

BIDS FOR COMPLETION OF WORK ON THE HILO AND KAHULUI BREAKWATERS FURNISH SOME SURPRISES

But One Tender Presented for Maui Harbor Construction and Is Protested.

CLAIM UNFAIR TREATMENT

Two Contracting Firms Charge the Kahului Railroad With Illegal Participation.

CONSTRUCTION WORK ON HILO BREAKWATER.

Feeling complications yesterday developed in the bidding on the construction of the Kahului Harbor breakwater, when the tenders were opened in the office of Maj. E. Eveleth Winslow of the engineers, and only one was found, accompanied by several protests from other would-be bidders.

The protests are variously based on the fact that the Kahului Railroad Company has refused to quote rates on hauling rock for the breakwater and on the assumption that it is itself a bidder, contrary to the rules of the interstate commerce commission.

On this last point, the Lord-Young Engineering Company, which filed the most emphatic protest, mentions a ruling which forbids a railway corporation from bidding on federal work which involves carrying stone used over its own lines.

In answer to this, Superintendent Williams of the Kahului Railroad denies that his company is barred from the work.

The other protest was filed by the Morgan Dredging Company, by its president, J. J. Belsor, who claims that the railroad refused, not to quote rates, but to quote rates which made it possible for them to bid.

The Kahului Railroad offered two bids, one on the delivery of stone and construction of the breakwater, and the other on delivery only, for the government to construct. The first was \$1.85 a ton and the second \$1.35 a ton. The bids and protests will all be forwarded to Washington and there passed upon. The whole matter will probably be laid before the interstate commerce commission for decision.

The Lord-Young Protests.

In President Ed. Lord's protest on behalf of his firm he says:

"The Kahului Railroad Company is a public service corporation and is the only means by which the rock specified by you for the construction of the breakwater can be brought thereto. It is impossible for us to bid without a rate from the railroad company, which owns the only line to the breakwater and controls the only suitable rock available for the construction."

"Because of the action of the Kahului Railroad Company in declining to furnish us a price per ton for rock, including hauling the same, as set out in our letter of October 2, 1910, we are unable to compete with the railroad company for the work. We therefore make this our protest against awarding a contract for breakwater construction at Kahului Harbor, Maui, Territory of Hawaii, under specifications in accordance with your advertisement of September 14, 1910, on the ground that the Kahului Railroad Company, which will be most benefited by the construction of the breakwater, and which prior to the appropriation under which the work herein referred to is to be carried on, had for its own convenience constructed a portion of said breakwater, has declined to place the bidding for the work upon a competitive basis and seeks to obtain the advertised work for itself at its own price."

"On the further ground that the Kahului Railroad Company is a railway corporation and can not, within the United States Interstate Commerce Act, bid upon federal work which involves carrying stone used in the work over its own line."

Prohibitive Rate.

President Belsor of the newly organized Morgan Dredging Company, stated in his official protest, as follows:

"Acting under information quoted to us by your Mr. Quinn and your Mr. Whittemore, to wit: that the Kahului Railroad Company would quote a rate of fifty cents per ton for furnishing and laying all trackage from shore end of Kahului breakwater to quarry in Camp Four Gulch, do all the hauling, including the furnishing of necessary equipment, and give free use of quarry, we have investigated the Kahului breakwater with the intention of bidding on same."

"We have, however, been unable to secure from the railroad company any rates which would enable us to submit a bid on said breakwater."

Railroad Replies.

The Kahului railroad's replies to the requests of the two contracting companies vary in but one respect, as it stated to the Lord-Young company that it did not care at this time to give rates to other bidders and while stating the same to the Morgan Dredging Company, added the rate which the latter considers prohibitive.

In its letter to Messrs. Hoops and Belsor of the dredger company, Superintendent Williams of the railroad said:

"We regret to say that we do not feel disposed to make bids on any portion of the work of the breakwater to third parties at this time, as this company is about to bid for the construction of the breakwater as a whole."

This, in effect, was identical with the answer given the Lord-Young company.

(Continued on Page Four.)

KUHIO PUT THE PEOPLE RIGHT

McCandless Had Stirred Up a Lot of Questions, Which Were All Answered.

"I followed up Link on Hawaii and talked with the people in a general way, telling them what the Republican party has done for the land," said Prince Kalamannale yesterday, on his return from campaigning on Hawaii and Maui.

"After I had finished I asked them, generally, if they had any questions to ask me. Sure enough they had, questions they had stored up ever since Link talked to them. I knew they would ask questions, so I didn't dwell on the subjects which those questions would contain. Their questions dealt with the stuff Link had handed out to them. I put them right. I let it sink in, and I know it has been effective. I feel very sure of Hawaii."

The Prince campaigned on Maui. He found things in a turmoil there, and there is much trouble in all the parties. The Republicans are no better off than the others, and there is considerable knifing. Maui will be again visited by the Prince and he will endeavor to straighten out some of the knifs.

He will shortly leave for Kauai and make a thorough canvass of that island. Last campaign the Prince did not make much of a stay on Kauai. This time, however, in deference to the wishes of the people there he will make a longer visit and get thoroughly acquainted with them.

It is altogether likely that the Delegate will confine his campaigning largely to the other islands and do Oahu in the very last days.

Today the candidates will accompany Delegate Kalamannale to Waiananalo where they will make things hum. Waiananalo has hitherto been left very much to itself politically, but the candidates will show themselves and make it one of their places of visitation. A man will be spread there for all comers.

On Monday night a rousing rally will be held in Kakaako by the Republicans, and on Tuesday night another big rally will be held in the fifth district. The big meetings will be alternated from fourth to fifth, with smaller precinct meetings going on meanwhile.

Just how successful Kuhio's Hawaii trip was is told as follows by the Hilo Tribune:

Supervisor Fernandez, candidate for the senate, returned to Hilo last week in time to attend the meeting of the board of supervisors, after having been with Delegate Kalamannale throughout his stumping trip through the Kau and Kohala districts.

The Kau and Kona districts have always been regarded as the most dangerous as far as Kuhio is concerned, Kau because the matters pertaining to the administration of the land law had there come to somewhat more of a focus than is generally the case, and Kona because these districts have always in the past been a Home Rule and Democratic hotbed. Furthermore, it was reported in Hilo that Link McCandless had made more of an ordinary success of his tour through Kona.

For that reason the report which is brought here by Fernandez is particularly pleasing. The Delegate was well received in most places, and while the seed sown by McCandless in several instances cropped forth through questions and objections made by voters who attended the Kuhio meetings, the Delegate was in every instance able to show the justice of his views and actions, and to convince the doubters that McCandless had not always been strictly truthful. On the whole, the trip of the Delegate on the leeward side of the Island was a success, and there can be no doubt but that he strengthened himself considerably and did much towards obliterating the work done by Link.

