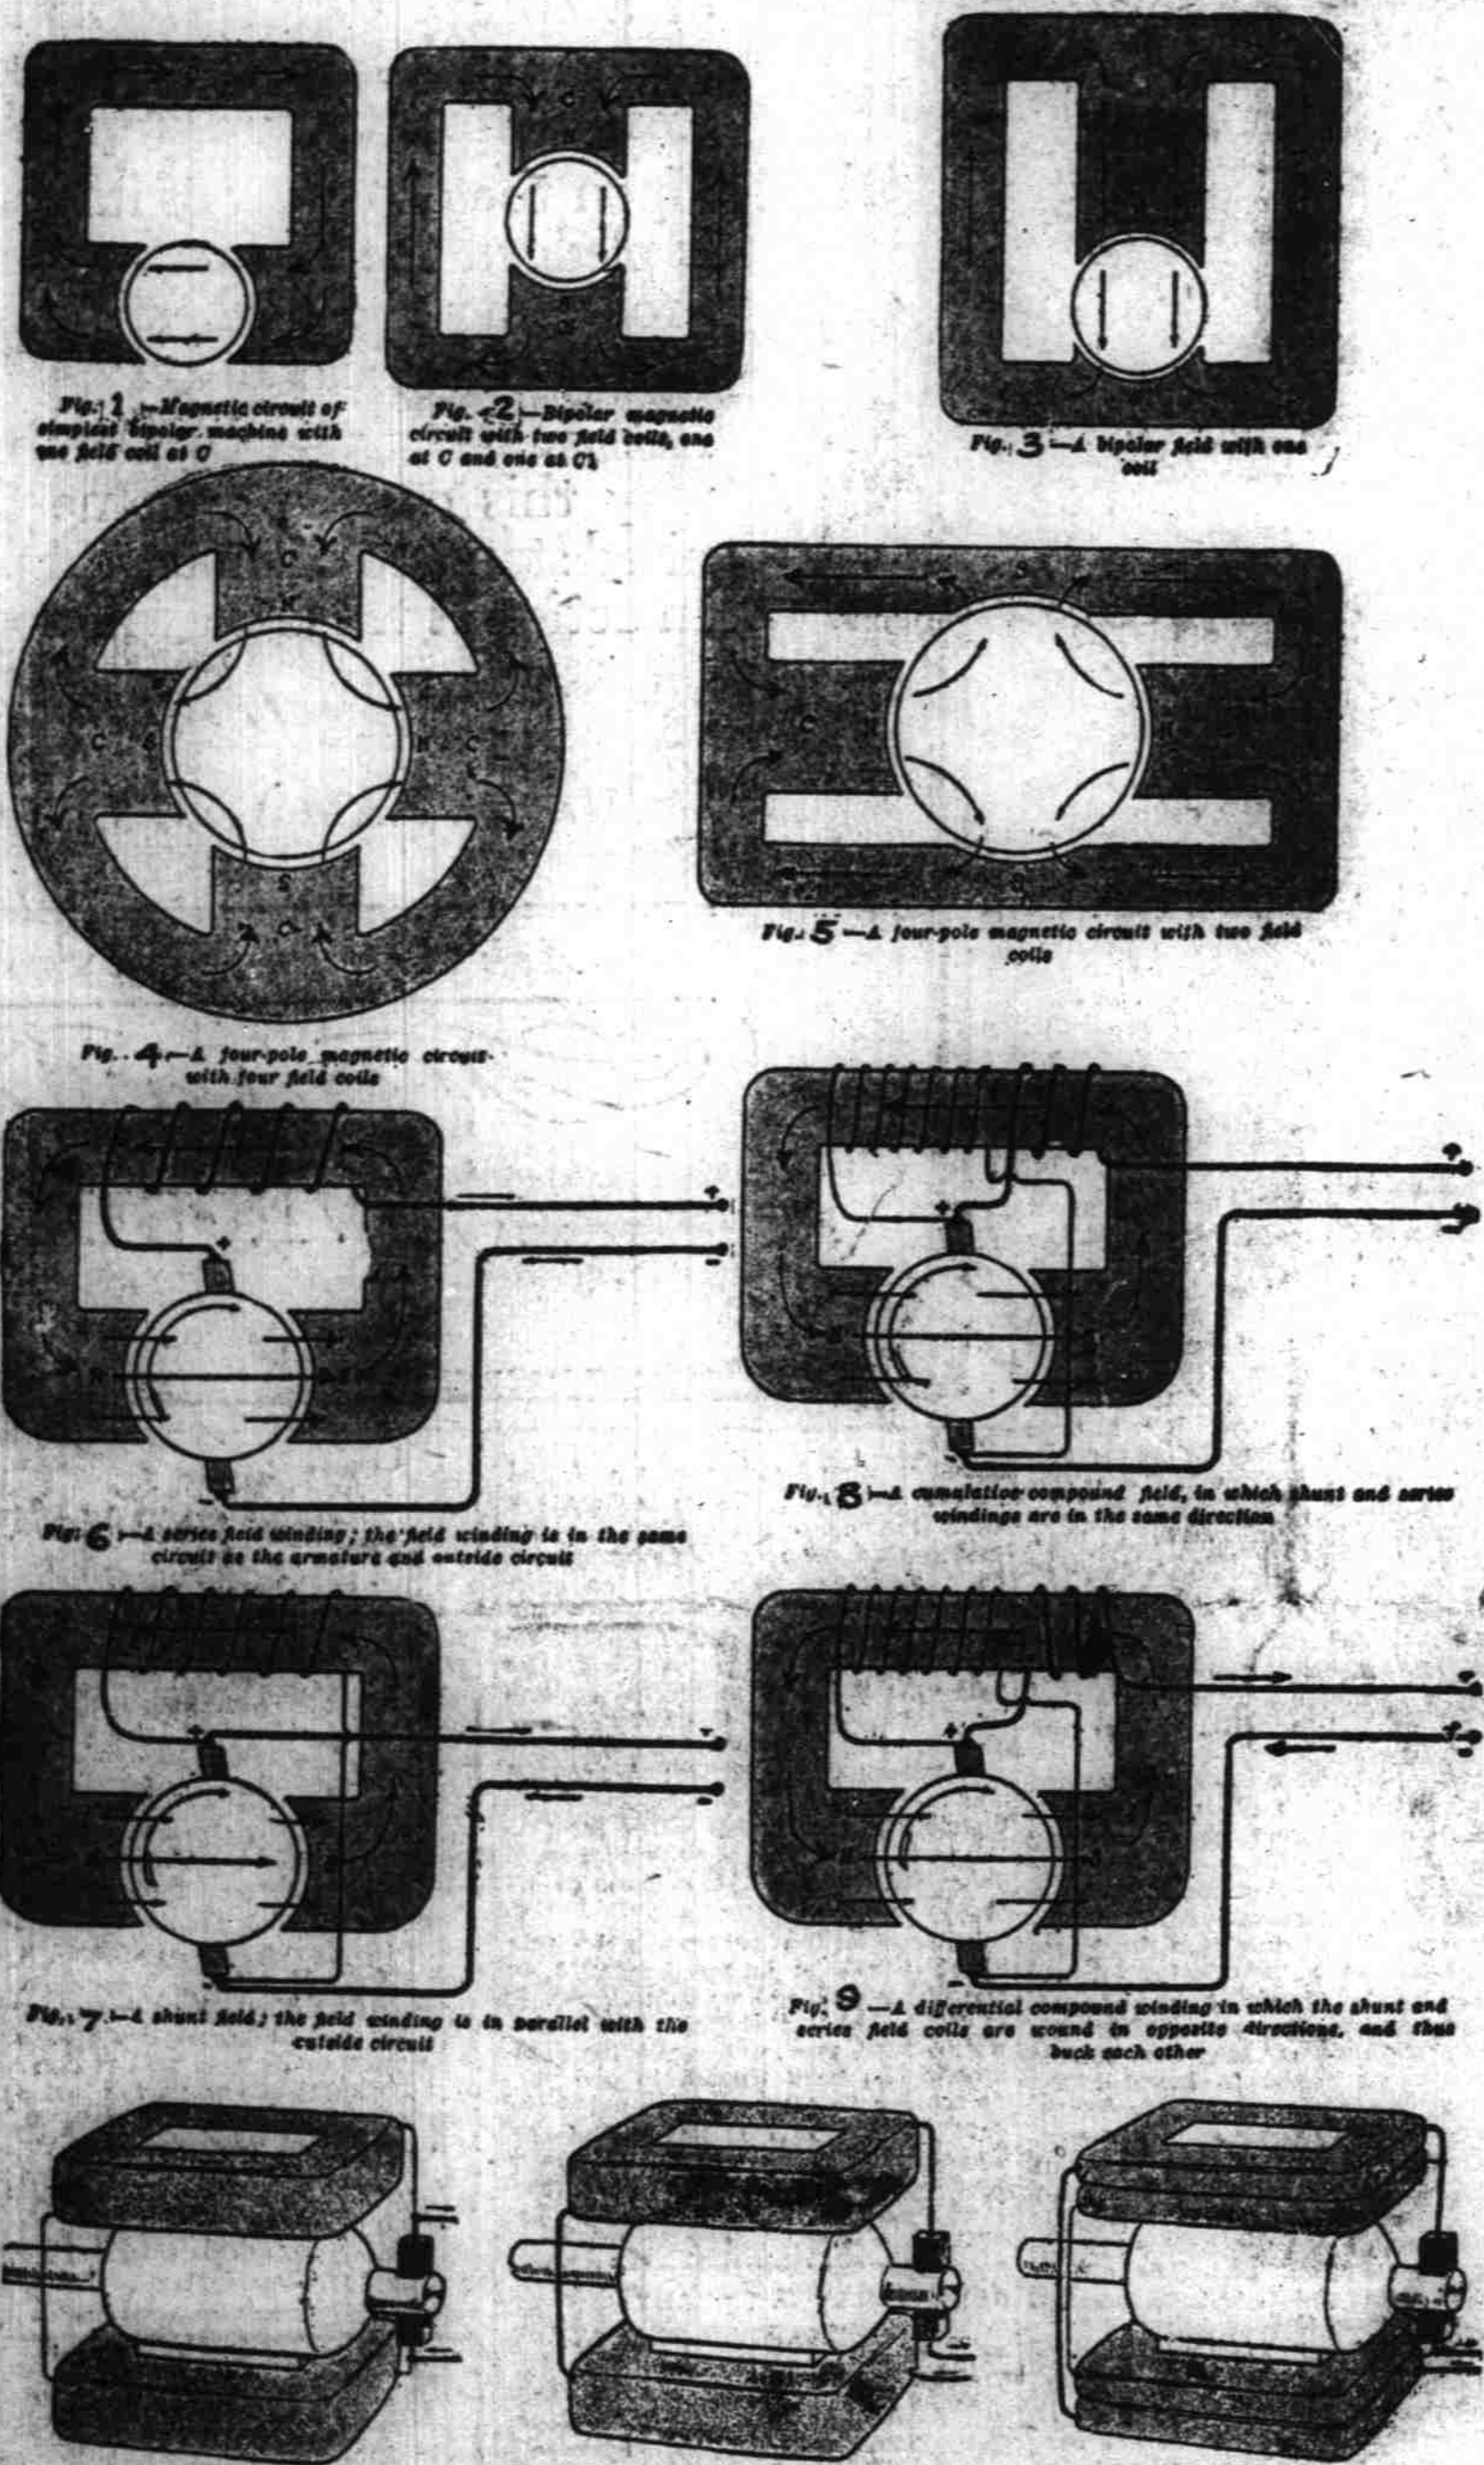

The movement of the coils across the magnetic field just before they are short circuited is in the opposite direction to their movement across the magnetic field after they have been short circuited. This results in the electrical pressure induced in the coils before they are short circuited acting around the coil in the opposite direction to that in which the electrical pressure induced in the coil after it has been short circuited acts.

In other words, the electrical pressure induced in the coil reverses in direction while the coil is short circuited. The total electrical pressure between the brushes at any instant will be equal to the sum of the electrical pressures induced in the coils connected in series between the brushes. When the coils are symmetrically placed, as shown in Fig. 1, the variation in the electrical pressure between the brushes will correspond to the variation in the total pressure of the coils connected in series between the brushes. Thus the electrical pressure induced in the coil A with respect to the external circuit may be represented by a curve similar to the one marked A in Fig. 2. Both parts of the curve are drawn above the horizontal line, as the connection of the coil with respect to the external circuit changes when the coil passes the position of short circuit or the position where the induced electrical pressure reverses in direction. The electrical pressure induced in the coil D with respect to the external circuit may be represented by a second curve D. The electrical pressure in A is a maximum when the electrical pressure in D is zero and the electrical pressure in D is a maximum when the electrical pressure in A is zero.

The electrical pressure between the brushes at any instant will be equal to the sum of the pressures induced in the two coils connected in series at that instant, and it may be represented by a third curve whose height above the horizontal is equal to the sum of the heights of the two curves A and D. This third curve is shown heavy. From an inspection of Fig. 2 it is seen that there are four loops to the shaded curve and that the pressure fluctuates in value. By increasing the number of coils on the ring and the segments in the commutator the number of fluctuations in the pressure between the brushes for one revolution will be increased and the variation in the pressure decreased.

A six coil armature and six segment commutator are shown in Fig. 3. The electrical pressure between brushes for such a combination of coils is shown by the shaded curve in Fig. 4. The height of this shaded curve is equal to the sum of the heights of the three other curves.

The armature of a generator may be revolved in a magnetic field of more than two poles, provided the connections of the various coils and the position of the brushes are properly made.

THE THREE MAIN TYPES OF GENERATOR FIELD WINDING

At the left is shown the shunt method of winding, in which the armature and field windings are in parallel. At the center is shown the series winding, in which armature and fields are in series. At the right is shown the compound winding, in which there are two separate fields, one in series with the armature and the other in parallel with the armature.

For example, a four-pole armature is shown in Fig. 5. Four brushes are used and alternate ones are of the same polarity and connected together. The brushes are shown inside the commutator; they are in reality, however, outside. In passing from the negative terminal of such a winding through the winding to the positive terminal there are four possible paths. If this were a six-pole armature there would be six paths, and so on. There are types of windings, however, in which the number of paths through the winding may be greater than the number of magnetic poles forming the magnetic circuit, and in some the number of paths may be less than the number of poles. Space will not permit a discussion of these various types, and the reader should make use of a book devoted entirely to armature windings if he cares to investigate the many possible types.

In the case of the ring armature, the wire forming the winding is wound on a wire ring, while in the drum armature the winding is placed around a cylinder of iron. The drum armature has a decided advantage over the ring armature in that more of the wire used in the winding has an electrical pressure induced in it. In the ring winding the part of each turn of wire inside the ring has practically no electrical pressure induced in it, and as a result only the part of each turn on the outside of the ring is effective in producing an electrical pressure. In the drum winding both sides of each turn are on the surface of the armature and have an electrical pressure induced in them.

That part of an armature winding in which the electrical pressure is induced is called an inductor, and

there will be as many inductors in a ring winding as there are turns, while in a drum winding there will be twice as many inductors as there are turns. Pressure Induced in Armature Winding

