**Formula 1**  
**Sakhir Rolex Grand Prix 2020**  
Sakhir 4-6 December

Major global sports events such as F1 have the power to do many things. At a basic level, they entertain and can offer light relief and distraction in a complicated world. For F1 this year, we certainly hope to achieve that for the hundreds of millions watching around the world. At a more profound level, we have the opportunity to use our races to reflect back and acknowledge the work of an incredible group of individuals. Our guests, frontline workers, dedicate their lives to keeping us safe. Our #ThankYou\_OurHeroes message is not just dedicated to those individuals in Bahrain and their families here at the circuit, but all people around the world who are part of the effort to keep us safe and healthy.

As the 2020 F1 season has developed, it is an honour for us to be asked to host two races. The Gulf Air Bahrain Grand Prix will offer its usual excitement and thrills under the night sky on the traditional Grand Prix layout, whilst the Rolex Sakhir race will offer something new, unpredictable and very different, on the shorter outer track. We hope that fans and participants alike will enjoy these contrasting races. We also welcome our support races from F2 and our very own Porsche Sprint Challenge Middle East.

This year, we also recognize the 70<sup>th</sup> anniversaries of both Formula 1 and our partners at Gulf Air. We congratulate Gulf Air on this incredible milestone as the proud national carrier of Bahrain and thank them for being with us for F1 since our journey began back in 2004. I also congratulate F1, which has been at the forefront of global motorsport throughout its 70-year history.

These weekends would be not possible without the incredible support of so many people and organizations. I thank the Government here in Bahrain for their support in ensuring that the events can proceed in a safe and secure manner. We are proud to come together as Team Bahrain. I also thank F1 and the FIA for putting in place the structures and support to enable F1 to race around the world. Their coordination and support, more than ever in the last few months, has been incredible. I also thank my team at the BIC, which have delivered these events in the context of ever-evolving plans.

I also pay tribute to the team at the Bahrain Motor Federation, our volunteers, officials and marshals. The FIA has dedicated 28 and 29 November as a weekend to recognize these often-unsung heroes and I take this opportunity to offer them my personal thanks.

To fans who are not able to be with us for F1 this year: the time will come when we can welcome you all back with open arms. In the meantime, I hope you enjoy this unique experience from wherever you are watching.

May you all have a safe and memorable weekend with us.

Salman bin Isa Al Khalifa  
Chief Executive  
Bahrain International Circuit

- Each pole 10 to 45 meters in height
- 5,000 luminaries
- 500km of cabling
- Provides light necessary for HDTV broadcasting

## **1. GENERAL INFORMATION**

---

### **BAHRAIN INTERNATIONAL CIRCUIT - A - Z**

**Celebrities** - The Kingdom of Bahrain draws a glittering array of stars to the BIC from across the globe each year. To date, they have included Olympic legends Michael Johnson and Sir Steve Redgrave, golf icons Colin Montgomerie, Paul Casey, Camilo Villegas, Retief Goosen, Sergio Garcia, Disclosure and many more. Pop stars Ragheb Alama, John Legend, Anouska, Jay Kay, Mick Hucknall, Carlos Santana and Michael Jackson; rock superstar Eric Clapton, Rick Parfitt and Nick Mason; tennis hero Boris Becker and royalty from across Europe and the Middle East.

**Dragster Xperience** - One of BIC's most popular products offers the public a chance to enjoy a passenger ride in a Top Fuel Dragster - the fastest car in the sport of drag racing. Power down BIC's quarter-mile drag strip, which is a part of the 'National Hot Rod Association Worldwide Network', in blistering speed. Accelerate from zero to 100kph in just one second, while experiencing G-forces of up to 2Gs charging off the start line. BIC's special fleet of Top Fuel Dragsters can seat two passengers at a time along with one driver.

**Excellence** - In 2007 the BIC became the first active Formula 1™ venue to be recognized as a Centre of Excellence by the FIA for its commitment to setting new standards in motor sport safety and its dedication to translate lessons learned from the sport into saving lives on the highway.

**Further Off-Track Events** - BIC is also a favorite venue for hosting a range of off-track events. Some of the major non-racing events held at the circuit include the Bahrain International Air Show, the Bahrain International Motor Show and Challenge Bahrain triathlon to name a few.

