Thank you!

Orbx would like to thank you for purchasing FTX EU IRL – Ireland. FTX EU IRL has taken a team of developers over five months to produce. It is the Fifth region in our European series as we continue to recreate magnificent places to fly.

Ireland

Ireland is an island to the north-west of continental Europe. It is the third-largest island in Europe. To its east is the island of Great Britain, from which it is separated by the Irish Sea.

Politically, Ireland is divided between the Republic of Ireland, which covers five-sixths of the island, and Northern Ireland, a part of the United Kingdom, which covers the remaining area and is located in the north-east of the island. The population of Ireland is approximately 6.4 million. Just under 4.6 million live in the Republic of Ireland and just over 1.8 million live in Northern Ireland.

Product Features

FTX EU IRL includes a range of custom-built landscapes including farmland, plains and rolling hills to recreate the luscious green terrain that Ireland is known for. Assortments of urban landscapes are included, exemplifying the variation found between urban areas. The landclass textures are drawn from aerial and satellite photography of Ireland and hand placed so as to accurately render the visual environment.

The region pack models most of the aeronautical hazards, obstacles and cultural features mapped in the VFR visual navigation charts for Ireland. This includes towers, power lines, bridges, golf courses, lighthouses, power stations, prominent buildings, race courses, radar facilities and wind farms – all the visual aids required for VFR flying. You will also find over 30 registered airfields to land at. The registered airfields have been enhanced with the accurate placement of hangars and facilities, terrain adjustments to closely match their real-world counterparts. The airports are full of vehicles, aircraft and clutter making them busy locations to land at and take off from.

When flying down low and slow, you'll see a world full of buildings and trees. Taking the lead again in pushing the boundaries of what FSX can offer, we've developed new technology making custom autogen tree models and textures. We have also modelled houses, farm facilities, factories and office blocks drawn from an extensive portfolio of photos of Ireland's natural and built environments. Many of the countries' famous landmarks have been custom modelled and accurately hand placed inside the simulator.

The product includes an integrated network of major roads, motorways, bridges and moving vehicle traffic. Accurate shorelines, rivers, waterfalls, streams and beaches have been professionally developed from GIS data and applied for use with FTX.

Product requirements

This scenery addon is designed to work in the following simulators: **Microsoft Flight Simulator X, Lockheed Martin Prepar3D v1, Lockheed Martin Prepar3D v2 and Lockheed Martin Prepar3D v3.**

Compatibility notes

Please visit <http://orbxsimulation.com/forums/index.php?board=118.0> for the latest compatibility information between FTX IRL and third party addons.

FLIGHT1 - GROUND ENVIRONMENT X (GEX)

GEX is a default FSX/P3D texture replacement product and their textures will not appear inside FTX EU IRL since we use custom landclass textures which are called from within the ORBX folders only. This means you will see GEX outside the FTX EU IRL boundaries and our textures as soon as you cross over into EU IRL. However, you may want to use FTX Central to switch to the 'Default' region when flying outside EU IRL with GEX in different parts of the world.

REAL ENVIRONMENT XTREME (REX)

FTX EU IRL is 100% compatible with REX and you do not need to do anything special to use REX whilst flying over EU IRL. In fact, most of the Orbx developers and beta testers use REX, and it is an Orbx recommended add-on.

Quick Installation Guide

Installing Orbx FTX IRL is all managed by our FTX Central application. This app is responsible for many aspects in maintaining your Orbx installation. Please visit the support forums to learn more.

Once you have purchased IRL it will be added to your account and you can have FTX Central download and install it for you. The appropriate scenery library entries will also be managed by FTX Central.

You may also manually download IRL and then have FTX Central manage the installation for you once downloaded.

An internet connection is required for FTX Central to validate your license.

Please note that the above all refers to FTX Central 3. Earlier versions of FTX Central are no longer supported but will still function as before. The integration of FTX Central with your OrbxDirect account is only available with FTX Central version 3 and above.

Scenery Coverage Area

You can view the coverage and features map shown on the previous page interactively in Google Earth by loading the FTX_EU_IRL.kmz which you will find in your ORBX\User Documents folder in your FSX/P3D root folder.

Once loaded into Google Earth, you can select all or some of the features included in the scenery, and the corresponding icons will appear inside the map boundary. You can click on each item on the map for a popup balloon which provides details for that airport or POI.

This is a useful tool to begin to explore the features and points of interest included in FTX EU IRL.

What is Custom Landclass?