Resolution of Thanks.

"When we left Puna for Kau on

SHERIFF SAFFERY OF MAUI HAS BEEN FORCED TO RESIGN

Examination of His Books Show an Apparent Shortage of Six Hundred Dollars ---Loose Bookkeeping.

(Mail Special to The Advertiser.)

WAILUKU, October 13.—Another official is in trouble with a cash shortage in his accounts. This is Sheriff Saffery, who has resigned from his office and handed over his powers and position to Clement Crowell, the deputy sheriff of Wailuku, the Republican nominee for election as sheriff and chosen of the board of supervisors to fill out Sheriff Saffery's uncompleted term.

A recent examination of the books of the sheriff's office show that he is about six hundred dollars in the bad. Yesterday the official sent in his resignation to the board of supervisors, being forced to do so from the report

turned in by the county auditor regarding his accounts. The books have been kept in a most careless manner and no satisfactory showing is made where a large part of the moneys collected by him for bail, bonds and on writs of execution have gone.

His friends on Maui are hoping that the sheriff will be able to furnish an explanation satisfactorily as to the disposition of these moneys, said to aggregate some six hundred dollars.

Sheriff Saffery has been in the public employment for a number of years. He served creditably as police captain in Wailuku and was promoted to deputy sheriff there to succeed Deputy Sheriff Hayselden, resigned, in 1902. He was elected by a good majority in 1908 as county sheriff.

At the request of the territorial grand jury, made yesterday afternoon in a presentation to Judge Cooper of the circuit court, the judge has issued a citation for Henry N. Clark, formerly second clerk of the district court of Honolulu, to appear before him at nine o'clock this afternoon and show cause, if cause he have, why he should not be adjudged in contempt of court for refusing to answer questions put to him by the inquisitors concerning the checks signed by Ben Zablan and Judge Andrade that figure in the investigation being conducted into the alleged crookedness in the district judge's office.

Clark, it is stated, is acting on the advice of his attorneys in refusing to answer the questions put to him, his ground for so refusing being that to answer might tend to incriminate himself.

Clark is in the same position as was James L. Holt some months ago when the ex-assessor, who was charged with embezzlement of public funds, refused to answer questions of the grand jury as to where he got his information concerning the supposedly secret deliberations of the grand jury. The circuit judge ruled at that time that Holt must answer, so it is probable that he will rule in a similar manner in regard to Clark, especially as Clark's ground for refusing to answer is identical with that

of Holt.

STORM BEATING DOWN CUBAN SUGAR CROPS

HAVANA, October 15.—The northern provinces of Cuba are held in the grip of the severest storm that the West Indies have known for years. The Caribbean wind is raging across the island at the rate of eighty miles an hour and it is feared that the sugar crops are suffering heavily.

TWENTY-THREE LOST IN MARINE DISASTER

ST. NAZARE, October 14.—The steamship Ville de Rocheford was sunk today in a collision with the steamship Peveril. Twenty-three persons were drowned.

SWIFT ACTION BELIEVED TO HAVE BROKEN STRIKES

PARIS, October 14.—The backbone of the strike that has tied up practically the whole of France is apparently broken. The strikers still continue a little guerrilla warfare, but the prompt action of the authorities in arresting five of the leaders yesterday seems to have disheartened them, and it is anticipated that there will shortly be a cessation of actual hostilities.

A bomb was exploded in the street last night and another was found today before it went off.

STORM SWEEPS OVER THE BALTIC COASTS

ST. PETERSBURG, October 14.—A great hurricane broke over the Baltic Sea and North Atlantic Ocean last night, and the result is scores of wrecks of large and small boats and the loss of hundreds of lives.

WHITE IMMIGRANTS MUST BE SECURED, DECLARES A DEMOCRATIC SENATOR

Newlands, of Nevada, Declares This Is Greatest Provision in the Defense of Pacific---Meyer Makes Startling Speech.

SAN FRANCISCO, October 15.—

Emphatically urging the country to seek white immigrants for Hawaii, Senator F. G. Newlands of Nevada, who is here with Secretary of the Navy Meyer, last night made a stirring address before a large gathering of local business men, on Hawaii's position in the national scheme of defense on the Pacific.

He declared that there was the greatest necessity on the part of the country as a whole to secure for Hawaii immigrants which would not turn upon the flag in case a hostile demonstration was made by what is at present the greatest naval power on the Pacific, Japan.

In his whole address he showed a keen grasp of Hawaiian affairs and needs. As a Democrat he was voicing the sentiments of his party and from statements made by Secretary Meyer, the opinions of the present federal administration as well.

He impressed on his hearers the emphatic need of a greater fleet in the Pacific and said that the country was forced to contemplate the menace of a hostile Japanese fleet in front of Hawaii, where a preponderance of Japanese in the population of the Islands who would turn upon their adopted country, would lose for the United States at one blow, not only the Territory but its whole domination of Pacific commerce.

ABOLISH ATLANTIC NAVAL YARDS.

Secretary Meyer, who has just reached the city after an inspection of the Mare Island naval yard, made one of the most sensational addresses of his administration of the Navy, advocating in emphatic statements the abolishment of half the great navy yards on the Atlantic coast.

The money and energy thus saved, he declared, should at once be diverted to the Pacific ports, there to build up and develop two of the greatest naval centers in the country. His conclusions, he stated, were based on his experiences and observations while inspecting the coast navy yards.

PAYS VISIT TO TAFT IN HIS AEROPLANE

WASHINGTON, October 15.—Graham White, the famous amateur English aviator, yesterday visited the Capitol in his aeroplane, making a difficult landing in a narrow street without accident or inconvenience. His feat was witnessed by a great many people, who saw him flying above the city, and Admiral Dewey and others hastened to congratulate him on the precedent he had set.

LAND CONSPIRATORS TO ANSWER LEGALLY

SEATTLE, October 15.—The most important step yet taken by the government in its investigation of Alaska land matters was taken yesterday when seven of the most prominent financiers of the Northwest were indicted for conspiracy to defraud the government.

All the lands were coal mines, including the fabulously wealthy Bering River fields, which the government values at one hundred million dollars. In all, 17,000 acres were filed upon, there being 154 entries placed against them.

MRS. NUNES DIED IN THIS CITY WEDNESDAY

Mrs. Mary Isabella Nunes, aged 64, who came to these Islands in the first Portuguese immigrant ship, died at her home in this city on Wednesday last, the funeral services being held on Thursday. Mrs. Nunes was very well known, having a large circle of friends in this community and being universally esteemed. The family left to mourn her departure consists of her husband, two daughters and three sons. The daughters are Mrs. Virginia Farrage and Mrs. Mary Carlos. The sons are Antone and John in this city, and Joe on the mainland. A daughter, Mrs. Fred Johnson, died several years ago.

