

INTERNATIONAL LANDING FACILITIES

This international airport directory includes U.S. airports of entry that provide customs and immigration services. It also includes airports of entry within Canada, Mexico, and the Caribbean. The list of U.S. Customs and Border Protection (CBP) airports provides information regarding customs and immigration service only. Refer to the U.S. landing facility directory, starting on page 3-1, for detailed airport and FBO information.

Where to Obtain Information

AOPA's Pilot Information Center—Provides general information on entry requirements for various countries. Special guidance is available to AOPA members for transatlantic flights and flights to Canada, Alaska, Mexico, the Bahamas, and the Caribbean; telephone 301/695-2000 or 800/USA-AOPA; www.aopa.org/members/resources/international.html.

U.S. Customs Guide for Private Flyers—Available from AOPA's Pilot Information Center; telephone 301/695-2000 or 800/USA-AOPA.

Centers for Disease Control (CDC)—Provides information and advice on health and immunization requirements; telephone 800/311-3435 or 404/639-3534; www.cdc.gov.

International Civil Aviation Organization (ICAO)—Provides assistance with international aviation procedures; telephone 514/954-8219, fax 514/954-6077; www.icao.int.

FAA International Flight Information Manual (IFIM)—This manual is no longer available in print; available at www.aopa.org/members/resources/international.html.

International notams—Available in the conterminous United States, Alaska, Hawaii, and Puerto Rico from your local flight service station (FSS), AOPA's Pilot Information Center, or Superintendent of Documents, U.S. Government Printing Office; telephone 202/512-1800, fax 202/512-2250.

U.S. Customs and Border Protection (CBP), Department of the Treasury—Provides information on U.S. Customs regulations, requirements, and documentation; telephone 202/354-1000; www.cbp.gov/xp/cgov/toolbox/publications/travel/ (look for "Guide for Private Flyers" link).

U.S. Citizenship and Immigration Services—Provides detailed information on U.S. immigration regulations, requirements, and documentation; telephone 800/375-5283 (recorded message and access to CIS representative), 800/870-3676 (form request line); www.uscis.gov.

U.S. Department of State (DOS)—Provides travel advisories and information; telephone 202/647-5225; www.state.gov.

Documentation

Documents required to be in your possession may include:

Personal documents:

1. Proof of citizenship (passport). Effective January 23, 2007 only current valid passports are acceptable proof of citizenship under the Western Hemisphere Travel Initiative.
2. Visa or tourist card.
3. Alien Registration Card.
4. Pilot identification (original airman and medical certificates).
5. FCC Radiotelephone Operator License.
6. International Certificate of Vaccination (if required).

Aircraft documents:

1. Certificate of Airworthiness.
2. Certificate of Registration.
3. FCC Radio Station License for Aircraft.
4. Manual of Operating Limitations (including weight and balance information).
5. License for Temporary Export (required for any modified type of military aircraft).
6. Notarized letter authorizing aircraft use (for borrowed and rented aircraft).
7. Export License (if required).
8. Flight permits (e.g., overflight and landing permits if required).
9. Copy of FAA Form 337 for use of aftermarket auxiliary fuel tanks.
10. Customs General Declaration forms.
11. Copies of Advance Notice (if required).
12. Proof of liability insurance (if required).

International Flight Plans

Flight plan required—A flight plan for flights into international and foreign airspace must be submitted to and received by air traffic control facilities at least one hour before entering the ATC region.

Advance notice—The flight plan provides advance notice of foreign airspace penetration. (For some foreign states, the flight plan is the only advance notice required; for others, it checks against previously granted permission to enter national airspace.)

Before departure—Leave a complete itinerary and time schedule of the flight with others directly concerned, keep them advised of the flight's progress, and instruct them to contact the nearest U.S. embassy or consulate if there is any doubt as to the safety of the flight.

Filing outside the United States—In a foreign country, inquire how to transmit flight plan information to pertinent en route and destination points.

International flight plan form—FAA Form 7233-4 is available at most U.S. FSSs, from AOPA's Pilot Information Center, and at www.aopa.org/members/airports/#International (AOPA members only access).

International Aeronautical Charts

Jeppesen Trip Kits—Coverage includes Canada, Mexico, the Caribbean, South America, the Pacific Basin and Islands, Australia, the Middle East, the Far East, China, Europe, Eastern Europe, Africa, and the Atlantic oceanic area.

Sporty's Pilot Shop—Coverage includes Canada, the Caribbean, ONCs (see below), and Europe.