Landclass are special files which reside in the scenery layer “pie”, and their role is to tell FSX what type of ground texture to place in any given square kilometre cell. In other words, landclass files tell the simulator to place a field here, a township there, forest here, and a railway yard there, and so on.

As far as we are aware, FTX is the first flight simulation product to feature totally hand-crafted landclass on such a large scale. Many global or country-specific add-on landclass products for FSX are created using various data sources and compiled using automated scripts and then manually rectified for obvious errors.

This is not so with FTX. The diagram below gives you an idea of the custom landclass which was shipped with FTX EU IRL. Every single square mile in the green highlighted areas was hand placed by our team, using a combination of many sources, including street maps, aerial photos, and topography charts to name a few

The result is nothing like you have ever experienced before, with an almost photoreal feel to all areas which have been edited, but with the added benefit of faster loading times, full five seasons’ support and hand- placed custom autogen and library objects in every single kilometre of the region

Quick Reference Simulator Settings

The table below lists in a handy reference the minimum recommended settings required in your simulator to enjoy IRL the way Orbx designed it. These settings will run well on most PCs and take particular advantage of the custom mesh and photoreal imagery used in the scenery area.

If you use the settings below you will be guaranteed the highest fidelity experience and the best balanced performance.

Setting	Value	Why?
Level of detail radius	Large	Reduces blurring of textures.
Global texture resolution	Max	Displays photoreal textures best.
Mesh complexity	100	Better terrain definition.
Mesh resolution	5m	5 m is required for IRL
Texture resolution	7 cm	Sharpest roads and freeways.
Scenery complexity	Extremely Dense	How Orbx designed FTX IRL.
Autogen density	Normal	Best FPS vs detail.
GA AI traffic	16-50%	Recommended for this scenery.
Road vehicle traffic	16%	No need to set higher for FTX.

Product Technical Support

Orbx has a very simple support policy: no question unanswered. That means, should you have any questions about IRL or its use, please feel free to register on the forums at orbxdirect.com and then log a support question in the FTX Payware Support Forum section. Orbx FTX experts will be available to review your support questions and you will usually get a reply on the forums within 12 hours, often much sooner than that.

To visit our support forums, click on the “Forums” button shown on the homepage of orbxdirect.com.

Please do NOT email support requests

Orbx provides world-class support on our forums, and it’s the only way in which you can receive support for IRL. Provided you adhere to the forum terms of use and have a legitimate copy of IRL, you will always be offered our support at no cost as we work toward a resolution to your problem each time.

Use the forum search function

Before you post a question, please try searching for the answer first, using the forum’s built in search function located on the forum menu bar.

What to include in your support requests

If at all possible, this is what we’d like to see provided for each request you log:

- A separate post on the FTX support forums for each issue (don’t tag new issue reports onto existing threads).
- Include your ORDER NUMBER from your IRL purchase in your post or forum signature section.
- A screenshot to highlight what you are talking about.
- A descriptive post title which clearly states what the issue is.
- Detailed comments in your post about what you are reporting on.

The Orbx support team is always on standby to assist you with any problems you may have, or will comment on your issue reports. Please remember, our priority is fixing any urgent issues first, and addressing bug reports second. Clearly though, any “show stopper” bugs will be given top priority though.

FTX Community Forums

FTX already has quite a thriving and active user community on the forums, with over 63,000 members as of September 2016. To visit the forums, just point your web browser to orbxdirect.com and from the front page click the “Forums” menu item.

You don't need a user account to view other people's posts and information posted by Orbx staff, but if you'd like to join in on the discussion there, simply create an account. It's instant and no validation email is required. We like to keep things simple☺.

We hope to see you there soon!

Thanks for reading!

You've stuck with us through all these pages of information, and we appreciate you taking the time to read the user guide. We hope it gave you some tips and insights. See you on the forums!

The FTX IRL Team

Lead Developers

- **Paul Webster (Project Manager):**
- **Greg Jones, James Crowther, Jonas Arrhenius, Keith Lewis, Luke Charles, Nick Svejdal, Russ Linn, Sam Hudson, Stephen Booth Kimberley Cardy (Hampshire team):** Texture work including landclass ground textures; all building textures; custom autogen tree textures, object placement autogen annotation; default.xml and autogendescriptions.spb edits; lcllookup.bgl and terrain.cfg mods; and overall landclass texture architecture Autogen annotation; night lighting; object placement POI (points of interest) development; POI scenery object modeling and team meetings plus beta build management & custom hand-crafted landclass covering the entire region.