The electrical pressure induced in an armature winding will depend upon the number of revolutions of the armature. The number of magnetic lines of force cut by each inductor in one revolution are equal to the product of the number of magnetic poles forming the magnetic circuit and the magnetic lines of force entering or leaving the armature at each pole.

The number of magnetic lines of force cut by each inductor in one second will be equal to the product of the lines cut per revolution and the number of revolutions per second. The electrical pressure induced by the armature winding will depend upon the manner in which the inductors forming the winding are connected, that is, where there are two circuits, etc. The number of inductors in series in each circuit is equal to the total number of inductors divided by the number of paths through the winding, and the greater the number of inductors in series the greater the induced electrical pressure, all other things remaining unchanged.

If the lines of magnetic force cut by each inductor in one second be multiplied by the number of inductors in series the product will be equal to the total lines of magnetic force cut by all of the inductors in series in one second. This total number of magnetic lines of force cut by all of the inductors in series divided by 100,000,000 gives the electrical pressure in

volts induced in each path of the armature winding.

The only two factors which may be changed after the machine is constructed are the magnetic lines of force per pole and the revolutions of the armature. If the number of magnetic lines per pole remains constant the induced pressure will vary directly as the speed of the armature. Likewise, if the speed remains constant the induced pressure will vary directly as the number of magnetic lines of force per pole.

It is by varying the speed of the armature or the number of magnetic lines of force that the output of a generator as to voltage is regulated. This will be explained later.

WESTINGHOUSE SPRINGS MAKE RIDING EASIER

W. F. Murray of the Westinghouse Air Spring Co., arrived on the Great Northern to take charge of the installation and service of Westinghouse air springs for which the von Hamm-Young Co., Ltd., has recently acquired the agency.

Murray is certainly enthusiastic over the advantages of this air spring in eliminating bumps. In speaking of the air springs, Murray says: "Westinghouse air springs make riding in a car equipped with them like riding on air. They do not act like other shock absorbers which merely make the action of the springs of the car stiffer, nor do they snub the upward action of the springs when striking a bump, but are full-floating and add years to the life of a car and thousands of miles to the service of tires."

PACKARD MOTOR COMPANY GIVES BONUS TO MEN

All Those Who Joined Militia Will Be Given One Month Extra Pay for Bonus

Employees of the Packard Motor Car Company at Detroit who are members of the 31st Michigan Regiment, just returned from duty on the Mexican border, will receive upon reentering the company's employ a present from the company, a sum equivalent to two weeks' salary. This announcement was made by President Alvan Macauley of the Packard Company.

The men were notified at the time they were called into service last June that positions would be open to them upon their return. At that time also they were presented with two weeks' extra salary. As they report to resume their work the money will be paid to them. About 70 men in the 31st Regiment will be affected.

"There will be a place in the factory for every Packard man who responded to the call for service at the border," said Mr. Macauley. "The extra salary should be of service to these men in the period that will elapse before their next regular pay day."

MORE POWER OBTAINED FROM CARBURETOR NOW

I have found in my experience that considerable power and easier starting can be gained by putting the carburetor on the older model cars closer to the inlet opening in the cylinder block. Some engines have the carburetor on one side of the engine and use a long inlet pipe running between the cylinders to carry the charge to the other side of the cylinder block. In running slow on high gear for a while this pipe gets loaded with raw gasoline, and if you open the throttle quick this gas will be drawn into the cylinders and choke the engine and sometimes stall it.

To remedy this, cut the pipe off about 2 1/2 inches above the flange and split the short piece of pipe with a hack saw in about six places one inch deep so that this piece can be driven into manifold; after driving this piece into manifold, put a piece of round iron in a vise and slip this over same and hammer on the outside pipe and this will flatten the prongs out against the sides of top pieces; next, turn the flange in the proper position for carburetor and level up same. Then drill small holes around pipe for rivets, and after riveting the two pieces together, solder them and you have as solid a manifold as you had before. This applies to brass manifolds. If the manifolds are cast iron or aluminum like the Ford, you will have to ream out the upper half and grind some off of the lower part, and if aluminum, use aluminum solder, and if cast iron, braze them together.