BREAKS WORLD'S RECORD IN FRENCH MONOPLANE

ST. LOUIS, October 15.—The French aviator, Leblanc, yesterday broke the world's record for speed in his monoplane, covering a measured mile in fifty-three seconds. While faster time has been made in flights, no aviator has ever started and finished within the mile in this time.

NORTH SEA VOLCANO ISLAND ERUPTS

SEWARD, Alaska, October 14.—News has been received here that the volcano of Bogoslov, on the Island of Bogoslov, is in violent eruption. Bogoslov is one of the many volcanic islands in the Aleutian group.

HENRY N. CLARK CITED TO ANSWER

(Continued from Page One.)

upon which Holt based his refusal to answer questions put to him by the inquisitors.

Will Probe Deeply.

It is evident that the grand jury has resolved to get to the bottom of the whole question. Several of the grand jurors have taken matters into their own hands and are making independent investigations during hours when the grand jury is not sitting.

Checks Figure Largely.

The most important evidence in the hands of the grand jury, aside from the testimony of James Lloyd, the deputy auditor who uncovered the unwholesome condition of affairs existing in the district court, consists of the two checks signed by Judge Andrade and the check signed by Ben Zablan. And it is in reference to these checks that the grand jury wishes to examine Clark and Clark refuses to answer.

Andrade's Check Unendorsed.

According to the testimony given by Lloyd, Judge Andrade's check for \$335 was signed on July 13. It was made out payable to Frank Andrade, district magistrate. But it was not endorsed on October 5, when Lloyd, in going over the cash and cash account of Second Clerk Clark, found it.

When Lloyd found this check and also another signed by Andrade and made out to "Cash," he called in Andrade and asked him to write out a counter check covering both the other checks. This counter check was cashed and Andrade, it is stated, asked that the worthless checks be returned to him. But this Lloyd refused to do, holding them as evidence. They are now before the grand jury, as is also the check for \$120 signed by Ben Zablan and which, it is claimed, was worthless as Zablan had no funds in the bank of Bishop & Co. on which the check was drawn.

When the grand jury handed in its presentment to Judge Cooper yesterday, the city attorney asked that a citation be issued for Henry N. Clark. This motion was granted and Clark will appear before the judge at nine o'clock this morning.

Grand Jury's Presentment.

The presentment speaks for itself, explaining in full the situation that now exists. In it the grand jurors say:

We, the grand jurors of the first judicial circuit of the Territory of Hawaii, for the January term thereof, respectfully report and present the following:

That on the thirteenth day of October, 1910, and in the afternoon of said day, the said grand jurors being in due and regular session as the grand jury of this court, had under investigation the matter of the office of the district magistrate of the district of Honolulu in this circuit, and the funds and moneys received and collected by said district magistrate on account of the fines and costs, and other matters arising in said district court of Honolulu and the disposition thereof, and thereupon it became necessary and material to said inquiry to ascertain whether or not a certain check, more particularly described in the questions hereinafter set forth, was turned in as part of the cash of said district court on or about the seventeenth day of August of this year, and if turned in by whom, and thereupon the grand jury called before it a witness, Henry N. Clark, at the last named date and prior thereto the second clerk of said Honolulu district court and cashier thereof, and the said Henry N. Clark, being then and there duly sworn, was asked the following questions:

Q.—When did you first see this check? (The witness was shown a check, dated August 16, 1910, payable to cash or bearer, for the sum of \$120, drawn on the banking house of Bishop & Co., and signed B. P. Zablan, trustee.)

A.—I do not remember.

Q.—Was this check turned over to you by B. P. Zablan as part of the cash of said Honolulu district court upon your return from your vacation on August 17 of this year and the resumption by you of your duties as cashier of said court?

Whereupon to the last question the said witness, Henry N. Clark, declined and refused to make answer, upon the ground that the same might tend to incriminate himself.

It became further material and necessary in said investigation to ascertain what, if any, instructions were given by the district magistrate, Frank Andrade, in reference to the presentation for payment of a certain check signed by Frank Andrade, trustee, more particularly described in the question hereinafter set forth and found among the funds of said district magistrate, and thereupon to that end the said witness, Henry N. Clark, duly sworn as aforesaid, the following questions were put by the said grand jury:

Q.—What did Judge Andrade say about this check? (Witness shown check, dated July 13, 1910, payable to the district magistrate of Honolulu or order, for the sum of \$335, drawn on the banking house of Bishop & Co., and signed Frank Andrade, trustee.)

Q.—Was this check cashed by you out of the funds of the district magistrate's office?

Q.—What, if any, instructions did Judge Andrade give you about presenting this check for payment?

Q.—What, if any, instructions did Judge Andrade give you about carrying this check as cash in the funds of the district magistrate's office?

Whereupon to each and every one of the above questions said witness, Henry N. Clark, made answer that he refused and declined to answer said questions on the ground that the same might tend to incriminate himself.

The grand jurors respectfully request that such action may be taken by this honorable court as will compel the said Henry N. Clark to answer the questions above set forth and to disclose to the said grand jury the information, if within the knowledge of said witness, sought to be elicited by the questions aforesaid.

NEW GOVERNOR OF TUTUILA IN TOWN

Commander Crose En Route to American Island in Samoa.

Commander W. M. Crose, United States Navy, the newly appointed naval governor of American Samoa, is a passenger aboard the Canadian-Australian steamship Marama, en route to his post of duty by the roundabout route necessary to arrive at any place in Samoa since the Oceanic line withdraw its Samoan service. Commander Crose is accompanied by his wife and two daughters.

The United States Navy is represented in Samoan waters by the gunboat Annapolis, one of the smaller vessels of the navy, and one of the vessels completed about 1897. She has a speed of considerably less than twelve knots. She is a good type of vessel, however, and it is likely she will be kept at Tutuila for some time. The commandant has quarters ashore, but the crew on duty have their quarters on the gunboat.

Officers and families destined for Tutuila now travel on the liners out of Victoria, going to Auckland, transhipping to vessels which occasionally go to the Samoan group. It is a long way to get there, but it is apparently safer than going by tramp freighters, as on one occasion several officers and their wives were wrecked in the British steamship Aeon which went to pieces on Christmas Island. This vessel left San Francisco for Samoa but disaster overtook it and the passengers were finally rescued from the islet after searching parties had scoured the ocean for traces of the vessel.

THEATRICAL TROUPE ARRIVES ON MARAMA

Ready to Open in Series of Good Plays at New Orpheum on Monday.