Additional Orbx Developers

- **Orbx Team:** Orbxlibs objects
- **Neil Hill:** Enhancement and correction of airports and airfields
- **Martin Reiffer:** Custom POI models

Specialist Roles

- **John Venema:** Business management
- **Ed Correia:** Production Management
- **Ben McClintock:** FTX Central and website

Beta Testing Team

Craig Hanley, Eberhard Haberkorn, Frank Schnibben, Friedi Gulder, Patrick Scharnowski, Phil Manhart, Rob Abernathy.

End User License Agreement (EULA)

For the most recent version of the EULA, see orbxdirect.com/eula.

END-USER LICENSE AGREEMENT (EULA) for Orbx Simulation Systems Full Terrain Experience (FTX) Scenery Addon for Microsoft Flight Simulator X and Lockheed Martin Prepar3D.IMPORTANT

PLEASE READ CAREFULLY: This End-User License Agreement ("EULA") is a legal agreement between you (either an individual or single entity) and Orbx Simulation Systems Pty. Ltd. ("ORBX") for the ORBX software product identified above, which includes software and includes associated media and "online" or electronic documentation ("SOFTWARE PRODUCT"). The SOFTWARE PRODUCT also includes any updates and supplements to the original SOFTWARE PRODUCT which may be provided to you by ORBX. By accessing or otherwise using the SOFTWARE PRODUCT, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, do not use the SOFTWARE PRODUCT.

SOFTWARE PRODUCT LICENSE

The SOFTWARE PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE PRODUCT is sold as a single user license and no ownership is transferred, only the right to use the license software. The SOFTWARE PRODUCT may not be re-distributed, sold for non-profit or profit from subscription fees, repackaged, delivered on CD or DVD media or any other form of electronic media by any other persons or party, website, organisation or entity, other than the official e-commerce seller website(s) as contracted or authorised by ORBX.

1. GRANT OF LICENSE. This EULA grants you the following rights:

a. You may install, access, and run a SINGLE copy of the SOFTWARE PRODUCT on a SINGLE personal computer for your personal, non-commercial, non-profit use. Any party or organisation seeking to use the SOFTWARE PRODUCT under license for commercial use should see our Commercial Use License Agreement.

b. This SOFTWARE PRODUCT is for personal entertainment purposes only and may not be used for flight training purposes. This SOFTWARE PRODUCT is not part of an approved training program under the standards of any aviation regulatory agency or body worldwide, whether private or government.

c. Separation of Components. The SOFTWARE PRODUCT is licensed as a single product. Its original component parts created by ORBX may not be separated for use in other software or projects.

d. Trademarks. This EULA does not grant you any rights in connection with any trademarks or service marks of ORBX.

e. Rental. You may not rent, lease, or lend the SOFTWARE PRODUCT. You may not charge admission fees for any simulator, entertainment or training device which breaches this EULA by use of the SOFTWARE PRODUCT therein.

f. Support Services. This SOFTWARE PRODUCT is provided "as is", however ORBX will provide provision of support services in relation to the operation, installation or remedy of issues arising to the use of the SOFTWARE at its official support forum at orbxsystems.com/forum.

g. Termination. Without prejudice to any other rights, ORBX may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE PRODUCT and all of its component parts.

h. The Orbx libraries (Orbxlibs) are licensed for use ONLY with Orbx products licensed by our customers. Whilst they are freely distributed on this site and our forums it is for the support of our own products only. It is EXPRESSLY FORBIDDEN to modify, use, call GUIDs, reference, extract or in any way make use of Orbxlibs in any software project be it freeware, donation ware or payware. Any mis-use of Orbxlibs will invoke legal action.

2. COPYRIGHT. All title and copyrights in and to the original created components of the SOFTWARE PRODUCT (including but not limited to any images, photographs, animations, video, audio, music, and test incorporated into the SOFTWARE PRODUCT), the accompanying documentation materials, and any copies of the SOFTWARE PRODUCT are owned by ORBX or its suppliers. All title and intellectual property rights in and to additional third party libraries and content (which are used under the terms of those components' distribution) which may be accessed through use of the SOFTWARE PRODUCT is the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content. This SOFTWARE PRODUCT contains documentation which is provided only in electronic form, and you may print multiple copies of such electronic documentation.

3. LEGAL JURISDICTION. This EULA is governed by the laws of the State of Victoria, Australia.

4. LIMITATION OF LIABILITY. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL ORBX BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE PRODUCT OR THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, EVEN IF ORBX HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