On some cars there is not room on the opposite side of engine for the carburetor without making an offset in the hood, but this is an easy matter to overcome and will show but very little.

In making this change you will probably have to use a Bowden wire control for the throttle, or else use bell cranks to change control to other side of engine. After raising the carburetor so much higher a vacuum

AUTOMOBILE TO ELIMINATE ALL BRANCH LINES

Kissel Kar Expert Believes That Short Railroad Lines Will Be Abolished

It is now freely predicted that the automobile will in a short time cause the abandonment of most of the short railroad branch lines. The decline in the business of such lines has been very great in the last few years, all traceable to the increased use of motor vehicles. As an every door of the consignor to the very door of the consignee and saves not only expense but time as well.

"As to freight," said H. S. Daniels of the Kissel Kar the other day, "it is costing the railroads more every day to handle it, and as good highways multiply, the competition of the motor truck will prove too much for them. The truck can give far superior service in many parts of the country now, for it hauls from the every door of the consignor to the very door of the consignee and saves not only expense but time as well."

BEST POLICY IS TO MAKE SALES FOR ALL TIME

By GEORGE A. KISSEL
The most successful salesman are those who appreciate, without being told, that candor serves better than cant; that honesty is not only the best policy but the only policy; that a product profitably sold must be so sold that it stays sold.

For "getting away with it" is no longer popular business lore. "Making good" has taken its place and the keen-sighted manufacturer or dealer who directs his practice with that objective in view meets invariably with successful results.

To govern their salesman automobile manufacturers who merchandise upon sound principles, lay down certain rules to insure, as far as they may, faithful representations regarding their product. They strive to present as good a value as they can and to sell it for just what it is.

In advertising, the same ideals should abide. Statements of clear and terse truth, pleasant and courteous truth, affirmative rather than negative truth—whether spoken or printed—should be employed.

The advertiser who expresses himself with the frankness, brevity and individuality of a virile, square and sincere businessman has, to my mind, the right idea of a winning advertising campaign.

In other words, good advertising is copy built upon exactly the same fundamentals as scrupulous personal salesmanship.

A motor car is an important investment. The initial cost is probably more than that of any other private purchase that the average man is likely to assume—save that of a home. Therefore the fullest responsibility rests upon the maker and his agent to present the merits of his offer clearly and frankly with no unjustified promises—no deliberate evasions.

Feed or air pressure will have to be used in climbing very steep hills, or the gasoline will not flow to the carburetor. The saving in gasoline alone will warrant this change.—"S. J.", Boise, Idaho.

Fire destroyed the Walnut Street Presbyterian church at Philadelphia at a loss of \$100,000.

TIRES VITAL TO TRUCK SERVICE, SAYS ROCKHILL

Recent Visitor to Honolulu Tells of the Merits of Tires in Regard to Service

Tires have become so vital an element of truck service that their every development is viewed with interest by the truck-using world. Truck users are coming to realize that more depends upon the tire equipment than has heretofore been recognized—that tires must protect the engine from vibration and reduce repair expense, in addition to preventing the road shocks from affecting the load.

Some truck manufacturers and truck users have sought relief through the use of dual pneumatics—two tires on each rear wheel. But this expedient has its disadvantages, of which the difficulty of maintaining equal tire pressures and of removal of the inner tire in case of trouble is quite prominent.

The tire engineers of the Goodyear Tire & Rubber Company have declared in favor of the single pneumatic tire for trucks and have during the last year effected a wonderful development in this field.

"Our newest development in this line is a cord pneumatic truck tire," states L. C. Rockhill, manager of the automobile tire department of the Goodyear Tire & Rubber Company. "We have for some time been making pneumatic truck tires of fabric construction which have turned some wonderful mileages at a very low cost, but our tire engineers are always searching for something better and have now applied the cord principle to these tires with remarkable results.

"Our cord tire for trucks is not a specially constructed tire. It represents simply the application of this principle to tires made in the proper sizes for truck use. In the method of construction they are identical with our cord tires for touring cars, which won so many notable victories on the speedways of the country during the racing season that is just past.

"They come in the all-weather black tread and are made in sizes 38x3, 40x3 and 42x3, with from 10 to 14 plies of cords, according to the size of the tire. In many kinds of service we have made exhaustive tests which have proven that the tires are right and we are assured of a phenomenal business in this line."

ARMY MAKES TEST OF 75 H. P. CATERPILLARS WITH LOAD 63 MILES

MARFA, Tex., Jan. 13.—The recent initial test run of the military tractor train, for use in the Big Bend region of the upper Rio Grande border, is said to have come up to the army requirements in every way. The run was conducted under the direction of Capt. Harry A. Hogeman, quartermaster in charge of the motor truck shops at Fort Sam Houston, and was between Marfa and Presidio, a distance of 63 miles, over a desert region.

The equipment consisted of a 75-horsepower caterpillar tractor and four trailers, each equipped with caterpillar tread instead of wheels. Each trailer has a cargo carrying capacity of 15 tons. The trip was made at an average speed of about 2 1/2 miles per hour.

NEW BIPLANE FOR RUTH

Miss Ruth Bancroft Law, the daring aviatrix, who now holds the American record for continuous aeroplane flight, has ordered a new biplane of the Curtiss type with which to defend her title against possible challengers. The machine which she used in establishing the new American record—and a new world's record for women—was of obsolete type and Miss Law has felt the need of a better machine for her future flights. Her new biplane will have a speed of well over 100 miles per hour.

The Nova Scotia schooner Harry Adams, loaded with fish from St. Johns, N. F., for a Mediterranean port, was torpedoed in the Bay of Biscay, according to cable advices received here.

NOVEL ROADSTER IN MAXWELL SHOP

A novelty in roadsters is seen in the illustration above, which has been termed the "Whizzer." The car is modeled after the racing Maxwells in which "Eddie" Rickenbacker and "Pete" Henderson have been so successful this season.

STUDEBAKER HAS GOLD CAR WORTH ABOUT \$30,000

Most Expensive Motor Car Ever Built in History of Industry; Chassis in 14 Karat Gold

NEW YORK.—Last year Studebaker apparently reached the apex of its originality when it started New Yorkers with the famous "gold chassis." Not only was it the sensation of the show but it represented the biggest piece of gold plate work ever undertaken. While it was the most expensive chassis ever built, costing more than \$25,000, it was standard in every detail. It was, in fact, taken from a regular day's run at the Studebaker factory. Certain parts were cut out to show the workings of the interior, and the gold plating was then put on and polished by hand. More than 350 ounces of pure gold were used and nearly 3000 parts were finished in gold. This gold chassis is now on its second tour of the Pacific coast, where it is attracting huge crowds wherever it is exhibited. After its journey is over it will probably be preserved by the Studebaker Corporation for the benefit of posterity.

Now comes the "gold car," an evolution of the famous gold chassis of a year ago. And it is even more magnificent than the golden chassis. It is a Series 18 Studebaker six-cylinder, seven-passenger touring car, with the distinctive Victoria top in place. It is the most expensive motor car ever built in the history of the industry, and yet it is standard in every detail of construction with the exception of its brilliant gold and white finish.

About 400 ounces of 24-karat gold were used in finishing the Studebaker "gold car," and as it stands at the show it is valued at more than \$30,000.

The entire chassis of this Series 18 Studebaker is finished in 24-karat gold from stem to stern, just as was the gold chassis exhibitors last year; but mounted on this golden chassis is a standard touring body, also finished in gold and white enamel. The Victoria top is of white leather. The brackets supporting this top are all gold plated.

The white enamel body finish is enriched with hairline stripings of gold. The lamp rim and reflectors, the bars supporting the lamps, the radiator, the springs, the hubs, rims and nuts on the wheels of the car, all are of 24-karat gold.

All Metal Parts Gold. All fixtures, such as door openers, little fasteners that hold the side curtains, screw heads and bolts, are of gold. The top of the running board and all bolts connecting the fenders are of gold. Gold finishes the steering wheel column and all metal parts, and it sparkles from the brackets holding spare tire and rim, from the top arm, in fact, from every metal part of the car.