Twelve members of the George B. Howard company, headed by George B. Howard himself, were passengers on the belated Marama, which arrived last evening from the mainland. The new company is made up of some well-known performers and brings a repertoire of plays of the latest model, many of the dramas and comedies being present mainland successes. The fact that the company has been long organized makes it possible for them to put on the respective pieces without much preparation, and at the same time gives assurance that their offerings will be given in perfect presentation. Robert McKim, the leading man of the organization, is the only member of the company missing, but he will arrive here Sunday on the Hilonian. Among those who arrived last night are George B. Howard, Guy Hiner, James Norton, Charles Murphy, Oliver Bailey, Arthur Elton, Mary Dunn, Betty Johnson, Dorcas Mathews, Eva Martella and Mrs. Oliver Bailey.

"Father and the Boys," which will be the opening presentation Monday night, is from the pen of George Ade, and deals with an elderly business man, imbued with only the idea of business, and of the happy marriages of his boys. The sons have no tastes for office drudgery, one being athletically inclined and the other something of a worshiper at social shrines. Finally the old man wakes up and decides that if he would interest his offspring in work he must take some interest in the things they enjoy. He cuts loose and has the time of his life, going so far that the boys are afraid that he is going to cause the family to be talked about. Responsibility and the desire to hogtie their giddy old dad brings out the stuff in the sons, and the plans of father finally work out, except that he has merely shifted the brides-to-be of the boys.

George Howard himself takes the part of the father, and his interpretation is said to be irresistible. According to reports from the mainland, the whole cast is well balanced, and charming gowns, pretty faces and good settings are promised.

MAURETANIA MAKERS BUILT PRINCE RUPERT

SEATTLE, October 2.—With a special steamer chartered and plans completed for one of the biggest excursions ever started from Seattle, the Seattle chamber of commerce yesterday made announcement of its winter excursion to the Hawaiian Islands, a trip which will combine sightseeing and a commercial visit between business men of the Northwest and those of Honolulu. The excursion will leave Seattle February 2 on the Grand Trunk Pacific's new twin-screw steamer Prince Rupert, and will spend thirty-two days on the trip. The Prince Rupert is the fastest and most luxurious ship which could be secured, making eighteen or nineteen knots an hour, her accommodations for carrying 216 passengers being the finest.

Chamber of commerce members and others who are anxious to tour the Islands will be invited from other cities of the Northwest, and the Seattle chamber will seek to have a representative group of business men from the principal cities of this section make the trip. The plans, as made public yesterday by Secretary C. B. Vandell of the chamber of commerce, call for a day's stop, February 11, at Hilo, the first place to be touched on the islands.

A journey will be made to the crater of Kilauea, the famous volcano which has been active since the earliest record of Hawaiian history. From Hilo the Rupert will proceed through the Islands to Honolulu, where the Honolulu chamber of commerce will be the host of the party during a ten-day visit. Trips to points of interest in the interior will be features of the stay, and the guests will witness the annual Royal parade, the gala event of the year on the Islands,

CLEANING HATS

We believe the patrons of the Hat Cleaning Department of this establishment will bear us out in the statement that the most expert handler of soiled hats is with us.

Panama Hats that appear to have been under the road roller when brought in for repairs go back to the customer as shapely and clean as when they originally left this store. The fee for cleaning and repairing a Panama or Straw Hat is small and the satisfaction in having one to which you are accustomed and which is shaped to your head is not to be measured in dollars.

Commissions of this character are promptly attended to and hats returned to residences. We solicit your patronage for this department with the assurance that the work will be well done.

SPORTS

HORSE RACE IS STAR SPORT EVENT TODAY

Lizzie Moore and Mary Winkel-
field Will Tear Off Half-
Mile for \$500 Purse.

The leading sporting event in Honolulu today will be the horse race at Kapiolani Park which is scheduled to start at four o'clock this afternoon and, if the last turf event run off there is a criterion, all the standing room will be taken and the trees will be full of spectators. Lizzie Moore and Mary Winkelfield will tear off half a mile to see which one of the owners hauls down the \$500 purse. There will be a few minutes of anxious expectancy during which interval the sports will back their judgment of horses' strength enough to give them a thrill of suspense and then there will be a few seconds of concentrated enthusiasm while the nags are running off the wagers and deciding the question which has been agitating Manuel Ferreira and William Beckley for some time.

In the last race Beckley's mare Lizzie Moore swept the stakes, but Ferreira and a number of spectators were not satisfied that Lizzie was the faster mare of the two. Mary Winkelfield, they said, was poorly ridden, and her jockey was too heavy to make it a good test of speed.

Cal Leonard, who has a reputation and captured the blue ribbon event riding the mare Flavinny in the last Maui meet, has since taken hold of Mary and will ride her today. The native lad, Opono, will be Beckley's jockey as before.

TENNIS TOURNAMENT WILL END TONIGHT

Mrs. Coulter and Clarence Cooke
Win Mixed Doubles Feature
of Meet.

Mrs. Ethel Coulter and Clarence Cooke won the mixed doubles feature of the Manoa Valley tennis tournament last night by defeating Mrs. Clive Davies and Dave Anderson 6-1, 6-4, and the six nights' meet will end this evening with the finals in men's singles and men's doubles, when A. M. Nowell will fight it out for individual honors with Dick Cooke, and Dick Cooke and C. G. Beckus will take on Atherton Richards and Clarence Cooke.

Atherton Richards was retired by Dick Cooke in the semifinals last night by the score of 11-9. In the doubles young Richards won out with Clarence Cooke against W. T. Schmidt and L. J. Warren, 10 to 8. Schmidt and Warren took the first three games and then Richards and Cooke tapped it off for ten straight. A. M. Nowell subdued H. R. Savage 10-3 in the opening match of the evening, then came the mixed doubles attraction, and the third event on the program between young Richards and Dick Cooke was the strenuous struggle of the evening. Atherton and Clarence Cooke ran away with Schmidt and Warren at the finish.

The weather got wise that there was going to be something doing again last night and the wind and rain held aloof until just toward the finish when a gentle shower fell upon the victors. The same big throng was there again last night to delight the players at their popular pastime and to make the function a social success.

The courts are splendidly located in College Hills so that autos can be lined up along the roads, giving the occupants a fine view of the playing.

OAHU JUNIOR LEAGUE TO PLAY AT ATHLETIC PARK

The Oahu Junior league teams will undertake to play a double-header at Athletic Park tomorrow afternoon, beginning at half-past one o'clock. Sam Hop said last night that several loads of dirt had been dumped into the hole in places and the diamond was in condition to hold a game. The Asahi team will appear in new baseball suits of light gray and try to win out in spite of the consciousness that they are attired in new togs.