**Glue** - This legendary, indeed mythical, substance, was alleged to be keeping the sands of the Sakhir desert at bay prior to the inaugural Gulf Air Bahrain Grand Prix. in 2004. Sadly, this great story wasn't true then and isn't true today.

**History** - On the 14th September 2002, the Kingdom of Bahrain signed a long-term agreement with Formula 1™ Management Ltd to host a round of the FIA Formula 1™ World Championship, starting from 2004.

**Journalists** - The BIC Media Centre can host up to 500 journalists from around the world, offering a state-of-the-art, modern communications infrastructure. ISDN, ADSL and direct lines as well as data uplinks are available in the Media Centre and Photographers.

## **1. GENERAL INFORMATION**

---

### **BAHRAIN INTERNATIONAL CIRCUIT - A - Z**

**Karting** - BIC has opened a state-of-the-art karting facility, named Bahrain International Karting Circuit. The track has been designed to the highest international standards, and it is capable of hosting world championship-level events under the FIA Karting Commission). The venue's karting circuit is 1.414 kilometers in distance and it features 14 turns. The Bahrain International Karting Circuit offers a wide array of experiences for the avid karter, including a Formula One-inspired Mini Grand Prix. It is also the only karting track in the world that can hold night racing under FIA Karting standards, as the facility boasts a series of floodlights of 150 in all.

**Marshals** - Coordinated by the Bahrain Motor Federation, the event's sporting organizer, a total of 800 marshals will work at the BIC through the Grand Prix weekend. Amongst these will be 38 sector and deputy marshals overseeing 8-10 marshals each, 25 working in the pit lane and 50 on the starting grid. There will be 120 fire marshals, 150 track marshals and a team of 30 doctors and medics.

**Non-alcoholic** - Podium celebrations in Bahrain are characterised by the spraying of Waard as a substitute for the traditional champagne, in accordance with local custom. Waard is a blend of rose water, locally produced pomegranate juice and sparkling water that is blended and bottled locally, specifically for the Grand Prix weekend.

**Pit Walkabout** - All three-day ticket holders will have access to the pit lane on the Thursday before the race weekend.

**Run Off Area** - Providing eight meters both sides of the track on the straights and up to 10 meters on the outside of corners, the run-off areas feature different designs of Arabic artwork and script, designed as a themed journey both to enhance the presentation for viewers and to provide the drivers with optimum safety.

**Support Series** - The Porsche Sprint Challenge Middle East will be back again in 2020 as well as the FIA Formula 2 Championship which proves again this season to be the chief feeder series to Formula 1.

**Track Hire** - The BIC serves as a unique setting for corporate functions. Open for hire, companies are able to access the BIC to stage business conferences and exhibitions, film a TV commercial, or rent time on the circuit for private racing events.

**Underpinning the Economy** - The Bahrain Grand Prix is a significant contributor to the national economy, and a vital showcase to global TV audiences. In 2010, the race weekend attracted over 100,000 visitors from across the Middle East region and various international destinations. An independent study illustrated that the 2012 Grand Prix had a gross economic impact of approximately US\$295 million, supporting around 3,000 jobs.

**Sakhir Rolex Grand Prix 2020**  
Sakhir 4-6 December

## **1. GENERAL INFORMATION**

---

### **BAHRAIN INTERNATIONAL CIRCUIT - A - 2**

**Vending Area** - The Bahrain International Circuit was designed with the spectator in mind. Accommodating 100,000 visitors on race day, the Grandstand (capacity: 50,000) in particular provides fantastic views of the track and racing action

**Welsh Granite** - Over 1200 tones of stone were used in the construction of the BIC, a third of it being Welsh granite, which is recognised for its adhesive characteristics and ideal for the track surface.

## **2. MEDIA SERVICES**

---

### **MEDIA CENTRE & PHOTOGRAPHERS AREA CONT...**

**Television/Radio:** 36 operational air-conditioned boxes are available to television and radio commentators below the Grandstand roof

**Media Shuttle:** There is a limited media shuttle service as the International and National Media car parks are very close to the Media Centre and Paddock, which can be reached through a tunnel. This tunnel leads from the Media car park to the entrance of the Media Centre.

**Photographer Shuttle Route:** Each photographers' group will have their own shuttle and there will be 9 Media shuttles in total. Service is provided from the Paddock entrance next to the Race Tower to important locations around the track. This service will also be provided during the support race. For further details, please check the official notice board in the photographers' area.