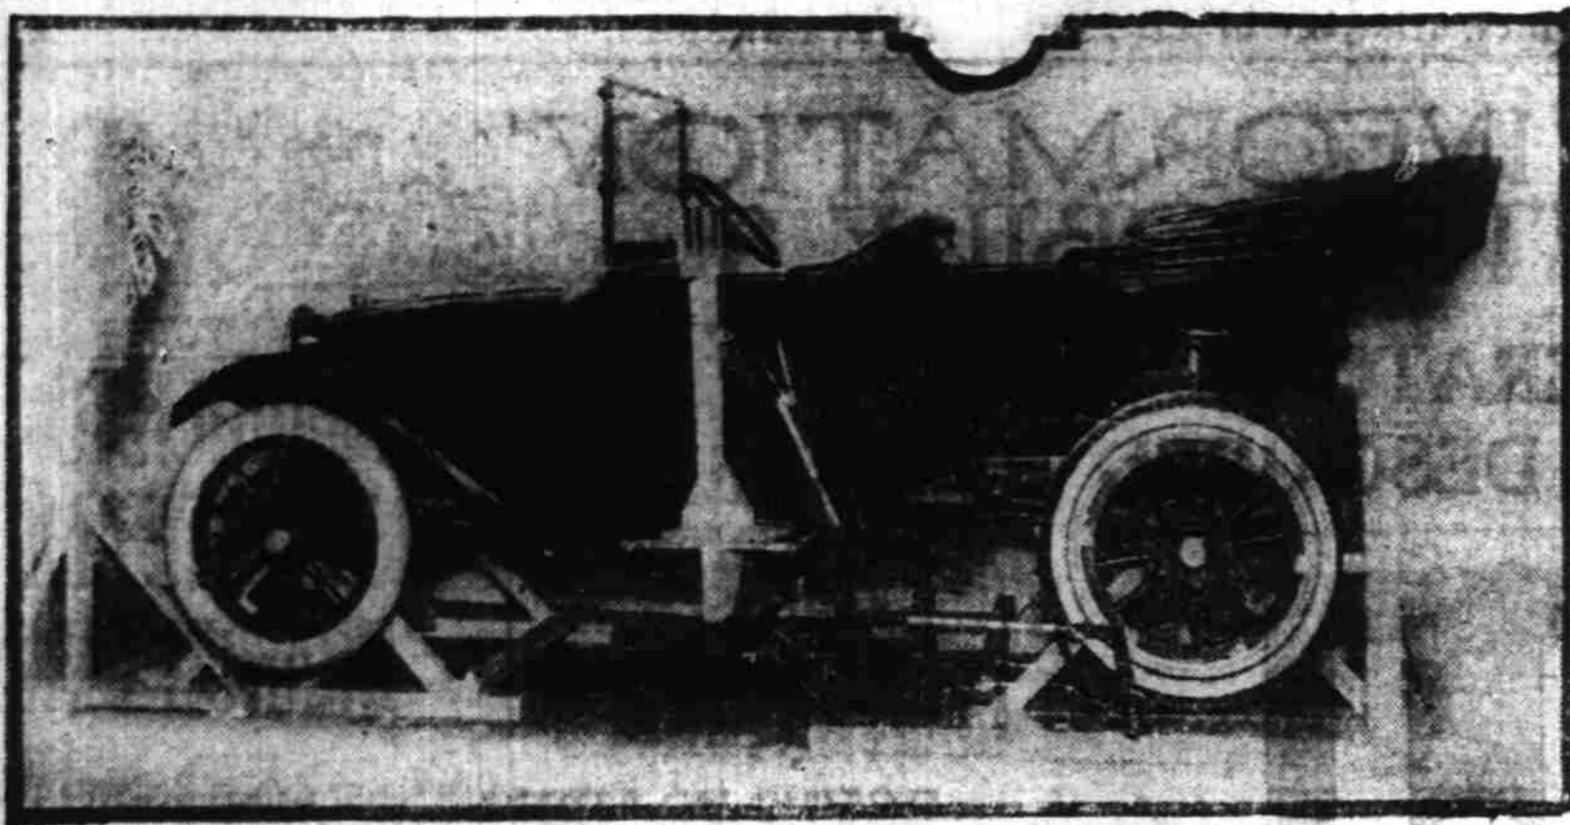

The genuine white leather with which the car is upholstered throughout harmonizes with the gold finish. The arm-chair auxiliary seats are upholstered with the same white leather, with all of the fixtures finished in gold. The floor board in driver's compartment is covered with white linoleum and trimmed with gold. Even the speedometer has a white face with gold numbers.

It is stock and standard in every detail, except for its glittering finish of white enamel and 24-karat gold, and was taken from a regular day's run at the factory.

In addition to being the most expensive chassis ever exhibited at any motor show, this Studebaker "gold car" is costlier by far than any complete car in the history of automobile shows. The gold finish lights up the little details of body and chassis and shows the refinement of finish, according to Studebaker officials, as nothing else can.

The Studebaker "gold car" is exhibited for the first time at the New York show, and occupies the place of honor in the Studebaker booth on the main floor of Grand Central Palace, just to the left of the entrance. It is surrounded by the new Series 18 models in both open and closed types. These new cars are distinguished by the addition of many new and exclusive features while maintaining the world-recognized Studebaker quality and perfection of manufacture in every particular.

NOVEL DEVICE USED FOR DRIVING LESSONS

To duplicate road conditions with stationary car, so that new owners may learn to drive without going on the road, the engineering department of Dodge Brothers' factory and the engineering department of Bishop, McCormick & Bishop, in Brooklyn, N. Y., have designed the device shown above.

The idea has been so carefully worked out that the operation of the machine actually does duplicate road conditions. To bring this about the tires are removed from the rear wheels and heavy iron castings are substituted for them. These castings are so constructed that water may be admitted to the inside of the casting, and there are also fins on the outside of the castings towards the car, so that cooling is accomplished both by air and by water. These castings are machined so that they are absolutely true and in perfect balance, and their weight is the exact equivalent of the momentum of the car at a speed of 20 miles an hour, so that the operation of the gear shift lever is ever a trifle

easier than it would be in road operation. Brake bands are run around these castings and are equalized to operate from the lever shown in the picture. These brake bands are lined with maple wood blocks.

The adjustment is such that when the brake lever is in the first notch the resistance against the wheels is the same as the dead weight of the car against the engine in starting, so that when the pupil moves the change speed lever into first speed he is required to give sufficient pressure upon the accelerator actually to start the car in motion as if it were on the road. If he does not give sufficient gas to the engine he will stall it. When the pupil has successfully started the car in first speed he accelerates until the speedometer, which is attached to the transmission, shows a speed of about seven miles an hour; then he can make his shift into second speed. Then he accelerates the engine until the speedometer shows about 15 miles an hour and goes into his high speed.

When the car is operating in high

speed the instructor begins to operate the semaphore arms, and when the signal comes before the pupil that he is approaching a steep hill he must accelerate his engine just as he would in approaching an actual hill, for the instructor begins to apply brake pressure against the rear wheel. As soon as the instructor has applied sufficient resistance to make the motor labor it is necessary for the pupil to shift from his third speed to his second speed, or he will again stall his motor.

Exactly the same performance would be gone through if the signal were flashed that deep sand was to be encountered. So by the use of a great variety of signs and the duplication of the conditions which would result the pupil receives a very thorough training before he attempts to drive on the road, and when he does start on the road there is nothing left for him to learn but how to steer the car. Every other operation of the car has been drilled into him so thoroughly that it has become automatic.

could tell, when the reverse movement began. Now it turns out the chief trouble was lack of adequate transportation.

No Farms Left

This the automobile is supplying. It is within the bounds to say that the motor car is transforming farm life. With the horse-drawn vehicle the farmer moved back and forth from country to town at the rate of about three miles an hour. With the automobile the rate of travel is probably above 15 miles an hour. It is at once seen how such rapid transportation increases the scope and activities of farm life. Economically, on business trips, it is a great saver of time. Socially it removes the isolation of farm life. The trip to town or city for an evening's entertainment is quickly made. The farm neighborhood is much extended. Twenty miles is no distance to go—more than a half day's trip with a horse and buggy.

In bringing about the economic and social gains which the automobile is capable of producing good roads are necessary. Automobile production is ahead of road production, and the automobile manufacturers realize now more than ever before that the future distribution of motor vehicles depends on the construction of highways capable of standing up under heavy automobile traffic. They have just started a movement aimed to increase the number of schools and college departments for the training of highway engineers, having found out from inquiry of state highway commissioners that there are not enough properly qualified men for the road construction now going on. To build the right kind of roads rightly trained men are a primary essential.

Auto Brought Roads

To put life into the highways again required a new kind of vehicle, with a speed far surpassing the horse, and economical of operation. This is the field of the automobile; here is the great part it is to play in a national development that in the end will compare favorably with the progress promoted by any other of the great public utilities. Systems of country-wide highways are to be built that were not dreamed of as possible before the automobile appeared. These highways are to bear a traffic, passenger automobiles and motor trucks, never imagined in the days of the horse.

The railroad, with all its capacity for service, has its limitation. It is rigid transportation, bound to steel tracks. The automobile is elastic transportation, free to go wherever the highways lead. To have a home or a farm at any considerable distance from the railroad or the trolley line was to be out of the world. These places the automobile is bringing into the world. It is reaching out and knitting into the great active world, as a new part of it, isolated areas, where life was cramped and dull, and resources undeveloped.

Moves the People

Problems of national importance that remained unsolved in spite of all the railroads, telephones, telegraph, rural deliveries, and lecture bureaus in existence, the automobile is to forward to solution. One of these, fundamental to national well-being and progress, is to stay the movement of population from country to town, to keep the farmer on the farm. This problem first entered the stage of active discussion about two decades ago and the interest it aroused was the father of the "Back to the Land" movement and the "Forward to the Land" movement. Farm life was pictured in silencing colors by lecturers, and thousands of city people were induced to "go forward" to the land; thence, later, most of them retreated to the city in thorough sympathy with farmers who would not stay on the land. Even with heralded conveniences of the telephone, the rural mail delivery, and a near-by railroad, the farm was a dull place to most people. Just what was the matter no one

MOTOR CAR OUTPUT PASSES MILLION MARK AND ENTERS ON NEW PERIOD

Increase of 1916 over 1915 80 Per Cent; Value of Cars More Than One Billion Dollars

From the first, without a lapse in a single year since the beginning 21 years ago, the automobile has been a maker of new records. Not all of these records, as a matter of course, have been of equal significance; some have been marked gains within one period of development; others, fewer in number but far-reaching in effect, have signalized the entry into new periods of development in the making and distribution of motor vehicles.

In the year just closed two new goals of this deeper significance were reached. For the first time the million mark in motor vehicle production in the United States was passed, and for the first time the total value of passenger automobiles and motor trucks manufactured went beyond the billion dollar mark.

According to figures given out by the National Automobile Chamber of Commerce, which represents the motor vehicle manufacturers of the country, the total production of all classes of cars was 1,617,708, of which 1,525,578 were passenger automobiles and 92,130 trucks or commercial vehicles. The total value of this output, based on the retail price, was \$1,088,928,278, represented by \$321,378,000 in passenger cars and \$166,650,278 in trucks.