Flight Information Publications (FLIPs)—Coverage includes the Pacific, Australia, Asia, Antarctica, the Caribbean, South America, Europe, Africa, the Middle East, Canada, and the North Atlantic oceanic area.

Operational Navigation Charts (ONCs)—May be used in combination with en route charts.

Where to Obtain Charts

Jeppesen Trip Kits—55 Inverness Drive East, Englewood, Colorado 80112-5498; telephone 800/621-5377, fax 303/328-4153.

FLIPs and ONCs—NACO Distribution Division, FAA, AVN-530, Riverdale, Maryland 20737-1199; telephone 800/638-8972 or 301/436-6990, fax 301/436-6829

Canadian Charts—NAV Canada, Aeronautical Publications Sales and Distribution Unit, PO Box 9840, Station T, Ottawa, Ontario, K1G 6S8 Canada; telephone 866/731-7827 or 613/744-6393, fax 866/740-9992 or 613/744-7120.

Mexican Charts—Direccion de Navigacion Aereo, Blvd. Puerto Aereo 485, Zona Federal Del Aeropuerto Int'l, 15620 Mexico D.F., Mexico.

U.S GATE and Canada CANPASS Entry Programs

General Aviation Telephonic Entry (GATE)

Note: Suspended until further notice.

CANPASS—Private Aircraft Program

Pilots and passengers traveling on a Canadian- or American-registered aircraft entering Canada directly from the United States must use a telephone reporting system to receive permission from Canadian Customs or Immigration officials to enter Canada. The aircraft may be private, company-owned, or a small charter carrying no more than 15 passengers. Notification must be made by calling 888/CAN-PASS (888/226-7277) two to 72 hours in advance of arrival. Pilots and passengers are still required to carry the necessary personal identification, immigration, and aircraft documents.

Application—United States citizens, resident aliens, and Canadian citizens may apply for participation in the CANPASS program by completing a CANPASS application form. The form, together with Canadian \$40 should be submitted to CANPASS-Private Aircraft Program, Post Office Box 126, Niagara Falls, Ontario L2E 6T1; telephone 905/371-1477.

Note: The CANPASS application form and fee is waived for casual use of the program.

CANPASS information online—Details may be found online; www.cbsa-asfc.gc.ca/travel/canpass/privateair-e.html and www.aopa.org/members/files/travel/canada/canpass.html (AOPA members only access).

Special Reporting Requirements

General

Private aircraft entering the United States from south of the Mexican border or Pacific, Gulf of Mexico, or Atlantic coastlines must comply with special reporting requirements.

How to comply

Advance notice—Upon return to the United States from the Southern Hemisphere (south of 30 degrees north latitude and east of 86 degrees west longitude on the Atlantic and Gulf coasts, and also south of 33 degrees north latitude and west of 86 degrees west longitude on the Pacific Coast), provide advance notice of arrival to U.S. Customs at a *designated airport* that is nearest to the point of crossing the U.S. border or coastline.

Inspection—Private aircraft must land at the *designated airport* for Customs and Border Protection (CBP) inspection and processing unless the aircraft has been exempted from this requirement. These airports offer free service 24 hours a day, Monday through Saturday. This landing requirement does not apply to private aircraft that have not landed in a foreign place or that are arriving directly from Puerto Rico.

Time of notification—Provide advance notice of arrival at least one hour prior to crossing the U.S. coastline or border. More advance notice may be required during other than regular business hours.

Notification information—Must include:

1. Aircraft registration number.
2. Name of pilot in command.
3. Place of last departure.
4. Estimated time and location of border/coastline crossing.
5. Name of U.S. airport of first landing.
6. Number of U.S. citizen passengers.
7. Number of resident and nonresident alien passengers.
8. ETA.

How to provide notification—Contact Customs via telephone and include an ADCUS notice in your flight plan. However, the ADCUS notation in the flight plan does not guarantee that Customs personnel will receive the ETA notification. ETA notification is your responsibility. It is therefore strongly suggested that you advise Customs of your ETA by telephone to ensure they have been notified, and that you ask for the name and badge number of the Customs official.