**Operating Hours:** Please refer to the schedule on the official notice board in the Photographers' room.

**Red Zones:** There are no red zones at the Bahrain International Circuit

**Photographers' Towers:** There are two photographers' towers positioned at the circuit. The first one is located at the first corner. A shuttle service to turn number one will be offered from the grid during the warm-up lap (pick up on the service road in front of the main grandstand). The second one is located at the Pit Lane wall right in front of the podium.

## **2. MEDIA SERVICES**

---

### **PRESS CONFERENCE**

**Location:** The Press Conference Room is outside the Media Centre. It is located inside the Formula 1 Paddock on the first floor of the Podium Building. Please follow the signs from the Media Centre to the Press Conference Room.

All Press Conference will be held remotely, journalists can connect remotely from a dedicated room inside the media centre.

- Formula 1**
- Thursday, 19:00 - 22:35 hrs,**
  - Friday, 18:30 - 19:30 hrs,**
  - Saturday, 21:00 - 22:00hrs following the qualifying sessions:**
    - Three fastest drivers from Qualifying
  - Sunday, following the race:**
    - First three finishing drivers

**CIRCUIT CHARACTERISTICS**

**FORMULA 1 ROLEX GROSSER PREIS VON ÖSTERREICH 2020**  
**SPIELBERG**

Date	03 - 05 Jul	Race distance	306.452 km
Circuit length	4.318 km	Number of laps	71

**FORMULA 1 ROLEX GROSSER PREIS VON ÖSTERREICH 2020 - Spielberg**

**Circuit Map**

After its first Formula One race in 1970 the circuit previously known as the A1-Ring was removed from the F1 calendar in 2003. However, after its redevelopment and re-branding as the Red Bull Ring it was reopened in 2011 and celebrated its triumphant return in Formula One in 2014. Its picturesque setting in an idyllic natural bowl in the Styrian mountains makes a pleasant environment for a Grand Prix.

SPIELBERG**

Date	10 - 12 Jul	Race distance	306.452 km
Circuit length	4.318 km	Number of laps	71

**FORMULA 1 PIRELLI GROSSER PREIS DER STEIERMARK 2020 - Spielberg**

**Circuit Map**

The Red Bull Ring packs a lot into a short lap. The first half rewards power, as the cars blast along three straights separated by a pair of uphill right-handers. But then as the drivers work their way downhill, the circuit becomes a regular toboggan ride, as the cars canyon through a series of quick corners, including the exhilarating Rindt right-hander, named for Austria's first F1 champion.

**FORMULA 1 ARAMCO MAGYAR NAGYDÍJ 2020 - Budapest**  
 Circuit Map

Home of the first Grand Prix to have been held behind the “Iron Curtain”, The Hungaroring was built in record time and remains today a major attraction in Hungary. Held in the summer, the circuit is built in a natural bowl allowing excellent vantage points for spectators. That means that any of the grandstands located on or around the main straight should provide a view of other parts of the track too.

 Circuit Map

Silverstone continues to be a top draw for fans of Formula 1, offering a rich tradition of racing, a fast and challenging track, as well as the constant prospect of weather playing a critical role in race day strategy. Contracted to host F1 through 2027, Silverstone offers motorsport fans a wealth of viewing options staging events through the year, including British F3, Le Mans Series, and MotoGP, among others. The circuit has undergone major modifications and rebuilds, primarily in 1991 and most recently in 2010.

 Circuit Map

Little did those laying the perimeter road to the RAF Silverstone airfield in 1942 know that they were setting down what would become one of the world's greatest race tracks. The Silverstone circuit was first used for a proper motor race in 1947 and this race marks the 70<sup>th</sup> Anniversary Grand Prix.

 Circuit Map

The Circuit de Catalunya was built in 1989 through the efforts of a Consortium composed of the Catalan Government, the Reial Automòbil Club de Catalunya (RACC) and the Montmeló Town Council. In September 1991, the 35th Spanish F1 Grand Prix was held following a seventeen-year of absence in Catalonia. Today, the circuit is a familiar site for teams and drivers as the track is used for extensive offseason testing. The circuit underwent resurfacing and track modifications over last year's winter and is a good mix of high- and low-speed corners, with the challenging Turn 3 right-hander a great chance to evaluate the balance of the car.