In 1915 the total output of cars was 892,618, the gain in production over the preceding year is, therefore, 80 per cent, and this increase is twice as much as the average annual gain since the foundation of the industry. At the beginning of 1916 the National Chamber of Commerce estimated that the production for that year would be 1,300,000. The prophets of the automobile industry have never been lacking in boldness and imagination, but those prophets worth heeding fell short of the actual output in 1916 by more than 600,000.

Of the 1,617,708 motor vehicles produced in the United States in 1916,

78,200 were exported, leaving for distribution in this country 1,539,508. The National Automobile Chamber of Commerce estimates that there are now not less than 3,500,000 motor vehicles in the United States.

What is the dominant note of the new period which the automobile has entered? In the opinion of the manufacturers, the automobile has fairly won its way to recognition as one of the great public utilities, comparable with the railroads, the telephone, and the telegraph as a factor in national development. Each of these established a new system of communication; they made the United States more united, so to say. Each played its part in knitting the country into something truly national. The gain was vast, but in sweeping aside old ways of communication there was one great loss. The building and extension of the railroads laid a deadening hand on the development of highways and roads. The old traffic that went by way of the four-horse freighter over highway and turnpike from one state to another was loaded into railroad freight cars. The freighter with the stage coach disappeared. Public attention was taken from consideration of highway maintenance or building on a large scale. Highways, generally speaking, became merely local.

To put life into the highways again required a new kind of vehicle, with a speed far surpassing the horse, and economical of operation. This is the field of the automobile; here is the great part it is to play in a national development that in the end will compare favorably with the progress promoted by any other of the great public utilities.

Systems of country-wide highways are to be built that were not dreamed of as possible before the automobile appeared. These highways are to bear a traffic, passenger automobiles and motor trucks, never imagined in the days of the horse.

The railroad, with all its capacity for service, has its limitation. It is rigid transportation, bound to steel tracks. The automobile is elastic transportation, free to go wherever the highways lead. To have a home or a farm at any considerable distance from the railroad or the trolley line was to be out of the world. These places the automobile is bringing into the world. It is reaching out and knitting into the great active world, as a new part of it, isolated areas, where life was cramped and dull, and resources undeveloped.

LIGHT AUTOMOBILES MAKE GOOD IN WAR

(By Associated Press)

PARIS, France.—The advantages of the light small automobiles for service at the front is the one discovery which the American Ambulance Field Service has contributed to the war. It is now nearly two years since the field service first sent a section of its light cars into the mountainous region of Alsace, showing the possibility of carrying wounded by automobile up and down the mountains in regions where up to that time the wounded had only been carried on mule-back or in horse-drawn cars.

Since that time there has always been one or another of the American ambulance sections in this region until a fortnight ago when the last section was transferred elsewhere. Within a week after its departure the general in command of that region sent word that no other cars could do the work which had so long been entrusted to the field service cars and asked that another detachment of the light

American cars be sent at once to help in this work. The field service has therefore just sent a new detachment to the Vosges under the charge of Louis Hall of Ann Arbor, Michigan, the brother of the ambulance driver who was killed in that region Christmas, 1915.

The army of the Orient has also asked for another of the American ambulance sections, and section 10, a newly organized section of 30 ambulances with American drivers, is now on the way to the Balkans.

DISCOVER COUNTERFEIT \$5 FEDERAL RESERVE NOTE

WASHINGTON, D. C.—Discovery of a counterfeit \$5 note on the New York Federal Reserve Bank was announced recently by the treasury department. The bogus bill is said to be "fairly deceptive," but can be distinguished here by the too heavy printing and the fact that the fine lines cannot be traced. It bears a portrait of Lincoln, reproductions of signatures of W. G. McAdoo and John Burke, and carries the check letter B.

COUNTERFEITING PLANT LOCATED IN SEATTLE

SEATTLE, Wash.—Frank E. Nichols, 53 years old, formerly of Oakland, Cal., was arrested on the street here on the charge of having counterfeit money in his possession.

WELDING

No matter what your trouble is, bring it in to us. Many automobile owners can be saved the trouble and expense of returning broken parts to the factory for repairs. Welding makes the broken parts as strong as ever--and oftentimes stronger.

FORERUNNER OF THE AUTO DATES BACK TO 1678

It would be difficult to find any one better informed to write a brief history of the evolution of the automobile than is C. S. Rieman, vice-president and general manager of the Elgin Motor Car Corporation, Chicago. He has been connected with the automobile industry since its inception and has always owned an automobile from the days of the "one-lunger" up. Mr. Rieman's first car, which more resembled a thrashing machine than an automobile, contained a popping one-cylinder engine. Next he purchased a "two-lunger," then a four-cylinder car, etc. Naturally, he now explores the highway in his Elgin Six. C. S. Rieman gives a few historical facts in connection with the early history of the horseless carriage.

The first record we have of a vehicle traveling without animal power is found in the ancient Chinese records, which give an account of the "kite carriages." These vehicles were driven by the wind blowing against a sail attached to the carriage. In the early reign of King James I. of England a patent was issued to Hugo Upton, reading as follows: "For the sole making of an instrument which shall be driven by the wind for the transportation or carriage of anything by land." Some believe that Upton secured his idea from "kite carriages" in old China.

However, the history of mechanically driven carriages dates back to 1680 when Sir Isaac Newton proposed a steam carriage to be driven by the reactive effect of a jet of steam issuing from the nozzle at the rear of the vehicle. Some years later, a crude carriage was built, an early record of which reads as follows: "Mr. Pinchbeck has recently built a curious steam machine that has traveled without horses for forty minutes and covered a considerable distance." In 1759 there appeared an English advertisement reading as follows: "Mr. Ladd's patent four-wheel carriage, that goes without horses and will carry four or five persons at the rate of six miles an hour, is built on solid mechanical principles." In 1802 Richard Trevithick built a steam carriage which was exhibited at London, having driven itself 99 miles. In 1839 a horseless carriage named "the Automotion," was built by Walter Handcock. This was really the first steam carriage that proved at all practical. It covered 4200 miles during its life and carried a total of 12,761 passengers.

The first internal combustion engine was invented by Abbe d'Hauteville in 1678, in which the explosive power of gunpowder was employed to drive a piston in a cylinder. This was the forerunner of the modern gasoline engine. Some years later John Street developed an engine operated by liquid air ignited by a flame. The first internal combustion motor which used

At Motorcycle Club Outing

The Honolulu Motorcycle Club has met with great success in organizing the Sunday runs to various points on Oahu. These outings are held every two weeks and give the cyclists an opportunity to visit all sections of Oahu. Two motorcyclists who are real enthusiasts are seen here stopping after a run to Waimea.

gas was invented in 1884 by Gottlieb Daimler. In 1885 he successfully applied this engine to a bicycle, and in 1886 Carl Benz invented his single horizontal cylinder, water-jacketed engine, which he applied to a three-wheeled carriage. The first practical gasoline automobile built in America was constructed by C. E. Duryea in 1892, but it was found to be underpowered.

In 1894 he built a new four-cylinder car which proved quite successful in the Chicago Times-Herald race. The first automobile endurance race of international importance was held in France in 1894. Two Panhard machines contested. Both claimed a 3.5 horse-power, and were driven by Messrs. Panhard and Peugeot. In 1895 the second automobile endurance race was held in France, and covered a distance of 1730 miles at the then remarkable average speed of fifteen miles per hour. Six years later, however, the same course was covered at the rate of 50 miles per hour. In 1897 at the Paris-Trouville road race a speed of 29 miles an hour was developed in a gasoline automobile. What a difference today! Not long ago a 300-horse-power car raced at a terrific speed of 143 miles an hour. Even pleasure cars easily run off 50 miles an hour.

Four children were found frozen to death near Cadillac, Saskatchewan.

MOTORCYCLE CLUB NOT IN FAVOR OF CARNIVAL RACE

At a meeting of the Honolulu Motorcycle Club yesterday it was voted by the members that the club should not sanction a race from Schofield to Honolulu during the Carnival. It was argued by most of the members that starting from Schofield at that hour would be bound to give the riders a chance for accidents.

Individual riders of the club may enter, but the club has refused to sanction the race, fearing accidents which would give the organization a "black eye" in motorcycle circles. It was suggested at the meeting that a race be held around the island, with riders leaving Honolulu one minute apart, in order to prevent accidents. The club has offered its services to assist the officers in patrolling the course, in case such a race was held.

The club will hold its semi-monthly run on Sunday, leaving the Capitol grounds at 8 o'clock, and riding to Kalaheo, near Waialua. There is a good beach at this point, and bathing and other sports will be featured. A special meeting of the club will be held next Wednesday evening. At this time the members will discuss the decorating of machines for the Carnival parade.

INCREASED COST OF TIRE DUE TO COTTON PRICES

In the past when growing costs demanded an increase in the price of tires and tubes, the customary usage has been to sum up the total increase in a general way and place an additional per cent on all prices. Under the pressure of the present war conditions it has been discernible for some time that an advance in tire prices would be inevitable, says S. S. Paxson of the Schuman Carriage Co.

The general impression has been that the increased price of rubber alone was responsible, but in reality it is the much heavier increase in cotton fabric that forces the greatest change. Consequently the Goodrich Company in making its adjustment of prices has taken a very different stand in regard to tubes which contained no fabric, than has been necessary in the matter of outer casings, the foundation of which is cotton fabric. Goodrich tubes in several instances in our new adjustment show a decrease rather than an increase.

During the past few seasons construction changes to meet conditions which applied to different sizes brought into the production cost of tires and out-of-balance condition so that there has been an irregular price schedule prevailing. Our new adjustment of prices takes care of this and our new schedules are uniform as relating to cost. This adjustment is directly in line with the Goodrich company's policy of fair list prices to consumers.