ADIZ penetration notice—When not arriving from a foreign location but crossing the boundary of the air defense identification zone (ADIZ), you are required to give air traffic control a 15-minute penetration notice. File a defense visual flight rules (DVFR) flight plan, and contact Customs via telephone at least one hour prior to crossing the border or coastline. *Note: See Chapter 5, Section 6, of the Aeronautical Information Manual (AIM) for detailed information on ADIZ operations and boundaries.*

CBP Designated Airports

Arizona—Bisbee-Douglas Int'l (Douglas); Douglas Municipal; Nogales Int'l; Tucson Int'l; Yuma MCAS-Yuma Int'l

California—Brown Field Municipal (San Diego); Calexico Int'l
Florida—Fort Lauderdale Executive; Fort Lauderdale-Hollywood Int'l; Kendall-Tamiami Executive (Miami); Key West Int'l; Miami Int'l; Opa-Locka (Miami); Palm Beach Int'l (West Palm Beach); St. Lucie County Int'l (Fort Pierce); Tampa Int'l

Louisiana—Lakefront (New Orleans); Louis Armstrong New Orleans Int'l (New Orleans)

New Mexico—Dona Ana County At Santa Teresa

North Carolina—Wilmington Int'l

Texas—Brownsville-South Padre Island Int'l; Corpus Christi Int'l; Del Rio Int'l; El Paso Int'l; Laredo Int'l; McAllen Miller Int'l; Maverick County Memorial Int'l (Eagle Pass); Midland Int'l; Presidio Lely Int'l; Southeast Texas Regional (Beaumont-Port Arthur); William P. Hobby (Houston)

U.S. Customs and Immigration Requirements and Regulations

Outbound travel

Customs clearance—Pilots and passengers on nonrevenue flights are normally not required to clear Customs when leaving the United States. However, certain countries require Department of State and Department of Commerce validated licenses and pre-clearances.

Customs declaration—Declare currency in excess of \$10,000.

Nonresident alien—All nonresident aliens must clear U.S. Citizenship and Immigration Services (USCIS) prior to departure.

Resident alien—All resident aliens must carry an Alien Registration Card for presentation to U.S. Immigration upon reentering the United States.

Certificate of registration (personal effects)—Customs officials might question any personal articles of foreign manufacture (such as cameras, hunting and fishing gear, or any item that may be construed as having been purchased abroad). Before departure:

1. Register these items with Customs.
2. Fill out Customs Form 4457, "Certificate of Registration for Personal Effects Taken Abroad."
3. Bring several copies of the form along to the foreign port of entry.
4. Show this certificate to Customs officers each time the items are declared.

Note: It is not mandatory to file this form, but it can eliminate unnecessary duties, delays, and disagreements upon return to the United States.

Inbound travel

Customs airports—All aircraft entering the United States must land at a U.S. Customs and Border Protection airport. These airports are referred to as "designated," "international," "landing rights," and "user fee" airports. They are listed in the following directory of "U.S. Customs and Border Protection Airports."

Advance notice of arrival—Pilots must provide advance notice of estimated time of arrival (ETA) to Customs. (It is the ultimate responsibility of the pilot to ensure that Customs is properly notified.)

Customs and immigration inspection—Pilots and passengers must clear U.S. Customs and Immigration inspection.

Customs declaration—Declare any articles acquired abroad. Include items brought home for another person, any article intended for sale or use in business, alterations or repairs made abroad, and gifts received while abroad. Remember to declare currency in excess of \$10,000.

Duty and tax—Items may be subject to duty and internal revenue tax.

Exemptions—Returning residents are allowed certain exemptions from paying duty on items obtained while abroad. These exemp-

The advertisement features the AOPA logo at the top, which includes a winged emblem and the text "SINCE 1939" and "AOPA". Below the logo, the text reads "AIRCRAFT OWNERS AND PILOTS ASSOCIATION". The main text of the ad is "Visit WWW.AOPA.ORG/MEMBERS/AIRPORTS/ For the most up to date information". The background of the ad is a screenshot of the AOPA website, showing various navigation links such as "Search Website", "Go", "Members Only", "MEMBERS HOME", "FLIGHT PLANNING", "AIRPORT DIRECTORY", "C VALUATION SVC", "MEDICAL", "INFO RESOURCES", "MESSAGE BOARD", "TRAVEL SERVICE", "WEB LINKS", "AOPA.NET E-MAIL", and "MEMBER PROFILE".

tions are described in a booklet titled Know Before You Go, published by the Department of the Treasury, U.S. Customs Service. Call AOPA's Pilot Information Center to obtain a copy. *Note: Customs Declaration Form (used for travel inbound or outbound) is available at www.aopa.org/members/files/travel/customs/7507.pdf (AOPA members only access).*

How to provide advance notice of ETA

Advise Customs—Advise Customs of your ETA by telephone and flight plan. Normally, one-hour advance notice (based on the time the CBP officer receives the notification and not on the time that the flight plan or message is filed or transmitted by the pilot) is sufficient. Failure to do so violates Customs regulations and will result in a severe penalty (see "Fines").