<b>Circuit length</b>	7.004 km	<b>Number of laps</b>	44

**FORMULA 1 ROLEX BELGIUM GRAND PRIX 2020 - Spa-Francorchamps**

**Circuit Map**

The Circuit de Spa-Francorchamps is legendary among race enthusiasts for its long-standing history and unique setting. It is considered one of the most challenging tracks in the world, mainly due to its fast, hilly and twisty layout within the Ardennes Forest. The size of the track and the nature of Belgian weather means it can sometimes be raining on one part of the track and dry on another, meaning grip can vary from one corner to the next.

**MONZA**

<b>Date</b>	04 - 06 Sep	<b>Race distance</b>	306.720 km
<b>Circuit length</b>	5.793 km	<b>Number of laps</b>	53

Monza has hosted the Italian Grand Prix since the inception of F1. A singular atmosphere with a dedicated following among the Italian "Tifosi", Monza boasts some of the sport's most famous turns, including Curva di Lesmo, and the Curva Parabolica, providing high speed thrills for both drivers and spectators. Last season the Tifosi's could finally see a Ferrari win again at their home race with Charles Leclerc.

Circuit Centreline Length = 5.245km

The Mugello circuit was opened in June 1974 and Ferrari purchased the track, based a 120-km driver away from their headquarters, in 1988. Despite having been a fixture for a number of international series over the years, most notably MotoGP, 2020 marks the first time Mugello hosts a Formula 1 World Championship event. It is a swooping, undulating circuit -set in a valley, the natural topography makes a lap of the 5.2-km track- that the drivers almost universally adore.

Sochi Autodrom circuit is located in the black Sea resort of the same name. Sochi is the first purpose-built Formula One facility in Russia and hosted the country's inaugural Grand Prix in October 2014, in the same year that the city also staged the Winter Olympics. The circuit which runs in a clockwise direction, consists of 12 right- and six left-hand corners, and combines both high-speed and technical sections. The track width varies from 13 meters at its narrowest point to 15 meters at the start-finish line.

**FORMULA 1 ARAMCO GROSSER PREIS DER EIFEL 2020 - Nürburgring**  
 Circuit Map

The big, scary Nordschleife version of the Nürburgring was completed in 1927. But after eventually proving too big and too scary for F1 the more manageable, more modern Grand Prix circuit was built and opened in 1984. The modern circuit utilises the start-finish straight of the old Südschleife track, before the drivers then tackle the tight right-hander at Turn 1 and go on an enjoyable high-speed plunge down to the Dunlop-Kehre hairpin. From there, the track shoots back uphill, with some fantastic high-speed corners leading back to the slow, Hungaroring-esque right-hander that ends the lap.

 Circuit Map

The Autodromo Internacional do Algarve, known more colloquially as Portimao Circuit, is located half an hour outside Portimao at the Algarve. It was opened in autumn of 2008, with construction of the permanent facility completed in just seven months, and at a cost of €195 million. Portimao is a modern venue with elevation change baked into its layout. The Ricardo Pena-designed 4.6-km lap sends drivers swooping up hill and down dale, before culminating in a plunge down to the final right-hander at Galp leading back onto the pit straight. It never hosted a Formula 1 World Championship event before.

Imola had its foundation stone laid in March 1950. It was ready for testing by October 1952, while racing began at the circuit in 1953. The track was first awarded the honour of hosting the Italian Grand Prix in 1980. From 1981, Imola was taking on its famous 'San Marino' title, and going on to host a total of 27 Grand Prix up until 2006.

 Circuit Map

Circuit Centreline Length = 5.338km

The Intercity Istanbul Park in Akfirat, around an hour's drive east of Istanbul, was designed by Hermann Tilke and inaugurated with the Turkish Grand Prix on August 21, 2005. The circuit has been compared over the years to similar features at Spa-Francorchamps, Inerlagos and Laguna Seca. The crown jewel of the circuit, however, remains Turn 8, an incredibly fast, bumpy, multi-apex downhill left-hander that's a proper test of drivers' commitment.

The Bahrain International Circuit has established itself as a popular host for world-class motor sport since its inauguration in 2004. This year, the circuit will be host to two Grand Prix's with the first Grand Prix being the standard GP circuit that has been used since, a track that usually provides great racing and overtaking, and which is crowned by the tight, downhill, off-camber left at Turn 10 and the fast run through Turn 12.