The first match will be between the Palamas and the C. A. C. team, and then the Asahis will tackle the Mubocks. The batteries are: R. Kamai and J. Lopes for the Palamas, Ahana and Kau Pa for the C. A. C. team, T. Moriyama and Morakami for the Asahis and Wah Kai and M. Akio for the Mubocks.

MEDICINES MADE FROM ROOTS AND HERBS.

In the good old-fashioned days of our grandmothers they depended upon medicines made from the roots and herbs of the field to cure disease. Lydia E. Pinkham's Vegetable Compound, that standard remedy which is made from roots and herbs for woman's ills, had its origin in this way. For thirty years it has been redeeming its promises written on the label of every bottle by curing thousands of women of feminine ills. It's a good, honest medicine.

PLAY MANOA GOLF FINALS TOMORROW

Winner, Runner-up and Best Net
Score Man Will Be
Awarded Prizes.

The final rounds in the Manoa cup golf tournament will start tomorrow morning at ten o'clock and the sixteen who qualified will be expected at the Oahu Country Club to play it out to the finish. They can't all win, but there is a chance for any three of them to capture a prize and members of the greens committee said yesterday that they all ought to be good sports enough to fight it out to the bitter end. Some of the sixteen have dropped casual remarks during the week, intimating that as they didn't have a chance there was no use to try. There are to be three prizes awarded, however, so that every one will have a chance to land one. The winner of the tournament will get his name on the Manoa cup and a trophy besides. The runner up will be rewarded and then the standing handicaps will be applied and the one showing the lowest net score will take a prize.

Tom Gill, who tied for second place with H. B. Giffard in the preliminaries, has been practising hard every morning and afternoon during the week and he can almost see his name on the cup now, but he has Frank Armstrong, Giffard and George Angus to reckon with. Armstrong came 181 last Sunday to 184 for Gill and Giffard, while George Angus was number seven down the scale. Angus, however, won the championship last year with the lowest score ever made in the Manoa cup events which was 161. This was one stroke better than Austin White's best. Last Sunday Angus fell down to 197 strokes for the thirty-six holes. E. O. White is another important factor in arriving at the final results. He was fourth man in the order of the preliminary scores with a record of 190.

The new order adopted last Sunday in going over the course is to be permanent making the start and the finish right in front of the clubhouse, but the last tee and the starting green are going to be moved a little further apart so that there will be no danger of the drives at the finish striking those who are about to start. The greens committee has decided to make this slight change in the course and will have the clearing extended to one side so that there will be less likelihood of the ball getting lost in the brush.

WILL HAVE NOTHING TO DO WITH PUNS

Highs Would Have Them Stay
Out of Interscholastic League
Three Years.

The McKinley High School has just received a copy of the resolution adopted at the meeting of the Oahu College Athletic Association and published in The Advertiser a week ago as the official announcement of the withdrawal of the Puns from the Interscholastic league. The High School contingent said yesterday: "We are in favor of their staying out for three years. They have held the whip," the Highs added, "and every time they snapped it and said, 'Step up!' the others toed their line; and now that they are out of the league they had better stay out until they are well satisfied to conform to the rules."

A number of the Puns have expressed a desire to play the Highs on the grid-iron, leaving their postgraduates out of the games with the Highs, just to show them, the Puns said, that they could beat the Highs without the services of their veterans, but the Highs say: "No; we don't care to have anything to do with them. They got out of the league because they didn't want to live up to the rules, and they can't come into the games. They can hold a dual meet with the College of Hawaii."

"The grounds will soon be completed at the Kamehameha Schools for athletics, and the Interscholastic league can hold its meets there. There are plenty of good men among the Kams to compete against, and the Puns can take on the college men when it comes time for the field and track meet. They will have some of our old boys to buck against. There's Bill Rice and John McCandless. They will make a hard pair to beat both in the games and in the field and track events."

HONOLULU BOY TAKES CALIFORNIA BRIDE

SAN LUIS OBISPO, California, September 25.—Charles G. Eckardt, formerly of Honolulu, and Miss Juanita Martinez were married yesterday morning by the Rev. Father Garriga at the Mission Catholic Church. A number of the friends of the couple were present. Later a wedding dinner was served at the home of the bride's parents. Today the young couple, accompanied by Mr. and Mrs. D. Martinez, the father and mother of the bride, will leave for a trip to Los Angeles and other southern California points.

Newbro's Herpicide

BENEFITED

Miss Clutter's Hair

Read her letter about it:

"I herewith enclose you one of my latest photographs, which will show you what Newbro's Herpicide has done for my hair. Since using your remedy my hair is much longer than it was, and it has the lustre to it that one's hair always has when the scalp is in a healthy condition."
(Signed)

"MISS MADELINE CLUTTER,
"No. 3953 Michigan Ave., Flat 210,
Chicago, Ill."

The immense popularity of Newbro's Herpicide, particularly among the better class, is due to the fact that it never disappoints. It does all and more than is claimed for it.

Its delightful fragrance, perfect clearness and freedom from grease or oil, appeal to the discriminating, and its cleansing, refreshing and health-giving effect upon the scalp is immediately apparent.

Herpicide makes the hair light and fluffy and gives it a silken gloss.

Extraordinarily long hair is a gift of Nature that relatively few possess, but not many would complain if they could save Nature's head covering in its original beauty and luxuriance.

The dandruff germ is the greatest enemy of abundant hair. This is on account of the highly contagious nature of dandruff, which makes it almost impossible to escape the disease without the occasional use of a germ-destroying solution.

Newbro's Herpicide is the ORIGINAL remedy that "kills the dandruff germ." It promptly eradicates dandruff, stops falling hair, and (except in chronic baldness) restores the hair to its former health and activity. Herpicide stops itching of the scalp almost instantly.

Two sizes, 50c. and \$1. At Drug Stores. Send 10c. in stamps to The HERPICIDE CO., Dept. N., DETROIT, MICH., for a sample. Guaranteed under the Food and Drugs Act, June 30, 1908. Serial No. 915. BE SURE AND GET HERPICIDE

TENYO MARU SAILS TODAY FOR COAST

Leaves for San Francisco at 10 A. M.—Bumps While Docking—Has Big Freight.

The Kisen Kaisha Tenyo Maru sailed yesterday morning from China and Japan, docking at 9:15 at the Alaiea wharf, bumping the wharf a couple of times in coming alongside, just for luck. She is a big boat and it is not particularly simple task to maneuver her into one of the Alaiea slips. She came in with over 6000 tons of freight, over 1200 of which was for Honolulu, and on account of the handling of this heavy freight it will be 10 o'clock this morning before she is for San Francisco with mail and several passengers for this port.