In those sizes of tires where the greatest quantity is made we have, of course, been able to make a relatively lower list on account of the great volume involved, that we are able to do with the tires of unusual size where the volume is of course much smaller and the cost per tire proportionately higher. Supplementing our "fair list" policy the Goodrich company has broadened the scope of its twin policy of "fair treatment," and as recently announced in the press, we are now guaranteeing Goodrich tires to give satisfaction to the user. We are inviting all users who feel that any Goodrich tire owes them anything to bring back the tire, with the assurance that he will secure an adjustment that will be entirely satisfactory to himself.

Of course the adoption of such a policy means that we would be heavy losers at the end of the season if we did not have a tire which will give the service required of it by automobile owners, and the fact that we are offering this sort of a guarantee proves that our tire is the best this year that we have ever made.

WIDE INTEREST IN TRAFFIC PROBLEMS

The right of way and glaring headlight questions are the two which stand out ahead of everything else in the uniform traffic problem, according to O. L. Yellott, chairman of the American Automobile Association's legislative board, which has taken up this large subject in a determined effort to bring about a countrywide understanding.

Evidence that all of the states are interested in this effort of the organized motorists is apparent in the letters being received by Mr. Yellott. From Washington comes this comment by Secretary of State I. M. Howell:

"The American Automobile Association is certainly on the right track now, and if you will compile something that can be made uniform throughout the United States I know of no reason why it could not be passed in each one of the several states. Send us something and we will try and put it in the motor vehicle code at the next session of the Washington state legislature."

From Maine P. J. Deering, state highway commissioner, asserts that the Pine Tree state, particularly because of its large number of summer road visitors, wants uniform regulations such as he expects will be proposed by the A. A. A. board. Incidentally, Mr. Deering is president of the Maine Automobile Association.

To the recent meeting of the A. A. A. executive board came an invited committee from the Society of Automobile Engineers, which has been at work for some time on the subject of glaring headlights. While the engineers have not come to a finality upon all the details, their spokesman supplied information which would seem to assure a complete answer in the comparatively near future.

In the matter of right of way the consensus of the meeting was in favor of a system which would provide that a vehicle give way on the right or on the left to an approaching vehicle, eliminating any north-south versus east-west regulation or giving through traffic on the main arteries the advantage. In New Jersey and Maryland the state law now includes a right of way to vehicles approaching on the left, while in many states north-south traffic has precedence over that going in the other direction.

John Jakowsky, a chauffeur of New York, died in Flower hospital of injuries received when a car he was driving struck an elevated railroad pier.

Ten applicants for admission to the United States aviation school have passed the required examinations and will be sent to the winter quarters of the school at Memphis.

AN IMPROVED QUININE DOES NOT AFFECT THE HEAD
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE will be found better than ordinary Quinine. Does not cause nervousness, nor ringing in the head. Remember, there is only one "Bromo Quinine." The signature of E. W. Grove is on each box.

Size	Prices		
	Plain Tread	Savage Grip Tread	Graffinite Tubes

R. H. REED TAKES MANAGEMENT OF AUTO SERVICE & SUPPLY COMPANY

R. H. Reed, one of the leading automobile men in the Northwest, will become manager of the Auto Service & Supply Company this month. The announcement was made today by one of the directors of the company. Reed has purchased one of the largest blocks of stock in the company, which has recently increased its capital stock.

Reed was assistant manager of one of the largest automobile firms in Oregon, and his work with the Southern Oregon Automobile Company was responsible for much of the growth of that company during the past few years. Reed has been in Honolulu but a short time, but has made a number of friends during his short stay in this city.

Reed knows the automobile business from Alpha to Omega, and according to one of the leading automobile men of Oregon is going to make his presence felt here. He is a good mixer, and a man of business, and furthermore has always enjoyed the confidence of his customers.

Reed has been a strong advocate for good roads, and some time ago led the fight for permanent highways in Oregon.

The Auto Service & Supply Company has increased its capital stock twice during the past two years, and the sales have been increased from month to month. Increase in business has made it necessary for them to enlarge their quarters at Alakea and Merchant streets.

"We intend to keep up the policy of the company in every way," said Reed today when asked regarding any changes being made. "We will expand and add new lines from time to time, and carry a complete stock of accessories. We will have a complete stock of demountable and pressed-on solid truck tires, and a big tire press is now on the way."

"There is an increasing demand for Goodyear tires every day, and we have received \$10,000 worth of Goodyear tires in the last 30 days. The Auto Service & Supply Company has built up a big business during the past two years, and Goodyear tires have been a big factor in this increase. Owners have been learning about Goodyear tires in the past year, and 1917 is bound to place this tire on the top round."

"An interesting tour serving to emphasize those qualities in automobile tires sought after by all motorists was the one which Goodyear tires have come through triumphantly—as equipment on a 1916 Humobile, which has just completed a 3000-mile trip over the worst possible roads, through virgin territory.

"This time the scene was laid in South Africa, where American cars are rapidly increasing in popular favor, and it all came about in this manner. At the last Johannesburg automobile show E. Collins, an exhibitor, bargained with a visitor, little realizing the difficulties to be overcome, to include Pigg's Peak, near the Eastern Africa coast, in one of the many tours then being planned.

"Accordingly a party of five made the start from Pretoria in the first automobile tour ever attempted over this route. Road conditions could hardly have been worse. The entire trip was a continual battle with steep grades, bridgeless rivers, trackless heavy sand, stretches of numberless smaller boulders, broad belts of 10-foot reefs, slimy river banks and other obstacles.

"The nature of the country traversed can best be imagined from the statement that on certain days an average speed of three miles an hour was maintained. Twenty-five miles of the tour were covered over an old transport trail that had been abandoned for 20 years, necessitating frequent use of ax, pick and shovel.

"But despite the hardships and the thrills experienced, the party expressed themselves amply repaid in the wealth of magnificent scenery and the innumerable varieties of wild birds and animals seen. Quite frequently the roaring of lions could be heard. Upon the arrival of the party at their destination they were received by a native police guard of honor and shown every courtesy.

"In spite of the 3000 miles of all but impassible country traversed, only three punctures were experienced by the Goodyear tires with which the

R. H. REED

car was originally fitted, and the tour was completed with the tires in practically as good condition as when the trip started."

CORD TIRES IN DEMAND BY ALL OWNERS OF CARS

"That our cord tires are making good, is the burden of the testimony in the multitudes of unsolicited letters we constantly receive, each conveying its separate and particular note of approval," states William Biber, of the Auto Service & Supply Company, agents for the Goodyear Tire & Rubber Company, Akron, Ohio.

"Some of these letters are brief and brisk while others fairly radiate an unmistakable admiration for the tires they praise. All recite experiences which have been satisfactory in the extreme, and many recent mileages that are little short of astounding. Ten, fifteen and even twenty thousand miles of service are not uncommon.

"We do not often use publicly these letters which say so many nice things about our tires, but, occasionally we receive one which transcends all the others, and can't help calling attention to it.

"This one is from the Packard Motor Company, signed by Alvan Macaulay, its president. It recites not only the experience of one motorist with one set of tires, but of thousands of men with thousands of sets, operating under every condition of American travel:

"Mr. Macaulay writes: "We have just ended the first year's use of your tires as standard Packard equipment, and have renewed with you for a second year.

"Your tires have been so exceedingly satisfactory to us and to the owners of our cars that a word of appreciation is deserving.

"In every respect in which a tire should be good, we have found your tires fully measure up to expectation. We have never had a more successful

NO IMPROVEMENT IN BRAKES THIS YEAR AT SHOWS

Many followers of automobile construction were somewhat disappointed in the New York show this year because no real improvement in braking equipment was shown in the great majority of cars. While it is true that year after year other betterments have been incorporated, brakes have received little attention.

The discussion centers mainly around the service brake and it is the belief of a good many engineers that the practice of putting service brakes on the rear wheels is fundamentally wrong. The trouble is that it is impossible to equalize braking effects. The pressure on the foot pedal is equally distributed between the rear wheels by complicated mechanism and fine adjustments of linkages, but the user of the car has no control over the condition of the braking surfaces. The brakes are in an exposed position near the ground and pick up sand, mud, oil, etc. A little sand on one and a bit of greasy mud or oil on the other spoils all the careful work done in equalizing the forces exerted. As soon as one wheel develops more drag on the road than the other, the car is almost sure to skid.

The unequal braking effects are completely eliminated by putting the single service brake on the transmission, the differential gears distributing all forces equally between the rear wheels. At the same time the transmission is more powerful because of the gearing. The gear ratio of the average car is about 4 to 1, so the brake drum revolves four times faster than the rear wheels and gives four times the leverage for the braking effort. Thus only one-quarter as much force must be exerted to accomplish the same result. This ease of operation appeals to the average driver.

The larger allowable variation of pressure, due to the high speed of the drum, is also a valuable feature as it practically eliminates the chance locking of wheels with consequent skidding dangers and excessive tire wear. Lastly, the transmission brake is not located in such an exposed position as are rear wheel brakes and is therefore less liable to pick up dirt and grease.

Two American manufacturers, one of whom is the Franklin Automobile Company, Syracuse, N. Y., use the transmission service brake with marked success.

AUTO INDUSTRY PASSES BILLION-DOLLAR MARK

With giant strides that have no parallel in the industrial progress of America, the business of making and marketing automobiles passed the billion-dollar mark in sales during the year 1916, with no indication of a decrease in the demand for the reliable, service-giving, power-driven vehicle that has taken an important place in the work of transporting rapidly and economically a big portion of the citizens of this and other countries of the world.

A bill was introduced in the New York legislature to remove the \$25,000,000 capital limit on manufacturing and mercantile operations.

or satisfactory tire equipment.