**SAKHIR**

<b>Date</b>	04 -06 December	<b>Race distance</b>	307.995 km
<b>Circuit length</b>	3.543 km	<b>Number of laps</b>	87

Very Excitingly for the 2020 Sakhir GP, drivers will race under the floodlights on the more open Outer circuit, a 3.5km (that is just 0.2km longer than Monaco, the shortest track on the calendar) blast around the perimeter of the track, the cars arcing left instead of right at the exit of Turn 4 and then negotiating a fast right-handed swoop and a chicane, before re-joining the old track for a flat-out run down to the final corner.

## **7. 2020 FIA FORMULA 1 WORLD CHAMPIONSHIP™ - RULES & REGULATIONS**

---

### **NEW RULES IN 2020**

**Evolution, not revolution: that's the name of the game for F1 in 2020 (the revolution's coming in 2020). But despite large swathes of rule stability this season, there have still been some subtle tweaks to the regulations over the winter. Here's what to look out for in 2020.**

#### **TESTING:**

For 2020, pre-season testing has been reduced from eight days of running to six, with the two three-day tests due to take place at Spain's Circuit de Barcelona-Catalunya on February 19-21 and February 26-28.

Mid-season testing is out completely, meanwhile, although that should be less of a problem for the teams this year, given that their cars - likely to be evolutions of their 2019 machines - will be pretty well sorted by mid-season.

There's good news for young drivers, though, with the sporting regulations stipulating that teams *have* to use one of them (that's a driver with two or less Grand Prix starts) in at least one day of the post-season Abu Dhabi tests.

#### **LONGER CURFEW:**

There's good news for mechanics in the 2020 regulations, who'll be able to enjoy a [theoretical] extra hour in bed on the Thursday and Friday of race weekends, thanks to the mandatory curfew - during which time teams' mechanics are forbidden from working on their cars, or even being within the confines of the circuit - being extended from eight hours to nine. Teams are allowed to break the curfew twice in one season without receiving a penalty.

#### **SHARK FINS:**

With a look ahead to a design feature that could be on the 2021 cars, for 2020, teams will all have to create a small plate on the engine cover of their cars - similar to McLaren's early-2019 wedge on the MCL34 - with this 'shark fin' set to house the drivers' numbers, making it easier for fans to distinguish between each team's two machines. There will be very little aerodynamic impact on the cars, mind (except a very mild one during cornering), so don't expect this rule change to decide any championships!

#### **A REAXING OF WEIGHBRIDGE AND JUMP START PENALTIES:**

Stewards have now more discretion and jurisdiction to hand out less strident penalties if they see fit. Jump starts, too, used to incur either a drive-through or a 10-second stop-go penalty. However, the 2020 regulations give stewards the option to dish out less harsh five- and 10-second race time penalties.

#### **NO SCREENS FOR TESTING:**

Traditionally used by teams at testing to keep their shiny new bits under wraps, for 2020 screens at the pre-season tests will be outlawed when the track is live (from 0900 to 1800) to improve the spectacle for fans. Teams will, however, be able to cover up when their car's floor is not fitted, or if their car is being recovered after stopping out on track.

## **7. 2020 FIA FORMULA 1 WORLD CHAMPIONSHIP™ - RULES & REGULATIONS**

---

### **NEW RULES IN 2020**

#### **RESTRICTION ON METAL IN THE FRONT WING:**

No one likes to see a small tag from one car's front wing to another's rear wheel result in a puncture (not least the puncturee...), so to try and limit the risk the rules now dictate that the first 50mm of front wing endplates have to be made purely of carbon fibre. Any metal elements - like fasteners or inserts used to attach the front wing - are only allowed 30mm back from the leading edge of the endplate.

#### **BRAKE DUCTS ARE NOW 'LISTED PARTS':**

The air ducts used to cool the brakes are now categorised as 'Listed Parts', meaning they'll need to be designed by the teams themselves, rather than bought in from another company or team. Other Listed Parts include: the car's bodywork, roll structures, front impact structures and the survival cell.