In the cabin there were twenty passengers for this city, including Bacteriologist Mosses T. Clegg, and P. T. G. Walker, the latter returning from a far eastern business trip. Clegg is the first man who propagated the bacillus of diphtheria. He comes from Manila and will at once begin to assist Dr. D. Curran in his Hawaiian work. Doctor Clegg made his success in Manila after four years of his application. He has been in the Philippines for ten years, having gone to the islands with the military, attached to the medical department.

Nine Chinese and Japanese arrived in the second cabin and in the steerage were ninety-seven Japanese for Honolulu. In the steerage for San Francisco are forty-six Hindus, seventy-one Chinese and twenty-eight Chinese.

On her return trip here, from San Francisco, there will be several changes in the ship's company. Captain Bent will be in command again, after a vacation, leaving of one trip. Captain Villaverde took the place during the vacation of the latter. Purser Lacey Goodrich leaves the vessel to act as general passenger agent for the Toyo Kisen Kaisha and Western Pacific Railway. Freight clerk W. H. Reid will become purser. Goodrich and Reid are largely and popularly known.

Included in the freight cargo are 241 bales of raw silk destined for New York.

Shortly after leaving Shanghai the Tenyo Maru grounded in the soft mud at the mouth of the river, but there was no damage done and only a brief delay was suffered.

Examination Postponed.

The competitive examination under

FOR A LAME BACK.

When you have pains or lameness in the back, bathe the parts with Chamberlain's Pain Balm twice a day, massaging with the palm of the hand for five minutes at each application. Then dampen a piece of flannel slightly with this liniment and bind it on over the seat of pain. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

the rules of the U. S. Civil Service Commission for the position of night inspector Honolulu customhouse, which was scheduled to be held on October 22, is indefinitely postponed. Applications already filed will be retained and accepted for the third grade examination. Ample notice will be given of the date on which the examination will be held.

By order U. S. Civil Service Commission. JNO. W. SHORT, Secretary Board Examiner, District of Honolulu.

Marama in from the North. Canadian-Australian steamship Marama arrived yesterday evening from Vancouver and Victoria, docking on the Ewa side of the Alaiea wharf at 7:30 o'clock, bringing a good number of passengers for Honolulu and carrying a large crowd through to the Colonies. She left Vancouver on October 7, leaving Victoria at 8:40 p. m. of the same day.

After rounding Cape Flattery a heavy southerly gale with heavy head seas was met, which necessitated speed being reduced. After forty-eight hours the gale abated and fine weather and smooth seas were experienced for the remainder of the passage.

Among the passenger for Honolulu were the George Howard company of theatrical talent for Joe Cohen's Hotel street New Orpheum Theater. Under the supervision of an energetic committee much time was devoted to sports and social entertainment during the voyage. A very excellent musical entertainment was held in the social hall on Thursday evening, a feature of which was the presentation of the first act of the laughable comedy, "The Man from Mexico," by the George Howard company. Notwithstanding the difficulties experienced through want of proper stage fixings a fine performance was given, all the characters being ably rendered by the clever members of the combination.

Among the Honolulu arrivals was W. H. Healy of this city, who is stenographer for Theo. Davies and Company. He has been away on a six months vacation and has added much weight to his physical frame. He spent much of his time in his old home in Ireland and then he visited England. He states that in England he did not call on the new king, George V, for the reason that his family, and the king's don't happen to be very chummy.

In Love With Our Music.

Mr. and Mrs. P. M. Brooke are prominent through passengers. Mrs. Brooke is better known as Madame Betty Brooke. She is going to Australia for a few months, partly for a well-earned rest and partly to sing. Her husband is an influential business man of great wealth.

Madame Betty Brooke, the talented New Zealand lyric soprano, who was recently in London, is a pupil of Madame Mathilde Marchesi of Paris, and has also studied under Signor De Giorno at Rome and Signor Visetti, London.

"When I left New Zealand it was my intention to have a holiday, and not to do professional work," says Madame Brooke. "We had a very delightful trip from Auckland via Fiji and Honolulu to Vancouver. I am in love with the music of the Hawaiian Islands. They have a little instrument which is neither guitar nor zither, but something between the two instruments, and their native songs are very pretty. The native walk most beautifully, and en passant I may mention that it is supposed that the Maoris came originally from Hawaii, but on their long and sad journey they forgot their songs. There are no Maori songs now extant, only dirges."

"In New York I was engaged to sing at one of the largest clubs, where I had a great success. I left for Ireland at the end of July last year. While there I visited many historical castles and places of interest. At Dublin I visited Canon Vere White, who at one time was Vicar of Kildare, New Zealand. I went to Germany, spending most of my time in Leipzig, where I met Herr George Goller, Herr Gustave Schreck, Frau Hedmond—who taught Elena Gerhardt, I worked hard at German Lieder with Fraulein Spaerling."

"On February 5 I sang at the Irish Society's concert, and met Mr. Alfred P. Graves, who engaged me to sing at his lecture on Irish Minstrelsy. He has since engaged me to sing for him throughout his Australasian lecturing tour in 1911."

Matson Movements.

Matson Navigation steamship Hilonian arrives tomorrow morning from San Francisco, and on Monday will arrive the Enterprise of the same company with some of the big freight which was to leave San Francisco and which could not all be taken by the Hilonian. The Enterprise is bringing, on this special trip, 450 tons of general freight which overflowed from the Hilonian. The Enterprise leaves here Monday night for Hilo, and will sail Monday for San Francisco on Saturday next. The Hilonian will get in at nine o'clock tomorrow morning. She sails for San Francisco from this port on Saturday next. Matson's S. S. Hyades arrives today from Seattle with 1000 tons of freight. She leaves Port Allen for San Francisco on Friday next.

KUHIO PUT THE PEOPLE RIGHT

(Continued from Page One)

Napoopoo, where we held a meeting at six o'clock in the morning. There was as big a crowd there as there had been at Hookea, and we held one of the best meetings of the trip. The sentiment of the people seemed to be all for the Prince. They said that they had heard what Link had said, but that they did not believe him.

Link's Immigration Scare.

"We held a meeting at Kailua at about noon on Monday. At first the people did not seem particularly well disposed towards us; being apparently half and half between Kuhio and Link, but as the meeting went on they warmed towards the Prince, and when it was over, they all came and wanted to shake hands with him, saying that they were going to vote for him. The people said in the beginning that they thought the immigration bill was a very bad one. Link had told them that if a Republican Delegate were elected, it would result in the bringing of large herds of Russians, Porto Ricans and Filipinos into the Territory. The islands would be flooded with bad people, and the Hawaiians would all be out of their jobs. It was explained to them that under the law Filipino and Porto Rican immigration could not be stopped, and that the passage of an immigration bill was necessary in order to make possible the importation of a good class of people, such as the Portuguese and the Russians, rather than Filipinos and Porto Ricans. The Republican party wanted the importation of high class laborers, who

Gasoline Row

DRAWING PLANS FOR GARAGE ALTERATION

Associated Is Converting an Unwelcome Necessity Into a Blessing.