"In many respects this is the most remarkable endorsement of a product that has ever come to my notice," continues Biber, "for it is the expression of a man who guides the destinies of a company producing an article which is world-famous for its quality."

"But other manufacturers who have used Goodyear cord tires are just as enthusiastic in their praise as the Packard company. Without exception every car manufacturer who used Goodyear cords in 1916 has renewed for 1917, and new contracts are being secured constantly. For the 1917 season three of every four cars a wheel cord tires will start rolling on Goodyear cord tires."

Ask your Goodyear Service Station Dealer about the Goodyear Tire-Saver Kit.

THE slippery road holds no peril for the car shod with Goodyear All-Weather tread Cord Tires. If there is solid footing to be found, these tires find it. The big, sharp-edged blocks forming their tread design dig and pry through treacherous mud to sound earth, and keep the car on its course. They keep you in the car, and out of trouble.

Every Goodyear Tire ought to be at work outside a Goodyear Tube. No other tube so safely insures the constant air pressure needed to cushion strain and shock. No other tube is so protected in the making against leak, seep or creep.

Goodyear Tires and Goodyear Tubes both can be had from Goodyear Service Station Dealers. Probably there is one in your neighborhood. He is worth searching out and doing business with. For he is there not only to sell you tires, but to help them deliver you their last mile of service (more than you're used to from your present tires) after he has sold them.

Metal Lessons of War To Aid Auto Efficiency

War experience in Europe has supplied the most valuable lessons possible in the development of the aeroplane to a higher efficiency. Will this engineering experience be reflected in improvements in the automobile after the war? Of what benefit will now metal lessons with strength, as in the framework of the Zeppelin?

H. Massac Buis, the English motor expert, answers these questions by "yes" in an article entitled "Motoring After the War. What Will Cars Be Like?" published in the London "Mail." After asserting that we are but touching the fringes of motor-car development, he continues:

"There is no need to indulge in irresponsible prophecy. Instead we have merely to observe certain factors which obtain today and which in combination will predetermine the nature of passenger-car development. The matter may be stated thus:

(a) The purchasing power of the community which, class for class, will be much less than it was when war broke out.

(b) The progress of metallurgy in association with the world increase of steel output, and the resultant widening of the scope of the designer.

(c) The labor situation and the general growth of education concerning the profitableness of concentration of effort.

"There will be two ways only of causing the private individual to buy a motor carriage after the war. Either you will produce it at such a price that it will be an economy for him to acquire it, or you will embody it in such a combination of improvements, allied in design and materials, as will make him disgusted with the finest motor carriages so far available in any class; therefore you will tempt him successfully to part with his money.

"It may be recalled that before the war manufacturers were wont to employ special steel for making cars solely for competition purposes. There were, however, a hundred and one reasons why they could not standardize engines of high output then, among them being the fact that the very special grade steels of which they must be fashioned were not commercially available. Again, the rank and file of each factory staff was not educated to such highly specialized work. But the demands of war have compelled one motor maker after another to produce engines of more or less high output for aviation work. The original British designs that have proved practical are few in number, a remark which applies equally to the cases of France or of Germany, for instance; but manufacturers are nevertheless gaining enormous experience because many who are unable to make high-powered aircraft engines of their own designing are reproducing them from designs evolved elsewhere.

"The difference between war and peace work for engines of high output is this, that in peace time the individual manufacturer produces a few examples for competition work under what may be styled more or less nursery conditions in that the cream of his staff of mechanics is in constant attendance on them; whereas in war times engines of high output have to be standardized precisely as do those of touring cars and issued to the services, whereupon they are placed in charge of those who, for the most part, had never anything to do with this class of engineering construction before the war. Hence, experience is being gained on an immense scale.

"There remains the question of price. The war has put an amazing premium on increase of steel production. The point that matters in this particular connection is that, alike in the case of this country and of any of the big engineering nations, post-war steel production capacity will be enormously in excess of normal requirements, as distinct from those of the brief reconstruction rush period.

"Steel makers will find themselves in very keen competition one with another. Those who will succeed in filling their order books will be the firms which will commercialize higher and yet higher grades of steel. Of course the way to make better motor carriages is not merely to employ finer materials than hitherto—the possibilities of these materials must be recalled to the full by utilizing them with worthy designs.

"Probably, by concentration on one model to the factory, and so forth, as far as the lowered-price cars of ordinary design are concerned, no radical change will be witnessed for a spell. They will be more completely equipped for less money. But as regards higher-grade production, including the matter of power for weight, we shall see startlingly fresh things in car design because the weight problem will be attacked to the saving of tires and petrol. You will be able to maintain a motor carriage more cheaply, as well as find it more pleasurable to use, because it will be more flexible, and so forth. Certainly we shall see the more and more efficient overhead valve engine standard for private car practice, with four valves a cylinder, the whole properly silenced. The cylinder castings, as well as the axes and the longitudinal frame members of the car, for instance, will be made of the finest grade steels or of the latest aluminum alloys to save weight.

"Lightness with commodiousness has not been attempted yet. Progress in this direction will lead us, unconsciously or otherwise, to realize that quality which in our childhood's days we associated with the Damascus blade. We must utilize the elasticity of modern metals more and more.

"The automobile industry in Europe must suffer permanently because the war has enabled the American industry to develop to an unmatched magnitude. But America has not yet produced engines of really high output in the sense which obtains today. Moreover, any engineer who has studied aluminum alloy construction work—take the girder framework of a Zeppelin—will be aware that, apart from metals, there is the opportunity to employ design and workmanship in making cars that will be feather-weights compared with what we know now. Why have springs weighing over a hundredweight apiece if you can build a long, light frame to absorb the shocks?

"Of course, the fear will be that the price of such a vehicle must be beyond the purchasing power of the public. That is not so, for there remains always a sufficient proportion of the public which is ready to buy the new and the much more than ordinarily good thing for whatever price it is necessary to charge for it.

"Hitherto, no matter what class of car we ride in, we have at least five hundredweight of machinery for each individual conveyed. After the war we may expect the best examples to scale two and a half hundredweight of machinery per person carried as a start, toward seriously attacking the problem of motor-vehicle weight. In less than five years from the time peace is concluded we shall regard the motor carriage of today as a heavy-weight, even as 20 years ago today the law regarded the slow, weak, little motor carriage that pioneered the world industry of today as a "locomotive."

sign because the weight problem will be attacked to the saving of tires and petrol. BRICK ROADS ON MAINLAND BRING GOOD BUSINESS

Country roads paved with vitrified brick are becoming quite common in many of our states, according to the professional bulletin, "Brick Roads," recently issued by the office of public roads and rural engineering, U. S. department of agriculture.

The principal advantages which brick roads possess, according to the authors, is that they are durable under practically all traffic conditions, and are easily maintained and kept clean.

The principal disadvantage is the high first cost. The defects which frequently result from lack of uniformity in the quality of the brick or from poor construction are usually to be traced indirectly to an effort to reduce the first cost or to a popular feeling that local materials should be used, even when of inferior quality.

The purpose of the new bulletin, which can be had free, as long as the department's supply lasts, by road engineers, supervisors and others contemplating the construction of brick roads, is to make clear certain important essentials in the choosing of brick for a pavement and in laying it so that the highway will endure.

The remainder of the 40-page bulletin as devoted to detailed descriptions and diagrams, showing proper methods of construction of the road bed, including the preparation of the road bed, the construction of the foundation base, the laying of the brick, the construction of curbing, expansion cushions and the final finishing of the pavement. The paper also includes a chapter on cost of brick pavements. Special emphasis is laid on the maintenance of these roads and the need

NEW STUDEBAKER CARS SHOW MANY IMPROVEMENTS AND REFINEMENTS

The new Studebaker cars just announced are unchanged in basic design, yet many improvements and refinements make the new models better than their predecessors. At first glance it is evident that exterior changes have been made in the new Studebaker. The new models are finished in a gunmetal gray. A fine white stripe running around the top of the body adds just a decorative touch. The radiator, fenders and apron are enamelled in black.

Studebaker has adhered to its customary lines in this year's cars, simply improving them in some slight details that add to effect. Beauty is the dominant note of the whole design, and there is nothing about the general appearance of either the "four" or "six" which is not in accordance with conservative ideas on body design.

One of the notable features of the cars is the unique arrangement of the front seats. As in the Series 17 models, they are separate and built to conform with the contour of a person's back, but in the new cars the seat next to the driver's is reversible. It is an exclusive Studebaker idea, and it permits the passenger in the front seat to become more intimately a member of the motoring party. Operating easily and simply upon a bracket arrangement, the passenger may face forward or face tonneau, as it suits his convenience. Both front seats are adjustable to meet the requirements of persons of different leg lengths. A flexible leather robe strap, which fastens to the backs of the front seats, will be found both serviceable and convenient.

The tonneau is roomier than ever because the auxiliary seats are now

of a new design, developed by Studebaker in the last year. Instead of folding back against the sides of the car, up against the back of the front seat, or down into recess in the bottom of the floor, these new Studebaker auxiliary seats fold up and disappear under the rear seat when not in use. These new seats are now armchairs.

The new type of Blackmore door curtain opener is another innovation which will be appreciated in inclement weather. It represents a new idea from a convenience standpoint, and by its use the storm curtains open with the doors from top to bottom. This patented feature does away with the necessity of cranking or sliding when alighting from the car, and prevents crushed hats and broken feathers.

To protect the owner against theft and unauthorized use of his car Studebaker this year adds a Yale pin tumbler lock to the equipment on dash. Without its own proper key to unlock ignition switch, the Studebaker cannot be operated.

The same Studebaker motor that was used in the Series 17 models has been retained in detail, but no radical changes have been made. The principal feature is the elimination of all noticeable vibration. This has been accomplished by using a new piston and the lightening of certain reciprocating parts.