#### **LESS ELECTRONIC MEDDLING IN THE STARTS:**

2020 will see the drivers given even more control over their starts, with 90% of the engine's torque being controlled directly by the driver's command on their clutch paddle or paddles (which the rules also now stipulate need to be "pull-type" paddles).

Drivers will still have stall prevention and bite point finder functions available to them - but the onus is now even more on them to make sure they get a good getaway.

#### **AN EXTRA MGU-K TO PLAY WITH:**

Drivers can now use three Motor Generator Unit - Kinetic (MGU-Ks) over the course of the season rather than two, bringing the allocation into line with the number of Internal Combustion Engine (ICE), Turbo Charger (TC) and Motor Generator Unit - Heat (MGU-H) elements they're allowed per year. That should mean less penalties in 2020, given that nine out of the 20 drivers exceeded their MGU-K limit in 2019.

Drivers are still only allowed two Energy Stores and two Control Electronics per year.

## 8. SUPPORT RACES

### 8.1 FIA FORMULA 2 CHAMPIONSHIP™

With rebranding the former GP2 Series to the FIA Formula 2 Championship (F2) in 2017 the aim was to create the most competitive single-make championship on the planet. Four years in the 2020 edition of the Championship and successful arrangement with the FIA as F2's regulatory body, the series proves to be the chief feeder series of talent to Formula 1 with Charles Leclerc, George Russell, Lando Norris, Alexander Albon and Nicholas Latifi to name only a few of recent years.

2020 promises to be on par, pairing the best up-and-coming drivers in single-seater motorsport with the competitive and challenging F2 machinery, guaranteeing a championship that is a must-see for fans of real racing. The new campaign will also see the introduction of 18-inch Pirelli tyres a year before F1, proving that F2 is the perfect training ground, not only for drivers, but also for technology and machinery.

Racing on F1 weekends, the series provide the drivers with the inimitable opportunity to showcase their talents in front of F1 teams, competing on some of the most challenging and renowned circuits in the world.

The Championship benefits from the experience of the FIA, who oversee the running of all on-track events, while F1's unparalleled expertise in broadcasting and marketing ensures that the F2 Championship has a truly global reach and appeal.

### F2 2020 CAR SPECIFICATIONS

#### DIMENSIONS

- Overall length: 5224 mm
- Overall width: 1900 mm
- Overall height: 1097 mm (including FOM roll hoop camera)
- Wheelbase: 3135 mm
- Overall weight: 755 kg (driver on-board)

#### ENGINE

- V6 - 3.4 litre single turbo charged Mecachrome engine
- Rated to 620 HP @ 8750 rpm
- Fly by wire accelerator system
- Rebuild after 8000 km
- Maximum Torque 570 Nm @ 6000 rpm

## 8. SUPPORT RACES

---

### 8.1 FIA FORMULA 2 CHAMPIONSHIP™

#### PERFORMANCE

- Acceleration: 0 - 100 km/h, 2.90 sec
- Acceleration: 0 - 200 km/h, 6.60 sec
- Maximum Speed: 335 km/h (Monza zero configuration + DRS)
- Max. braking deceleration -3.5 G
- Max. lateral acceleration +/- 3.9 G

#### SAFETY STANDARDS

- Full FIA 2017 safety standards
- Titanium Halo F1 specifications

#### MONOCOQUE and BODYWORK

- Survival cell - Sandwich Carbon/aluminium honeycomb structure/Zylon anti-intrusion panels made by Dallara
- Front and rear wing - Carbon structures made by Dallara
- Bodywork - Carbon - Kevlar honeycomb structures made by Dallara.

#### DRS

- Same functionality of DRS used in Formula One
- Hydraulic activation

#### GEARBOX

- 6-speed longitudinal Hewland sequential gearbox
- Electro-hydraulic command via paddle shift from steering wheel
- ZF SACHS Carbon clutch
- No on-board starter
- Non hydraulic ramp differential.

#### FUEL CELL

- FIA Standard
- Premier FT5 125 litres

#### ELECTRONIC FEATURES

- Magneti Marelli Marvel SRG 480 ECU/GCU including data logging system
- Magneti Marelli PDU 12-42 power supply management unit
- CAN data acquisition pre-equipment
- Beacon receiver
- F1 type VSC & Marshalling system.