Seymour Hall, manager of the Associated Garage, has been the busy man on gasoline row during the week. The final arrangements for the widening of the extension of Bishop street have made necessary the alteration of the building, a long slice being taken off it on the Ewa side. This slice is nearly as long as the building itself, and is wide enough to decrease the floor space materially and uncomfortably.

Architect Kerr is now working on the detailed plans for the alterations, and Manager Hall has been burning the midnight oil figuring out his exits and entrances, as if he was preparing to stage a play.

As the plans stand at present, the garage will become one of the best arranged in the city, and will have the advantage of fronting on three streets. There will be two entrances on Bishop street, one on Merchant street and one on Queen street.

The one on Merchant street will be used for an entrance only, cars entering there having the choice of three exits. The Merchant street entrance was an afterthought, and was ordered solely as a convenience to autoists, who can drive right alongside of the auto sundry salesrooms, make their purchases and get away without leaving their cars, at the same time being able to look over the stock.

The salesrooms will be remodeled completely, and will occupy the mauka-ewa corner of the building, taking up all the room except that needed for the passageway for the machines. What is left of the present building after the Ewa wall is taken down and rebuilt further back, will be used for storage purposes only, and as the shops will be taken out, it will leave more floor space than at present.

The building will be extended on the Waikiki side to make up for the loss of room on the other, and a machine shop and repair room, sixty-five by seventy-five feet, will be constructed there. Part of this space will be devoted to an overflow room, and absolutely nothing will be done with the cars except in this annex.

On the Merchant street side of this annex will be the tire room, where the garage's complete vulcanizing and other tire departments will be installed. In front of this, again, there will be an open-air space for packing and shipping.

The alterations will commence, necessarily, as soon as the city commences the extension of Bishop street. The Royal Chauffeur.

James Quinn, supervisory chauffeur, can know to royalty with the best of them now. He knows the exact indentation of the spine necessary to please a Prince Royal of heavenly descent, a mere Sultan and a nobleman.

When Jim sized up the list of prospective arrivals at the commencement of the week he decided that he was cut out for a courtier and would try and land some of the royal fish that were scheduled to seek the waters of the Paradise of the Pacific.

Consequently he spent the first part of the week practising the bow he was going to make before His Imperial Highness Prince Tsai Hsun. He got a book of anatomy and checked off the exact vertebrae where he was to disconnect himself when the Prince was to hand him his auto fare and a brass medal.

Then the Prince got cold feet and decided that a Prince in a stateroom is safer than a fraction of one outside. Jim was in despair until the transport Sherman tied up at the Mason wharf and the eute features of the Sultan of Sulu gazed curiously over the side of the big boat.

Jim brightened up on the instant and rushed back to his auto, seized his book of anatomy and checked off the vertebrae four inches further up; for the Sultan is descended only from the Prophet of the only Allah, and has no heavenly relatives.

When the Sultan came down the gangplank, James let off the saluam at half-cock and although he got the wrong vertebrae, the Sultan was so pleased with him that he engaged him and they sailed off.

Then besides this Jim took out the Governor of Samoa when the latter arrived on the colonial liner, which gave him a fair start in his career as a courtier. He won't look at a governor now. Yesterday an unassuming young man from the Tenyo Maru stepped up to him and asked him politely if he was engaged. There was no sign of royalty about him but as there was no prince royal on that vessel, Jim condescended to answer that he wasn't.

Consequently he was extremely pleased when he discovered some few miles beyond the Pali that his fare was a nephew of the Lord Dunraven of old Hengland. Jim had chicken dinner last night, well done.

Stock Cars and Stock. The von Hamm-Young garage is responsible for the discovery of the fact that the present depression in stocks, and especially sugar stocks has had no effect on the automobile market. As all the garages have been selling off their stock cars as fast as they arrived, (and the "sugar barons" have been among the purchasers) the statement can be assumed to be true.

Several of the second-hand machines advertised by the von Hamm-Young company last week have been sold, one of them going to A. R. G. McCormick. Jones Buys Cadillac. It is reported from Boston that P. C. Jones has bought a 1911 Cadillac. Mr. Jones was one of the first owners of a four-cylinder Cadillac in Honolulu, having purchased one in 1909. He made constant use of this car on the Pali road and it was still in good condition when he sold it. The Cadillac now makes two cars which he owns.

Auto Miscellany. The Associated Garage expects three Hudsons on the Honolulu tomorrow morning. All the cars are 1911—roadster model. They will go to Alex Lyle, to Mr. Robinson of Pala and to a local man. The Schuman Carriage Company is expecting a 1911 Locomobile on the next steamer from the Coast.

HOLDS ACTOR IS NOT A LABORER

Delicate Question Settled by Decision of United States Commissioner.

Though an actor may work as hard as a plantation field hand, he—or she—is not a laborer within the meaning of the Chinese Exclusion Act, according to a very important decision rendered yesterday by A. F. Judd, United States Commissioner, in the case of the United States of America versus Mok Soey Ying.

Mok Soey Ying is a Chinese actress—one of the few now in captivity, for according to Chinese custom female characters as well as male characters are portrayed on the stage by men.

According to the commissioner, the defendant showed affirmatively that she had been a resident of the United States for a period of ten years. But notwithstanding this, she was, on July 22 last, taken into custody as a Chinese laborer unlawfully within the United States, and deportation proceedings were commenced against her. The defense took the ground that an actor is not a laborer and it was this delicate question that the commissioner was called upon to settle. As above stated, he holds that an actor is not a laborer and that the woman, therefore, is entitled to remain in the country.

PERMITS MONEY IS COMING IN FASTER

Sections This Year Greater Than Ever Before and No Trouble Develops.

These collections this year have been better than ever before and less has been experienced in collecting them than has been experienced in the law went into effect. Up to the 1910 collections, \$68,622.92 had been taken in by city Treasurer.

The greater part of this sum was in during the first month, \$13,000, coming in to the city coffers in August, collections amounted to \$26,445 and those of September to \$28,700.

Last year the figures were: July, \$16,000; August, \$7,923.44, and September, \$24,611.10, making a total of \$48,534.54. This makes the collection this year \$11,087 in excess of 1909.

The license collectors are now on the job, but with the exception of three or four boarding-house keepers who were not some time ago, they have not needed in straining up much trouble.

Some of the most interesting news on printing establishments, this being left over from last year in current court. S. S. S. of the Hawaiian Islands is also holding off by taking up on a similar charge. As one will decide the other only that far this year no new test cases have developed, the law having been thoroughly thrashed out last year.