Telephone numbers—Customs telephone numbers are included in the following listings of "U.S. Customs and Border Protection Airports" or in the *U.S. Customs Guide for Private Pilots* (www.cbp.gov/xp/cgov/toolbox/publications/travel). A 24-hour national emergency number is available in the event you cannot reach Customs at your intended airport of arrival; telephone 800/973-2867.

ADCUS—You may also advise Customs of your ETA by adding the abbreviation "ADCUS" (advise Customs) to the "remarks" section of your flight plan.

Note: The ADCUS notation in the flight plan does not guarantee that Customs personnel will receive the ETA notification. ETA notification is your responsibility. It is therefore strongly suggested that you advise Customs of your ETA by telephone to ensure they have been notified, and that you ask for the name and badge number of the Customs official.

Landing rights airports

A landing rights airport is an airport (other than a designated airport, international airport, or user fee airport) at which flights from a foreign area are given permission by U.S. Customs and Border Protection (CBP) to land. In addition to providing advance notice of arrival, *pilots must obtain specific permission to land at a landing rights airport before intended use.* Except for short flights, advance notice of arrival may be transmitted to CBP in the ADCUS section of flight plans at airports where flight notification service is available. These notices will be treated as an application for permission to land, although the pilot is still ultimately responsible for ensuring that CBP is properly notified. Landing rights may be denied if inspection service cannot be provided.

User fee airports

A user fee airport is an airport designated by U.S. CBP where flights from a foreign area may be granted permission to land. Private aircraft operators using designated "user fee" airports are frequently required to reimburse the airport operator for the costs associated with processing their arrivals. These costs may well run from \$100 to \$300 or more per arrival.

CBP user fee airports:

California—Palm Springs Int'l
Colorado—Jeffco (Denver)
Florida—Daytona Beach Int'l; Melbourne Int'l; Ocala Int'l; Sarasota Bradenton Int'l; South West Florida Int'l (Fort Myers)

Illinois—Decatur; Dupage (West Chicago); Palwaukee Municipal (Wheeling); Waukegan Regional
Indiana—Fort Wayne Int'l; Terre Haute Int'l Hullman
Kentucky—Blue Grass (Lexington)
Michigan—Oakland County Int'l (Pontiac); Willow Run (Ypsilanti)
New Hampshire—Manchester
New Jersey—Morristown Municipal; Trenton Mercer
New York—Greater Binghamton (Albany)
North Dakota—Hector Int'l (Fargo)
Ohio—Airborne Airpark (Wilmington)
Oregon—Rogue Valley Int'l (Medford)
South Carolina—Myrtle Beach Int'l
Tennessee—Tri-Cities Regional (Blountville)
Texas—Addison (Dallas); Fort Worth Alliance; Midland Int'l
Washington—Grand County Int'l (Moses Lake)
Wyoming—Natrona County Int'l (Casper)

Changed destination

Permission—If you need to change the intended airport of destination en route, obtain permission from Customs.

Confirmation—Receive definite confirmation from Customs permitting a change before altering the airport of destination. Without this permission, you may not legally land at an airport not specified in your flight plan.

How to obtain permission/confirmation—Contact ATC or FSS personnel and ask them to relay the message to Customs and to give notification when Customs confirms the request.

Hours

Service hours—Free service is generally provided from 8 a.m. to 5 p.m., Monday through Sunday, including holidays. Tours of duty at airports, however, are based on the need for service and are altered at some airports to coincide with schedule changes and peak work loads.

Note: Prior to departure, contact the Customs officer in charge at the U.S. airport of intended return to ascertain the hours during which free service normally can be expected.

Overtime

Fee—Private aircraft will be processed free of overtime charges by U.S. CBP. However, other inspection agencies (U.S. Department of Agriculture, Centers for Disease Control, and U.S. Citizenship and Immigration Services) may charge overtime for services provided after regular working hours.

U.S. CBP aircraft user fee decal

Processing fee—\$25 per calendar year. This fee must be paid in advance. Submit form CF 339-A with payment to U.S. CBP, Decal Program Administrator, P.O. Box 382030, Pittsburgh, PA 15250-8030.

Receipt/decal—Upon payment, you will receive a receipt and a decal to be displayed on the aircraft 18 inches aft of the pilot's door. The receipt should be kept with the aircraft.