## 8. SUPPORT RACES

---

### 8.1 FIA FORMULA 2 CHAMPIONSHIP™

#### SUSPENSION

- Double steel wishbones, pushrod operated, twin dampers and torsion bars suspension (F) and spring suspension (R)
- Adjustable ride height, camber and toe
- Two way (F) / Four way (R) adjustable Koni dampers
- Adjustable anti-roll bar (Front/Rear).

#### BRAKES

- 6 pistons monobloc Brembo callipers
- Carbone Industry carbon-carbon brake discs and pads.

#### WHEELS AND TYRES

- New 18 inches rims introduced in 2020
- O.Z. Racing magnesium rims
- 18" x 12" front wheel dimension
- 18" x 13.7" rear wheel dimension
- F2 specific Pirelli slick / wet tyres
- TPMS (Tyre Pressure Monitoring System).

#### STEERING SYSTEM

- Non-assisted rack and pinion steering system
- XAP steering wheel with dashboard, gear change, clutch and DRS paddles, marshalling & VSC display.

#### CAMERA EQUIPMENT

- Roll hoop, nose cone and face shot camera pre-equipment.

#### DRS

- The drivers are able to use the Drag Reduction System (DRS) as they wish within the designated DRS zones during free practice and qualifying. During both races however, the drivers will only be allowed to activate DRS within the designated zones when they are within less than a second of the car in front at the detection point.
- During the race, the DRS is available for use after two laps unless decided otherwise by the race director due to poor weather conditions or yellow flags in the designated DRS zones.
- The DRS zones will be the same as the ones used in Formula One on every circuit of the calendar.
- The same safety rules apply: DRS is disabled at the end of the designated zones, and the first time driver uses the brakes after activation.

## 8. SUPPORT RACES

### 8.1 FIA FORMULA 2 CHAMPIONSHIP™

#### CALENDAR

03 - 05 Jul	Spielberg	Austria
10 - 12 Jul	Spielberg	Austria
17 - 19 Jul	Budapest	Hungary
31 Jul - 02 Aug	Silverstone	Great Britain
07 - 09 Aug	Silverstone	Great Britain
14 - 16 Aug	Barcelona	Spain
28 - 30 Aug	Spa-Francorchamps	Belgium
04 - 06 Sep	Monza	Italy
11 -13 Sep	Mugello	Italy
25 - 27 Nov	Sakhir	Bahrain
04 - 06 Dec	Sakhir	Bahrain

#### WEEKEND FORMAT & POINTS ALLOCATION

A race weekend is composed of one forty-five minutes practice session and one-half hour qualifying session, followed by two races.

The qualifying session is a straight fight for fastest lap time and determines the order of the grid for Race 1. **Four points** are awarded for pole position.

**Race 1** is run over 170km or 60 minutes (except for Monaco where the race is run over 140km and in Budapest where the race is run over 160km), and each driver must complete one compulsory pit stop and must use at least one set of each specification of dry-weather tyres.

The **top ten drivers** score points (25, 18, 15, 12, 10, 8, 6, 4, 2, 1) with two points being awarded to the driver who set the fastest lap of the race.

The grid for Race 2 (Sprint Race) is determined by the finishing order of the first race, with the top 8 positions reversed. Race 2 is run over 120km or 45 minutes (except for Monaco where the race is run over 100km).

The **top eight finishers** score points (15, 12, 10, 8, 6, 4, 2, 1) and the driver who sets the fastest lap scores **two points**.

Any driver who is not classified in the top ten positions at the end of the race or, didn't start the race from his normal grid position will not be eligible for points awarded for fastest lap.

### 8.2 PORSCHE SPRINT CHALLENGE MIDDLE EAST

The Porsche Sprint Challenge Middle East is well established as the proven path for regional drivers to accelerate their careers on-to the biggest stages of racing through intense competition with global motorsport professionals.

Launched in 2009, the championship returns for a landmark eleventh season, featuring the region's leading drivers, all competing in the powerful and dynamic Porsche 911 GT3 Cup cars on the world-class Middle Eastern circuits in the United Arab Emirates, Bahrain and Saudi Arabia.

The Porsche Sprint Challenge Middle East is based on the highly successful Porsche formula for one-make series racing. The championship was created to give the region's home-grown driving talent an opportunity to realize their racing potential while enhancing personal circuit experience.

It has become popular for drivers and fans alike, featuring real racing and genuine rivalries on the track.

