†Distribution by office issuing document, free if unaccompanied by a price.

‡Printed for official use.

NOTE.—Nearly all of the departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D.C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents in single
 copies. These are not enumerated in this catalog, but may be obtained for 10c. each at
 the Patent Office.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790
 to date, are published at prices ranging from 25c. to \$10.00 per volume, and those in stock
 may be obtained from the Superintendent of Documents, Washington, D.C. The Rules of
 practice and pamphlets containing Patent laws, General information concerning patents,
 and General information about protection of trade-marks, prints, and labels are furnished
 free of charge upon application to the Patent Office. The Patent Office issues coupon
 orders in packages of 20 at \$2.00 per package, or in books containing 100 coupons at \$10.00
 per book. These coupons are good until used, but are only to be used for orders sent to
 the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office,
 Washington, D.C.

FARM CREDIT ADMINISTRATION

NOTE.—Under an Executive order promulgated by the President, Mar. 27, 1933, which order became effective May 27, the following existing agencies of the Federal Government, having to do solely with farm credits, were consolidated into a single agency to be known as the Farm Credit Administration: 1, Federal Farm Board; 2, Federal Farm Loan Bureau; 3, that portion of the functions of the Reconstruction Finance Corporation which has to do with the management of the 12 regional agricultural credit corporations and their branches; 4, Crop Production Loan Office and Seed Loan Office of the Agriculture Department. The chairman of the Federal Farm Board was continued in office as Governor of the Farm Credit Administration, and the Land Bank Commissioner, a member of the Federal Farm Loan Board (which was the executive head of the Federal Farm Loan Bureau), was continued in office subject to the jurisdiction of the Governor of the Farm Credit Administration.

Sec. 40 of H.R. 3835, 73d Congress (Public 10, approved May 12, 1933), provides for the perfecting of the organization.

NOTE.—In 1883 the Department of the Interior began publication of the important decisions of the Land Department with the view to preserving in authentic manner and in permanent form, convenient for reference, a line of consistent precedents in departmental rulings illustrating the land laws of United States. As originally conceived, the publication entitled *Decisions* of Department of Interior relating to public lands, and thereafter referred to as *Land decisions*, pertained almost exclusively to matters coming under jurisdiction of the General Land Office. On July 7, 1930, the Secretary issued an order amending the title so as to read *Decisions* of Department of Interior, and directing that thereafter leading decisions and important opinions relating to all activities of the department be published in future volumes.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding, approximately, to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16 $\frac{1}{2}$ inches, and the maps of the quadrangle areas represented thereon are about 17 $\frac{1}{2}$ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 46 percent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each, but a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone, or for maps and folios together.

Dunlap.—Measuring changes in cost of living of Federal employees living in Washington; by Faith M. Williams.—Average wage and salary payments in manufactures in Ohio, 1916-32; by Fred C. Croxton and Frederick E. Croxton.

NOTE.—The Monthly labor review is the medium through which the bureau publishes its regular monthly reports on such subjects as prices, wages, industrial disputes, and employment conditions, as also the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal and State court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws, and to organizations exchanging publications with the Bureau of Labor Statistics. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D.C., at the prices stated above.

NATIONAL RECOVERY ADMINISTRATION

NOTE.—The National Recovery Administration was established under the provisions of title 1 of H.R. 5755, 73d Congress (Public 67, approved June 16, 1933), an act to encourage national industrial recovery, to foster fair competition, etc. This Administration is also known as the Industrial Recovery Administration, the National Industrial Recovery Administration, and the N.R.A., and the act under which it was established, as the N.I.R.A.

By Executive order of June 16, 1933, in order to effectuate the policy set forth in title 1 of the act, the President appointed an Administrator of Industrial Recovery and a Special Industrial Recovery Board.

Codes of fair competition.

NOTE.—The codes for the following industries (except those designated as approved) merely reflect the proposals of the industries, and none of the provisions contained therein are to be regarded as having received the approval of the National Recovery Administration as applying to those industries.

The National Recovery Administration recently adopted the plan of issuing the approved codes in a form in which they could be gathered together into volumes. Approved codes nos. 1 to 57 have been assigned to volume 1, nos. 58 to 110 to volume 2, etc. Under this system certain of the approved codes for which entries had already appeared in the Monthly catalog were reissued, carrying the paging of the volume to which they had been assigned, and showing slight differences in their general make-up. The text of the codes, however, was not changed from the form in which originally approved.

The library classification scheme for the approved codes, including supplements and amendments, has been changed to show the approved code number instead of the registry number. Under this new system an approved code formerly classified as Y 3.N 21/8:7 ap.282-01 (the latter part representing the registry number) would now be classified as Y 3.N 21/8:7 ap.213 (the latter part representing the approved code number). The change was effected in the interests of simplification and due to complications caused by subdivisions of certain of the major industries. The classification scheme for the proposed codes is not affected.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has prepared maps showing the rural free delivery routes. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, and sold at 75 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A scale of 1 inch to 1 mile is generally used. The rural-delivery county maps are printed from the latest negatives. It is impracticable for the department to keep maps corrected to date at all times. Editions are not issued, but blue print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D.C. These maps should not be confused with the post route maps, for which see Monthly catalog for February 1934, page 734.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries, and individuals

throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no general mailing-list of individuals. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress." Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.