LOCAL BREVITIES.

The new machinery for Hilo's electric light works arrived last week on the Wilhelmina.

The Democrats will hold forth at Aala Park tonight. Link Metcalless will be one of the speakers.

In the cable service yesterday morning the anniversary of the destruction of the battleship Maine was given as in May, instead of February 15, 1898.

Several members of the city government have been out on a campaigning tour of Oahu, including B. Rivenburgh, the mayor's secretary; Jack Kalakiele and Eddie Hanapi of the police department, and others.

Today a new train schedule on the Hilo Railroad extension goes into effect. There will be passenger and freight services over extensions of the line in both directions, to Kaneohe on the Puna side, and to Papaikou on the Hanalei side.

James Dougherty, Exalted Ruler of the Honolulu Lodge of Elks, who is visiting in Hilo, has asked the Hilo people to cooperate with the metropolis here in making the carnival in February a big success. He wants the Hilo Elks to take one booth.

The Honolulu Library and Reading Room Association was to have held its annual meeting last night at eight o'clock, but at eight-thirty there were but eight members present, and as it takes ten to make a quorum, President W. D. Alexander declared the meeting adjourned to next Friday at eight o'clock in the evening.

A representative of the board of immigration is making an investigation of conditions in the favel camp of the Russians. The people are living in squalor, but similar to similar colonies of other nationalities. Doctor Clark, executive officer of the board, believes much of the squalor of living is due to the lack of a tenement house ordinance.

The police ambulance last night answered an accident call at Beretania and Alexander streets where it was reported that a Portuguese had been struck by a rapid transit car. Upon arrival the victim had departed. He is supposed to have been a John Silva living on Metcalf avenue, his injuries consisting of nothing save a bad bump on the head.

The conduct of E. S. Clark, the board of health inspector at Hanouma, who recently created a disturbance at a Kulo meeting at that place, led to an investigation of his official conduct during the past three months by D. S. Bowman, as soon as he returned from the Coast. As a result of the findings of this investigation Clark was relieved of his job.

Forester Hosmer went to Hilo last week, and visited the new ohia forest which is springing up on some of the lands of the Kapapala Ranch in Kau. He also went to Puna to inspect the lumbering operations at Pahoa and at Kaneohe. His main purpose in going to Hawaii was to confer with Brother Matthias Newell, of whose work Mr. Hosmer speaks in glowing terms.

Doctor Ramus, head of the federal quarantine service here, while in Hilo last week with President Mott-Smith of the board of health, picked out a site for a quarantine station. It is just on the outer side of the breakwater, and the plan is to have a wharf built on the leeward side of the breakwater, which will be used as a landing, and will be connected by a track with the station.

SPEAKS WELL OF HONOLULU SUGAR MILLS

Carl F. Deichman, American consul at Nagasaki, is a through passenger on the Tenyo Maru en route home on two months' leave. Mr. Deichman has been at Nagasaki for about a year and previously was consul at the Formosan capital. Mr. Deichman states that conditions at Nagasaki, from a trade standpoint, are excellent. In Formosa the sugar industry is being developed rapidly and sugar machinery is not only being brought there from European countries, but from Honolulu as well. He says that the machinery from the Honolulu Iron Works is showing up well in the sugar development.

PERSONALS.

The bride-to-be of Luna Hutchinson of Papaioa plantation arrived last evening on the Canadian-Australian Riser Marama.

H. W. M. Mist, auditor of T. H. Davies & Co., returned on the Marama last evening from a visit to Canada and the United States. He was accompanied by Mrs. Mist and their child.

Captain John Kidwell was a home coming passenger on the Marama last evening having made a circuit of the globe. Captain Kidwell looks many years younger than when he left. He had a splendid trip all around the world.

Donald Ross of Davies & Co. returned last evening from an extended vacation in Canada and the United States, accompanied by his bride who was formerly Miss Hilda Elliott of Liverpool, Ontario, and spent their honeymoon in and about Niagara Falls. Mr. and Mrs. Ross were greeted by many friends and relatives on the arrival of the Marama last evening from British Columbia.

WHAT THE PRESS AGENTS SAY

The Park Theater.

It is not what Alberta does that wins him applause but the way he does it. His feats of legerdemain are commonplace but the patter that carries him along is quite unusual. Honolulu is not used to having a man appear in evening clothes and having all the appearance of one who intends taking rabbits from one's clothes and instead telling some humorous stuff that entirely obliterates the main subject from the audience. And there is where the novelty comes in to make Alberta a greater artist than a final analysis would prove him to be. He takes with the audience only after it gets its second wind and it is not surprising that on the first night he felt the need of calling upon the people in the Park to know if the absence of applause was due to hand-cuffs. The humor of the situation crept through then and he won out. A distinct contrast is Ben Harney. He "keeps a movin'" all of the time and no one is certain what sort of an eccentric caper he will cut next. That he made good on his first appearance here is evident and it was the kind of "good" that will carry him through to the end of his engagement, provided he will come on in black face. His songs last night were as good as his dance and Miss Haynes outshone herself.

RECENT PUBLICATIONS.

The October number of the Hawaiian Forester and Agriculturist has just been issued from the press. It contains the usual amount of interesting material. The subjects handled include "Forestry in Minnesota," "School Gardens of the Hawaiian Islands," and the usual monthly reports of the officers of the department of forestry and agriculture.

September Oahuian, which has just been received, is the same interesting publication that it always is. It contains a number of short stories and poems by the college pupils, editorial comment and a good gist of school news. The frontispiece is a picture of Lothrop W. Wainwright, a Punahou graduate and captain of the Harvard 1910 football team.

By Way of Remembrance.

"By Way of Remembrance" is the title of the publication just issued from the Gazette press, which is the eighty-eighth annual report of the Hawaiian Evangelical Association. The other thirty pages contain a thorough review of the work of the church throughout the islands for the past year. It is especially illustrated with photographs of many of the church workers, churches, schools, and organizations scattered throughout the Territory.

TIMELY ADVICE

Never leave home on a journey at this season of the year without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, is good advice for young and old. No one can tell when it may be required. It can not be obtained on board the cars or steamships. Buy it before leaving home. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

CALLS HIM "HAS BEEN"

An item in a San Francisco newspaper of September 23 says: "Mr. Moore of the Hall-Moore Company, distributors for Interglads in this Territory, has gone on a short visit to his old home in Honolulu where he has been a senator." Moore's mainhand friends seem not to realize that he intends to present himself in the senate chamber in February next as a hold-over. They say he "has been" a senator.

BORN.

WALDRON—In Honolulu, October 15, to the wife of J. W. Waldron, a son.