The department of water supply announced that 2,000,000 gallons of water was used one night in Brooklyn to keep exposed plumbing from freezing.

The total value of the exports invoiced at the American consulate in Germany for the United States during 1916 was \$8,349,908, as against \$39,967,183 for 1915.

Studebaker 50 H. P., 7-Passenger Touring Car, \$1350 Honolulu

Very little need be said regarding the mechanical perfection of the new SERIES EIGHTEEN Studebakers. The public already knows that Studebaker automobiles in material, mechanical design and workmanship are standards of quality. The policy of Studebaker to build into its products the integrity and honesty of a great name is accepted in a world-wide sense as a guarantee of the excellence of Studebaker construction. Regardless of the price you pay, you cannot obtain greater intrinsic value, and there are very few cars indeed that can equal the new Studebaker Series Eighteen in beauty of line, elegance of finish, comfort, convenience and easy riding qualities.

The dignified beauty and elegance of this car are only partly apparent from the above illustration.

The depth and luster of the justly famous Studebaker paint and varnish work enhance the rich and distinctive appearance of this, the newest Studebaker, SIX.

There is a massiveness, a substantiality in the impression which this car gives, suggesting clearly its great power, stamina, endurance and splendid construction.

The crown fenders have been remodeled and lengthened. You will also note from the illustration that there is a straight, smooth flow of line from the tip of the radiator to the rear of the tonneau which, with blending curves, perfects the harmony and symmetry of the entire design.

The finest of chrome vanadium, chrome nickel steel, the perfect mechanical design, the truly wonderful development of Studebaker standards of accuracy and inspection, are the hidden factors which make this car a true thoroughbred of the road.

NOTICE OF INTENTION TO CHANGE THE GENERAL COUNTY REGISTER

In accordance with the provisions of Section 65 of the Revised Laws of Hawaii for 1915, it is proposed to change the General County Register on Saturday, March 3, A. D. 1917, by erasing therefrom the names and signatures of the following, known to me to be dead by record of the Board of Health of the Territory of Hawaii and by information received from individuals; also of those known to me to have been permanently removed from the City and County, and names of those who have made application in writing to have their names stricken off the list by reason of permanent removal from the City and County.

Table with columns: NAMES-DISTRICTS, Registered: Affidavit, Pre., Dist., Date of Death. Lists names and registration details for various districts.

Table with columns: Name, Age, Sex, Date of Birth, Date of Death. Lists names and vital statistics for various individuals.

DEATHS LEAVE DUAL EMPIRE MORE CLOSELY WELDED THAN BEFORE

VIENNA, Austria—Politically the death of Emperor Francis Joseph and the assassination of Premier Stuerghk during 1916 left the empire-monarchy altogether unaffected. Emperor Charles has stepped to the head of the governmental machinery without a tremor disturbing the state. The various races constituting Austria-Hungary have been welded into a whole by the war in matters affecting nationality, without, however, forgetting their special interests as was shown when the Ruthenians objected to the absolute self-government given by Emperor Francis Joseph to Galicia. The Ruthenians feared that the new order of things in Galicia would give the Polish element the upper hand to such an extent that oppression would follow. Like most Slav people, Pole and Ukrainian are distrustful of one another and it is asserted that the Polish nobility in Galicia is not scrupulous enough politically to cause the Ruthenians to view their future with much assurance. It is possible that the Austrian crown will take some measures to safeguard the interests of the Ruthenians. Czech Problem Eliminated The Czech problem has been solved during the year by eliminating itself. It was at no time a large affair, consisting largely of some seditious efforts of certain Pan-Slav Czech leaders, four of whom were recently condemned to death on charges growing out of the mutiny of a Czech regiment on the field of battle. There is no reason to believe that the Czech race stood behind these efforts, not if the conduct of Bohemian regiments against the Italians and Rumanians is to serve as an indication. Public bodies throughout Bohemia have repeatedly disavowed the self-appointed Czech leaders in foreign countries. On the occasion of the late emperor's death, the condolences from Bohemia were probably the warmest received. Polish Element is Pleased Austria-Hungary's share in the establishment of the kingdom of Poland was in the main negative, and the result of a compromise between Austria and Hungary, reached for the sake of maintaining within the empire the balance of power thought necessary to safeguard the individual and collective interests of the racial groups governed from Vienna and Budapest. Fearing that the joining of Galicia to Congress-Poland, and the close attachment of this greater kingdom of Poland to Austria, would diminish Magyar influence within the dual state, Hungarian statesmen were willing to have Poland incline more towards Germany, as has been the case in these first days of the new state. To satisfy the Poles in Galicia, Emperor Francis Joseph granted them the greatest measure of self-government compatible with the sovereignty of the crown. The Polish element in Galicia appears greatly pleased with the new state of affairs. Various Events Influence The Hungarians diet has also been in session throughout the parliamentary period, listening for much of its time to attacks upon Premier Tizza and Baron Burian, Austro-Hungarian minister of foreign affairs. The opposition charged that the men in Vienna had closed their eyes to the course of events in Bucharest, and had permitted themselves to be lulled into a false sense of security, the Rumanian army invading Transylvania as the result of this. Debates of the question were cut short as much by military events in Transylvania as by the defense which Count Tizza put up. The food situation also occupied the Hungarian

Second-hand cameras and lenses bought, sold or exchanged. Kodagraph Shop, Hotel and Union sts. 6307-11

LOAN ASSOCIATIONS IN FAVOR AT HOOD RIVER
HOOD RIVER, Ore.—It is likely that three or four rural credit loan associations will be organized by the orchardists of the Hood River valley. The trend at the present time seems to be for the residents of each section covered by a large irrigation system to organize a loan society. Ranchers of the west side under the ditch of the Farmers' Irrigating Company have already organized an association, and a meeting will be called for the organization of all Grove orchardists whose property is covered by the Hood River irrigation district.

LEGAL NOTICES
IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii—At Chambers—in Probate.
In the Matter of the Estate of Victoria K. Kallilul, a Minor.

Order to Show Cause on Application to Sell Real Estate
On Reading and Filing the Petition of Annie Hookeanu, Guardian of Victoria K. Kallilul, a Minor, praying for an order of sale of certain real estate belonging to said minor, being one-sixth (1/6) interest in the Kallilul lands, at Kaupoo, Island of Maui, Territory of Hawaii, described as R. P. Grant 2886 to James G. Graham, containing 45 acres; R. P. Grant 2910 to W. H. Dedrick, containing 112 acres; R. P. Grant 3361 to Phillip Kamai, containing 24.61 acres; R. P. Grant 3341 to P. Kamal, containing 25.43 acres, and setting forth certain legal reasons why such real estate should be sold, to wit, that the value of said interest in said lands be converted into cash for the purposes:

(A) Of payment to petitioner for the cost of the maintenance of said minor;

(B) of the present and future support of said minor;

(C) that the residue of the cash avails from such sale be invested for the benefit of said minor;

It is hereby Ordered, That the heirs and next of kin of said Victoria K. Kallilul, and all persons interested in the said estate, appear before this Court on Friday, the 23rd day of February, A. D. 1917, at 9 o'clock a. m., at the courtroom of this Court, in the City of Honolulu, then and there to show cause why an order should be granted for the sale of such estate.

And it is further Ordered, That notice of this order be published at least three successive weeks before the said day of hearing in the Honolulu Star-Bulletin newspaper, published in Honolulu, the last publication to be not less than ten days previous to the time therein appointed for said hearing.

Dated Honolulu, January 20th, 1917. (Signed) WM. L. WHITNEY, Second Judge of the Circuit Court of the First Circuit.

Attest: (Signed) A. K. AONA, Clerk, Circuit Court of the First Circuit. 6683-Jan. 26, 27, Feb. 3, 10

A charter was granted to the Ajax Rubber Company, Ltd., of Canada with a capital of \$1,000,000.

A charter was granted to the Lake Winnipeg Paper Company, Ltd., with a capital stock of \$5,000,000.

IN THE CIRCUIT COURT OF THE First Judicial Circuit, Territory of Hawaii—At Chambers—in Probate.
In the Matter of the Estate of Nenekichi Sato, Deceased.

Notice of Order for Hearing Petition for Administration.
The petition of G. Sato of the City and County of Honolulu, Territory of Hawaii, alleging that Nenekichi Sato, late of Honolulu aforesaid, died intestate at Honolulu aforesaid, on or about the 22nd day of January, 1917, leaving property in the Territory of Hawaii necessary to be administered upon, and praying that Letters of Administration issue to him, having this day been filed:

It is Ordered that Tuesday, the 27th day of February, 1917, at 9 o'clock a. m., be and hereby is appointed for hearing said petition in the Court Room of this Court at Honolulu aforesaid, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted.

By the Court: A. K. AONA, Clerk. Honolulu, T. H., January 27th, 1917. HOLMES & OLSON, Attorneys for Petitioner. 6694-Jan. 27, Feb. 3, 10, 17, 1917.

NOTICE OF DISSOLUTION OF COPARTNERSHIP.
Notice is hereby given, that the copartnership lately known under the firm name of RETIRE & SUPPLY CO., was dissolved on the 30th day of December, A. D. 1916, and a new copartnership organized to take the firm name of RETIRE & SUPPLY CO., with offices and shops at 1132 Nuuanu Street, Honolulu. By the terms of the transfer all assets and liabilities of the late company are assumed by the new copartnership.

RETIRE & SUPPLY CO. YUEN YIM, Treasurer. January 17, 1917. 6688-Jan. 20, 27, Feb. 3, 10, 17.

The value of Canada's nickel industry in 1916 is estimated at \$23,000,000, against \$20,423,348 in 1915.