Having produced a number of local racing heroes and stunning driver performances over ten seasons, the eleventh edition of the championship is set to be better than ever. Participants compete against each other and in teams over 14 exciting rounds across five action-packed race weekends between December 2019 and March 2020.

**Points Allocation-** All drivers of the individual rounds are considered for the ranking at the end of the season. Drivers are awarded points according to the following scale:

<b>1<sup>st</sup></b>	<b>25 pts</b>	<b>5<sup>th</sup></b>	<b>17 pts</b>	<b>9<sup>th</sup></b>	<b>12 pts</b>	<b>13<sup>th</sup></b>	<b>8 pts</b>	<b>17<sup>th</sup></b>	<b>4 pts</b>

## 8. SUPPORT RACES

---

### 8.2 PORSCHE SPRINT CHALLENGE MIDDLE EAST - THE CAR

**CONCEPT** - Single-seater production-based race car (base model: 911 GT3)

#### ENGINE

- Aluminium six-cylinder horizontally opposed engine, rear-mounted
- Max. power: 357 kW (485 hp) at 7,500 rpm
- Max. torque 480 Nm at 6,250 rpm

#### TRANSMISSION

- Porsche six-speed sequential dog-type transmission
- Internal pressure-oil lubrication with active oil cooling by oil-water heat exchanger
- Mechanical differential lock
- Triple-disc sintered metal racing clutch
- Pneumatic gearshift activation (paddle shift)

#### BODYSHELL

- Intelligent lightweight construction in aluminium and steel composite
- Weld-in roll cage, certified compliance with FIA homologation regulations for safety cages
- Pickup point for lifting device
- Enlarged rear wheel arches
- Removable roof section in compliance with the latest FIA safety regulations
- Modified and widened 911 GT3 wings and front apron with spoiler lip
- Modified 911 GT3 rear apron with integral rain light in compliance with FIA homologation regulations
- Carbon-fibre reinforced plastic doors with SportDesign mirrors; Carbon-fibre reinforced plastic rear lid with quick-release catches; Carbon-fibre reinforced plastic adjustable rear wing (nine positions); Polycarbonate rear side windows with air outlets; Polycarbonate rear screen

#### MODIFIED 911 COCKPIT

- Weight-optimised magnesium subframe
- Ergonomic driver-oriented centre console
- Control switch trim with fluorescent lettering
- Steering wheel with quick-release coupling, control panel and shift paddles
- Adjustable steering column with steering angle sensor

## 8. SUPPORT RACES

### 8.2 PORSCHE SPRINT CHALLENGE MIDDLE EAST - THE CAR

#### CHASSIS

- Optimized stiffness; double-shear track rod connection; Heavy-duty spherical bearings
- Wheel hubs with central locking device
- Racing shock absorbers, non-adjustable
- Double-blade-type adjustable anti-roll bars
- Tyre pressure monitoring system

**FRONT AXLE-** MCPerson suspension strut, adjustable for height, camber and toe; Forged and adjustable top mounts; Electrohydraulic power steering with external control function for easy car maneuvering

**REAR AXLE-** Multi-link rear suspension, adjustable for height, camber and toe; Forged top mounts

#### BRAKE SYSTEM

- Two independent brake circuits with brake pressure sensors for front and rear axle
- adjustable by the driver via brake balance system

**FRONT AXLE-** Six-piston aluminium monobloc racing brake calipers with 'anti-knock back' piston springs

**REAR AXLE-** Four-piston aluminium monobloc racing brake calipers with 'anti-knock back' piston springs

#### WHEELS / TYRES

**FRONT AXLE-** Single-piece centre-lock alloy wheels conforming to Porsche specification and design, 10.5 J x 18 ET 28; Treaded Michelin transportation tyres; tyre size: 27/ 65-18

**REAR AXLE-** Single-piece centre-lock alloy wheels conforming to Porsche specification and design, 12 J x 18 ET 53; Treaded Michelin transportation tyres; tyre size: 31/ 71-18/ 65-18

#### ELECTRICS

- COSWORTH colour display ICD with integrated fault diagnostics
- COSWORTH electrical system control unit IPS32
- Electronic throttle
- Fire extinguishing system
- Battery 12 V, 70Ah (AGM), leakproof, in co-driver's footwell
- 175 A alternator

## **8. SUPPORT RACES**
