SSOE is an Engineering, Procurement, and Construction Management (EPCM) firm and since our inception in 1948, we have grown to become the 11th largest EPCM firm in the nation (Building Design + Construction, 2011). Our reputation for quality is renowned, as is our commitment to building and preserving long-term relationships with a diverse client base.

Our highly dedicated and experienced staff are visionaries focused on positive growth, continually improving quality, and adding value to our clients. This commitment to our clients is responsible for SSOE's successful track record of serving very diverse markets. Meeting our clients' needs is of paramount importance and the key to our success. As a testament to our Great Client Service, 97% of our clients would recommend SSOE's services and 150+ clients have trusted us for over 20 years.

Working in 30 countries around the world, SSOE is an international firm with 21 domestic offices and six international offices.