Note: For further information or forms, call 317/298-1245 or go online (www.aopa.org/members/files/travel/customs/339a.pdf).

Fines

Minimum penalty—\$5,000 for the first violation, \$10,000 for the second violation. Customs may also seize the aircraft, depending on the nature of the violation.

Common violations:

- Failure to report arrival.
- Failure to obtain landing rights.
- Failure to provide advance notice of arrival.
- Failure to provide a penetration report on southern border.
- Failure to provide required documents.
- Departing without permission or discharging passengers or cargo without permission.
- Importation of contraband, including agricultural materials or undeclared merchandise.

America's pilots banding together will make a difference. Participate with your fellow pilots in the safekeeping of general aviation's neighborhood—our home airports.

www.aopa.org/airportwatch

See the Directory of U.S. Customs and Border Protection Airports beginning on page 2-4.

AIRPORTS OF ENTRY – U.S.

U.S. Customs and Border Protection Airports

- Customs requires advance notice of arrival at the designated airport of entry. Even though flight plan notification service is available, pilots should contact CBP directly. ETA notification is the pilot's responsibility. Failure to do so violates Customs regulations and will result in a severe penalty.
- CBP requests that all calls (advance notices of arrival), regardless of when service is required, be made during regular business hours. Requests for service outside the usual operating hours should be made the preceding day.
- To avoid overtime charges, contact CBP before departure to verify the hours during which free service normally can be expected.
- Some airports are limited to a maximum number of passengers that may be cleared and not all airports are capable of accepting galley refuse and garbage from international arriving aircraft. Contact CBP before departure to find out what the restrictions are.
- Customs telephone numbers are subject to change. In the event you cannot reach CBP at your intended airport of arrival and in an emergency, call 800/973-2867.

CBP airport type legend: D (designated); I (international); L (landing rights); U (user fee).

Advance notice: number of hours required during regular hours and after hours are indicated in the columns preceding remarks.

Airports of Entry in Canada, Mexico, and the Caribbean

Prior notification is required at all times. Overtime charges will be incurred at Canadian airports for services provided on holidays, weekends, and after 5 p.m. on weekdays. Services at airports in Mexico and the Caribbean generally are provided from sunrise to sunset; however, service before 9 a.m. and after 5 p.m. cannot be guaranteed at these facilities. Be aware that fuel may not always be available at airports in Mexico and the Caribbean.

Canada

CANPASS—Private Aircraft Program

See "CANPASS" at the beginning of this section for detailed information on participating in the CANPASS-Private Aircraft Program. Nav Canada—Nav Canada will assess ATC fees for services used by private aircraft. Charges are billed quarterly (billing quarters are: March-May; June-August; September-November; December-February). More information is available from AOPA; 800/USA-AOPA or www.aopa.org/members/resources/international.html.

Canadian Customs Telephone Number: 888/226-7277

Airport telephone numbers and Canadian Customs telephone numbers that are different from the above, are listed for each airport.

Mexico

Services at airports in Mexico generally are provided from sunrise to sunset; however, services before 9 a.m. and after 5 p.m. cannot be guaranteed. Be aware that fuel may not always be available.

Fees to be expected:

- **Aircraft entering Mexico**—\$45.00 each flight entering Mexico. An annual permit may be purchased for US \$750.00.
- **Airspace tax based on aircraft wingspan**—payable with each fuel purchase. More information is available from AOPA: tele-

phone 800/USA-AOPA or www.aopa.org/members/resources/international.html.

- **Landing fee based on aircraft weight**—\$8.00 estimated for single-engine aircraft; \$12.00 estimated for multiengine aircraft.
- **Immigration fee**—\$15.00 per person. Multiple entry fees may be purchased and remain valid for 180 days.

Renew Automatically and Save!

AOPA's AAR Program is a great convenience that saves you money.

To sign up for the Automatic Annual Renewal Program visit the Web site:

(www.aopa.org/apps/aar)

or call: 1-800-USA-AOPA

- Save \$4 off your membership dues* this year by signing up for **AOPA's Automatic Annual Renewal Program**.
- Use your AOPA credit card to enroll in the program and save \$2 off your membership dues in following years.
- Your participation in this program is very important...it keeps our costs down by eliminating multiple renewal notices that can clutter your mailbox.
- This allows us to put the savings back into benefits and services for promoting and protecting general aviation.
- Join the more than 160,000 members already using this valuable benefit.

*Limit one special \$4 AAR enrollment discount per individual.
